## LIQUID CRYSTAL TELEVISION

### ENGLISH

## OPERATION MANUAL

#### IMPORTANT:

To aid reporting in case of loss or theft, please record the TV's model and serial numbers in the space provided. The numbers are located at the rear of the TV.

Model No.:

Serial No.:

## IMPORTANT INFORMATION

**WARNING:** TO REDUCE THE RISK OF FIRE OR ELECTRIC SHOCK, DO NOT EXPOSE THIS PRODUCT TO RAIN OR MOISTURE.

#### CAUTION

RISK OF ELECTRIC SHOCK  
DO NOT OPEN

CAUTION: TO REDUCE THE RISK OF ELECTRIC SHOCK,  
DO NOT REMOVE COVER (OR BACK).  
NO USER-SERVICEABLE PARTS INSIDE.  
REFER SERVICING TO QUALIFIED SERVICE  
PERSONNEL.

The lightning flash with arrow-head symbol, within an equilateral triangle, is intended to alert the user to the presence of uninsulated "dangerous voltage" within the product's enclosure that may be of sufficient magnitude to constitute a risk of electric shock to persons.

The exclamation point within a triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the product.

**CAUTION:** TO PREVENT ELECTRIC SHOCK, MATCH WIDE BLADE OF PLUG TO WIDE SLOT, FULLY INSERT.

**WARNING:** FCC Regulations state that any unauthorized changes or modifications to this equipment not expressly approved by the manufacturer could void the user's authority to operate this equipment.

# IMPORTANT INFORMATION

## CAUTION:

This product satisfies FCC regulations when shielded cables and connectors are used to connect the unit to other equipment. To prevent electromagnetic interference with electric appliances such as radios and televisions, use shielded cables and connectors for connections.

## DECLARATION OF CONFORMITY:

SHARP LIQUID CRYSTAL TELEVISION, MODEL LC-50LE650U

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

### RESPONSIBLE PARTY:

SHARP ELECTRONICS CORPORATION  
Sharp Plaza, Mahwah, New Jersey 07495-1163  
TEL: 1-800-BE-SHARP

For Business Customers: URL <http://www.sharpusa.com>

## INFORMATION:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

## FCC Compliance Statement

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

### Wireless Radio

For product available in the USA/Canada market, only channel 1–11 can be operated. Selection of other channels is not possible. This device is going to be operated in 5.15–5.25GHz frequency range, it is restricted in indoor environment only.

**Important:** Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

**FCC Radiation Exposure Statement:** This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.

## Industry Canada Statement

This Class B digital apparatus complies with Canadian ICES-003.

Cet appareil numérique de la classe B est conforme à la norme NMB-003 du Canada.

### Wireless Radio

For product available in the USA/Canada market, only channel 1–11 can be operated. Selection of other channels is not possible. The device could automatically discontinue transmission in case of absence of information to transmit, or operational failure.

Note that this is not intended to prohibit transmission of control or signaling information or the use of repetitive codes where required by the technology.

**Important:** Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

**IC Radiation Exposure Statement:** This equipment complies with IC RSS-102 radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20 cm between the radiator & your body.

"Note to CATV system installer: This reminder is provided to call the CATV system installer's attention to Article 820 of the National Electrical Code that provides guidelines for proper grounding and, in particular, specifies that the cable ground shall be connected to the grounding system of the building, as close to the point of cable entry as practical."

This product qualifies for ENERGY STAR when "Home" is selected for "TV Location".

Setting "TV Location" to "Home" allows the TV to achieve an energy-saving status for household use.

# DEAR SHARP CUSTOMER

Thank you for your purchase of the Sharp Liquid Crystal Television. To ensure safety and many years of trouble-free operation of your product, please read the Important Safety Instructions carefully before using this product.

## IMPORTANT SAFETY INSTRUCTIONS

- 1) Read these instructions.
- 2) Keep these instructions.
- 3) Heed all warnings.
- 4) Follow all instructions.
- 5) Do not use this apparatus near water.
- 6) Clean only with dry cloth.
- 7) Do not block any ventilation openings. Install in accordance with the manufacturer's instructions.
- 8) Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat.
- 9) Protect the power cord from being walked on or pinched particularly at plugs, convenience receptacles, and the point where they exit from the apparatus.
- 10) Only use attachments/accessories specified by the manufacturer.
- 11) Use only with the cart, stand, tripod, bracket, or table specified by the manufacturer, or sold with the apparatus. When a cart is used, use caution when moving the cart/apparatus combination to avoid injury from tip-over.
- 12) **WARNING:** Unplug this apparatus during lightning storms or when unused for long periods of time.
- 13) Refer all servicing to qualified service personnel. Servicing is required when the apparatus has been damaged in any way, such as power-supply cord or plug is damaged, liquid has been spilled or objects have fallen into the apparatus, the apparatus has been exposed to rain or moisture, does not operate normally, or has been dropped.
- 14) **WARNING:** To reduce the risk of fire or electric shock, do not expose this apparatus to rain or moisture.
- 15) Where the MAINS plug or an appliance coupler is used as the disconnect device, the disconnect device shall remain readily operable.
- 16) The apparatus shall not be exposed to dripping or splashing and that no objects filled with liquids, such as vases, shall be placed on the apparatus.

### Additional Safety Information

- 17) **Power Sources**—This product should be operated only from the type of power source indicated on the marking label. If you are not sure of the type of power supply to your home, consult your product dealer or local power company. For products intended to operate from battery power, or other sources, refer to the operating instructions.
- 18) **Overloading**—Do not overload wall outlets, extension cords, or integral convenience receptacles as this can result in a risk of fire or electric shock.
- 19) **Object and Liquid Entry**—Never push objects of any kind into this product through openings as they may touch dangerous voltage points or short-out parts that could result in a fire or electric shock. Never spill liquid of any kind on the product.
- 20) **Damage Requiring Service**—Unplug this product from the wall outlet and refer servicing to qualified service personnel under the following conditions:
  - a) When the AC cord or plug is damaged,
  - b) If liquid has been spilled, or objects have fallen into the product,
  - c) If the product has been exposed to rain or water,
  - d) If the product does not operate normally by following the operating instructions.  
Adjust only those controls that are covered by the operating instructions as an improper adjustment of other controls may result in damage and will often require extensive work by a qualified technician to restore the product to its normal operation,
  - e) If the product has been dropped or damaged in any way, and
  - f) When the product exhibits a distinct change in performance - this indicates a need for service.
- 21) **Replacement Parts**—When replacement parts are required, be sure the service technician has used replacement parts specified by the manufacturer or have the same characteristics as the original part. Unauthorized substitutions may result in fire, electric shock, or other hazards.
- 22) **Safety Check**—Upon completion of any service or repairs to this product, ask the service technician to perform safety checks to determine that the product is in proper operating condition.
- 23) **Wall or ceiling mounting**—Use a wall mount bracket that has been listed by an independent laboratory (such as UL, CSA, ETL).

# IMPORTANT SAFETY INSTRUCTIONS

- **Outdoor Antenna Grounding** — If an outside antenna is connected to the television equipment, be sure the antenna system is grounded so as to provide some protection against voltage surges and built-up static charges. Article 810 of the National Electrical Code, ANSI/NFPA 70, provides information with regard to proper grounding of the mast and supporting structure, grounding of the lead-in wire to an antenna discharge unit, size of grounding conductors, location of antenna-discharge unit, connection to grounding electrodes, and requirements for the grounding electrode.

EXAMPLE OF ANTENNA GROUNDING AS PER NATIONAL ELECTRICAL CODE, ANSI/NFPA 70

NEC — NATIONAL ELECTRICAL CODE

- **Water and Moisture** — Do not use this product near water - for example, near a bath tub, wash bowl, kitchen sink, or laundry tub; in a wet basement; or near a swimming pool; and the like.
- **Stand** — Do not place the product on an unstable cart, stand, tripod or table. Placing the product on an unstable base can cause the product to fall, resulting in serious personal injuries as well as damage to the product. Use only a cart, stand, tripod, bracket or table recommended by the manufacturer or sold with the product. When mounting the product on a wall, be sure to follow the manufacturer's instructions. Use only the mounting hardware recommended by the manufacturer.
- **Selecting the location** — Select a place with no direct sunlight and good ventilation.
- **Ventilation** — The vents and other openings in the cabinet are designed for ventilation. Do not cover or block these vents and openings since insufficient ventilation can cause overheating and/or shorten the life of the product. Do not place the product on a bed, sofa, rug or other similar surface, since they can block ventilation openings. This product is not designed for built-in installation; do not place the product in an enclosed place such as a bookcase or rack, unless proper ventilation is provided or the manufacturer's instructions are followed.
- The front panel used in this product is made of glass. Therefore, it can break when the product is dropped or applied with impact. Be careful not to be injured by broken glass pieces in case the panel breaks.
- **Heat** — The product should be situated away from heat sources such as radiators, heat registers, stoves, or other products (including amplifiers) that produce heat.
- The Liquid Crystal panel is a very high technology product with 2,073,600 pixels, giving you fine picture details. Occasionally, a few non-active pixels may appear on the screen as a fixed point of blue, green or red. Please note that this does not affect the performance of your product.
- **Lightning** — For added protection for this television equipment during a lightning storm, or when it is left unattended and unused for long periods of time, unplug it from the wall outlet and disconnect the antenna. This will prevent damage to the equipment due to lightning and power-line surges.
- **Power Lines** — An outside antenna system should not be located in the vicinity of overhead power lines or other electric light or power circuits, or where it can fall into such power lines or circuits. When installing an outside antenna system, extreme care should be taken to keep from touching such power lines or circuits as contact with them might be fatal.
- To prevent fire, never place any type of candle or flames on the top or near the TV set.
- To prevent fire or shock hazard, do not place the AC cord under the TV set or other heavy items.
- Do not display a still picture for a long time, as this could cause an afterimage to remain.
- To prevent fire or shock hazard, do not expose this product to dripping or splashing. No objects filled with liquids, such as vases, should be placed on the product.
- Do not insert foreign objects into the product. Inserting objects in the air vents or other openings may result in fire or electric shock. Exercise special caution when using the product around children.

## Precautions when transporting the TV

- When transporting the TV, never carry it by holding or otherwise putting pressure onto the display. Be sure to always carry the TV by two people holding it with two hands — one hand on each side of the TV.

## Caring for the cabinet

- Use a soft cloth (cotton, flannel, etc.) and gently wipe the surface of the cabinet.
  - Using a chemical cloth (wet/dry sheet type cloth, etc.) may deform the components of the main unit cabinet or cause cracking.
  - Wiping with a hard cloth or using strong force may scratch the surface of the cabinet.
  - If the cabinet is very dirty, wipe with a soft cloth (cotton, flannel, etc.) soaked in neutral detergent diluted with water and thoroughly wrung out, and then wipe with a soft dry cloth.
  - Avoid using benzene, thinner, and other solvents, as these may deform the cabinet and cause the paint to peel off.
  - Do not apply insecticides or other volatile liquids.
- Also, do not allow the cabinet to remain in contact with rubber or vinyl products for a long period of time. Plasticizers inside the plastic may cause the cabinet to deform and cause the paint to peel off.

# IMPORTANT SAFETY INSTRUCTIONS

## Caring for the front panel

- Turn off the main power and unplug the AC cord from the wall outlet before handling.
- Gently wipe the surface of the front panel with a soft cloth (cotton, flannel, etc.).  
To protect the front panel, do not use a dirty cloth, liquid cleaners, or a chemical cloth (wet/dry sheet type cloth, etc.). This may damage the surface of the front panel.
- Wiping with a hard cloth or using strong force may scratch the surface of the front panel.
- Use a soft damp cloth to gently wipe the front panel when it is really dirty.  
(It may scratch the surface of the front panel when wiped strongly.)
- If the front panel is dusty, use an anti-static brush, which is commercially available, to clean it.
- To avoid scratching the frame or screen, please use a soft, lint free cloth for cleaning. Approved cleaning cloths are available directly from Sharp in single (00Z-LCD-CLOTH) or triple (00Z-LCD-CLOTH-3) packs. Call 1-800-BE-SHARP for ordering, or VISIT <http://www.sharppusa.com/SharpDirect>.

## CHILD SAFETY: PROPER TELEVISION PLACEMENT MATTERS

### THE CONSUMER ELECTRONICS INDUSTRY CARES

- Manufacturers, retailers and the rest of the consumer electronics industry are committed to making home entertainment safe and enjoyable.
- As you enjoy your television, please note that all televisions – new and old- must be supported on proper stands or installed according to the manufacturer's recommendations. Televisions that are inappropriately situated on dressers, bookcases, shelves, desks, speakers, chests, carts, etc., may fall over, resulting in injury.

### TUNE IN TO SAFETY

- **ALWAYS** follow the manufacturer's recommendations for the safe installation of your television.
- **ALWAYS** read and follow all instructions for proper use of your television.
- **NEVER** allow children to climb on or play on the television or the furniture on which the television is placed.
- **NEVER** place the television on furniture that can easily be used as steps, such as a chest of drawers.
- **ALWAYS** install the television where it cannot be pushed, pulled over or knocked down.
- **ALWAYS** route cords and cables connected to the television so that they cannot be tripped over, pulled or grabbed.

### WALL OR CEILING MOUNT YOUR TELEVISION

- **ALWAYS** contact your retailer about professional installation if you have any doubts about your ability to safely mount your television.
- **ALWAYS** use a mount that has been recommended by the television manufacturer and has a safety certification by an independent laboratory (such as UL, CSA, ETL).
- **ALWAYS** follow all instructions supplied by the television and mount manufacturers.
- **ALWAYS** make sure that the wall or ceiling where you are mounting the television is appropriate.  
Some mounts are not designed to be mounted to walls and ceilings with steel studs or cinder block construction. If you are unsure, contact a professional installer.
- Televisions can be heavy. A minimum of two people is required for a wall or ceiling mount installation.

### MOVING AN OLDER TELEVISION TO A NEW PLACE IN YOUR HOME

- Many new television buyers move their older CRT televisions into a secondary room after the purchase of a flat-panel television. Special care should be made in the placement of older CRT televisions.
- **ALWAYS** place your older CRT television on furniture that is sturdy and appropriate for its size and weight.
- **NEVER** place your older CRT television on a dresser where children may be tempted to use the drawers to climb.
- **ALWAYS** make sure your older CRT television does not hang over the edge of your furniture.

<b>Dimensional Drawings</b>	
• The dimensional drawings for the LCD TV set are shown on the inside back cover.	

• The illustrations and on-screen displays in this operation manual are for explanation purposes and may vary slightly from the actual operations.

# Supplied Accessories

Make sure the following accessories are provided with the product.

## NOTE

- Always use the AC cord supplied with the TV.
- The illustrations above are for explanation purposes and may vary slightly from the actual accessories.

# QUICK REFERENCE

## Attaching/Detaching the Stand

- Before attaching (or detaching) the stand, unplug the AC cord.
- Before performing work spread cushioning over the base area to lay the TV on. This will prevent it from being damaged.

## CAUTION

- **Attach the stand in the correct direction.**
- **Be sure to follow the instructions. Incorrect installation of the stand may result in the TV falling over.**

1. Put the TV face down on a safe surface that is covered by a soft and smooth cloth.
2. Adjust the TV stand to the bottom of the TV.
3. Fasten the screws by using a cross-head screwdriver (Not supplied).

## CAUTION

- Do not push too hard or put excessive pressure to the stand neck to avoid the damages when you turn the TV for the most comfortable viewing angle.
- When you are going to assemble or disassemble it, you need to take hold of it tightly in case of drop.

## NOTE

- To detach the stand, perform the steps in reverse order.

**QUICK REFERENCE**

**QUICK INSTALLATION TIPS**

- 1 Attach your antenna to the back of the television.  
(See page 9.)
- 2 Connect the AC plug for the television into the AC outlet.

- Place the TV close to the AC outlet, and keep the power plug within reach.

**NOTE**

- **TO PREVENT RISK OF ELECTRIC SHOCK, DO NOT TOUCH UN-INSULATED PARTS OF ANY CABLES WITH THE AC CORD CONNECTED.**

- 3 When turning on the TV for the first time, press **POWER** on the television.

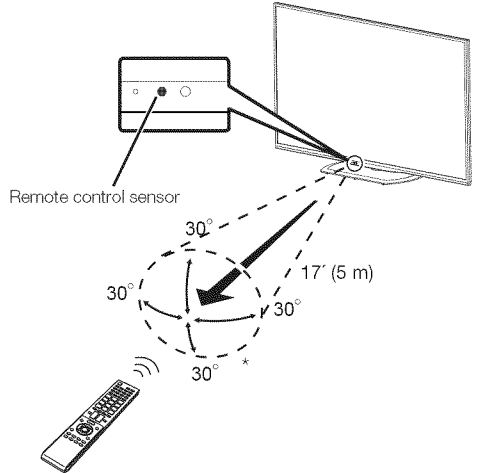

- 4 Insert the batteries into the remote control unit. (See page 9.)

**NOTE**

- Speakers cannot be detached from the TV.
- The TV angle cannot be adjusted.

**Using the Remote Control Unit**

Use the remote control unit by pointing it towards the remote control sensor on the TV. Objects between the remote control unit and the remote control sensor may prevent proper operation.

\* The angle is 8° when the stand is attached.

**■ Cautions regarding the remote control unit**

- Do not expose the remote control unit to shock. In addition, do not expose the remote control unit to liquids, and do not place in an area with high humidity.
- Do not install or place the remote control unit under direct sunlight. The heat may cause deformation of the remote control unit.
- The remote control unit may not work properly if the remote control sensor on the TV is under direct sunlight or strong lighting. In such cases, change the angle of the lighting or the TV, or operate the remote control unit closer to the remote control sensor.

**IMPORTANT:**

IF THE UNIT DOES NOT POWER ON - UNPLUG THE TELEVISION FROM THE OUTLET AND REPEAT THE INSTALLATION STEPS.

IF YOU STILL ENCOUNTER NO POWER, PLEASE CONTACT US AT 1-800-BE-SHARP.

# Preparation

## Antennas

To enjoy a clearer picture, use an outdoor antenna. The following is a brief explanation of the types of connections that are used for a coaxial cable. If your outdoor antenna uses a 75-ohm coaxial cable with an F-type connector, plug it into the antenna terminal at the rear of the TV set. For connecting the antenna cable to the TV, use commercially available cables.

### Connecting Antenna Cable

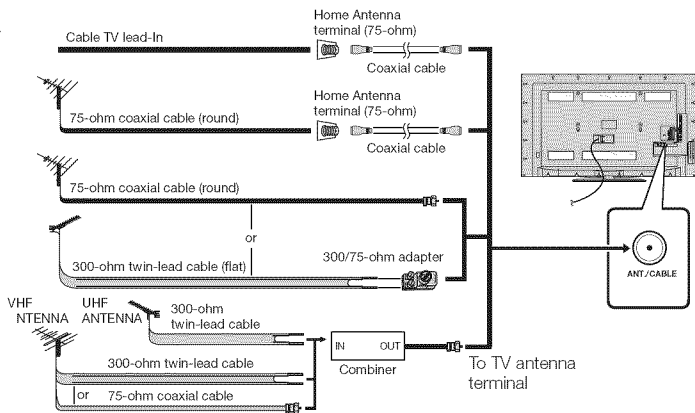

• Connect the antenna cable to the TV using one of the methods in the illustration as shown (①, ②, ③ or ④).

① Cable without a CATV converter

② VHF/UHF antenna

③ Combination VHF/UHF antenna

④ Separate VHF/UHF antenna

1. A 75-ohm system is generally a round cable with F-type connector that can easily be attached to a terminal without tools.

2. A 300-ohm system is a flat "twin-lead" cable that can be attached to a 75-ohm terminal through a 300/75-ohm adapter.

### NOTICE F-type connector should be finger-tightened only.

When connecting the RF cable to the TV set, do not tighten F-type connector with tools.

If tools are used, it may cause damage to your TV set. (The breaking of internal circuit, etc.)

## Installing Batteries in the Remote Control Unit

If the remote control fails to operate TV functions, replace the batteries in the remote control unit.

1 Open the battery cover.

2 Insert two "AAA" size batteries (supplied with the product).

3 Close the battery cover.

• Place the batteries with their terminals corresponding to the (+) and (-) indications in the battery compartment.

### CAUTION

Improper use of batteries can result in chemical leakage or explosion. Be sure to follow the instructions below.

- Do not mix batteries of different types. Different types of batteries have different characteristics.
- Do not mix old and new batteries. Mixing old and new batteries can shorten the life of new batteries or cause chemical leakage in old batteries.
- Remove batteries as soon as they are worn out. Chemicals that leak from batteries that come in contact with skin can cause a rash. If you find any chemical leakage, wipe thoroughly with a cloth.
- The batteries supplied with this product may have a shorter life expectancy due to storage conditions.
- If you will not be using the remote control unit for an extended period of time, remove batteries from it.

# Part Names

## TV (Front)

\* OPC: Optical Picture Control ( See page 25.)

## TV (Rear/Side)

\*1 See pages 13 to 16 and 43 for external equipment connection.

\*2 See pages 17 and 23 for button operations.

Remote Control Unit

NOTE

• When using the remote control unit, point it at the TV.

1 **POWER:** Switch the TV power on or enter standby. (See page 17.)

2 **TV, STB, DVD•VCR, AUDIO:** Switches the remote control for TV, STB, DVD, BD, VCR and AUDIO operation. (See pages 41 to 42 for details.)

\* To enter the code registration mode, you need to press an appropriate button (**STB, DVD•VCR** or **AUDIO**) and **DISPLAY** at the same time.

3 **External equipment operational buttons:** Operate the external equipment.

4 **OPTION:** Display the Link Operation Menu screen. This button will function only when AQUOS LINK is used. (See pages 43 to 46 for details.)

5 **SLEEP:** Set the sleep timer. (See page 19.)

6 **0-9:** Set the channel. (See page 19.)

7 **• (DOT):** (See pages 19.)

8 **CC:** Display captions from a closed-caption source. (See page 20.)

9 **AV MODE:** Select an audio or video setting. (See pages 21 and 25.)

10 **MUTE:** Mute the sound. (See page 19.)

11 **VOL +/-:** Set the volume. (See page 19.)

12 **MENU:** Display the menu screen. (See page 23.)

13 **USB:** Direct switch USB source.. (See page 35.)

14 **▲/▼/◀/▶, ENTER:** Select a desired item on the screen.

15 **EXIT:** Turn off the menu screen.

16 **FAVORITE CH:** Set the favorite channels. (See page 29.)

17 **A, B, C, D:** Select 4 preset favorite channels in 4 different categories. (See page 29.)

While watching, you can toggle the selected channels by pressing **A, B, C** and **D**. The every key of the favorite can select the many channels.

18 **DISPLAY:** Display the channel information.

19 **POWER (SOURCE):** Turns the power of the external equipment on and off.

20 **FREEZE** Set the still image. Press again to return to normal screen. (See page 20.)

21 **AUDIO:** Display the MTS/SAP setting menu. (See page 19.)

22 **ENT:** Jumps to a channel after selecting with the **0-9** buttons.

23 **FLASHBACK:** Return to the previous channel or external input mode. (See page 20.)

24 **VIEW MODE:** Select the screen size. (See pages 21, 22 and 47.)

25 **INPUT:** Select a TV input source. (TV, HDMI1, HDMI2, HDMI3, HDMI4, COMPONENT/AV, PC IN, Home Network (DLNA), USB) (See pages 12 and 20.)

26 **CH▲/▼:** Select the channel. (See page 19.)

27 **Smart Central:** Display the Smart Central window (See page 20.)

28 **RETURN:** Return to the previous menu screen.

29 **NETFLIX:** NETFLIX HOT KEY.

30 **FAV APP 1, 2, 3:** You can assign your favorite applications to these buttons. (See page 29.)

# Introduction to Connections

## Experiencing HD Images

An HDTV without an HD source is just an ordinary TV.

To enjoy HD images on the TV, you should get HD programming from the following:

- Over-the-air broadcasting via HD quality antenna
- HD cable/satellite subscription
- HD compatible external equipment

### NOTE

- For information on updating to HD programming, ask your cable/satellite service provider.

## Types of Connection

Image quality differs depending on the terminal used. To enjoy clearer images, check the output terminals of your external equipment and use its appropriate terminals for higher quality images.

For connecting the TV to external equipment, use commercially available cables.

- The illustrations of the terminals are for explanation purposes and may vary slightly from the actual products.

Image Quality	Terminal on external equipment	Cable	Terminal on the TV	
	 HDMI	HDMI-certified cable	INPUT 1, 2, 3, 4  HDMI	➔ Page 13
	 AUDIO  DVI OUT	Ø 3.5 mm stereo mini jack cable DVI-HDMI conversion cable	INPUT 1, 2, 3, 4  HDMI	➔ Page 13
	 COMPONENT  AUDIO	Component video cable Audio cable	INPUT 5  VIDEO AUDIO L AUDIO R	➔ Page 14
	 AUDIO  VIDEO	AV cable	INPUT 5  VIDEO AUDIO L AUDIO R	➔ Page 14

## Displaying an External Equipment Image

To view external source images, select the input source by pressing **INPUT** on the remote control unit or on the TV.

### Example

### 1 Press **INPUT**.

- The INPUT list screen displays.

### 2 Press **▲/▼** to select the input source.

- You can also select the input source by pressing **INPUT**. Each time **INPUT** is pressed, the input source toggles.

- An image from the selected source automatically displays.

# Connecting to External Equipment

You can connect many types of external equipment to your TV. To view external source images, select the input source from **INPUT** on the remote control unit or on the TV. (See pages 12 and 20.)  
For connecting the TV to external equipment, use commercially available cables.

### CAUTION

- To protect equipment, always turn off the TV before connecting any external equipment.
- Please read the relevant operation manual (Blu-ray disc player, etc.) carefully before making connections.

## Connecting a Blu-ray Disc/DVD Player or HD Cable/Satellite Set-top Box

### ■ When using HDMI cable (INPUT 1, 2, 3 or 4):

The HDMI (High Definition Multimedia Interface) terminal is an audio-video interface that enables a connection for audio and video signals using a single cable. The HDMI terminal supports high-resolution video input.

- Blu-ray disc player
- DVD player
- HD cable/satellite set-top box

### NOTE

- To enjoy 1080p display capability, connect your external equipment using an HDMI-certified cable or a component cable and set the equipment to 1080p output.
- Supported Audio format: Linear PCM, sampling rate 32/44.1/48kHz.
- When you connect ARC-compatible equipment, use INPUT 4.

### ■ When using DVI-HDMI conversion cable (INPUT 1, 2, 3 or 4):

- Blu-ray disc player
- DVD player
- HD cable/satellite set-top box

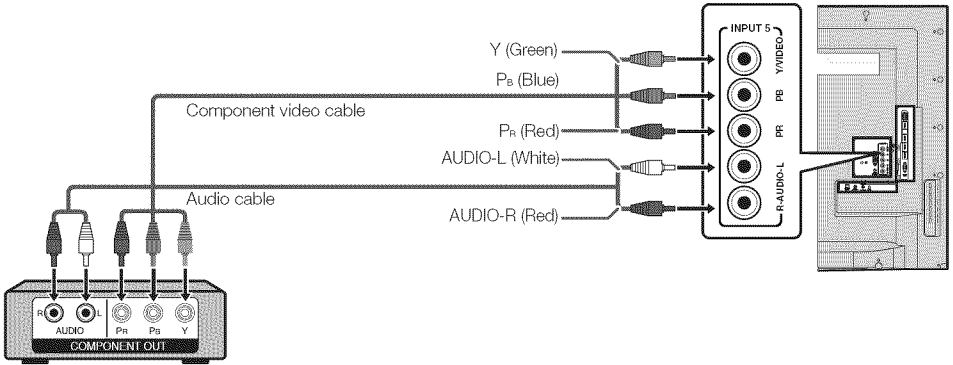

### NOTE

- When using a DVI-HDMI conversion cable, you should make an analog audio connection. In this case, in addition to connecting a DVI-HDMI conversion cable to the INPUT 1, 2, 3 or 4 terminal, connect a  $\varnothing$  3.5 mm stereo mini jack cable to the AUDIO PC/HDMI terminal and set "Audio Select" to "HDMI+Analog". (See page 46.)

## Connecting to External Equipment

### ■ When using Component cable (INPUT 5):

- Blu-ray disc player
- DVD player
- HD cable/satellite set-top box

#### NOTE

- To enjoy 1080p display capability, connect your external equipment using an HDMI-certified cable or a component cable and set the equipment to 1080p output.
- See page 13 for connecting a Blu-ray disc player, DVD player or an HD cable/satellite set-top box to the HDMI terminal.

## Connecting a VCR, Game Console, Camcorder or Cable/Satellite Set-top Box

### ■ When using Composite cable (INPUT 5):

- Game console
- VCR
- Camcorder
- Cable/Satellite set-top box

## Connecting to External Equipment

### Connecting an Audio Amplifier

#### ■ When using Digital coaxial cable:

It is possible to output audio through the DIGITAL AUDIO OUTPUT terminal. (See page 27 for details.) PCM audio outputs from the terminal.

#### NOTE

- Depending on the connected equipment, audio will not output from the DIGITAL AUDIO OUTPUT terminal in HDMI connection. In this case, set the audio formats of the connected equipment to PCM, 32/44.1/48 kHz.
- Coaxial digital audio will be output in 2-ch stereo when it is from the external equipment connected to the TV using an HDMI cable

#### ■ When using audio cable:

#### NOTE

- See page 28 for details on the Output Select function.

### Connecting an AV Amplifier

#### NOTE

- If the image is not in sync with the audio, check the settings of the connected surround system.
- Letting the TV output the audio to an AV amplifier:
  - When you connect ARC-compatible equipment, use the INPUT 4 terminal.
  - If the equipment to be connected is not compatible with the ARC, connect a digital coaxial cable.

## Connecting to External Equipment

### Connecting a PC

Refer to page 48 for a list of PC signals compatible with the TV.

#### ■ When using HDMI cable (INPUT 1, 2, 3 or 4):

#### NOTE

- Depending on the board, only video signals may be output. In this case, in addition to connecting an HDMI-certified cable to the INPUT 1, 2, 3 or 4 terminal, connect a  $\varnothing$  3.5 mm stereo mini jack cable to the AUDIO PC/HDMI terminal and set "Audio Select" to "HDMI+Analog". (See page 28.)
- The HDMI terminals only support digital signal.

#### ■ When using DVI-HDMI conversion cable (INPUT 1, 2, 3 or 4):

#### NOTE

- When using a DVI-HDMI conversion cable, you should make an analog audio connection. In this case, in addition to connecting a DVI-HDMI conversion cable to the INPUT 1, 2, 3 or 4 terminal, connect a  $\varnothing$  3.5 mm stereo mini jack cable to the AUDIO PC/HDMI terminal and set "Audio Select" to "HDMI+Analog". (See page 28.)

#### ■ When using analog RGB cable (PC IN):

#### NOTE

- When using an analog RGB cable, input the audio signal to the AUDIO PC/HDMI terminal of PC IN.
- When connecting a PC to the PC IN, set "Audio Select" to "Video+Audio". (See page 28.)

# Watching TV

## Turning On/Off the Power

Press **POWER** on the TV or on the remote control unit to turn the power on.

### NOTE

- The Initial Installation starts when the TV powers on for the first time. If the TV has been turned on before, the Initial Installation will not be invoked. For changing the settings of the Initial Installation, perform "EZ setup" on the Initial Setup menu on page 28.

Press **POWER** on the TV or on the remote control unit again to turn the power off.

- The TV enters standby and the image on the screen disappears.

### NOTE

- If you are not going to use this TV for a long period of time, be sure to remove the AC cord from the AC outlet.
- Weak electric power is still consumed even when the TV is turned off.

## Initial Installation

When you turn on the TV for the first time, it will automatically memorize the broadcasting channels available in the region where you live. Perform the following steps before you press

**POWER** on the remote control unit.

1. Insert the batteries into the remote control unit. (See page 9.)
2. Connect the antenna cable to the TV. (See page 9.)
3. Plug in the AC cord to the AC outlet. (See page 8.)

## Language (Language setting)

Select from among 3 languages: English, French and Spanish.

- 1 Press  $\blacktriangle/\blacktriangledown$  to select the desired language listed on the screen, and then press **ENTER**.

## Country

- 2 Press  $\blacktriangle/\blacktriangledown$  to select the desired Country listed on the screen, and then press **ENTER**.

## Time zone

- 3 Press  $\blacktriangle/\blacktriangledown$  to select the desired Time zone listed on the screen, and then press **ENTER**.

## TV Location

Select "Home" or "Store" for the location where you plan to install the TV. This product qualifies for ENERGY STAR in Home mode default setting.

- 4 Press  $\blacktriangle/\blacktriangledown$  to select "Home" or "Store". Press **ENTER** to enter the setting.

**Home:** "Power Saving" is set to "On", and AV MODE is set to "STANDARD(ENERGY STAR)".

**Store:** "Power Saving" is set to "Off" and AV MODE is set to "DYNAMIC (Fixed)".

# Watching TV

## NOTE

- ENERGY STAR qualification is based on AV MODE "STANDARD(ENERGY STAR)".

### Air/Cable (Antenna setting)

Make sure what kind of connection is made with your TV when selecting "Air" or "Cable".

- 5 Press ▲/▼ to select "Air" or "Cable".  
Press **ENTER** to enter the setting.

### CH Search (Channel search)

Channel auto search makes the TV look for all channels viewable in the set area.

### 6 When "Air" or "cable" is selected in Antenna setting:

Press ▲/▼ to select "Start", and then press **ENTER**.

### Network

- 7 Press ▲/▼ to select set up the connection setting or not

when you set up connection setting,you can press ▲/▼ to change connection type.

## Completed

- 8 After setting complete,the screen will show EZ setup Completed.

## NOTE

- If no channel is found, confirm the type of connection made with your TV and try "EZ Setup" again. (See page 29.)
- For changing the settings of the Initial Installation, perform "EZ setup" on the Initial Setup menu on page 29.

# Direct Button Operation

## Changing Channels

You can change channels in several ways.

### Method 1

Using **CH**  $\wedge$   $\vee$  on the remote control unit or on the TV.

### Method 2

Using remote control buttons **0-9**, **• (DOT)**.

#### Examples:

To select a 1 or 2-digit channel number (e. g., Channel 5):

Press **5**  $\rightarrow$  **ENT**.

To select a 3-digit channel number (e. g., Channel 115):

Press **1**  $\rightarrow$  **1**  $\rightarrow$  **5**  $\rightarrow$  **ENT**.

To select a 4-digit channel number (e. g., Channel 22.1):

Press **2**  $\rightarrow$  **2**  $\rightarrow$  **• (DOT)**  $\rightarrow$  **1**  $\rightarrow$  **ENT**.

#### NOTE

- When selecting a 1-digit channel number, it is not necessary to press **0** before the number.
- When you enter **0-9** only, channel selection will be made if there is no operation within a few seconds.
- If you push "0" by itself, nothing will happen.
- Complete the above steps within a few seconds.
- When you enter **0-9** and **• (DOT)**, channel selection will be made if there is no operation within a few seconds.

## Changing Volume

You can change the volume by pressing **VOL + / -** on the TV or on the remote control unit.

- To increase the volume, press **VOL +**.
- To decrease the volume, press **VOL -**.

## MUTE

Mutes the current sound output.

Press **MUTE**.

- "X" will be displayed on the screen, and the sound is silenced.

#### NOTE

- Mute can be canceled by pressing **VOL + / -** or **MUTE**.

## Sleep Timer

Allows you to set a time when the TV automatically switches to standby.

Press **SLEEP**.

- The remaining time displays when the sleep timer has been set.
- Each time you press **SLEEP**, the remaining time switches as shown below.

Off  $\rightarrow$  30  $\rightarrow$  60  $\rightarrow$  90  $\rightarrow$  120

- When set, the time automatically starts counting down.
- If you want to adjust the sleep timer, you can press **SLEEP** twice then change the time setting.

#### NOTE

- Select "Off" by pressing **SLEEP** to cancel the sleep timer.
- The TV will enter standby when the remaining time reaches 0.

## AUDIO

### ■ MTS/SAP stereo mode

The TV has a feature that allows reception of sound other than the main audio for the program. This feature is called Multi-channel Television Sound (MTS). The TV with MTS can receive mono sound, stereo sound and Secondary Audio Programs (SAP). The SAP feature allows a TV station to broadcast other information, which could be audio in another language or something completely different like weather information.

You can enjoy Hi-Fi stereo sound or SAP broadcasts where available.

- **Stereo broadcasts:** View programs like live sporting events, shows and concerts in dynamic stereo sound.
- **SAP broadcasts:** Receive TV broadcasts in either MAIN or SAP sound.

MAIN sound: The normal program soundtrack (either in mono or stereo).

SAP sound: Listen to a second language, supplementary commentary or other information. (SAP is mono sound.)

If stereo sound is difficult to hear.

- Obtain a clearer sound by manually switching to fixed mono-sound mode.

You can change MTS as shown below to match the television broadcast signal.

Press **ENTER** to toggle between audio modes.

Examples: when receiving MTS and SAP

STEREO mode: STEREO  $\leftrightarrow$  MONO

STEREO + SAP mode: ST(SAP)  $\rightarrow$  SAP(ST)  $\rightarrow$  MONO

MAIN + SAP mode: MAIN  $\leftrightarrow$  SAP

MONO mode: MONO

### ■ Digital broadcasting audio mode

The types of audio transmitted in a digital broadcast include SURROUND as well as MONO and STEREO. In addition, it is possible for multiple audio tracks to accompany a single video track.

Press **ENTER** to toggle between audio modes.

Example: when receiving Digital broadcasting

STEREO (Audio1)  $\rightarrow$  STEREO (Audio2)

$\leftarrow$  SURROUND (Audio3)  $\leftarrow$

#### NOTE

- MTS only operates while in TV mode.

## Direct Button Operation

### FLASHBACK

Press **FLASHBACK** to switch to the previously tuned channel.

- Press **FLASHBACK** again to switch back to the currently tuned channel.

#### NOTE

- **FLASHBACK** will not work if no channel has been changed after the TV is turned on.

### FREEZE

Allows you to capture and freeze a moving image that you are watching.

Press **FREEZE**.

- A moving image is captured.
- Press **FREEZE** again to cancel the function.

#### NOTE

- When this function is not available, "No Function." will display.
- If you are using the freeze function and a broadcast activates the V-CHIP BLOCK, the freeze function will be canceled and a V-CHIP BLOCK message will appear.
- You can have the same settings by choosing "Freeze" on the menu items. (See page 27.)

### Smart Central

Allows you to directly activate various types of applications.

- 1 Press **Smart Central** to display the smart central window.
- 2 Press **▲/▼/◀/▶** to select the desired application, and then press **ENTER**.
  - If "USB" is displayed after you switch to USB mode, check the USB connection.
  - If "DLNA" or "Internet" is displayed after you switch to Home Network (DLNA) mode or after you connect to the Internet, check your TV's network settings and connection.

#### NOTE

- See pages 35 to 39, 52, 53 for details of viewable applications.
- You can display the application window by choosing "Smart Central" on the menu items. (See page 27.)
- When this function is not available, "Can not operate this function now" will display.

### INPUT

To view external source images, select the input source by pressing **INPUT** on the remote control unit or on the TV.

- 1 Press **INPUT**.
  - The **INPUT** list screen displays.
- 2 Press **▲/▼** or press **INPUT** again to select the input source.
  - An image from the selected source automatically displays.
  - Each time **INPUT** is pressed, the input source toggles.

#### NOTE

- See pages 12 to 16 and 43 for external equipment connection.

### Closed Captions and Digital Closed Captions

Your TV is equipped with an internal Closed Caption decoder. It allows you to view conversations, narration and sound effects as subtitles on your TV. Closed Captions are available on some TV programs and on some VHS home video tapes at the discretion of the program provider.

Digital Closed Caption service is a new caption service available only on digital TV programs (also at the discretion of the service provider). It is a more flexible system than the original Closed Caption system, because it allows for a variety of caption sizes and font styles. When the Digital Closed Caption service is in use, it will be indicated by the appearance of a 3-letter abbreviation that also indicates the language of the Digital Closed Captions: ENG (English), SPA (Spanish), FRA (French) or other language codes.

Not all programs and VHS videotapes offer closed captions. Please look for the "CC" symbol to ensure that captions will be shown.

In the Closed Caption system, there can be more than one caption service provided. Each is identified by its own number. The "CC1" and "CC2" services display subtitles of TV programs superimposed over the program's picture.

In the Closed Caption system, the "Text1" or "Text2" services display text that is unrelated to the program being viewed (e.g., weather or news). These services are also superimposed over the program currently being viewed.

- 1 Press **CC**.
  - This will present the Closed Caption information display.
- 2 Press **CC** while the Closed Caption information is still on the screen.
  - Press repeatedly until you select the desired closed caption service.

- In the Closed Caption system, there can be more than one caption service provided. Each is identified by its own number. The "CC1" to "CC4" services display subtitles of TV programs superimposed over the program's picture. In the Closed Caption system, the "TEXT1" to "TEXT4" services display text that is unrelated to the program being viewed (e.g., weather or news). These services are also superimposed over the program currently being viewed.

#### Example:

## Direct Button Operation

### AV MODE

AV MODE gives you several viewing options to choose from to best match the surrounding environment of the TV, which can vary due to factors like room brightness, type of program watched or the type of image input from external equipment.

Press **AV MODE**. Current AV MODE displays.

- Press **AV MODE** again before the mode displayed on the screen disappears. The mode changes as shown below:

**Example: When the input source is TV, COMPONENT/AV, PC IN or HDMI 1 to 4**

STANDARD(ENERGY STAR) → MOVIE → GAME → PC → DYNAMIC → DYNAMIC (Fixed) → USER → STANDARD(ENERGY STAR)

**STANDARD(ENERGY STAR):** For a highly defined image in a normal lighting.

**MOVIE:** For a movie.

**GAME:** Lowers image brightness for easier viewing.

**PC:** For PC.

**USER:** Allows the user to customize settings as desired. You can set the mode for each input source.

**DYNAMIC:** For a clear-cut image emphasizing high contrast, useful for sports viewing.

**DYNAMIC (Fixed):** Changes the image and sound settings to the factory preset values. No adjustments are allowed.

#### NOTE

- You can select a different AV MODE item for each input mode. (For example, select STANDARD(ENERGY STAR) for TV input and DYNAMIC for COMPONENT.)
- When you play games, "GAME" is recommended for AV MODE.
- You cannot set "GAME" or "PC" when the TV is connected to the Internet or when the input source is "Home Network (DLNA)" or "USB".
- You can have the same settings by choosing "AV MODE" on the menu items. (See page 25.)

### VIEW MODE

You can select the screen size.

#### 1 Press **VIEW MODE**.

- The View Mode menu displays.
- The menu lists the View Mode options selectable for the type of video signal currently being received.

#### 2 Press **VIEW MODE** or ▲/▼ while the View Mode menu is displayed to select a desired item on the menu.

- You can sequentially select a View Mode that has its own aspect ratio.

#### NOTE

- You can have the same settings by choosing "View Mode" on the menu items. (See page 27.)

#### ■ For HD programs

Stretch	Dot by Dot (Full Screen)	S.Stretch (Smart stretch)	Zoom
<p>Suitable for viewing wide-screen 1.78:1 aspect ratio program, stretch mode will still show very thin black bands at the top and bottom of the screen.</p>	<p><b>Dot by Dot (1080i/p only):</b> Detects the resolution of the signal and displays an image with the same number of pixels on the screen. <b>Full Screen (720p only):</b> You can select "Full Screen" only when receiving a 720p signal.</p>	<p>Suitable for stretching 4:3 programs to fill the screen.</p>	<p>Suitable for viewing wide-screen 2.35:1 aspect-ratio programs in full screen.</p>

#### NOTE

When using Dot by Dot or Full Screen, it is possible to see noise or bars around different outer portions of the screen. Please change view mode to correct this.

## Direct Button Operation

### ■ For 4:3 programs

Example: Screen size images

Normal	S.Stretch (Smart stretch)	Zoom	Stretch
			
Suitable for viewing conventional 4:3 programs in their normal format.	Suitable for stretching 4:3 programs to fill the screen.	Suitable for viewing wide-screen 2.35:1 anamorphic DVDs in full screen.	This mode is useful for 1.78:1 DVDs. When viewing 1.85:1 DVDs, stretch mode will still show very thin black bands at the top and bottom of the screen.

### ■ For USB-Video,DLNA-Video

Example: Screen size images

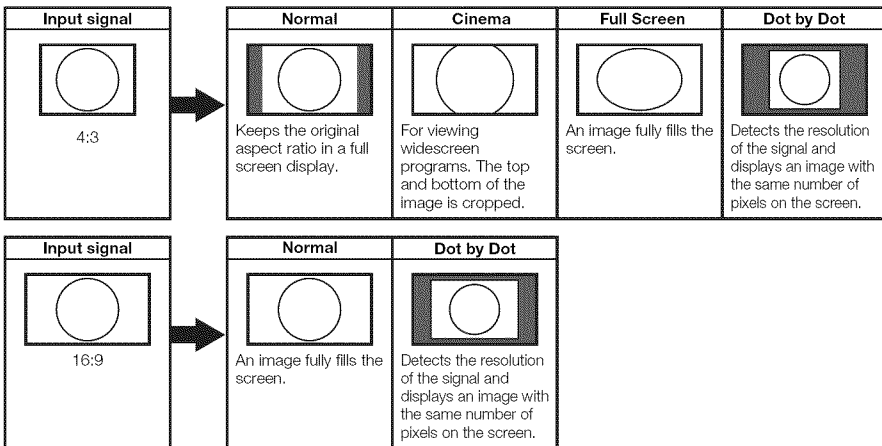

Normal	S.Stretch (Smart stretch)	Zoom	Stretch
			
Suitable for viewing conventional 4:3 programs in their normal format.	Suitable for stretching 4:3 programs to fill the screen.	Suitable for viewing wide-screen 2.35:1 anamorphic DVDs in full screen.	This mode is useful for 1.78:1 DVDs. When viewing 1.85:1 DVDs, stretch mode will still show very thin black bands at the top and bottom of the screen.

### ■ For PC input mode

#### NOTE

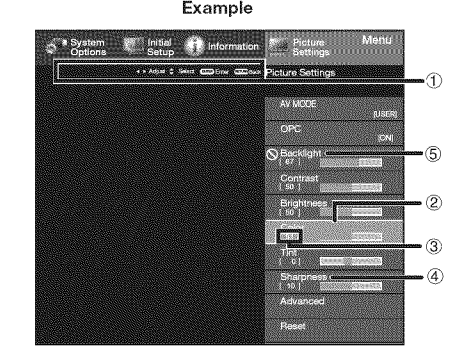

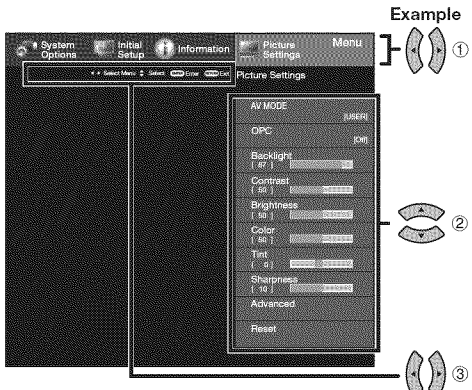

- Connect the PC before making adjustments.
- Selectable screen size may vary with input signal type.

Example: Screen size images

# On-Screen Display Menu

## On-Screen Display Menu Operation

- 1 Press **MENU** to display the MENU screen.
- 2 ① Press **◀▶** to select the desired menu.  
 ② Press **▲▼** to select a specific adjustment item, and then press **ENTER**.
  - Additional related adjustment items may be displayed. Press **▲▼** to select the desired item.
- ③ Adjust the item while referring to the guide display.
  - Operations vary depending on the function or item. Refer to the guide display corresponding to the menu setting screen for button operations.
- 3 Press **MENU** to exit.

- ① Guide display
  - This indicates the buttons that can be operated on the displayed screen. The guide display varies depending on the menu setting screen.
  - The operations for some selected items may be displayed in the operational guide bar at the bottom of the screen.
- ② Item displayed in blue
  - This indicates the item currently selected.
  - Press **ENTER** to go to the adjustment screen for this item.
- ③ Item in brackets
  - This indicates the current setting for the item.
- ④ Item displayed in white
  - This indicates that the item can be selected.
- ⑤ Item displayed in gray
  - This indicates that the item cannot be selected. There are various reasons why the items cannot be selected, but the main reasons are as follows:
    - Nothing is connected to the selected input terminal.
    - The function is not compatible with the current input signal.

### NOTE

- Menu options differ in the selected input modes, but the operating procedures are the same.
- The screens in the operation manual are for explanation purposes (some are enlarged, others cropped) and may vary slightly from the actual screens.
- The order of explanations for each menu item in the following pages is not necessarily in accordance with the alignment of the items on the screen.

## Menu Operation Buttons

**Using the remote control**  
 Use the following buttons on the remote control to operate the menu.

- MENU:** Press to open or close the menu screen.
- ▲/▼/◀▶:** Press to select a desired item on the screen or adjust a selected item.
- ENTER:** Press to go to the next step or complete the setting.
- RETURN:** Press to return to the previous step.

**Using the control panel of the main unit**  
 You can also operate the menu with the control panel of the main unit.

Button operations on the control panel correspond to the ones on the remote control as shown below.

- MENU:** **MENU** on the remote control.
- INPUT:** **ENTER** on the remote control.
- CH ▲/▼:** Cursor **▲/▼** on the remote control.
- VOL +/–:** Cursor **◀▶** on the remote control.

## Menu Items

### NOTE

- Some menu items may not be displayed depending on the selected input source.

## On-Screen Display Menu

### Picture Settings

Adjusts the picture to your preference with the following picture settings.

#### Example

- 1 Press **MENU** to display the MENU screen, and then press **◀/▶** to select "Picture Settings".
- 2 Press **▲/▼** to select a specific adjustment item.
  - Select "Advanced" and then press **ENTER** to set "Color Temp.", "Motion Enhancement", "Active Contrast", "DI Film Mode", "Digital Noise Reduction".
- 3 Press **▲/▼** (or **◀/▶**) to select the desired setting, and then press **ENTER**.
- 4 Press **MENU** to exit.

Selected item	◀button	▶button
<b>Backlight</b>	The screen dims	The screen brightens
<b>Contrast</b>	For less contrast	For more contrast
<b>Brightness</b>	For less brightness	For more brightness
<b>Color</b>	For less color intensity	For more color intensity
<b>Tint</b>	Skin tones become reddish	Skin tones become greenish
<b>Sharpness</b>	For less sharpness	For more sharpness

- For resetting all Picture adjustment items to the factory preset values, press **▲/▼** to select "Reset", press **ENTER**, press **▲/▼** to select "Yes", and then press **ENTER**.

### AV MODE (Changing Pic.Quality)

The audio and video settings can be changed to suit the program or input content being watched. Select from the following AV modes.

- **When the input source is TV,COMPONENT/AV PC IN or HDMI 1 to 4:**  
STANDARD(ENERGY STAR)/MOVIE/GAME/PC/USER/DYNAMIC/DYNAMIC(Fixed)

#### NOTE

- You can select AV MODE by pressing **AV MODE** on the remote control unit. See page 21 for details of AV MODE settings.

### OPC

Automatically adjusts the brightness of the screen.

- Off:** The brightness is fixed at the value set in "Backlight".
- On:** Automatically adjusts.

#### NOTE

- When set to "On", the Optical Picture Control (OPC) senses the surrounding light and automatically adjusts the backlight brightness. Make sure nothing obstructs the OPC sensor, which could affect its ability to sense surrounding light.

### Advanced Picture Settings

This TV provides various advanced functions for optimizing the picture quality

#### Color Temp. (Color Temperature)

For a better white balance, use color temperature correction.

**Warm:** White with reddish tone

**Standard:**

**Cool:** White with bluish tone

**User:**

White balance can be adjusted manually through the R/G/B Gain between a maximum of 255 and a minimum of 0 for user color temperature.

#### NOTE

- For resetting all adjustment items to the factory preset values, press **▲/▼** to select "Reset", and then press **ENTER**.

#### Motion Enhancement

Use Motion Enhancement to view fast-action video more clearly.

**120Hz Low/120Hz Medium/120Hz High:** For obtaining a clearer image.

**Off:** Normal image

#### NOTE

- "Motion Enhancement" may cause image noise. If this occurs, turn the function "Off".
- When AV MODE is set to "GAME" or "PC", or PC format is being input, "Motion Enhancement" is not available.

#### Active Contrast

Automatically adjusts the image contrast according to the scene.

**On:** Automatically adjusts the image contrast.

**Off:** No adjustment.

#### DI Film Mode

Automatically detects a film-based source (originally encoded at 25 frames/second), analyzes it then recreates each still film frame for high-definition picture quality.

**Auto:** Detects, analyzes, converts film source.

**Off:** Normal viewing mode.

## On-Screen Display Menu

### NOTE

- "DI Film Mode" does not function depending on input signal type.
- "Auto" does not function when channel display shows an input signal resolution of 480p, 720p, or 1080p.
- "DI Film Mode" is not available during PC format input.

### Digital Noise Reduction

Produces a clearer video image.

**Auto:** Automatically adjusts the level of noise reduction.

**High/Medium/Low:** Select a desired level for viewing a clearer video image.

**Off:** No adjustment.

### NOTE

- "Digital Noise Reduction" is not available when you set PC format is being input.

## Audio Settings

You can adjust the sound quality to your preference with the following settings.

### Example

- 1 Press **MENU** to display the MENU screen, and then press **◀/▶** to select "Audio Settings".
- 2 Press **▲/▼** to select a specific adjustment item.
  - Select "Surround", and then press **ENTER** to set each item.
- 3 Press **▲/▼** to select the desired setting, and then press **ENTER**.
- 4 Press **MENU** to exit.

Selected item	◀button	▶button
<b>Treble</b>	For weaker treble	For stronger treble
<b>Bass</b>	For weaker bass	For stronger bass
<b>Balance</b>	Decrease audio from the right speaker	Decrease audio from the left speaker

### NOTE

- For resetting Audio adjustment items to the factory preset values, press **▲/▼** to select "Reset", press **ENTER**, press **▲/▼** to select "Yes", and then press **ENTER**.

## Surround

The surround function produces Surround effect from the speakers.

**On:** Makes it possible to enjoy natural, realistic surround sound.

**Off:** Outputs the normal sound.

### NOTE

- For some discs, setup may be required on your DVD/BD player. In this case, please refer to the operation manual of your DVD/BD player.

## Power Control

Power control setting allows you to save energy.

- 1 Press **MENU** to display the MENU screen, and then press **◀/▶** to select "Power Control".
- 2 Press **▲/▼** to select a specific adjustment item, and then press **ENTER**.
- 3 Press **▲/▼** to select the desired setting, and then press **ENTER**.
- 4 Press **MENU** to exit.

## No Signal Off

This function allows the TV to automatically shut the power down when there is no signal received.

**Enable:** The power will automatically shut down if there is no signal for 15 minutes.

**Disable:** This function does not work.

### NOTE

- When it is 5 seconds before the power shuts down, the screen will display "No signal. The power will be turned off."

## Power Saving

This function allows you to set the Power Saving level in order to decrease the power consumption and increase the backlight lifespan.

**On:** Optimizes power reduction based upon video content.

**Off:** This function does not work.

### NOTE

- "Power Saving" does not function when you set AV MODE to "DYNAMIC (Fixed)".

### System Options

#### Example

- 1 Press **MENU** to display the MENU screen, and then press **▶◀** to select "System Options".
- 2 Press **▲▼** to select a specific adjustment item and then press **ENTER**.
- 3 Press **▲▼** (or **◀▶**) to select the desired setting, and then press **ENTER**.
- 4 Press **MENU** to exit.

#### View Option

These functions are useful for adjusting the audio and video settings. The View Option functions can be operated with the remote control unit.

#### Smart Central

The application window can be displayed by selecting "Smart Central" on the MENU screen.

#### NOTE

- You can display the application window by pressing **Smart Central** on the remote control unit. (See page 20.)

#### View Mode

This function changes the screen size. Select "View Option" on the menu to display the View Mode menu screen. The View Mode menu varies depending on the input source.

#### NOTE

- You can select View Mode by pressing **VIEW MODE** on the remote control unit.
  - See pages 21 and 22 for adjusting the video being input from a TV, other audiovisual equipment, USB-Video, DLNA-Video.

#### Freeze

Allows you to capture and freeze a moving image that you are watching.

#### NOTE

- You can select Freeze by pressing **FREEZE** on the remote control unit. See page 20 for details of Freeze function.

#### Change Audio

Allows you to change the audio when multiple audio is available for the program you are watching.

#### MTS

Select the MTS mode from Stereo, SAP or Mono. (See page 19 for details of this function.)

#### Audio Language

Gives you the possibility to swap between main and alternative language, when it is available in digital channel.

#### NOTE

- You can select MTS by pressing **AUDIO** on the remote control unit.

#### Change CC

Allows you to change the Closed Caption display. Select "Change CC" on the menu to display the Closed Caption information.

- The information displayed varies depending on the program you are watching.

#### NOTE

- You can change Closed Caption by pressing **CC** on the remote control unit. See page 20 for details of Closed Caption function.

#### Input Terminal Setting

##### Audio Setup

You can output digital audio to an AV amplifier or similar device whose DIGITAL AUDIO INPUT terminal is connected to the DIGITAL AUDIO OUTPUT terminal on the TV. Please select an audio output format compatible with the audio format of the program you are watching and the equipment connected.

**PCM:** The output terminal outputs audio signal in PCM form. If your digital audio system does not support Dolby Digital, select "PCM".

**Dolby Digital:** The output terminal outputs audio signal in Dolby Digital form. It reproduces sound from surround program of digital.

**Off:** Disables SPDIF output.

##### PC Input(For PC only)

**Auto Sync:** For automatically adjusting the PC image.

#### NOTE

- Be sure to connect the PC to the TV and switch it on before starting "Auto Sync."

**Fine Sync:** Ordinarily you can easily adjust the picture as necessary to change image position using "Auto Sync.". In some cases, however, manual adjustment is needed to optimize the image.

## On-Screen Display Menu

**H-Pos.:** Centers the image by moving it to the left or right.

**V-Pos.:** Centers the image by moving it up or down.

**Clock:** Adjust when the image flickers with vertical stripes.

**Phase:** Adjust when characters have low contrast or when the image flickers.

### NOTE

- The default cursor position may not be in the center, because the screen position variable ranges may be asymmetrical.
- The screen position variable ranges depend on the View Mode or the signal type. The ranges can be seen on the position-setting screen.

### Audio Select

Select the path of audio output.

#### For HDMI only:

**Auto:** Audio path is set to HDMI or PC line in automatically

**HDMI(Digital):** Select this when the TV and PC are connected using an HDMI-certified cable and audio is input via the same cable.

**HDMI+Analog:** Select this when the TV and PC are connected using a DVI-HDMI conversion cable and the audio is input via a Ø 3.5 mm stereo mini jack.

#### For PC only:

**Video:** Select this when the TV and PC are connected using an analog RGB cable and the audio is not input.

**Video+Audio:** Select this when the TV and PC are connected using an analog RGB cable and the audio is input via a Ø 3.5 mm stereo mini jack .

### NOTE

- Audio Select only shows when the input source is HDMI or PC IN.

### HDMI Setup ( For HDMI only )

HDMI Mode only shows and is available when HDMI device is connected. Select from **Auto**, **Graphic**, or **Video**.

**Auto:** The HDMI input timing is set to Video mode or Graphic mode automatically

**Graphic:** HDMI input timing set to Graphic mode (PC). The image is full scan

**Video:** HDMI input timing set to Video mode. The image is over scan.

### NOTE

HDMI Mode is only workable for HDMI Video & Progressive timing as followed: 1920x1080p, 1280x720p, 720x480p, 720x576p.

### Speaker

Choose to turn on or off the TV internal speaker. The audio output signals will not be turned off even though the TV speaker is off. The default setting is On.

### Caption Setup

This function allows you to adjust the closed caption screen appearance to suit your preference. You can adjust 8 items:

- **Caption Style:** Set to As Default or Custom mode. If Custom mode is selected, user can modify the detail styles described below. The setting result will be shown immediately on the bottom of the submenu OSD.  
Note: This feature is only available in Digital TV (ATSC) mode.
- **Caption Size:** Selects this option to choose a caption display size according to your own preference. Select "Small", "Standard", or "Large".
- **Foreground Color:** Choose the caption display text color.
- **Foreground Opacity:** Select the text opacity.
- **Background Color:** Choose the background color.
- **Background Opacity:** Choose one of the background opacity options.
- **Window Color:** Choose one of the display windows color.
- **Window Opacity:** Choose the background opacity.

### Quick Start Mode

**Enable"Quick Start Mode":**When you power off the TV ( you can use remote control, keypad or smart phone to power off TV),you can find backlight will be turned off quickly and LED lamp will be green.When you power on the TV( you can use remote control, keypad or smart phone to power on TV),you can find backlight will be turned on quickly and LED lamp will be still green.

**Disable"Quick Start Mode":**When you power off the TV ( you can use remote control, keypad or smart phone to power off TV), you can find backlight will be turned off slowly and LED lamp will be red, then TV will go into power saving mode.When you power on the TV( you can use remote control, keypad to power on TV),you can find TV will be turned on slowly and LED lamp will be green.

### Initial Setup

#### Example

- 1 Press **MENU** to display the MENU screen, and then press **◀/▶** to select "Initial Setup".
- 2 Press **▲/▼** to select a specific adjustment item, and then press **ENTER**.

## On-Screen Display Menu

- When you select "Individual Setup", you can enter the 4-digit secret number here. See page 30 for setting a secret number.
- 3 Press ▲/▼ (or ◀/▶) to select the desired setting, and then press **ENTER**.
  - 4 Press **MENU** to exit.

### EZ Setup

You can run EZ Setup again, even after setting up the preset channels.

**Language:** Select from among 3 languages (English, French and Spanish).

**Location & Time:** Make settings for the country, area and time zone where you use the TV.

**Select your country:** Select either "US", "Canada" or "Mexico".

**Select your time zone:** Select your time zone. The available settings differ depending on the selected country.

**TV Location:** Select "Home" or "Store" for the location where you plan to install the TV. This product qualifies for ENERGY STAR in Home mode default setting.

**Home:** "Power Saving" is set to "Advanced", and AV MODE is set to "STANDARD(ENERGY STAR)".

**Store:** "Power Saving" is set to "Off" and AV MODE is set to "DYNAMIC (Fixed)".

- ENERGY STAR qualification is based on AV MODE "STANDARD(ENERGY STAR)".

**Air/Cable:** Make sure what kind of connection is made with your TV when selecting "Air" or "Cable".

**CH Search:** Channel auto search makes the TV look for all channels viewable in the set area.

- If "Cable" is selected for Antenna setting, scrambled channels are removed after the Channel search has been completed.

**Network:** When you connect to the Internet on the TV, confirm the connection method and make adjustments.

- Wireless LAN connection is possible only when the WPS (push button) method is used. If any other method is used, make settings by Initial Setup > Internet Setup > Network Setup. (See page 52.)

**Completed:** The settings confirmation screen is displayed. Confirm the information displayed on the screen.

#### NOTE

- See Initial Installation on page 17 for setting each item.
- If no channel is found, confirm the type of connection made with your TV and try "EZ Setup" again.

### Broadcasting Setup

#### CH Setup

If Initial Installation does not memorize all the channels in your region, follow the instructions below to manually memorize the channels.

**Air/Cable:** Make sure what kind of connection is made with your TV when selecting "Air" or "Cable".

**CH Search:** Channel auto search makes the TV look for all channels viewable in the set area.

**CH Memory:** You can select the channels to skip in each ANALOG (Air), ANALOG (Cable), DIGITAL (Air) and DIGITAL (Cable).

**The indicator displayed in blue:** Skips channels. (Channel selection disabled using CH ^/∨.)

**The indicator displayed in gray:** Does not skip channels. (Channel selection enabled using CH ^/∨.)

#### NOTE

- If no channel is found, confirm the type of connection made with your TV and try channel search again.

### Favorite CH (Favorite Channel Setting)

This function allows you to program 4 favorite channels, in 4 different categories. By setting the favorite channels in advance, you can select your favorite channels easily.

**To register your favorite channel:**

1. Press **MENU** on the remote control and select "Initial Setup" / "Favorite channels".
2. Press ▲/▼ to select the category that you want to store your favorite channel.
3. Press ▲/▼ to select your desired channel and press **OK** button to confirm.

**To delete your favorite channel:**

Press ▲/▼ to select "All data clear" and press **OK** to start clearing all favorite channel data.

#### NOTE

- While watching, you can toggle the selected channels by pressing the **A**, **B**, **C**, and **D** button on the remote control.

### Language

You can also select a language from the Initial Setup menu. Select from among 3 languages: English, French and Spanish.

### Individual Setup

Before entering the Individual Setup sub-menu, user has to key in the password first. After entering the Individual Setup sub-menu, the user can modify the restricted table. While exiting the sub-menu, below the Individual Setup function is activated.

Enter a 4-digit password with the number buttons on the remote control.

- The default password is 0000.

## On-Screen Display Menu

### Secret No.

Allows you to use a secret number to protect certain settings from being accidentally changed.

#### New Secret No. :

Enter a 4-digit Secret No. with the number buttons on the remote control to change you secret No..

#### Confirm Secret No. :

Enter you new 4-digit Secret No. again to confirm.

#### NOTE

- As a precautionary measure, make a note of your secret number and keep it in a familiar place.

### Parental CTRL (Parental Control Setting)

#### Status

Used to enable or disable the parental control function. This function will not be selectable from the menu if you do not first configure your secret number.

**Yes:** Enables Parental CTRL.

**No:** Disables Parental CTRL.

### V-Chip

V-CHIP is an electronic filtering device built into your TV. This tool gives parents a great degree of control over broadcasts accessed by their children. It allows parents to select programs judged suitable for child viewing while blocking ones judged not suitable. It does so automatically once you activate the V-CHIP feature in your TV. "V-Chip" and "Status" will not be selectable from the menu if you do not first configure your secret number.

- The U.S. has two rating systems for viewing content: TV Parental Guidelines and movie ratings.
- The TV Parental Guidelines work in conjunction with the V-CHIP to help parents screen out inappropriate television shows from their children.
- Movie ratings are used for original movies rated by the Motion Picture Association of America (MPAA) as watched on cable TV and not edited for television. The V-CHIP can also be set to block MPAA-rated movies.

#### NOTE

- The setting automatically enters "Block" for any ratings below your selection.
- If Status is not set to "Yes", the configuration settings will not work.

### MPAA (Voluntary movie rating system)

#### Example

Press **▲/▼** to adjust the item to your desired position. "a" indicates the item is blocked. Press **MENU** to exit.

**G:** General audiences. All ages admitted.

**PG:** Parental guidance suggested. Some material may not be suitable for children.

**PG-13:** Parents strongly cautioned. Some material may be inappropriate for children under 13.

**R:** Restricted. Under 17 requires accompanying parent or adult guardian (age varies in some jurisdictions).

**NC-17:** No one 17 and under admitted.

**X:** X is an older rating that is unified with NC-17 but may be encoded in the data of older movies.

#### NOTE

- Voluntary movie rating system only uses an age-based rating.

### TV Parental Guidelines

#### Example

Press **▲/▼** to adjust the item to your desired position. "a" indicates the item is blocked. Press **MENU** to exit.

Suggested age.

**TV-Y:** All children.

**TV-Y7:** Directed to older children.

**TV-G:** General audience.

**TV-PG:** Parental Guidance suggested.

**TV-14:** Parents strongly cautioned.

**TV-MA:** Mature audience only.

## On-Screen Display Menu

### Example

#### When setting an individual content-based rating item:

- 1 Press **▶** or **ENTER** to access blocked content items from the currently selected age-based rating item.
- 2 Press **▲/▼** to select an individual item, and then press **ENTER** to unblock it ("a" is removed). Repeat the same steps for the other items.
- 3 Press **◀** or **RETURN** to register after all individual content rating items are set.

#### Content

**FV:** Fantasy violence.

**V:** Violence.

**S:** Sexual situation.

**L:** Adult language.

**D:** Sexually suggestive dialog.

Rating		Content				
		FV	V	S	L	D
Suggested age	TV-Y	☒	☒	☒	☒	☒
	TV-Y7	×	☒	☒	☒	☒
	TV-G		☒	☒	☒	☒
	TV-PG		×	×	×	×
	TV-14		×	×	×	×
	TV-MA		×	×	×	

☒ : The content rating can be set, but this rating is not normally broadcast by TV stations.

× : Content rating can be set.

#### Canadian Rating Systems (Canadian English ratings and Canadian French ratings)

- The TV rating systems in Canada are based on the Canadian Radio-Television and Telecommunications Commission (CRTC) policy on violence in television programming.
- While violence is the most important content element to be rated, the structure developed takes into consideration other program content like language, nudity, sexuality and mature themes.
- When setting the V-CHIP on the Canadian system you can choose either the Canadian English ratings or the Canadian French ratings.

#### Canadian English Ratings

### Example

Press **▲/▼** to adjust the item to your desired position. "a" indicates the item is blocked. Press **MENU** to exit.

- E:** Exempt: Includes news, sports, documentaries and other information programming; talk shows, music videos, and variety programming.
- C:** Children: Intended for younger children under the age of 8 years. Pays careful attention to themes that could threaten their sense of security and well-being.
- CB+:** Children over 8 years old: Contains no portrayal of violence as the preferred, acceptable, or only way to resolve conflict; nor encourage children to imitate dangerous acts which they may see on the screen.
- G:** General: Considered acceptable for all age groups. Appropriate viewing for the entire family, contains very little violence, physical, verbal or emotional.
- PG:** Parental Guidance: Intended for a general audience, but may not be suitable for younger children (under the age of 8) because it could contain controversial themes or issues.
- 14+:** Over 14 years: Could contain themes where violence is one of the dominant elements of the storyline, but it must be integral to the development of plot or character. Language usage could be profane and nudity present within the context of the theme.
- 18+:** Adults: Intended for viewers 18 years and older and might contain depictions of violence, which while related to the development of plot, character or themes, are intended for adult viewing. Could contain graphic language and portrayals of sex and nudity.

#### Canadian French Ratings

### Example

Press **▲/▼** to adjust the item to your desired position. "a" indicates the item is blocked. Press **MENU** to exit.

- E:** Exempt programming.
- G:** General: All ages and children, contains minimal direct violence, but may be integrated into the plot in a humorous or unrealistic manner.
- 8ans+:** General but inadvisable for young children: May be viewed by a wide public audience, but could contain scenes disturbing to children under 8 who cannot distinguish between imaginary and real situations. Recommended for viewing with parent.
- 13ans+:** Over 13 years: Could contain scenes of frequent violent scenes and therefore recommended for viewing with parent.
- 16ans+:** Over 16 years: Could contain frequent violent scenes and intense violence.
- 18ans+:** Over 18 years: Only for adult viewing. Could contain frequent violent scenes and extreme violence.

## On-Screen Display Menu

### ■ How to temporarily release the V-CHIP BLOCK

When the V-CHIP BLOCK is working and censors a broadcast, "V-CHIP HAS BEEN ACTIVATED." displays.

- 1 Press **ENTER** while the V-CHIP is working, and then the secret number setting menu displays.
- 2 Input the 4-digit secret number by using **0-9**. At this time V-CHIP BLOCK temporarily releases.

### ■ Reactivating the temporarily released V-CHIP BLOCK

You can reactivate the temporarily released V-CHIP BLOCK as shown below.

- Select "Status" setting from the Parental CTRL menu to reactivate BLOCK. (See page 30.)
- Select "V-Chip" setting ("MPAA", "TV Guidelines", "Can. English Ratings" or "Can. French Ratings") from the Parental CTRL to reactivate BLOCK. (See pages 30 to 32.)
- Switch off the TV power.

#### NOTE

- Performing any of the three above will activate the V-CHIP BLOCK.

## Information

### Example

- 1 Press **MENU** to display the MENU screen, and then press **◀▶** to select "Information".
- 2 Press **▲▼** to select a specific adjustment item, and then press **ENTER**.
- 3 Press **▲▼** (or **◀▶**) to select the desired setting, and then press **ENTER**.
- 4 Press **MENU** to exit.

### Identification

The current version of the TV software is displayed.

### Software Update

This is used to upgrade the system software to enhance the TV functions.

- 1 Press **MENU** to display MENU screen, and then press **◀▶** to select "Information".
- 2 Press **▲▼** to select "Software Update", and then press **ENTER**.

- If you have already set the Secret No., go to step 3.

### Example

- 3 Input the 4-digit secret number by using **0-9**.

- 4 Press **▲▼** to select "Manual Update" or "Auto Update Setting", and then press **ENTER**.
- The operations thereafter vary depending on the setting.

### Manual Update

Select the method for manually updating the software.

**USB Update:** Updates the software using a USB memory device containing the update file. (See page 33 to 34.)

**Network Update:** Downloads the update file via the network and then updates the software. (See page 33.)

- A broadband connection and Internet Setup are required to update the software using the network. (See pages 50 to 54.)

- It may take time to access and download the update depending on the Internet connection and other factors.

### Auto Update Setting

When the TV enter Standby, this function enables the TV to connect to the network and check for updates automatically.

**Yes:** Enables Auto Update Setting.

**No:** Disables Auto Update Setting.

## On-Screen Display Menu

### ■ Updating the Software via the Network

- 1 Press ▲/▼ on the Manual Update screen to select "Network Update", and then press **ENTER**.
  - The TV connects to the network and checks for updates.
  - To cancel, press **ENTER**.

- 2 The current version of the TV and the latest version of software are displayed. To update the TV software, select "Yes", and then press **ENTER**.

- When a server connection cannot be established or an update is not available, a message is displayed. If a server connection cannot be established, check the broadband connection and Internet Setup.

- 3 After the update file is downloaded, the software update process begins.

- **Do not unplug the AC cord while the software is being updated.**

- 4 When the software is successfully updated, a screen is displayed indicating that the update process is completed.

- If the software was not updated successfully, check the broadband connection and Internet Setup, and then try updating the software again.

- 5 Press **ENTER**. the TV automatically turns off and then turns on again.

### ■ Updating the Software with a USB Memory Device

To check for the availability of a software update, visit <http://www.sharpusa.com/products/support/>. If you have any questions, please call 1-800-BE-SHARP (800-237-4277).

#### CAUTION

- **Do not remove the USB memory device or unplug the AC cord while the software is being updated.**
- **Be sure to properly follow the whole procedure described below, step by step. Otherwise, for example, the TV cannot read the data in the USB memory device and software updating will fail.**

- 1 Insert the USB memory device with the update file into the USB terminal on the TV.

- 2 Press ▲/▼ on the Manual Update screen to select "USB Update", and then press **ENTER**.

## On-Screen Display Menu

- 3 Press **ENTER** to start checking the data in the USB memory device.

- 4 During the data checking, "Checking" blinks.

- The current version of the TV software and the version of the update file on the USB memory device are displayed.

### Example

- If the USB memory device is not properly installed or the correct update file cannot be found on the USB memory device, an error message is displayed. Check the file on the USB memory device, and then reinsert the USB memory device correctly.

- 5 To update the TV software with the update file, select "Yes", and then press **ENTER**.

### Example

### CAUTION

- Do not remove the USB memory device or unplug the AC cord while the software is being updated.

- 6 When the software is successfully updated, a screen is displayed indicating that the update process is completed.

### Example

- If the update has failed, check the file in the USB memory device and try Software Update again.

- 7 Please remove the USB memory device. Press **ENTER**. the TV automatically turns off and then turns on again.

## Netflix Help

- Press **MENU** to display the menu screen.
- Press **◀/▶** to select "Information", and then press **ENTER**.
- Press **▲/▼** to select "Netflix Help", and then press **ENTER**.
- Press **◀/▶** to select "OK/Deactivate", and then press **ENTER**.
  - To confirm the Netflix status, check the information displayed on the screen and click "OK".

## VUDU Help

- Press **MENU** to display the menu screen.
- Press **◀/▶** to select "Information", and then press **ENTER**.
- Press **▲/▼** to select "VUDU Help", and then press **ENTER**.
- Press **◀/▶** to select "Yes/No", and then press **ENTER**.

# Enjoying Photo/Music/Video Playback

You can connect the TV to a USB memory device, USB hard drive or home network (DLNA) server to enjoy viewing pictures, listening to music, and watching videos.

### NOTE

- Depending on the USB memory device/USB hard drive/home network (DLNA) server, the TV may not be able to recognize the recorded data.
- It may take time to read the recorded data if the USB memory device/USB hard drive/home network (DLNA) server contains many files or folders.
- Use only alphanumeric characters for naming files.

## Connecting a USB Memory Device/USB Hard Drive

Insert the USB memory device with recorded photos, music or videos into the USB terminal on the TV.

- Do not remove a USB memory device or memory card from the TV while using the slide show function, or switching screens, or before you exit "USB" from the INPUT list.
- Do not insert and remove a USB memory device/USB hard drive to and from the TV repeatedly.
- When using a card reader, be sure to insert Memory first before using the card reader.

### CAUTION

- Do not use a USB extension cable when connecting a USB memory device to the USB terminal on the TV.
- Using a USB extension cable with the USB memory device may prevent the TV from performing correctly.

## Connecting a Home Network (DLNA) Server

Connect the TV to the home network (DLNA) server using an ETHERNET cable.

### NOTE

- Do not disconnect a home network (DLNA) server from the TV while transferring files, when a screen is switching to another or before you exit "Home Network (DLNA)" from the INPUT list.
- Do not connect and disconnect a home network (DLNA) server from the TV repeatedly.

## Select the Files to Play Back

- To play back data on a USB memory device, insert the USB memory device on the TV. If the input source is USB, go to step 2.
- Use the following procedure to switch back to USB mode after switching from USB mode to another mode.
  - Select "USB" or "Home Network (DLNA)" from INPUT list screen.
  - Press **ENTER** to select "Photo", "Music" or "Video", and then press **ENTER**.

### Example

- Press **ENTER** to select the desired folder, and then press **ENTER**.

### NOTE

- The key guide display disappears automatically after a set time. To display the key guide display again, press **DISPLAY**.

### ■ When displaying the data with the Smart Central

The Media screen can be displayed even by using the application window.

- Press **Smart Central** to display the smart central window.
- Press **ENTER** to select "USB Media" or "Home Network (DLNA)", and then press **ENTER**.
  - If "No Signal" is displayed after you switch to USB mode, check the USB connection.
  - If "No Signal" or "No Network" is displayed after you switch to Home Network (DLNA) mode, check your TV's network settings and connection.
  - You can also display the Media screen by pressing **FAV APP** on the remote control unit.

## Playing Back Files on a USB Memory Device

### Photo Mode

#### Viewing Thumbnails

#### Example

### Buttons for thumbnails operations

Buttons	Description
<b>▲/▼/◀/▶</b>	Select a desired item.
<b>ENTER</b>	When selecting a folder icon: Enter this directory. When selecting a photo thumbnail: Slide show.

File extension	Container	Video	Audio
.avi	AVI	XviD H.264 MPEG4 Motion Jpeg MPEG2 MPEG1	MP3 AC3 LPCM ADPCM
.mkv	MKV	XviD H.264 MPEG4 MPEG2	MP3 AC3 LPCM ADPCM
.asf	ASF	XviD H.264	MP3 AC3 LPCM ADPCM
.mp4	MP4 (SMP4)	XviD H.264 MPEG4	MP3 AAC-LC /HEAAC
.mov	MP4 (SMP4)	XviD H.264 MPEG4 Motion Jpeg	MP3 AAC-LC /HEAAC
.mpg .mpeg	PS	MPEG2 MPEG1	AC3 LPCM MPEG

### NOTE

- USB 1.1 devices may not be played properly.
- Operation using USB hubs is not guaranteed.
- Some video file formats may not be played depending on the file.
- Some images may not be displayed in the appropriate aspect ratio depending on the file format.

## Playing Back Files on a Home Network (DLNA) Server

### Photo Mode

#### Viewing Thumbnails

##### Example

#### Buttons for thumbnail operations

Buttons	Description
▲/▼/◀/▶	Select a desired item.
ENTER	When selecting a folder icon: Enter this directory. When selecting a photo thumbnail: Slide show.
RETURN/EXIT	Return to the previous process.
Menu	Sub Menu

Press **MENU** to display the sub-menu. You can browse the files by the following options.

- Media Type
- Thumbnail size

#### NOTE

- You can see the file name, shooting date, file size and pixel size of the selected photo in the lower-left corner of the screen (shooting date is only available in the EXIF file format).

#### Viewing Individual Photos

The photo selected on the thumbnail selection screen is displayed.

#### Buttons for individual display operation

Buttons	Description
RETURN/EXIT	Return to the thumbnail selection screen.
A(red)	None/Repeat One/Repeat All.
B(green)	Rotate the photo by 90 degrees to the right.
C(blue)	Zoom photo.
D(yellow)	Play the photo in random order.
◀◀ / ▶▶	Go to the previous/next photo.
▶	Slider show.
DISPLAY	Display the information.
Menu	Sub Menu.

Press **MENU** to display the sub-menu. You can select the following options to display the photos

- Play
- Repeat
- Shuffle
- Rotate
- Zoom
- Show Info

#### NOTE

- Rotating photos only applies to the temporarily selected item and this setting is not saved.

### Slide Show

The photos displayed on the thumbnail selection screen are displayed as a slide show.

#### Buttons for slide show operation

Buttons	Description
RETURN/EXIT	Return to the thumbnail selection screen.
A(red)	None/Repeat One/Repeat All.
B(green)	Select slide show interval.
C(blue)	Select slide show effect.
D(yellow)	Play the photo in random order.
◀◀ / ▶▶	Go to the previous/next photo.
	Viewing individual photo.
DISPLAY	Display the information.
Menu	Sub Menu.

Press **MENU** to display the sub-menu. You can select the following options to display the photos

- Pause
- Repeat
- Shuffle
- Duration
- Effect
- Show Info

#### NOTE

- The slide show continues until you press **RETURN**.
- For setting the slide show speed, display the Home Network (DLNA) Menu screen.

### Music Mode

##### Example

#### Buttons for music mode

Buttons	Description
▲/▼/◀/▶	Select a desired item.
ENTER	When selecting a folder icon: Enter this directory. When selecting a music file: Play music.
RETURN/EXIT	Return to the previous process.
Menu	Sub Menu.

Press **MENU** to display the sub-menu. You can browse the files by the following options.

- Media Type
- Thumbnail size

# Enjoying Photo/Music/Video Playback

Example

## Buttons for playing music

Buttons	Description
<b>RETURN/EXIT</b>	Return to the thumbnail selection screen.
<b>A(red)</b>	None/Repeat One/Repeat All.
<b>B(green)</b>	Play the music in random order.
<b>D(yellow)</b>	Display the information.
<b>⏮ / ⏭</b>	Go to the previous/next photo.
<b>⏪ / ⏩</b>	Backward/Forward.
<b>▶ / ⏸ / ■</b>	Play/Pause/Stop.
<b>DISPLAY</b>	Display the information.
<b>Menu</b>	Sub Menu.

Press **MENU** to display the sub-menu. You can select the following options to play the music.

- Pause
- Repeat
- Shuffle On/Shuffle Off
- Show Info
- Hide Spectrum/Show Spectrum
- Lyric Options

**NOTE**

- The displayed play time may differ slightly from the actual play time depending on the files.

## Video Mode

Example

## Buttons for Video mode

Buttons	Description
<b>▲ / ▼ / ◀ / ▶</b>	Select a desired item.
<b>ENTER</b>	When selecting a folder icon: Enter this directory. When selecting a photo thumbnail: Slide show.
<b>RETURN/EXIT</b>	Return to the previous process.
<b>Menu</b>	Sub Menu

Press **MENU** to display the sub-menu. You can browse the files by the following options.

- Media Type
- Thumbnail size

Example

## Buttons for playing Video

Buttons	Description
<b>RETURN/EXIT</b>	Return to the thumbnail selection screen.
<b>A(red)</b>	None/Repeat One/Repeat All.
<b>D(yellow)</b>	Repeat AB.Select the part you want to play repeatedly.
<b>⏮ / ⏭</b>	Go to the previous/next photo.
<b>⏪ / ⏩</b>	Backward/Forward.
<b>▶ / ⏸ / ■</b>	Play/Pause/Stop.
<b>DISPLAY</b>	Display the information.
<b>Menu</b>	Sub Menu.

Press **MENU** to display the sub-menu. You can allow the options to play the videos.

- Pause
- Repeat
- Show Info
- AV Mode
- View Mode
- Last Memory

## Home Network (DLNA) Server Compatibility

<b>Photo file format</b>	JPEG
<b>Music file format</b>	MP3
<b>Video file format</b>	MPEG, ASF, MP4, MOV, AVI

**NOTE**

- Progressive format jpeg files are not supported.
- Some video file formats may not be played depending on the file or the server.

# Other Viewing Options

## Presetting Remote Control Function

You can operate the connected AV products (AV receiver, cable box, SAT tuner, DTV, VCR, DVD, BD, LD) using the presetting manufacturer function of your remote control unit.

### Presetting manufacturer codes

- 1 Press an appropriate button (**STB**, **DVD-VCR** or **AUDIO**) to operate the connected equipment.
- 2 Press an appropriate button (**STB**, **DVD-VCR** or **AUDIO**) and **DISPLAY** at the same time to enter the code registration mode.
- 3 Press **0-9** to enter the manufacturer code. (See page 42.)
  - Preset mode is finished once the LED no longer lights up.
- 4 After registering the code, the LED will stop blinking then turn off after one second. (If you perform an incorrect operation, the LED will blink quickly then turn off.)

## Operating the Connected Equipment

To operate the connected equipment, press **STB**, **DVD-VCR** or **AUDIO** to select your device. (STB (cable/satellite set-top box), DVD, BD, VCR or AUDIO.) The remote control unit button will function as follows.

- When you operate VCR, DVD or BD, press **INPUT** to select the terminal connected to your device.
- CABLE and SAT cannot be selected at the same time.

### 1 POWER (SOURCE)

- Turns the connected equipment power on and off.

### 2 ▶

- Starts playback. (VCR, DVD, BD)

### 3 ◀◀

- Rewinds the tape and allows picture search. (VCR)
- Hold down to go in reverse. (DVD, BD)

### 4 ■

- Stops the tape transport. (VCR)
- Playback stops when pressed. With some DVD/Blu-ray disc players, pressing the button twice may open the disc tray. (DVD, BD)

### 5 ◀◀◀

- Pressing quickly once takes you to the start of the chapter currently playing. Each time you press it, you move back to the start of the previous chapter. (DVD, BD)

### 6 0-9, • (DOT) (STB)

- Press a button (or buttons) that corresponds to the channel that you wish to watch.

### 7 ▶▶

- Rapidly advances the tape and allows picture search. (VCR)
- Hold down to fast forward. (DVD, BD)

### 8 ||

- Sets pauses and still pictures. (VCR, DVD, BD)

### 9 ▶▶▶

- Pressing quickly once takes you to the start of the next chapter. Each time you press it, you move ahead to the start of the next chapter. (DVD, BD)

### 10 ●REC

- Starts recording. (VCR)

### 11 FLASHBACK

- Press to switch between the current channel and the channel you were watching immediately before. Some manufacturers do not preset FLASHBACK. (STB)

### 12 CH^/V

- Press **CH^** or **CHV** to tune in to a higher or lower channel. (STB)
- Press to select the channel of the TV tuner on the VCR. (VCR)

### 13 MENU

- When this button is pressed, the DVD/BD menu will display. (DVD, BD)

### 14 ▲/▼/◀/▶, ENTER

- **▲/▼/◀/▶**: Press the button to select items on the STB GUIDE screen or STB MENU screen. (STB)
- Press the button to select items on the DVD/BD menu screen. (DVD, BD)
- **ENTER**: Press to activate the selected function. (STB, DVD, BD)

# Using AQUOS LINK

## Controlling HDMI Equipment Using AQUOS LINK

### What's AQUOS LINK?

- Using the HDMI CEC (Consumer Electronics Control) protocol, with AQUOS LINK you can interactively operate compatible system equipment (Blu-ray disc equipment, AV amplifier, DVD).
- By connecting AQUOS LINK-compatible devices with HDMI-certified cables to the TV, you can control a recorder or AV amplifier using the remote control of the TV.
- AQUOS LINK allows you to operate the HDMI-connected equipment with one remote control.

#### Connecting AQUOS BD Player via AQUOS LINK-compatible Audio system

### NOTE

- For connecting the TV to AQUOS LINK-compatible equipment, use commercially available cables.
- Point the remote control toward the TV, not to connected HDMI equipment.
- Video noise may occur depending on the type of HDMI cable used. Make sure to use an HDMI-certified cable.
- Up to 3 pieces of HDMI recording equipment and one AV amplifier can be connected using this system.
- These operations affect the HDMI equipment selected as the current input source. If the equipment does not operate, turn on the equipment and select the appropriate input source using **INPUT**.
- The AQUOS LINK feature may not operate properly when an HDMI splitter or AV selector unit is used. These devices may cause interruptions to the image and/or sound.

Connected AQUOS LINK-compatible devices can be operated without changing the settings of the remote control unit.

**OPTION** button will function only when AQUOS LINK is used.

### ■ One Touch Play

While the TV is in standby mode, it automatically turns on and plays back the image from the HDMI source.

### ■ One Touch Recording

Press **REC** while you are viewing a broadcast received with the AQUOS LINK-compatible recorder. The AQUOS LINK automatically recognizes the connected HDMI device and starts recording.

### ■ Single remote control

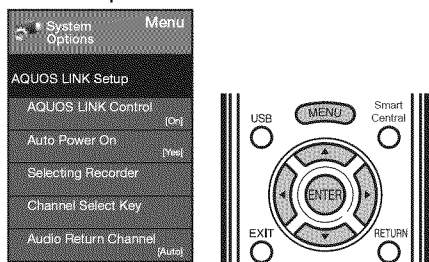

The AQUOS LINK automatically recognizes the connected HDMI device and you can control the TV and the devices as if using a universal remote control.

### ■ Control the AQUOS LINK-compatible audio system

Set the volume of AQUOS LINK-compatible audio system.

## AQUOS LINK Setup

### Example

- 1 Press **MENU** to display the MENU screen, and then press **◀▶** to select "System Options".
- 2 Press **▲▼** to select "AQUOS LINK Setup", and then press **ENTER**.
- 3 Press **▲▼** to select a specific item, and then press **ENTER**.
- 4 Press **▲▼** (or **◀▶**) to select the desired setting, and then press **ENTER**.
- 5 Press **MENU** to exit.

## AQUOS LINK Control

Select AQUOS LINK Control to disable AQUOS LINK function even when an AQUOS LINK-compatible HDMI device is connected to the TV. This function prevents the device from starting to operate unexpectedly.

**On:** You can operate AQUOS LINK-compatible equipment.

**Off:** AQUOS LINK function does not work.

## Auto Power On

If this is activated, the One Touch Play function is enabled.

**Yes:** While the TV is in standby mode, it automatically turns on and plays back the image from the HDMI source.

**No:** This function does not work.

## Selecting Recorder

When multiple AQUOS LINK-compatible devices are connected, this function allows you to set the recorder for recording when you press **●REC** on the TV's remote control unit.

Press **▲▼** to select the recorder for recording.

### NOTE

- When an AQUOS LINK-compatible audio system or other equipment is connected between the TV and recorder, "Sub" is displayed.

## Channel Select Key

This function can be set for each input terminal.

**On:** The remote control unit of the TV can be used to select the channel, display program information, and perform other operations of a connected AQUOS LINK-compatible recorder.

**Off:** This function does not work.

## Audio Return Channel

This function allows you to listen to the TV audio via audio equipment without using an Digital Coaxial cable, which conventionally is required.

### Requirements for using an ARC-compatible AV amplifier:

- ARC-compatible AV amplifier connected to the ARC-compatible HDMI terminal (HDMI 1). (Refer to the operation manual of the ARC-compatible equipment for details.)
- Use of an ARC-compatible cable.
  - Auto:** You can listen to the TV audio with ARC-compatible audio equipment.
  - Off:** This function does not work.

### NOTE

- If the TV audio cannot be output from the AV amplifier even after making the necessary settings, connect the TV to the AV amplifier with an Digital Coaxial cable and select "Off".

## One Touch Playback

AQUOS LINK allows you to operate the HDMI-connected equipment with one remote control.

Press **▶** to start playing back a title.

- The last played program is played back. You can use the following buttons during broadcast viewing.

Buttons	Description
<b>POWER (SOURCE)</b>	Turns the power of the HDMI connected devices on and off.
<b>◀◀</b>	Hold down to go in reverse.
<b>▶</b>	Starts playback.
<b>▶▶</b>	Hold down to fast forward.
<b>■</b>	Playback stops.
<b>  </b>	Sets pauses and still pictures.
<b>◀◀</b>	Pressing quickly once takes you to the start of the chapter currently playing. Each time you press it, you move back to the start of the previous chapter.
<b>▶▶</b>	Pressing quickly once takes you to the start of the next chapter. Each time you press it, you move ahead to the start of the next chapter.

### NOTE

- The buttons **◀◀▶▶** do not function with the following Blu-ray disc players currently available.
  - BD-HP20U, BD-HP50U

## One Touch Recording

This function allows easy one-touch recording of the program being viewed on the TV to AQUOS LINK-compatible equipment with a recording function by simply pressing **REC** on the remote control.

**Prepare the connected AQUOS LINK-compatible recorder for recording. Check the following items.**

- Make sure that the antenna cable is connected.
- Check that there is sufficient available space on the recording media (HDD, DVD, etc.).
- On the TV, use "AQUOS LINK Setup" and "Selecting Recorder" to select the equipment for recording.
- By default, the recorder connected to HDMI 1 is selected for recording.

### 1 Press **REC** to start recording.

- When you are viewing a broadcast received with the AQUOS LINK-compatible recorder selected in "Selecting Recorder", recording to the AQUOS recorder of the broadcast being viewed starts.
- When you are viewing a broadcast received with equipment other than the AQUOS LINK-compatible recorder selected in "Selecting Recorder" or other external input equipment, pressing **REC** on the remote control does not start recording.

### 2 Use the Link Operation Menu to stop recording.

- 1 Press **OPTION** to display the Link Operation Menu screen.
- 2 Press **▲/▼** to select "Stop Recording", and then press **ENTER**.

## Start/Stop Recording

You can also use the Link Operation Menu for recording on the connected AQUOS LINK-compatible equipment.

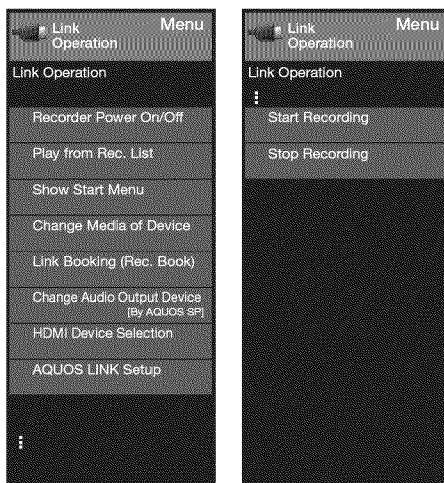

### 1 Press **OPTION** to display the Link Operation Menu screen.

### 2 Select "Start Recording", and then press **ENTER** to start recording.

- You can also start recording by pressing **REC** on the remote control unit.

### 3 Select "Stop Recording", and then press **ENTER** to stop recording.

## Link Operation Menu

## Turning On/Off AQUOS LINK-compatible Equipment

You can manually turn on/off the power of connected AQUOS LINK-compatible equipment.

### 1 Press **OPTION** to display the Link Operation Menu screen.

### 2 Press **▲/▼** to select "Recorder Power On/Off", and then press **ENTER**.

### 3 Select "On" (or "Off") and press **ENTER** to turn on (or off) the equipment.

## Using AQUOS LINK

### Playback of Titles Using AQUOS LINK

This section explains how to play back a title in the AQUOS LINK-compatible equipment.

- 1 Power on the AQUOS LINK-compatible equipment, and select appropriate external input.
- 2 Press **OPTION** to display the Link Operation Menu screen.
- 3 Press  $\blacktriangle/\blacktriangledown$  to select "Play from Rec. List", and then press **ENTER**.
  - The title list data from the connected AQUOS LINK-compatible equipment displays.
- 4 Select the title with  $\blacktriangle/\blacktriangledown/\blacktriangleleft/\blacktriangleright$ , and then press  $\blacktriangleright$  to start playback.

#### NOTE

- This function works only when AQUOS LINK-compatible equipment is connected.

### Displaying the Setup Menu of AQUOS LINK-Compatible Equipment

You can call up a setup menu from the connected AQUOS LINK-compatible equipment.

- 1 Press **OPTION** to display the Link Operation Menu screen.
- 2 Press  $\blacktriangle/\blacktriangledown$  to select "Show Start Menu", and then press **ENTER**.
  - The setup menu of the AQUOS LINK-compatible equipment is displayed.

#### NOTE

- Depending on the status of the equipment (recording or in standby mode, etc), the setup menu will not be displayed.
- The setup menu will not be displayed with the player BD-HP20U currently available.

### Selecting Media Type for AQUOS LINK-Compatible Recorder

You can switch the media (HDD or DVD) for playback or recording on the AQUOS LINK-compatible recorder.

- 1 Press **OPTION** to display the Link Operation Menu screen.
- 2 Press  $\blacktriangle/\blacktriangledown$  to select "Change Media of Device", and then press **ENTER**.
- 3 Select the desired media such as HDD or DVD.
  - The Media type toggles each time you press **ENTER** in "Change Media of Device".
  - Select the media to be operated by the player.

### Timer Recording

You can call up the AQUOS LINK-compatible recorder's EPG and preset timer recordings using the TV's remote control.

- 1 Press **OPTION** to display the Link Operation Menu screen.

- 2 Press  $\blacktriangle/\blacktriangledown$  to select "Link Booking (Rec. Book)", and then press **ENTER**.

- The recorder's EPG is displayed.

- 3 Select the program to record.

- You can use  $\blacktriangle/\blacktriangledown/\blacktriangleleft/\blacktriangleright$ , **ENTER**, **RETURN**, **EXIT** and the colored buttons.

#### NOTE

- This function works only when an AQUOS LINK-compatible recorder is connected.
- Refer to the operation manual of the recorder for details.

### Listening with the AQUOS AUDIO Speaker System

You can select to listen to the TV sound only from the AQUOS LINK-compatible audio system and manually change its sound mode.

- 1 Press **OPTION** to display the Link Operation Menu screen.
- 2 Press  $\blacktriangle/\blacktriangledown$  to select "Change Audio Output Device", and then press **ENTER**.
- 3 Press  $\blacktriangle/\blacktriangledown$  to select "By AQUOS audio SP", and then press **ENTER**.
  - The sound from the TV speaker is muted and only the sound from the AQUOS LINK-compatible audio system is audible.
  - You can use **VOL +/–** and **MUTE**.

Select "By AQUOS SP", and then press **ENTER** to listen to the TV sound.

### HDMI Device Selection

If multiple HDMI devices are connected in a daisy chain, you can specify which device to control here.

- 1 Press **OPTION** to display the Link Operation Menu screen.
- 2 Press  $\blacktriangle/\blacktriangledown$  to select "HDMI Device Selection", and then press **ENTER**. The HDMI device toggles each time you press **ENTER**.

### Displaying the Link Operation Menu

- 1 Press **OPTION** to display the Link Operation Menu screen.
- 2 Press  $\blacktriangle/\blacktriangledown$  to select "AQUOS LINK Setup", and then press **ENTER**.
  - The AQUOS LINK Setup menu screen is displayed.

# Using a PC

## Displaying a PC Image on the Screen

### VIEW MODE

You can select the screen size.

- 1 Press **VIEW MODE**.
  - The View Mode menu displays.
  - The menu lists the View Mode options selectable for the type of video signal currently being received.
- 2 Press **VIEW MODE** or **▲/▼** while the View Mode menu is displayed to select a desired item on the menu.
  - You can sequentially select a View Mode that has its own aspect ratio.

**NOTE**

- Connect the PC before making adjustments. (See page 16.)
- Selectable screen size may vary with input signal type.
- You can have the same settings by choosing "View Mode" on the menu items. (See page 27.)

Example: Screen size images see page 22

Example

- 1 Press **MENU** to display the MENU screen, and then press **◀▶** to select "System Options".
- 2 Press **▲/▼** to select "Input Terminal Setting", and then press **ENTER**.
- 3 Press **▲/▼** to select "PC input" or "Audio Select", and then press **ENTER**.
- 4 Press **▲/▼** to select a specific adjustment item, and then press **ENTER** to set each item.
- 5 Press **▲/▼** (or **◀▶**) to select or adjust the desired setting, and then press **ENTER**.

## Adjusting the PC Image

### Auto Sync. (for Analog PC Input Mode Only)

For automatically adjusting the PC image.

**Yes:** Auto Sync. start and "Auto adjusting ..." displays.

**No:** This function does not work.

#### NOTE

- "Auto Sync." may fail if the computer image has low resolution, has unclear (black) edges, or is moved while executing "Auto Sync."
- Be sure to connect the PC to the TV and switch it on before starting "Auto Sync."

### Fine Sync.

Ordinarily you can easily adjust the picture as necessary to change image position using "Auto Sync.". In some cases, however, manual adjustment is needed to optimize the image.

**H-Pos.:** Centers the image by moving it to the left or right.

**V-Pos.:** Centers the image by moving it up or down.

**Clock:** Adjust when the image flickers with vertical stripes.

**Phase:** Adjust when characters have low contrast or when the image flickers.

#### NOTE

- It is not necessary to adjust the "Clock" or "Phase" when a digital signal is being input, so it cannot be selected.
- The default cursor position may not be in the center, because the screen position variable ranges may be asymmetrical.
- The screen position variable ranges depend on the View Mode or the signal type. The ranges can be seen on the position-setting screen.

## PC Compatibility Chart

It is necessary to set the PC correctly to display XGA and WXGA signal.

Resolution		Horizontal Frequency	Vertical Frequency	VESA Standard
VGA	720 x 400	31.5 kHz	70 Hz	○
	640 x 480	31.5 kHz 37.5 kHz	60 Hz 75 Hz	○ ○
SVGA	800 x 600	37.9 kHz	60 Hz	○
		48.1 kHz 46.9 kHz	72 Hz 75 Hz	○ ○
XGA	1024 x 768	48.4 kHz	60 Hz	○
		56.5 kHz	70 Hz	○
		60.0 kHz	75 Hz	○
SXGA	1280 x 1024	64.0 kHz	60 Hz	—
SXGA+	1400 x 1050	65.3 kHz	60 Hz	—
UXGA	1600 x 1200	75.0 kHz	60 Hz	—
1080p	1920 x 1080	67.5 kHz	60 Hz	○

VGA and XGA are registered trademarks of International Business Machines Corp.

## Setting Audio Input

### Audio Select

This function sets the terminal to output the computer audio.

The adjustment items vary depending on the input source. Select the input source corresponding to the terminal connected to the PC and then adjust the desired item.

#### ■ PC IN

**Video:** Select this when the TV and PC are connected using an analog RGB cable and the audio is not input.

**Video+Audio:** Select this when the TV and PC are connected using an analog RGB cable and the audio is input via a Ø 3.5 mm stereo mini jack.

#### ■ HDMI IN

**Auto:** Audio selected automatic the default setting is "Auto".

**HDMI(Digital):** Select this when the TV and PC are connected using an HDMI-certified cable and audio is input via the same cable.

**HDMI+Analog:** Select this when the TV and PC are connected using a DVI-HDMI conversion cable and the audio is input via a Ø 3.5 mm stereo mini jack.

#### NOTE

- When "Audio Select" is set to "HDMI(Digital)", sound will not be produced if you use only an HDMI-certified cable to connect HDMI-compatible equipment. To produce sound, you should make an analog audio connection.
- If you want to connect HDMI-compatible equipment using only an HDMI-certified cable, set "Audio Select" to "HDMI(Digital)".

## RS-232C Port Specifications

### ■ PC control of the TV

- The TV can be controlled from a PC using the RS-232C terminal.
- Use a cross-type RS-232C cable (commercially available) for the connections.

#### NOTE

- This operation system should be used by a person who is accustomed to using computers.

### ■ Communication conditions

Set the RS-232C communication settings on the PC to match the TV's communication conditions.

The TV's communication settings are as follows:

<b>Baud rate:</b>	9,600 bps
<b>Data length:</b>	8 bits
<b>Parity bit:</b>	None
<b>Stop bit:</b>	1 bit
<b>Flow control:</b>	None

### ■ Communication procedure

Send the control commands from the PC via the RS-232C connector.

The TV operates according to the received command and sends a response message to the PC.

Do not send multiple commands at the same time.

Wait until the PC receives the OK response before sending the next command.

# Using a PC

## Command format

Eight ASCII codes + CR

Command 4-digits: Parameter 4-digits Return code

Command 4-digits: Command. The text of four characters.  
Parameter 4-digits: Parameter 0-9, x, blank, ?

## Response code format

Normal response

Return code (0DH)

Problem response (communication error or incorrect command)

Return code (0DH)

## Parameter

Input the parameter values, aligning left, and fill with blank(s) for the remainder. (Be sure that 4 values are input for the parameter.)

When the input parameter is not within an adjustable range, "ERR" returns. (Refer to "Response code format".) Any numerical value can replace the "x" on the table.

When "?" is input for some commands, the present setting value responds.

## Command table

• Commands not indicated here are not guaranteed to operate.

CONTROL ITEM	COMMAND	PARAMETER	CONTROL CONTENTS

### NOTE

- If an underbar ( \_ ) appears in the parameter column, enter a space.
- If an asterisk ( \* ) appears, enter a value in the range indicated in brackets under CONTROL CONTENTS.
- Any numerical value can replace the "x" on the table.

# Using the Internet

By connecting your TV to a broadband system, you can access the Internet from the TV.

- Display the latest Internet information and access a range of useful information for AQUOS users from the original home page\*.
- You can enjoy a variety of streaming content and Internet applications.

## \* About the original home page

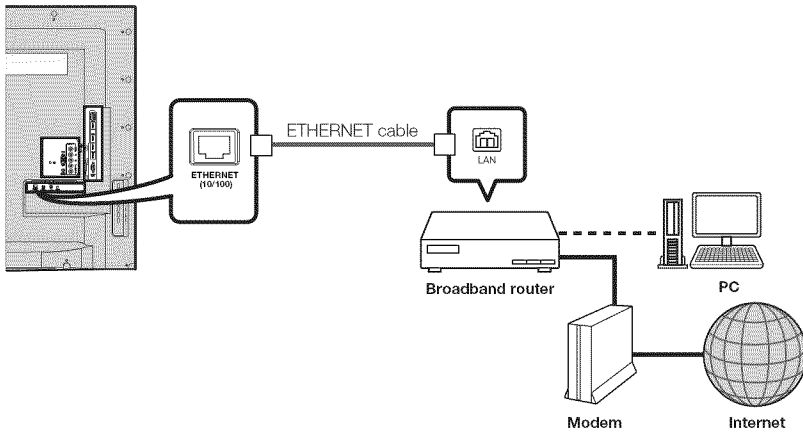

- The original home page is a website set up specifically for AQUOS owners.
- The website is worth visiting as it provides a range of useful information, including tips on using your AQUOS and a frequently asked questions section.

## Connecting to the Internet

- To connect your TV to the Internet, you must have a broadband Internet connection.
- If you do not have a broadband Internet connection, consult the store where you purchased your TV or ask your Internet service provider or telephone company.
- When an Internet connection is made, an Ethernet and wireless connection cannot be used at the same time. Use only one of the connection types.

### ■ Using an ETHERNET cable

Use an ETHERNET cable (commercially available) to connect the ETHERNET terminal on the TV to your broadband router (commercially available).

## Using the Internet

### ■ Using the wireless LAN

This TV is equipped with a wireless LAN function.

For a wireless LAN connection, you must use "Wireless Setup" to connect the access point and TV.

#### NOTE

- This TV has a built-in wireless LAN function. Using a separate wireless USB LAN adapter may result in radio communications that do not comply with regulations on radio communications. Therefore, do not use a separate wireless LAN adapter.
- This TV has received the following certifications.
  - Wi-Fi CERTIFIED™ (certification program from the Wi-Fi Alliance®)
  - Wi-Fi Protected Setup™ (certification program from the Wi-Fi Alliance®)
- Operations cannot be guaranteed when used with access points that do not have Wi-Fi® certification.
- A wireless LAN router/access point is required to connect the TV to the Internet using a wireless LAN. See the operation manual of your access point for setup.
- If your access point is set to a stealth mode (that prevents detection by other devices), you may not be able to establish a connection. In this case, disable the stealth mode on the access point.
- A wireless LAN connection and performance cannot be guaranteed for all residential environments. In the following cases, the wireless LAN signal may be poor or drop, or the connection speed may become slower.
  - When used in buildings made with concrete, reinforced steel, or metal
  - When placed near objects that obstruct the signal
  - When used with other wireless devices that emit the same frequency
  - When used in the vicinity of microwave ovens and other devices that emit a magnetic field, electrostatic charge, or electromagnetic interference
- When there is significant interference in the 2.4-GHz frequency (such as from other wireless LAN devices, Bluetooth® devices, 2.4-GHz cordless telephones, and microwave ovens), it is recommended that you use a wireless LAN router/access point that Supports IEEE802.11b/g/n. for setup details, see the operation manual of your access point .
- For users outside the United States, be sure to select your country before using the wireless LAN function. (See page 60.)
- A stable connection speed is required to play back streaming content. Use an Ethernet connection if the wireless LAN speed is unstable.
- Before transferring to a third party or disposal, be sure to initialize the wireless LAN settings.
- Please follow the legislation in your country when using the wireless LAN outdoors.

## Internet Setup

### Example

### Connection Type

- 1 Press **MENU** to display the MENU screen, and then press **◀/▶** to select "Initial Setup".
- 2 Press **▲/▼** to select "Internet Setup", and then press **ENTER**.
- 3 Press **▲/▼** to select "Network Setup", and then press **ENTER** if "Interactive Service" is selected "YES".
- 4 Press **◀/▶** to select "Wired" or "Wireless" at "Connection Type".

### Wireless Setup

If your access point supports Wi-Fi Protected Setup (WPS), it is recommended that you use this function for the wireless connection. You can press the WPS button on the access point to configure the settings automatically.

- The name of the WPS button function may differ depending on the access point. See the operation manual of the access point for details.

- 1 Confirm the current settings in "Interface".
  - If "Ethernet" is selected, press **◀/▶** to select "Wireless".
- 2 Press **▲/▼** to select "Wireless Setup", and then press **ENTER**.
  - Confirm the settings. If each setting item is correct, press **MENU** to exit.
  - If you are configuring the wireless setup for the first time or changing the settings, go to step 3.

### Interactive Service

If you do not want other people to connect to the Internet in your absence, you can make settings to keep the TV away from the Internet.

- 1 Press **MENU** to display the MENU screen, and then press **◀/▶** to select "Initial Setup".
- 2 Press **▲/▼** to select "Internet Setup", and then press **ENTER**.
- 3 Press **▲/▼** to select "Interactive Service".
- 4 Press **◀/▶** to select "No", and then press **ENTER**.
  - If you want to allow Internet connection, select "Yes", and then press **ENTER**.
- 5 Press **MENU** to exit.

### ■ If you cannot connect to the Internet

Perform the procedures below to check your TV's network settings.

### IP Setup

- 1 Press **EXIT** to display the normal TV screen.
- 2 Press **MENU** to display the MENU screen, and then press **◀/▶** to select "Initial Setup".
- 3 Press **▲/▼** to select "Internet Setup", and then press **ENTER**.
- 4 Press **▲/▼** to select "Network Setup", and then press **ENTER**.
  - Check that numbers are displayed for each setting.
  - If there are any settings without numbers, specify the numbers by following the on-screen instructions.
  - For information on how to enter text, see page 53.

### Example

- 5 Press **MENU** to exit.

## Displaying Updated Information and Support Service

This function can be used to display up-to-date information on the original home page and allow you to receive support service over the network.

## Using the Internet

### Country

- 1 Press **MENU** to display the MENU screen, and then press **◀/▶** to select "Initial Setup".
- 2 Press **▲/▼** to select "Internet Setup", and then press **ENTER**.
- 3 Press **▲/▼** to select "Network Setup", and then press **ENTER** if "Interactive Service" is selected "YES".
- 4 Press **◀/▶** to select "Country".
- 5 Press **◀/▶** to select "US" or "Canada" or "Mexico" at Country.

#### NOTE

- Select different country item, the language will synchronously change at Smart Central.

### AQUOS Remote Control

- 1 Press **MENU** to display the MENU screen, and then press **◀/▶** to select "Initial Setup".
- 2 Press **▲/▼** to select "Internet Setup", and then press **ENTER**.
- 3 Press **▲/▼** to select "AQUOS Remote Control", and then press **ENTER**.

#### ■ AQUOS Remote Control

Set this when operating the TV from equipment connected by LAN or wireless LAN.

- When "AQUOS Remote Control" is selected, "Change" will be highlighted. Press **ENTER**.

**Enable:** Allows operation from the connected equipment.

**Disable:** This function does not work.

#### ■ Select Device Names

Set the name of the TV displayed on the portable device.

- Use the software keyboard to set the name. See page 54 for details on the software keyboard.

#### ■ Detailed Settings

Make the detailed settings (Login ID, password, etc.). Follow the on-screen instructions to configure the settings.

### Communication Conditions for IP

Connect to the TV with the following settings made for IP on the PC.

<b>IP protocol:</b>	TCP/IP
<b>Host IP address:</b>	Set the IP address on the TV menu
<b>Service:</b>	None (Do not select Telnet or SSH)
<b>TCP port#:</b>	Set a port number on the TV menu (Control port)

When you set your ID and password on the TV menu, you need to enter them as soon as you connect to the TV.

#### NOTE

- When you use this function, make settings for "AQUOS Remote Control".
- The connection will be cut off when there has been no communication for 3 minutes.

### Communication Conditions for RS-232C

Set the RS-232C communication settings on been no match the TV's communication conditions. The TV's communication settings are as follows:

<b>Baud rate:</b>	9,600 bps
<b>Data length:</b>	8 bits
<b>Parity bit:</b>	None
<b>Stop bit:</b>	1 bit
<b>Flow control:</b>	None

#### ■ Communication procedure

Send the control commands from the PC via the RS-232C or IP. The TV operates according to the received command and sends a response message to the PC. Do not send multiple commands at the same time. Wait until the PC receives the OK response before sending the next command.

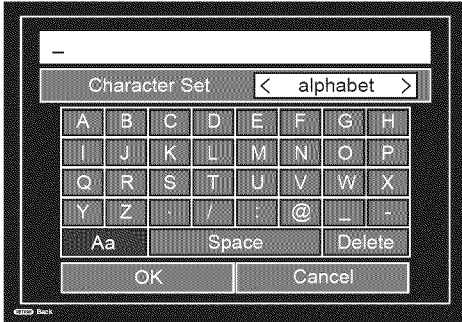

- See RS-232C Port Specifications for Command format.

## Entering Text (Software Keyboard)

When you are editing an input screen or specifying the Ethernet settings used for accessing the Internet, enter text from the software keyboard.

**NOTE**

- You can enter up to 128 characters for text.

**Alphabet**

Press ◀▶ to select the type of characters entered; alphabet, number or sign.

- The selectable types depend on the input source.

**OK**

Applies the entered information and closes the software keyboard.

**Cancel**

Erases the character string.

- When the cursor is somewhere in a line: the character string to the right of the cursor will be erased.
- When the cursor is at the right end of a line: the entire line will be erased.

**Delete**

If the cursor is at the right end of a line, this erases text one character at a time.

- You can also delete text by pressing **RETURN** on the remote control unit.

Buttons	Description
▲	Moves the focus up. When the focus is at the top edge, this moves the focus to the opposite edge (bottom edge).
▼	Moves the focus down. When the focus is at the bottom edge, this moves the focus to the opposite edge (top edge).
◀	Moves the focus left. When the focus is at the left edge, this moves the focus to the opposite edge (right edge). When the focus is on "Character Set", this selects the character type (moving backwards). When the focus is in an input box, this moves the cursor in the input box to the left.
▶	Moves the focus right. When the focus is at the right edge, this moves the focus to the opposite edge (left edge). When the focus is on "Character Set", this selects the character type (moving forwards). When the focus is in an input box, this moves the cursor in the input box to the right.
<b>ENTER</b>	Performs the processing for the button currently in the focus.
<b>EXIT</b>	Closes the software keyboard and current setting menu.
<b>RETURN</b>	Closes the software keyboard without applying the original input elements for the entered text. Erases the text in the input box where the cursor is currently located.

## Using the Internet

### Using Applications via the Internet

By connecting the TV to the Internet, you can enjoy a variety of broadband content, including videos, movies, music, photos, and games.

Please check that the most current software is loaded on TV by selecting "Auto Update Setting" on "Software Update" (see pages 32 to 34) or by visiting to check for adownload of the [http://www.sharppusa.com/products/support/newest\\_software\\_version](http://www.sharppusa.com/products/support/newest_software_version).

#### NOTE

- These applications are provided by content providers. The available applications vary depending on your country or region.
- The delivery speed of applications varies depending on the network speed. Check the web site of the provider for details on application setup and other information.

- 1 Press **Smart Central** to display the smart central window.

#### Example

- 2 Press **▲/▼/◀/▶** to select the desired application, and then press **ENTER**.
  - If "No Signal" or "No Input" is displayed after you connect to the Internet, check your TV's network settings and connection.
  - When using this TV to access an Internet application for the first time, the Disclaimer appears on the screen. Press **▲/▼** to select "Agree", and then press **ENTER** (You must select "Agree" to use the application.)
  - Additional applications will be available in the future.
- 3 The screen for the selected application is displayed. Follow the on-screen instructions for each application.
  - Check the web site of the provider for details on setup and use of the functions.

## Using the Internet

When you access the Internet application for the first time, the following appears.

- This message is available only in English.

### DISCLAIMERS

This Sharp device facilitates the access to content and services provided by third parties. The content and services accessible via this device belong to and may be proprietary to third parties. Therefore, any use of such third party content and services must be in accordance with any authorization or terms of use provided by such content or service provider. Sharp shall not be liable to you or any third party for your failure to abide by such authorization or terms of use. Unless otherwise specifically authorized by the applicable content or service provider, all third party content and services provided are for personal and non-commercial use; you may not modify, copy, distribute, transmit, display, perform, reproduce, upload, publish, license, create derivative works from, transfer or sell in any manner or medium any content or services available via this device.

Sharp is not responsible, nor liable, for customer service-related issues related to the third party content or services. Any questions, comments or service-related inquiries relating to the third party content or service should be made directly to the applicable content or service provider.

You may not be able to access content or services from the device for a variety of reasons which may be unrelated to the device itself, including, but not limited to, power failure, other Internet connection, or failure to configure your device properly. Sharp, its directors, officers, employees, agents, contractors and affiliates shall not be liable to you or any third party with respect to such failures or maintenance outages, regardless of cause or whether or not it could have been avoided.

ALL THIRD PARTY CONTENT OR SERVICES ACCESSIBLE VIA THIS DEVICE IS PROVIDED TO YOU ON AN "AS-IS" AND "AS AVAILABLE" BASIS AND SHARP AND ITS AFFILIATES MAKE NO WARRANTY OR REPRESENTATION OF ANY KIND TO YOU, EITHER EXPRESS OR IMPLIED, INCLUDING, WITHOUT LIMITATION, ANY WARRANTIES OF MERCHANTABILITY, NON-INFRINGEMENT, FITNESS FOR A PARTICULAR PURPOSE OR ANY WARRANTIES OF SUITABILITY, AVAILABILITY, ACCURACY, COMPLETENESS, SECURITY, TITLE, USEFULNESS, LACK OF NEGLIGENCE OR ERROR-FREE OR UNINTERRUPTED OPERATION OR USE OF THE CONTENT OR SERVICES PROVIDED TO YOU OR THAT THE CONTENT OR SERVICES WILL MEET YOUR REQUIREMENTS OR EXPECTATIONS.

SHARP IS NOT AN AGENT OF AND ASSUMES NO RESPONSIBILITY FOR THE ACTS OR OMISSIONS OF THIRD PARTY CONTENT OR SERVICE PROVIDERS, NOR ANY ASPECT OF THE CONTENT OR SERVICE RELATED TO SUCH THIRD PARTY PROVIDERS.

IN NO EVENT WILL SHARP AND/OR ITS AFFILIATES BE LIABLE TO YOU OR ANY THIRD PARTY FOR ANY DIRECT, INDIRECT, SPECIAL, INCIDENTAL, PUNITIVE, CONSEQUENTIAL OR OTHER DAMAGES, WHETHER THE THEORY OF LIABILITY IS BASED ON CONTRACT, TORT, NEGLIGENCE, BREACH OF WARRANTY, STRICT LIABILITY OR OTHERWISE AND WHETHER OR NOT SHARP AND/OR ITS AFFILIATES HAVE BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

# Appendix

## Setting the TV on the Wall

### CAUTION

- Installing the TV requires special skill that should only be performed by qualified service personnel. Customers should not attempt to do the work themselves. SHARP bears no responsibility for improper mounting or mounting that results in accident or injury.

### Wall mounting the TV:

- 1 Carefully place the TV face down on a soft and flat surface (blanket, foam, cloth, etc) to prevent any damage to the TV.
- 2 Remove the 4 screws from the mount holes.
- 3 Purchase a VESA compatible wall bracket (please refer to the table above): VESA 400 x 200, 4 holes, M8, 14mm .
- 4 Locate the ideal TV position on the wall.
- 5 Fix the wall bracket firmly on the wall.
- 6 Secure the TV to the bracket using the 4 mount screws attached to the mount holes on the back and center of the TV.

### NOTE

- Please read the instructions of your wall bracket to properly wall mount the TV.
- The pitch of the mounting holes is 400mm horizontally and 200mm vertically.
- The screws type required is metric: M8, 14mm .

### CLEARING THE SECRET NUMBER

If you forget the secret number, clear the secret number using the following procedure.

- 1 Press **MENU**.
- 2 Select Initial Setup.
- 3 Prsee Individual Setup ,press "**ENTER**".
- 4 Press number 7071.
- 5 Press Secret No..
- 6 Enter new password.

#### NOTE

- As a precautionary measure, make a note of your secret number above, and keep it in a safe place.

## Trademarks

---

- Manufactured under license from Dolby Laboratories. Dolby and the double-D symbol are trademarks of Dolby Laboratories.

- "HDMI, the HDMI logo and High-Definition Multimedia Interface are trademarks or registered trademarks of HDMI Licensing LLC in the United States and other countries."

- Products that have earned the ENERGY STAR® are designed to protect the environment through superior energy efficiency.

- LC フォント、LC FONT、エルシーフォント and LC logo mark are registered trademarks of SHARP Corporation. This product is embedded with LC Font technology, which was developed by SHARP Corporation for clearly displaying easy-to-read characters on LCD screens. However, other fonts are used for some screen pages, too.

- VUDU™ is a trademark of VUDU, Inc.

- The Wi-Fi CERTIFIED Logo is a certification mark of the Wi-Fi Alliance.
- The Wi-Fi Protected Setup Mark is a mark of the Wi-Fi Alliance.

- DLNA®, the DLNA Logo and DLNA CERTIFIED™ are trademarks, service marks, or certification marks of the Digital Living Network Alliance.

# Specifications

## TV

Item		LC-50LE650U	
LCD panel	Size	50" Class (49 1/2" Diagonal)	
	Resolution	2,073,600 pixels (1,920 × 1,080)	
TV Function	TV-standard (CCIR)	American TV Standard ATSC/NTSC System	
	Receiving Channel	VHF/UHF	VHF 2-13ch, UHF 14-69ch
		CATV	1-135ch (non-scrambled channel only)
		Digital Terrestrial Broadcast (8VSB)	2-69ch
		Digital cable <sup>1)</sup> (64/256 QAM)	1-135ch (non-scrambled channel only)
Audio multiplex	BTSC System		
Audio out		10 W × 2	
Terminals	Side	USB	Photo/Music/Video mode, Software update
		INPUT1	HDMI in with HDCP
		INPUT2	HDMI in with HDCP
		INPUT3	HDMI in with HDCP
		INPUT4	HDMI in with HDCP/HDMI ARC
		RS-232C	D-sub 9 pin for service & Hotel mode using
	Rear	INPUT5	COMPONENT/AV in
		PC IN	Analog RGB (PC) in (15-pin mini D-sub female connector)
		Audio PC/HDMI	Audio in (Ø 3.5mm jack)
	Bottom	ETHERNET	Network connector
		DIGITAL AUDIO OUTPUT	Digital audio output (RCA jack)
		ANT. / CABLE	75 Ω Unbalance, F Type x 1 for Analog (VHF/UHF/CATV) and Digital(AIR/CABLE)
		Headphone out	Audio output (Ø 3.5mm jack)
OSD language		English/French/Spanish	
Power Requirement		AC 120V,60Hz	
ON MODE POWER		63 W	
Power Consumption		120 W (0.5 W Standby with AC 120 V)	
Weight	TV + stand	43 lbs./19.5 kg	
	TV only	39.7 lbs./18 kg	
Dimension <sup>2)</sup> (W × H × D)	TV + stand	44 11/32 × 27 1/4 × 10 69/64 inch	
	TV only	44 11/32 × 26 15/64 × 3 19/32 inch	
Operating temperature		+32°F to +104°F (0°C to +40°C)	

<sup>1)</sup> Emergency alert messages via Cable are unreceivable.

<sup>2)</sup> The dimensional drawings are shown on the inside back cover.

- As part of policy of continuous improvement, SHARP reserves the right to make design and specification changes for product improvement without prior notice. The performance specification figures indicated are nominal values of production units. There may be some deviations from these values in individual units.
- On Mode Power Consumption is measured according to Energy Star program requirements for televisions.

### Cautions regarding use in high and low temperature environments

- When the unit is used in a low temperature space (e.g. room, office), the picture may leave trails or appear slightly delayed. This is not a malfunction, and the unit will recover when the temperature returns to normal.
  - Do not leave the unit in a hot or cold location. Also, do not leave the unit in a location exposed to direct sunlight or near a heater, as this may cause the cabinet to deform and the front panel to malfunction.
- Storage temperature: -4°F to +140°F (-20°C to +60°C)

## Specifications

### Wireless LAN

#### FCC

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. To comply with the FCC RF exposure compliance requirements, this device and its antenna must not be co-located or operated in conjunction with any other antenna or transmitter.

The device for the band 5150-5250 MHz is only for indoor usage to reduce potential for harmful interference to co-channel mobile satellite systems;

The maximum antenna gain permitted (for devices in the bands 5250-5350 MHz and 5470-5725 MHz) to comply with the e.i.r.p. limit; and High-power radars are allocated as primary users (meaning they have priority) of the bands 5250-5350 MHz and 5650-5850 MHz and these radars could cause interference and/or damage to LE-LAN devices.

#### COFETEL

This equipment operates on a secondary basis and, consequently, must accept harmful interference, including from station of the same kind, and may not cause harmful interference to systems operating on a primary basis.

CONTAINS TRANSMITTER MODULE COFETEL ID: RCPART10-0859

Brand: RALINK

Model: RT5390

Specification	
Standard	IEEE 802.11b/g/n
Frequency Band	2412-2484 MHz 5150-5850 MHz
Security	WEP (64/128 bit key Index 1 only) WPA-PSK (TKIP) WPA2-PSK (AES) WPS 2.0
Modulation	DBPSK@1Mbps DQPSK@2Mbps CCK@5.5/11Mbps BPSK@6/9 Mbps QPSK@12/18Mbps 16-QAM@24Mbps 64-QAM@48/54Mbps and above, Rx up to 300Mbps

# Information on the Software License for This Product

---

## ■ Software composition

The software included in this product is comprised of various software components whose individual copyrights are held by SHARP or by third parties.

## ■ Software developed by SHARP and open source software

The copyrights for the software components and various relevant documents included with this product that were developed or written by SHARP are owned by SHARP and are protected by the Copyright Act, international treaties, and other relevant laws. This product also makes use of freely distributed software and software components whose copyrights are held by third parties. These include software components covered by a GNU General Public License (hereafter GPL), a GNU Lesser General Public License (hereafter LGPL) or other license agreement.

## ■ Obtaining source code

Some of the open source software licensors require the distributor to provide the source code with the executable software components. GPL and LGPL include similar requirements. For information on obtaining the source code for the open source software and for obtaining the GPL, LGPL, and other license agreement information, visit the following website:

<http://www.sharpusa.com/gpl>

We are unable to answer any questions about the source code for the open source software. The source code for the software components whose copyrights are held by SHARP is not distributed.

## ■ Acknowledgements

The following are some of the open source software components included in this product:

## LIMITED WARRANTY

### CONSUMER LIMITED WARRANTY

SHARP ELECTRONICS CORPORATION warrants to the first consumer purchaser that this Sharp brand Liquid Crystal Display product (the "Product"), when shipped in its original container, will be free from defective workmanship and materials, and agrees that it will, at its option, either repair the defect or replace the defective Product or part thereof with a new or remanufactured equivalent at no charge to the purchaser for parts or labor for the period(s) set forth below.

This warranty does not apply to any appearance items of the Product or if the serial number or model number affixed to the Product has been removed, defaced, changed, altered or tampered with. This warranty does not cover installation or signal reception problems. This limited warranty will not apply if the Product has been or is being used in a commercial setting or application; this warranty is meant solely for the non-commercial, household use of the Product by consumers in their home or residence. If you intend to or already use this Product for commercial purposes or in a commercial setting, there are warranties available to cover your use of this Product, the terms of which may vary. Please contact **1-888-BE-SHARP** for further information.

In order to enforce your rights under this limited warranty, you should follow the steps set forth below. You must be able to provide proof of purchase to the servicer, which proof must include the date of purchase.

To the extent permitted by applicable state law, the warranties set forth are in lieu of, and exclusive of, all other warranties, express or implied. Specifically ALL OTHER WARRANTIES OTHER THAN THOSE SET FORTH ABOVE ARE EXCLUDED, ALL EXPRESS AND IMPLIED WARRANTIES INCLUDING THE WARRANTIES OF MERCHANTABILITY, FITNESS FOR USE, AND FITNESS FOR A PARTICULAR PURPOSE ARE SPECIFICALLY EXCLUDED. IF, UNDER APPLICABLE STATE LAW, IMPLIED WARRANTIES MAY NOT VALIDLY BE DISCLAIMED OR EXCLUDED, THE DURATION OF SUCH IMPLIED WARRANTIES IS LIMITED TO THE PERIOD(S) FROM THE DATE OF PURCHASE SET FORTH BELOW. THIS WARRANTY GIVES YOU SPECIFIC LEGAL RIGHTS. YOU MAY ALSO HAVE OTHER RIGHTS WHICH VARY FROM STATE TO STATE.

The warranties given herein shall be the sole and exclusive warranties granted by Sharp and shall be the sole and exclusive remedy available to the purchaser and only for the time periods set forth herein. No other representations or promises made by anyone are permitted. Correction of defects, in the manner and for the period of time described herein, shall constitute complete fulfillment of all liabilities and responsibilities of Sharp to the purchaser with respect to the Product, and shall constitute full satisfaction of all claims, whether based on contract, negligence, strict liability or otherwise. Sharp does not warrant nor shall Sharp be liable, or in any way responsible, for Products which have been subject to abuse (including, but not limited to, improper voltage), accident, misuse, negligence, lack of reasonable care, alteration, modification, tampering, misuse, improper operation or maintenance or any damages or defects in the Product which were caused by repairs or attempted repairs performed by anyone other than a Sharp authorized servicer. Nor shall Sharp be liable or in any way responsible for any incidental or consequential economic or property damage. Some states do not allow limits on warranties or on remedies for breach in certain transactions; in such states, the limits herein may not apply.

**THIS LIMITED WARRANTY IS VALID ONLY IN THE FIFTY (50) UNITED STATES, THE DISTRICT OF COLUMBIA AND PUERTO RICO.**

### Model Specific Section

Your Product Model Number & Description:

LC-50LE650U LCD Color Television  
(Be sure to have this information and Proof of Purchase available when you need service for your Product.)

Warranty Period for this Product:

One (1) year parts and labor from the date of purchase.

Additional Exclusions from Warranty Coverage (if any):

Image Retention resulting from a fixed image being displayed for long periods of time is not covered by this Limited Warranty (see Operation Manual on how to prevent this)

What to do to Obtain Service:

Service is provided by a Sharp Authorized Service Center in the United States. To find the location of the nearest Sharp Authorized Service Center, call Sharp toll free at 1-800-BE-SHARP. Sharp will provide instructions on service options available for your Product.

If it is deemed the Product is to be shipped for servicing, be sure it is insured and packaged securely. Please use two persons to carry the Product, transport it in original packaging or packaging that provides comparable protection of the Product, and ensure that the Product is covered to avoid scratches and damage. Sharp shall not be responsible for lost, stolen or misdirected mail or for damage to the product incurred during shipping.

For Products that are deemed in home service, a servicer will come to your location. If necessary, the servicer may remove the unit for repair at the service facility and return it once completed. In home service is not available in all areas and Sharp may, at our option, elect to provide transportation of the Product to and from an Authorized Service Center in those areas.

# SHARP®

## LIMITED WARRANTY

### Consumer Electronics Products

## Congratulations on your purchase!

Sharp Electronics of Canada Ltd. ("Sharp") warrants to the first purchaser for this Sharp brand product ("Product"), when shipped in its original container and sold or distributed in Canada by Sharp or by an authorized Sharp dealer, that the Product will during the applicable warranty period, be free from defects in material and workmanship, and will within the applicable warranty period, either repair the defective Product or provide the first purchaser a replacement of the defective Product.

**Conditions:** This limited warranty shall not apply to:

- (a) Any defects caused or repairs required as a result of abusive operation, negligence, accident, improper installation or inappropriate use as outlined in the owner's manual or other applicable Product documentation.
- (b) Any defects caused or repairs required as a result of any Product that has been tampered with, modified, adjusted or repaired by any person other than Sharp, a Sharp authorized service centre or a Sharp authorized servicing dealer.
- (c) Any defects caused or repairs required as a result of the use of the Product with items not specified or approved by Sharp, including but not limited to, head cleaning tapes and chemical cleaning agents.
- (d) Any replacement of accessories, glassware, consumable or peripheral items required through normal use of the Product, including but not limited to, earphones, remote controls, AC adapters, batteries, temperature probe, trays, filters, belts, ribbons, cables and paper.
- (e) Any cosmetic damage to the Product surface or exterior that has been defaced or caused by normal wear and tear.
- (f) Any defects caused or repairs required as a result of damage caused by any external or environmental conditions, including but not limited to, transmission line/power line voltage or liquid spillage or acts of God.
- (g) Warranty claims for Products returned with illegible or without appropriate model, serial number and CSA/cUL markings.
- (h) Any Products used for rental or commercial purposes.
- (i) Any installation, setup and/or programming charges.

**How to get service:** Warranty service may be obtained upon delivery of the Product, together with proof of purchase (including date of purchase) and a copy of this limited warranty statement, to an authorized Sharp service centre or an authorized Sharp servicing dealer. In home warranty service may be provided, at Sharp's discretion, on any Sharp Television with the screen size of 40" or larger and on any Sharp Over-The-Range Microwave Oven or Home Use Microwave Drawer. No other person (including any Sharp dealer or service centre) is authorized to extend, enlarge or transfer this warranty on behalf of Sharp. The purchaser will be responsible for any and all removal, reinstallation, transportation and insurance costs incurred.

The express warranties in this limited warranty are, except for consumer purchasers domiciled in Quebec, in lieu of and, except to the extent prohibited by applicable law, Sharp disclaims all other warranties and conditions, express or implied, whether arising by law, statute, by course of dealing or usage of trade, including, without limitation, implied warranties or conditions of merchantability and/or quality, fitness for a particular use or purpose, and/or non-infringement. **Limitations** (not applicable to consumer purchasers domiciled in Quebec to the extent prohibited under Quebec law): (a) Sharp shall not be liable for any incidental, special, consequential, economic, exemplary or indirect damages of any kind or nature (including lost profits or damages for loss of time or loss of use or loss of data) arising from or in any connection with the use or performance of a Product or a failure of a Product, even if Sharp is aware of or has been advised of the possibility of such damages; (b) the remedies described in this limited warranty constitute complete fulfillment of all obligations and responsibilities of Sharp to the purchaser with respect to the Product and shall constitute full satisfaction of all claims, whether based on contract, negligence, strict liability or otherwise. Some provinces may not allow the exclusion or limitation of certain damages, or limits on the duration or voiding of implied warranties or conditions; in such provinces, the exclusions and limits herein may not apply. This limited warranty is, except for consumer purchasers domiciled in Quebec, governed by the laws of the Province in Canada in which the purchaser has purchased the Product. For consumer purchasers domiciled in Quebec this limited warranty is governed by the laws of Quebec.

#### WARRANTY PERIODS (calculated from the date of original purchase): Parts & Labour (exceptions noted)

Audio Product	1 year
Blu-Ray Product	1 year
Projector	1 year (lamp 90 days)
LCD TV	1 year
Microwave Oven	1 year (magnetron component-4 additional years)
