3. Heed all warnings.

and the like.

they exit from the apparatus.

the manufacturer, or sold with the apparatus

When a cart is used, use caution when moving the cart/apparatus

A TV and cart combination should be moved with care. Quick stops, excessive force, and uneven surfaces may cause the TV and cart combination to overturn.

13. Unplug this apparatus during lightning storms or when unused for long periods of time.

For added protection for this TV receiver during a lightning storm, or when it is left unused for long periods of time, unplug it from the wall outlet and disconnect antenna or cable system.

This will prevent damage to the TV due to lightning and power line surges.

14. Refer all servicing to qualified service personnel. Servicing is required when the apparatus has been damaged in any way, such as power-supply cord or plug is damaged, liquid has been spilled or objects have fallen into the apparatus, the apparatus has been exposed to rain or moisture, does not operate normally, or has been dropped.

15. This TV should be operated only from the type of power supply

If customer is not sure the type of power supply in your home consult your appliance dealer or local power company. For TV remote control battery power, refer to the operating instructions.

16. The TV set shall not be exposed to dripping or splashing. No objects filled with liquids, such as vases, shall be placed on the TV set.

falling. Do not let children climb or hang on the TV. Always place the V on a sturdy, level, stable surface that can hold the weight of TV. And if possible, secure the TV according to the instruction below (Note: The fastening components such as screws are not supplied

mounting screw holes and fasten them (Figure B). Step two: Insert anchors to wall and connect the bolts and anchors with ropes or chains (Figure C).

Preparation for Your New TV

Before Turning On TV

18. Unplug the TV from the wall outlet before cleaning. Do not use 19. This TV should never be placed near or over a radiator or heat

as a bookcase or rack unless proper ventilation is provided or the manufacturer's instructions have been adhered to. Setup TV Table Stand

20. Do not place this TV on an unstable cart, stand, tripod, bracket, or table. The TV may fall, causing serious injury to someone, and Select TV Location serious damage to the appliance.

21. Do not attempt to service this TV by yourself because opening or removing covers may expose you to dangerous high voltage or other hazards. Refer all servicing to qualified service personnel. 22. This device complies with Part 15 of the FCC Rules, Operation is subject to the following two conditions: (1) this device may

not cause harmful interference, and (2) this device must accept

17. Never push objects of any kind into this TV through openings

could result in fire or electric shock. Never spill liquid of any kind into

as they may touch dangerous voltage or other electrical parts that

resource. This TV should not be placed in a built-in installation such

liquid or aero cleaners. Use a damp cloth for cleaning.

any interference received, including interference that may cause undesired operation. 23. WARNING: To prevent injury, this apparatus must be securely attached to the floor/wall in accordance with the installation

24. To reduce the risk of electric shock, the grounding of center pin of plug must be maintained

5. If an outside antenna or cable system is connected to the TV, be sure the antenna or cable system is grounded to provide some protection against voltage surges and built-up static charges. Section 810 of the National Electrical Code, ANSI/NFPA NO.70. provides information with respect to proper grounding of the mast antenna discharge unit, size of grounding conductors, location of antenna discharge unit, connection to grounding electrodes, and requirements for the grounding electrodes. (See figure A)

Caution: Pushing, pulling or climbing on the TV may cause the TV

Step one: Insert the M6 mounting screws into the upper two wall
