Side Panel Connections

Connecting AV Composite device (Good Video Quality)

Composite connector will be shared with Component Y connector. o connect a composite AV device, such as a DVD player, follow

1.Connect the COMPOSITE jack on the side of TV to the video output jacks of device via video cable (yellow 2. Connect the L-AUDIO-R lacks on the side of TV to the audio

output jacks of device via audio cable. Notice the left channel jack and plugs are white and the right channel jack and plugs are red.

Note: AV signal belongs to composite video. This kind of video signal has regular good display quality.

Composite Video Connection

The picture below is an example of a connection using the composite video jack.

Connecting HDMI device (Best Video Quality)

1. Connect the HDMI 2/DVI jack on the side of TV to the DVI port

of PC via HDMI-DVI cable.

output jack of computer with audio cable (dual-channel RCA jacks to 3,5mm stereo jack or the L-AUDIO-R jack). To connect an ARC HDMI OUT device, please connect to the HDMI input port of the device such as amplifier,

Note: 1. HDMI (High-Definition Multimedia Interface) is a comaudio/video interface for transmitting uncompressed digital data. It carries the audio and video signal via the same cable and has the

audio output to L-AUDIO-R lack on TV back panel.

Congratulations on your purchase! As you enjoy your new product, please keep these safety tips in mind:

Tune Into Safety

- One size does NOT fit all, follow the manufacturer's recommendation for the safe installation and use of your flat panel display.

- Carefully read and understand all enclosed instructions for proper use of this product.

- Don't allow children to climb on or play with furniture and television sets.

- Don't place flat panel displays on furniture that can easily be used as steps, such as a chest of drawers

 Remember that children can become excited while watching a program, especially on a "larger than life" flat panel display. Care should be taken to place or install the display where it cannot be pushed, pulled over, or knocked down.

 Care should be taken to route all cords and cables connected to the panel display so that they cannot be pulled or grabbed by curious children.

Wall Mounting: IF YOU DICIDE TO WALL MOUNT YOUR FLAT PANEL DISPLAY, ALWAYS:

- Use a mount that has been recommended by the display manufacturer and/or listed by an independent laboratory (such as UL,CSA,ETL).

- Follow all instructions supplied by the display and wall mount manufacturers.

- If you have any doubts about your ability to safely install your flat panel display, contact your retailer about professional installation.

unsure, contact a professional installer
