Safety Precautions

1. Read these instructions. 2. Keep these instructions.

3. Heed all warnings. 4, Follow all instructions.

5. Do not use this apparatus near water. For example, do not use near a laundry tub, in a wet basement, or near a swimming pool, and the like.

6. Clean only with dry cloth.

 $7.\,{\rm Do}$ not block any ventilation openings. Install in accordance with the manufacturer's instructions. Slots and openings in the cabinet back or bottom are provided for ventilation, to ensure reliable operation of the TV and to protect it from overheating. These openings must not be blocked or covered. The openings should never be blocked by placing the TV on a bed, sofa, rug, or other

8. Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat.

9. Do not defeat the safety purpose of the polarized or groundingtype plug. A polarized plug has two blades with one wider than the other. A grounding-type plug has two blades and a third grounding prong. The wide blade or the third prong is provided for your safety. If the provided plug does not fit into your outlet, consult an electrician for replacement of the obsolete outlet.

10. Protect the power cord from being walked on or pinched particularly at plugs, convenience receptacles, and the point where they exit from the apparatus.

11. Only use attachments/accessories specified by the

12. Use only with cart, stand, tripod, bracket, or table specified by the manufacturer, or sold with the apparatus.

When a cart is used, use caution when moving the cart/apparatus combination to avoid injury from tip-over. A TV and cart combination should be moved with care. Quick

stops, excessive force, and uneven surfaces may cause the TV and cart combination to overturn. 13. Unplug this apparatus during lightning storms or when unused

for long periods of time.

For added protection for this TV receiver during a lightning storm,

or when it is left unused for long periods of time, unplug it from the

wall outlet and disconnect antenna or cable system. This will prevent damage to the TV due to lightning and power line

14. Refer all servicing to qualified service personnel. Servicing is required when the apparatus has been damaged in any way, such as power-supply cord or plug is damaged, liquid has been spilled or objects have fallen into the apparatus, the apparatus has been exposed to rain or moisture, does not operate normally, or has

15. This TV should be operated only from the type of power supply indicated on the rating label.

been dropped.

If customer is not sure the type of power supply in your home, consult your appliance dealer or local power company. For TV remote control battery power, refer to the operating instructions.

16. The TV set shall not be exposed to dripping or splashing. No objects filled with liquids, such as vases, shall be placed on the TV set.

17. Never push objects of any kind into this TV through openings as they may touch dangerous voltage or other electrical parts that could result in fire or electric shock. Never spill liquid of any kind into

18. Unplug the TV from the wall outlet before cleaning. Do not use liquid or aero cleaners. Use a damp cloth for cleaning.

19. This TV should never be placed near or over a radiator or heat resource. This TV should not be placed in a built-in installation such as a bookcase or rack unless proper ventilation is provided or the manufacturer's instructions have been adhered to.

20. Do not place this TV on an unstable cart, stand, tripod, bracket, or table. The TV may fall, causing serious injury to someone, and serious damage to the appliance.

21. Do not attempt to service this TV by yourself because opening or removing covers may expose you to dangerous high voltage or other hazards. Refer all servicing to qualified service personnel.

22. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause

23. WARNING: To prevent injury, this apparatus must be securely attached to the floor/wall in accordance with the installation

24. To reduce the risk of electric shock, the grounding of center pin of plug must be maintained.

25. If an outside antenna or cable system is connected to the TV be sure the antenna or cable system is grounded to provide some protection against voltage surges and built-up static charges. Section 810 of the National Electrical Code, ANSI/NFPA NO.70, provides information with respect to proper grounding of the mast and supporting structure, grounding of the lead-in wire to an antenna discharge unit, size of grounding conductors, location of antenna discharge unit, connection to grounding electrodes, and requirements for the grounding electrodes. (See figure A)

Caution: Pushing, pulling or climbing on the TV may cause the TV falling. Do not let children climb or hang on the TV. Always place the TV on a sturdy, level, stable surface that can hold the weight of TV. (Note: The fastening components such as screws are not supplied

Step one: Insert the M6 mounting screws into the upper two wall mounting screw holes and fasten them (Figure B) Step two: Insert anchors to wall and connect the bolts and anchors with ropes or chains (Figure C).

Preparation for Your New TV

Before Turning On TV

Check Accessories Check the accessories that are packed with your TV. (refer to Quick Start Guide)

Setup TV Table Stand Please refer to Quick Start Guide to carry out stand installing.

Select TV Location Select a flat, stable table to place your TV set. Please follow the

safety instructions when placing the TV. Connection and Using

After placing your TV properly, you can connect the TV with power supply and cable components. For further information, see page 5

TV Signal Connection

The first step in connecting your TV is obtaining the signal. Your TV LRK32G45RQ has a back panel, which allows you to receive analog and/or digital television channels via ANT/CABLE jack. re connecting your TV, determine using an antenna or a cable

Connect the antenna to TV via coaxial cable on ANT/CABLE jack of the back panel. You are ready to receive air local digital and analog channels.

Connect the cable TV wall jack to TV via coaxial cable on ANT/CABLE jack of the back panel. You are ready to receive off-air local digital and analog channels.

C. Set-Top Box

If you use a set-top box, you may need to call your cable company or satellite service provider, which use a special connection, please refer to the user's guide of set-top box.

Note: Do not plug the AC cord until you have accomplished all the connections. This TV does not support QAM under cable channel

Cable Connections

TV LRK32G45RQ supports various connections to other devices such as DVD, VCR, Set-top box, etc.). Please follow the table to

Congratulations on your purchase! As you enjoy your new product, please keep these safety tips in mind:

The Issue

Child Safety Guide

The home theater entertainment experience is a growing trend and larger flat panel displays and popular purchases

However, flat panel displays are not always supported on the proper stands or installed according to the

Flat panel displays that are inappropriately situated on dressers, bookcases, shelves, desks, speakers, chests or cats may fall over and cause injury.

This Manufacturer Cares!

The consumer electronics industry is committed to naking home entertainment enjoyable and safe.

Tune Into Safety

- One size does NOT fit all, follow the manufacturer's recommendation for the safe installation and use of your flat panel display.

- Carefully read and understand all enclosed instructions for proper use of this product.

- Don't allow children to climb on or play with furniture and television sets.

- Don't place flat panel displays on furniture that can easily be used as steps, such as a chest of drawers.

 Remember that children can become excited while watching a program, especially on a "larger than life" flat panel display. Care should be taken to place or install the display where it cannot be pushed, pulled over, or

- Care should be taken to route all cords and cables connected to the panel display so that they cannot be pulled or grabbed by curious children.

Wall Mounting: IF YOU DICIDE TO WALL MOUNT YOUR FLAT PANEL DISPLAY, ALWAYS:

Use a mount that has been recommended by the display manufacturer and/or listed by an independent laboratory (such as UL, CSA, ETL).

- Follow all instructions supplied by the display and wall mount manufacturers.

- If you have any doubts about your ability to safely install your flat panel display, contact your retailer about

- Make sure that the wall where you are mounting the display is appropriate. Some block construction. If you are unsure, contact a professional installer. A minimum of two people are required for installation. Flat panel displays can be heavy.

Wall Mounting Unit Specification

.RK32G45RQ VESA 200 x 100 M6 screws, length 10mm A. The wall mount is not contained in the accessories sold with television. We only provide the installing specifications but not the wall mount itself.

you need the mount, please consult with the local dealer for a VESA B. We strongly suggest to set the wall mount with equipments of specification we ordered. If not, inappropriate installing may cause damage to device or people.

C. We suggest that you keep your TV at least 2.36 inches(60mm) from the wall to prevent cable interference.

1. Do not set up the wall mount by yourself. Please contact 2. The TV should not be mounted on walls or surfaces which have an angle more than 10 degrees with vertical direction. Otherwise

the TV set may fall. 3. The walls for mounting must have enough strength to hold the whole weight of TV set. For example, concrete wall and brickwork are eligible. Do not place the mount on soft walls such as earth

 If spare parts of different specifications (such as screws) are used during mounting, consult with qualified professionals to make sure these parts are safe and effective.

5. Before attaching the base to wall, ensure the holes for anchors are in keeping with the installing rules. Otherwise there may exist some potential problems.
