Child Safety Guide

Congratulations on your purchase! As you enjoy your new product, please keep these safety tips in mind:

The Issue

The home theater entertainment experience is a growing trend and larger flat panel displays and popular purchases

However, flat panel displays are not always supported on the proper stands of installed according to the manufacturer's recommendations.

Flat panel displays that are inappropriately situated on dressers, bookcases, shelves, desks, speakers, chests or cats may fall over and cause injury.

This Manufacturer Cares!

The consumer electronics industry is committed to making home entertainment enjoyable and safe.

Tune Into Safety

- One size does NOT fit all. follow the manufacturer's recommendation for the safe installation and use of your flat panel display.

· Carefully read and understand all enclosed instructions for proper use of this product.

Don't allow children to climb on or play with furniture and television sets.

- Don't place flat panel displays on furniture that can easily be used as steps, such as a chest of drawers.

- Remember that children can become excited while watching a program, especially on a "larger than life" flat panel display. Care should be taken to place or install the display where it cannot be pushed, pulled over, or

Care should be taken to route all cords and cables connected to the panel display so that they cannot be pulled or grabbed by curious children.

Wall Mounting: IF YOU DICIDE TO WALL MOUNT YOUR FLAT PANEL DISPLAY, ALWAYS:

- Use a mount that has been recommended by the display manufacturer and/or listed by an independent laboratory (such as UL, CSA, ETL).

- Follow all instructions supplied by the display and wall mount manufacturers

- If you have any doubts about your ability to safely install your flat panel display, contact your retailer about

- Make sure that the wall where you are mounting the display is appropriate. Some block construction. If you are unsure, contact a professional installer

- A minimum of two people are required for installation. Flat panel displays can be heavy.

Caution and Warning

Caution: To reduce the risk of electric shock, do not remove

FCC Notice

Fcc Information

This equipment has been tested and found to comply with the

These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio Communications.

However, there is no Guarantee that interference will not occur in a particular installation

If this equipment does cause harmful interference to radio or television recention, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures

Reorient or relocate the receiving antenna Increase the separation between the equipment and the receiver. Connect the equipment into an outlet on a circuit different from

to which the receiver is connected. Consult the dealer or an experienced radio/TV technician for

Device complies with FDA radiation performance standards, 21

CFR subchapter. Crn subcriapier. Caution: (Invisible) Laser Radiation when open.

Safety Precautions

1. Read these instructions Keep these instructions.

3. Heed all warnings. 4. Follow all instructions.

5. Do not use this apparatus near water. For example, do not use near a laundry tub, in a wet basement, or near a swimming pool, 6. Clean only with dry cloth.

7. Do not block any ventilation openings, Install in accordance with the manufacturer's instructions. Slots and openings in the cabinet back or bottom are provided for ventilation, to ensure reliable operation of the TV and to protect it from overheating. These openings must not be blocked or covered. The openings should never be blocked by placing the TV on a bed, sofa, rug, or other

8. Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat.

9. Do not defeat the safety purpose of the polarized or groundingtype plug. A polarized plug has two blades with one wider than the other. A grounding-type plug has two blades and a third grounding prong. The wide blade or the third prong is provided for your safety. If the provided plug does not fit into your outlet, consult an electrician for replacement of the obsolete outlet

10. Protect the power cord from being walked on or pinched particularly at plugs, convenience receptacles, and the point where they exit from the apparatus.

12. Use only with cart, stand, tripod, bracket, or table specified by the manufacturer or sold with the apparatus

11. Only use attachments/accessories specified by the

combination to avoid injury from tip-over. A TV and cart combination should be moved with care. Quick

stops, excessive force, and uneven surfaces may cause the TV and cart combination to overturn. 13. Unplug this apparatus during lightning storms or when unused

For added protection for this TV receiver during a lightning storm

for long periods of time.

cables is not connected well, or they are connected wrongly.

(on-screen display)is not used, Look at the top right corner of the screen. An "A" is displayed for an analog channel. A "D" is displayed for a digital channel.

Note: Since the analog TV in America has been cut off, we reserve analog TV function only for some unexpected use.

Why are there bars on my screen, and can I get rid of them?

Most digital video is sent in a 16/9 format which fills your screen, but is sometimes sent in 4/3 which does not fill your screen. It depends on how the station or device connected to your TV is formatting the wideo. If there are bars on the screen, Check Screen size in the picture mode to try a different format that may eliminate the bars. Some bars can't be removed because of the way the format is sent by the picture mode and the format type is displayed at the bottom of the screen For more information on screen size, go to page 9 Why does channel search find a lot of channels

but when I try to tune to them, there's nothing there?

When channels are unavailable, your TV screen is blank or appears like snow. You probably want to remove these channels from your channel list. Remove these in the Channel List Menu. Go to page 8 for more

Some channels don't carry programming, such as video On Demand.

Why does it take a long time when I search the channels

If you have both analog and digital channels, the TV is looking for all available channels in the channel list. If you do have digital channels, the TV is also searching for scrambled channels, non-scrambled channels and each sub-channel of that digital channel

Identifying Problems
