# **Safety Precautions**

1. Read these instructions. 2. Keep these instructions.

3. Heed all warnings.

4, Follow all instructions.

5. Do not use this apparatus near water. For example, do not use near a laundry tub, in a wet basement, or near a swimming pool, and the like.

6. Clean only with dry cloth.

 $7.\,{\rm Do}$  not block any ventilation openings. Install in accordance with the manufacturer's instructions. Slots and openings in the cabinet back or bottom are provided for ventilation, to ensure reliable operation of the TV and to protect it from overheating. These openings must not be blocked or covered. The openings should never be blocked by placing the TV on a bed, sofa, rug, or other

8. Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat.

9. Do not defeat the safety purpose of the polarized or groundingtype plug. A polarized plug has two blades with one wider than the other. A grounding-type plug has two blades and a third grounding prong. The wide blade or the third prong is provided for your safety. If the provided plug does not fit into your outlet, consult an electrician for replacement of the obsolete outlet.

10. Protect the power cord from being walked on or pinched particularly at plugs, convenience receptacles, and the point where they exit from the apparatus.

11. Only use attachments/accessories specified by the

12. Use only with cart, stand, tripod, bracket, or table specified by the manufacturer, or sold with the apparatus.

When a cart is used, use caution when moving the cart/apparatus combination to avoid injury from tip-over.

A TV and cart combination should be moved with care. Quick stops, excessive force, and uneven surfaces may cause the TV and cart combination to overturn.

13. Unplug this apparatus during lightning storms or when unused for long periods of time.

For added protection for this TV receiver during a lightning storm,

or when it is left unused for long periods of time, unplug it from the wall outlet and disconnect antenna or cable system.

This will prevent damage to the TV due to lightning and power line

14. Refer all servicing to qualified service personnel. Servicing is required when the apparatus has been damaged in any way, such as power-supply cord or plug is damaged, liquid has been spilled or objects have fallen into the apparatus, the apparatus has been exposed to rain or moisture, does not operate normally, or has been dropped.

15. This TV should be operated only from the type of power supply indicated on the rating label.

If customer is not sure the type of power supply in your home, consult your appliance dealer or local power company. For TV remote control battery power, refer to the operating instructions.

16. The TV set shall not be exposed to dripping or splashing. No objects filled with liquids, such as vases, shall be placed on the TV set.

17. Never push objects of any kind into this TV through openings as they may touch dangerous voltage or other electrical parts that could result in fire or electric shock. Never spill liquid of any kind into

18. Unplug the TV from the wall outlet before cleaning. Do not use liquid or aero cleaners. Use a damp cloth for cleaning.

19. This TV should never be placed near or over a radiator or heat resource. This TV should not be placed in a built-in installation such as a bookcase or rack unless proper ventilation is provided or the manufacturer's instructions have been adhered to.

20. Do not place this TV on an unstable cart, stand, tripod, bracket, or table. The TV may fall, causing serious injury to someone, and serious damage to the appliance.

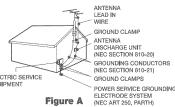

21. Do not attempt to service this TV by yourself because opening or removing covers may expose you to dangerous high voltage or other hazards. Refer all servicing to qualified service personnel.

22. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause

23. WARNING: To prevent injury, this apparatus must be securely attached to the floor/wall in accordance with the installation

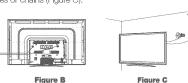

24. To reduce the risk of electric shock, the grounding of center pin of plug must be maintained. 25. If an outside antenna or cable system is connected to the TV

be sure the antenna or cable system is grounded to provide some protection against voltage surges and built-up static charges. Section 810 of the National Electrical Code, ANSI/NFPA NO.70, provides information with respect to proper grounding of the mast and supporting structure, grounding of the lead-in wire to an antenna discharge unit, size of grounding conductors, location of antenna discharge unit, connection to grounding electrodes, and requirements for the grounding electrodes. (See figure A)

Caution: Pushing, pulling or climbing on the TV may cause the TV falling. Do not let children climb or hang on the TV. Always place the TV on a sturdy, level, stable surface that can hold the weight of TV. (Note: The fastening components such as screws are not supplied

Step one: Insert the M6 mounting screws into the upper two wall Sten two: Insert anchors to wall and connect the bolts and anchors with ropes or chains (Figure C).

The home theater entertainment experience is a growing trend and larger flat panel displays and popular purchases

Congratulations on your purchase! As you enjoy your new product,

**Child Safety Guide** 

The Issue

please keep these safety tips in mind:

However, flat panel displays are not always supported on the proper stands or installed according to the

Flat panel displays that are inappropriately situated on dressers, bookcases, shelves, desks, speakers, chests or cats may fall over and cause injury.

### This Manufacturer Cares!

The consumer electronics industry is committed to naking home entertainment enjoyable and safe.

### **Tune Into Safety**

- One size does NOT fit all, follow the manufacturer's recommendation for the safe installation and use of your flat panel display.

- Carefully read and understand all enclosed instructions for proper use of this product.

CHILD

SAFETY

- Don't allow children to climb on or play with furniture and television sets.

- Don't place flat panel displays on furniture that can easily be used as steps, such as a chest of drawers.

 Remember that children can become excited while watching a program, especially on a "larger than life" flat panel display. Care should be taken to place or install the display where it cannot be pushed, pulled over, or

- Care should be taken to route all cords and cables connected to the panel display so that they cannot be pulled or grabbed by curious children.

### Wall Mounting: IF YOU DICIDE TO WALL MOUNT YOUR FLAT PANEL DISPLAY, ALWAYS:

Use a mount that has been recommended by the display manufacturer and/or listed by an independent laboratory (such as UL, CSA, ETL).

- Follow all instructions supplied by the display and wall mount manufacturers.

- If you have any doubts about your ability to safely install your flat panel display, contact your retailer about

- Make sure that the wall where you are mounting the display is appropriate. Some block construction. If you are unsure, contact a professional installer

A minimum of two people are required for installation. Flat panel displays can be heavy.

### **Caution and Warning**

### Connecting YPbPr Component device (Better Video Quality)

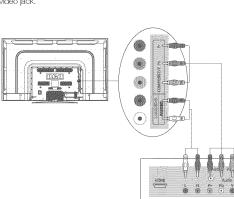

To connect a component device, such as a DVD player, follow these steps: 1,Connect the COMPONENT IN Y/Pb/Pr jack on the side of TV to the video output jacks of device via video cable (green, blue and

 $2.\mbox{Connect}$  the L-AUDIO-R jacks on the side of TV to the audio output jacks of device via audio cable. Notice the left channel jack and plugs are white and the right channel jack and plugs are red.

Note: Y/Pb/Pr jacks are component video. This kind of video signal has better display quality.

Component Video Connection

The picture below is an example of a connection using the component

### Connecting HDMI device (Best Video Quality)

To connect a HDMI device, such as a DVD player, please Connect the HDMI 1/ARC 2/DVI, jack on the side of TV to the output jacks of device via HDMI cable. To connect a DVI device, via DVI port of PC or Device and HDMI

1. Connect the HDMI 2/DVI jack on the side of TV to the DVI port

2. Connect the L-AUDIO-R jack on the side of TV to the audio output jack of computer with audio cable (dual-channel RCA jacks to 3.5mm stereo iack or the L-AUDIO-R iack). To connect an ARC HDMI OUT device, please connect to the HDMI input port of the device such as amplifier

audio/video interface for transmitting uncompressed digital data. It carries the audio and video signal via the same cable and has the 2. HDMI-DVI cable transfers only video signal from DVI port of

DVI device to HDMI jack of TV. For audio signal, please connect

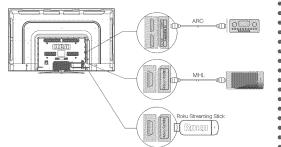

audio output to L-AUDIO-R jack on TV back panel.

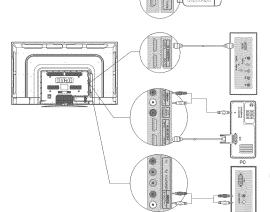

Note: 1. HDMI (High-Definition Multimedia Interface) is a compact

### **HDMI** Connection

The picture below is an example of a connection using the HDMI

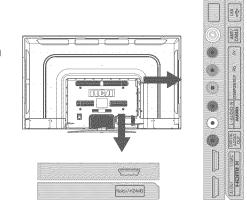

Note: 1. Roku Streaming Stick is already connected with HDMI 3. 2. If you want to use MHL, you should remove Roku Streaming Stick from HDMI 3.

How to Obtain Various Kinds of Input Sources After connection is done, press INPUT button on remote control or TV top panel to choose the input source you need. See page 7 Basic Operation of TV.

approached the main settings that may be most possibly and frequently approached. Picture Mode, Sound Mode, Closed Caption, Sleep Timer, and Channel List. Channel Menu

The Channel Menu enables you to search, view and edit channels. It is available in TV mode only.

### **Troubleshooting** Identifying Problems

If there are any problems when using the product, please consult the list below. If the list does not solve the problem, call our Custome TV Problems

### The TV can't be turned on Make sure the AC cord is plugged in

Check the wall outlet, make sure the AC output works normally and stably.
The side panel may be locked (disabled). Use the remote control to turn on the TV. Select the Keypad Lock function in the PARENTAL control Menu

and press OK to uncheck the locking status. There is no picture or sound but the TV is on and there is a "No

# Signal" sign on screen. - Are you trying to use an input source with no device connected to it? For using other video/audio device, make sure the external device works normally first, then press INPUT and choose the right input source.

The Signal Type option may be set incorrectly. Go to page 8 for

The channel may be blank. Try to search the channel again or change another channel. The sound is fine, but the picture is poor,

If you can only get black and white pictures from external device that you've connected to your TV, maybe it is due to the video cables is not connected well, or they are connected wrongly. Check the connection stability first, then check the correctness. For AV input, the yellow video cable connects to the yellow Video In jack on the side of your TV. For Component input, the three Y, Pb, Pr video cables (red, blue, and greer should be connect to the corresponding input jacks on the side of your TV Check the antenna connections. Make sure all of the cables are firmly connected to the TV jack on side of your TV. Try adjusting the color features to improve There is no sound, but the picture is fine

### ound might be muted. Try pressing the MUTE button to restore

For using AV or Component, remember to connect the device's left their colors. - The sound settings may not be set correctly. Go to page 9 for more information. If your audio source has only one jack or is a (mono) audio source, make

sure you have plugged the connection into the Audio In L jack (white) on

### The buttons on the side panel don't work. The side panel may be locked (disabled). Use the remote control to

turn on the TV. Select the Keypad Lock function in the PARENTAL control Menu and press OK to uncheck the locking status.
Unplug the TV from the AC power for 10 minutes and then plug it back.
Turn the TV on and try again.

The TV turns off unexpectedly.

The electronic protection circuit may have been activated because of a power surge. Wait 30 seconds and then turn the TV on again, If this happens frequently, the voltage in your house may be abnormal. If the other electronic equipment in your home can't work normally

consult a qualified service personnel. Can't select a certain channel. el may be blocked or not approved in the PARENTAL

ontrol Menu. The channel may be skipped in channel list in CHANNEL Menu. Check the blocking and skipping status of channel.

### The stereo sound performance is bad. It may be a weak station. Use the AUDIO Menu and set Analog Sound as Mono.

### A black box appears on the screen. Closed captioning might be on. Check Closed Caption in the SETUP menu. Go to page 10 for more instructions.

Problems with the HDMI Connection. Make sure the HDMI device (DVD, video gamer, etc.) is turned on and the cables are firmly connected. If problems still occur, turn off your device and reconnect it. Reset the power by unplugging the power cord and plugging it again.
If a "No Signal" message appears on screen , the HDMI device

isn't responding. Contact the manufacturer of the HDMI device

describes the items on the channel bar.

Noise Reduction Set noise reduction as Off/low/Medium/High.

Note: Noise reduction helps to reduce the picture "static" or any type of interference. This feature is especially useful for providing clearer picture in weak analog signal conditions. Dvnamic Contrast Set dynamic contrast Off/low/Medium/High.

### Video Style The Quick Menu contains menus and provides you a quick way to

If you connect the HDMI/DVI port of PC to HDMI lack of the TV and the video signal is 1080p, please choose the **compatible** ideo style: Video, Graphic.

MFC Effect (Motion Flow Compensation Effect)

Set MFC Effect as Off/Low/Medium/High.

MFC Effect technology removes drag from fast scenes with a t of movement to provide a smoother picture. Off switches

the MFC Effect of, High provides smoother effect, Low provides smooth effect, Medium sets MFC Effect to medium.

f you have black bars on each side of your picture (which means the TV can not display a full-screen image), the device you connected might have a switch or a menu option allowing you to change the picture quality output that will fix this. Choose either 720p or 1080i.

### The Remote control doesn't work.

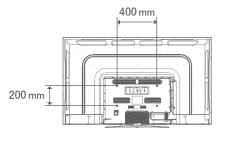

here may be an AC power failure or the power cord unplugged in Something might be blocking between the remote control and the remote sensor on the front panel of the TV. Make sure there is a clear path The remote may not be aimed directly at the TV. he batteries in the remote may be weak, dead, or installed incorrectly.

You are experiencing problems with V-Chip/Parental Controls. If the rating limits don't work, you must lock the settings. Go to the Main Menu (press MENU on your remote), select PARENTAL control to check the settings

### What else can I do?

If you've been through the Troubleshooting section and nothing has fixed your problem, try rebooting your TV. Note that after a reboot, you may need to run your TV through the setup process again. To reboot, unplud cord from the wall outlet or power strip. Keep your TV unplu for about 5 minutes. Then plug in the TV and turn it on. See if the proble is fixed. If the problem remains, then please visit the Customer Support Menu at www.rca.com or updated FAQs or contact RCA Customer Support at the support number provided in your Warranty card.

### Wall Mounting Unit Specification

LRK65G55R120Q	VESA 400 x 200	M6 screws, length 12mm
---------------	----------------	------------------------

A. The wall mount is not contained in the accessories sold with television. We only provide the installing specifications but not the wall mount itself. you need the mount, please consult with the local dealer for a VESA B. We strongly suggest to set the wall mount with equipments of

specification we ordered. If not, inappropriate installing may cause damage to device or people. C. We suggest that you keep your TV at least 2.36 inches(60mm) from the wall to prevent cable interference.

1. Do not set up the wall mount by yourself. Please contact 2. The TV should not be mounted on walls or surfaces which have an angle more than 10 degrees with vertical direction. Otherwise

the TV set may fall. 3. The walls for mounting must have enough strength to hold the whole weight of TV set. For example, concrete wall and brickwork are eligible. Do not place the mount on soft walls such as earth

 If spare parts of different specifications (such as screws) are used during mounting, consult with qualified professionals to make sure these parts are safe and effective.

5. Refore attaching the base to wall, ensure the holes for anchors. are in keeping with the installing rules. Otherwise there may exist some potential problems.

MFC Demo (Motion Flow Compensation Demo) Set MFC Demo On/Off. It shows the difference between MFC Effect on and off modes on the screen

The Audio Menu lets you adjust audio output.
