Caution: To reduce the risk of electric shock, do not remove

The consumer electronics industry is committed to making home entertainment enjoyable and safe.

Tune Into Safety

- One size does NOT fit all, follow the manufacturer's recommendation for the safe installation and use of your flat panel display.

 Carefully read and understand all enclosed instructions for proper use of this product.

Don't allow children to climb on or play with furniture and television sets.

 Don't place flat panel displays on furniture that can easily be used as steps, such as a chest of drawers.

 Remember that children can become excited while watching a program, especially on a "larger than life" flat panel display. Care should be taken to place or install the display where it cannot be pushed, pulled over, or

Care should be taken to route all cords and cables connected to the panel display so that they cannot be pulled or grabbed by curious children.

Safety Precautions

1. Read these instructions 2. Keep these instructions

3. Heed all warnings. 4. Follow all instructions.

5. Do not use this apparatus near water. For example, do not use near a laundry tub, in a wet basement, or near a swimming pool,

6. Clean only with dry cloth.

cart combination to overturn.

7. Do not block any ventilation openings. Install in accordance with the manufacturer's instructions. Slots and openings in the cabinet back or bottom are provided for ventilation, to ensure reliable operation of the TV and to protect it from overheating. These openings must not be blocked or covered. The openings should never be blocked by placing the TV on a bed, sofa, rug, or other

8. Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat.

9. Do not defeat the safety purpose of the polarized or groundingtype plug. A polarized plug has two blades with one wider than the other. A grounding-type plug has two blades and a third grounding prong. The wide blade or the third prong is provided for you safety. If the provided plug does not fit into your outlet, consult an electrician for replacement of the obsolete outlet

10. Protect the power cord from being walked on or pinched particularly at plugs, convenience receptacles, and the point where they exit from the apparatus.

11. Only use attachments/accessories specified by the

12. Use only with cart, stand, tripod, bracket, or table specified by the manufacturer or sold with the apparatus When a cart is used, use caution when moving the cart/apparatus

combination to avoid injury from tip-over. A TV and cart combination should be moved with care. Quick stops, excessive force, and uneven surfaces may cause the TV and

13. Unplug this apparatus during lightning storms or when unused for long periods of time.

For added protection for this TV receiver during a lightning storm,

or when it is left unused for long periods of time, unplug it from the

wall outlet and disconnect antenna or cable system. This will prevent damage to the TV due to lightning and power line

14. Refer all servicing to qualified service personnel. Servicing is equired when the apparatus has been damaged in any way, such as power-supply cord or plug is damaged, liquid has been spilled.

or objects have fallen into the apparatus, the apparatus has been exposed to rain or moisture, does not operate normally, or has been dropped. 15. This TV should be operated only from the type of power supply

indicated on the rating label.

If customer is not sure the type of power supply in your home consult your appliance dealer or local power company. For TV remote control battery power, refer to the operating instructions.

16. The TV set shall not be exposed to dripping or splashing. No objects filled with liquids, such as vases, shall be placed on the TV set.

17. Never push objects of any kind into this TV through openings as they may touch dangerous voltage or other electrical parts that could result in fire or electric shock. Never spill liquid of any kind into

18. Unplug the TV from the wall outlet before cleaning. Do not use liquid or aero cleaners. Use a damp cloth for cleaning.

19. This TV should never be placed near or over a radiator or heat resource. This TV should not be placed in a built-in installation such as a bookcase or rack unless proper ventilation is provided or the manufacturer's instructions have been adhered to.

serious damage to the appliance.

21. Do not attempt to service this TV by yourself because opening or removing covers may expose you to dangerous high voltage or other hazards. Refer all servicing to qualified service personnel.

22. This device complies with Part 15 of the FCC Rules. Operation s subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause

instructions.

24. To reduce the risk of electric shock, the grounding of center pin of plug must be maintained.

25. If an outside antenna or cable system is connected to the TV be sure the antenna or cable system is grounded to provide some protection against voltage surges and built-up static charges. Section 810 of the National Electrical Code, ANSI/NFPA NO.70, provides information with respect to proper grounding of the mast and supporting structure, grounding of the lead-in wire to ar antenna discharge unit, size of grounding conductors, location or antenna discharge unit, connection to grounding electrodes, and

Caution: Pushing, pulling or climbing on the TV may cause the TV falling. Do not let children climb or hang on the TV. Always place the TV on a sturdy, level, stable surface that can hold the weight of TV.

20. Do not place this TV on an unstable cart, stand, tripod, bracket, or table. The TV may fall, causing serious injury to someone, and

23. WARNING: To prevent injury, this apparatus must be securely attached to the floor/wall in accordance with the installation

requirements for the grounding electrodes. (See figure A)

(Note: The fastening components such as screws are not supplied

Step one: Insert the M6 mounting screws into the upper two wall mounting screw holes and fasten them (Figure B). Step two: Insert anchors to wall and connect the holts and anchors with ropes or chains (Figure C).

Preparation for Your New TV

Before Turning On TV

Check Accessories

Check the accessories that are packed with your TV.

Setup TV Table Stand Please refer to Quick Start Guide to carry out stand installing.

Select TV Location Select a flat, stable table to place your TV set. Please follow the safety instructions when placing the TV.

Connection and Using

After placing your TV properly, you can connect the TV with power supply and cable components. For further information, see page 5

TV Signal Connection

The first step in connecting your TV is obtaining the signal. Your TV LED24G45RQ has a back panel, which allows you to receive analog and/or digital television channels via ANT/CABLE jack ecting your TV determine using an antenna or a cable service to obtain the signal

Connect the antenna to TV via coaxial cable on ANT/CABLE jack

of the back panel. You are ready to receive air local digital and analog channels.

Connect the cable TV wall jack to TV via coaxial cable on

ANT/CABLE jack of the back panel. You are ready to receive off-air local digital and analog channels.

C. Set-Top Box If you use a set-top box, you may need to call your cable company or satellite service provider, which use a special connection, please refer to the user's guide of set-top box.

Note: Do not plug the AC cord until you have accomplished all the connections. This TV does not support QAM under cable channel

Choose Your Connections

TV LED24G45RQ supports various connections to other devices (such as DVD, VCR, Set-top box, etc.). Please follow the table to choose the cables which adapt to your device.

Jan-01 07:10 Sat Displays current program date and time.

Adjusting Volume

Press the VOL+/VOL- button on the remote control to adjust the volume. If you want to switch sound off, press MUTE. When OSD (On Screen Display) is not used, the arrows left/right can also work

EPG (Electronic Program Guide)

Press EPG button on the remote control, the electronic program quide will appear in the center of screen. The electronic program guide gives the TV program playing project. You can use left/right arrows to switch pages

OSD Menu Operations

Adjust the OSD Screen

The OSD (On Screen Display) menu enables you to approach to the TV functions.

use left/right arrow to highlight an option from QUICK, CHANNEL, Signal Type PICTURE, AUDIO, TIME, SETUP or LOCK and press OK/down Press the up and down arrow to move to a different option within

each menu, if necessary, press OK or right arrow to display the choices of the option you've highlighted. If available, use the text at the bottom of each screen for help. To return to the previous menu press the MENU button.

Press the EXIT button. The menu will clear from the screen

Press the MENU button repeatedly until the menus disappear

How do I tell an analog channel from a digital channel?

Press the OK button to display the Channel Bar, when OSD (on-screen display)is not used, Look at the top right corner of the screen. An "A" is displayed for an analog channel. A "D" is displayed for a digital channel.

Note: Since the analog TV in America has been cut off, we reserve analog TV function only for some unexpected use.

Why are there bars on my screen, and can I get rid of them?

Most digital video is sent in a 16/9 format which fills your screen, but is sometimes sent in 4/3 which does not fill your screen. It depends on how the station or device connected to your TV is formatting the video. If there are bars on the screen, Check Screen size in the picture mode to try a different format that may eliminate the bars. Some bars can't be removed because of the way the format is sent by the picture mode and the format type is displayed at the bottom of the screen. For more information on screen size, go to page 9

Why does channel search find a lot of channels but when I try to tune to them, there's nothing there?

- If your audio source has only one jack or is a (mono) audio source, Some channels don't carry programming, such as video On Demand. make sure you have plugged the connection into the Audio In L jack When channels are unavailable, your TV screen is blank or appears like snow. You probably want to remove these channels from your channel list. Remove these in the Channel List Menu. Go to page 8 for more The buttons on the side panel don't work.

Why does it take a long time when I search the channels

If you have both analog and digital channels, the TV is looking for all available channels in the channel list. If you do have digital channels, the TV is also searching for scrambled channels, non-scrambled channels and each sub-channel of that digital channel.

Identifying Problems

If there are any problems when using the product, please consult the ist below. If the list does not solve the problem, call our Customer
