Important Warranty Information Regarding Television Format Viewing

See the warranty card for more information on warranty terms.

Wide screen format LED Displays (16:9, the aspect ratio of the screen width to height) are primarily designed to view wide screen format full-motion video. The images displayed on them should primarily be in the wide screen 16:9 ratio format, or expanded to fill the screen if your model offers this feature and the images are constantly moving. Displaying stationary graphics and images on screen, such as the dark sidebars on non- expanded standard format television video and programming, should be limited to no more than 5% of the total television viewing per week. Additionally, viewing other stationary images and text such as stock market reports, video game displays, station logos, web sites or computer graphics and patterns, should be limited as described above for all televisions. Displaying stationary images that exceed the above guidelines can cause uneven aging of LED Displays that leave subtle, but permanent burned-in ghost images in the LED picture. To avoid this, vary the programming and images, and primarily display full screen moving images, not stationary patterns or dark bars. On LED models that offer picture sizing features, use these controls to view different formats as a full screen picture. Be careful in the selection and duration of television formats you use for viewing. Uneven LED aging as a result of format selection and use, as well as burned-in images, are not covered by your Samsung limited warranty.

SAMSUNG ELECTRONICS NORTH AMERICAN LIMITED WARRANTY STATEMENT

Subject to the requirements, conditions, exclusions and limitations of the original Limited Warranty supplied with Samsung Electronics (SAMSUNG) products, and the requirements, conditions, exclusions and limitations contained herein, SAMSUNG will additionally provide Warranty Repair Service in the United States on SAMSUNG products purchased in Canada, and in Canada on SAMSUNG products purchased in the United States, for the warranty period originally specified, and to the Original Purchaser only. The above described warranty repairs must be performed by a SAMSUNG Authorized Service Center. Along with this Statement, the Original Limited Warranty Statement and a dated Bill of Sale as Proof of Purchase must be presented to the Service Center.

To add channels to the **Added Channels** list, follow these steps:

1. Select one or more channels in the **All Channels** list using the **▲/▼** buttons and the Yellow Select button on your remote.
2. Press the **TOOLS** button on your remote. The Tools menu appears.
3. Select **Add** in the Tools menu, and then press the **ENTER** button.
4. All deleted channels will be shown on the **All Channels** list. You add channels back to the **Added Channels** list on the **All Channels** list.
5. A gray-colored channel indicates the channel has been deleted from the **Added Channels** list.
6. The **Add** menu option only appears for deleted channels.

■ **Add to Favorite/Delete from Favorite:** Lets you add channels to and delete channels from your **Favorites** list.

To add channels to the **Favorites** list, follow these steps:

1. Select one or more channels in the **All Channels** list using the **▲/▼** buttons and the Yellow Select button on your remote.
2. Press the **TOOLS** button on your remote. The Tools menu appears.
3. Select **Add to Favorite** in the Tools menu, and then press the **ENTER** button.

To delete channels from the **Favorites** list, follow these steps:

1. Select one or more channels in the **Favorite** Channels list using the **▲/▼** buttons and the Yellow Select button on your remote.
2. Press the **TOOLS** button on your remote. The Tools menu appears.
3. Select **Delete from Favorite** in the Tools menu, and then press the **ENTER** button.

■ **Timer Viewing:** You can schedule a channel to be displayed automatically at a set time, even when you are watching another channel. You must set the current time first in the **Time > Clock** function to use **Time Viewing**.

To schedule a channel, follow these steps:

1. Select a channel in the **Added Channels** list using the **▲/▼** buttons and the Yellow Select button on your remote.
2. Press the **TOOLS** button on your remote. The Tools menu appears.
3. Select **Time Viewing** in the Tools menu, and then press the **ENTER** button. The Time Viewing screen appears.

4. Use the **◀/▶** buttons to move from entry field to entry field and the **▲/▼** buttons to change the entries. When numbers are displayed, you can also enter numbers directly using the number keypad on your remote.

- 5 -

The On Screen Menus

Your TV has two kinds of menus, the Main menu and the various Tools menus. The Main menu gives you access to most or all of the menu options available on your TV. The Tools menus display a selected number of frequently used menu options that change depending on the screen you are viewing. A Tools menu symbol () in the lower right side of the screen indicates that a Tools menu is available.

The Main menu has seven primary categories:

- **Picture**
 - **Input**
- **Sound**
 - **Application**
- **Channel**
 - **Support**
- **Setup**

To view the Main menu, press the **MENU** button on your remote. To view a Tools menu, press the **TOOLS** button on your remote.

The menu options that appear in the Main menu depend on the Source you have selected. For example, if you have selected the **HDMI** source, the Channel category will not appear. To see the Channel category, you must first select **TV** in the Source List.

The Menu options are presented below, arranged by Main menu categories. A Tools button symbol () next to an option name indicates the option is also available in one of the Tools menus.

Picture Menu

Mode ()

Select your preferred picture mode.

- When your TV is connected to a PC, you can only select **Entertain** and **Standard**.
- Dynamic:** Brightens the screen. Suitable for a bright room.
- Standard:** Suitable for a normal.
- Movie:** Darkens the screen, making it less glary. Suitable for watching movies in a darkened room.
- Entertain:** Sharpens the picture. Suitable for games.
- Only available when the TV is connected to a PC.

Backlight / Contrast / Brightness / Sharpness / Color / Tint (G/R)

- Backlight:** Adjusts the brightness of the screen by adjusting the brightness of the individual pixels.
- Contrast:** Increases or decreases the contrast between dark and light areas of the picture.
- Brightness:** Adjusts the brightness of the screen. Not as effective as **Backlight**.
- Sharpness:** Sharpens or dulls the edges of objects.
- Color:** Adjusts the color saturation. The higher the Color setting, the more intense the color. Low settings remove color and the picture becomes black, white and gray.
- Tint:** Adjusts the amount of green and red in the picture. As you increase the amount of green, the amount of red decreases and vice versa.
- When the TV is connected to a PC, you can only make changes to **Backlight**, **Contrast**, **Brightness**, and **Sharpness**.

- 6 -

Advanced Settings

Available in **Standard** and **Movie** mode only.

Compared to previous models, new Samsung TVs offer a more precise picture with more precise controls.

When your TV is connected to a PC, you can only make changes to **Gamma** and **White Balance**.

- Color Space (Auto / Native):** Auto automatically matches the range of colors available to create pictures to the color range of the video source. Native provides a color range wider than the color range of the video source.
- White Balance:** Adjusts the color temperature of the picture so that white objects look white (instead of, for example, slightly pink or slightly yellow) and the overall color of the picture looks natural.
- Offset / G-Offset / B-Offset:** Adjusts each color's (red, green, blue) darkness.
- R-Gain / G-Gain / B-Gain:** Adjusts each color's (red, green, blue) brightness.
- Reset:** Resets the **White Balance** to its default settings.

- Gamma:** Adjusts the primary color intensity.
- Dynamic Contrast (Off / Low / Medium / High):** Adjusts the screen contrast.
- Black Tone (Off / Dark / Darker / Darkest):** Selects the black level to adjust the screen depth. Darker settings make blacks look darker.
- Flesh Tone:** Adjusts the amount of red in skin tones.
- Motion Lighting (Off / On):** When on, the TV automatically adjusts the brightness of the screen in response to the brightness of the room. In bright light, the screen brightens. In dim light, the screen dims.
- Available in **Standard** mode only.

The Menu options are presented below, arranged by Main menu categories. A Tools button symbol () next to an option name indicates the option is also available in one of the Tools menus.

Picture Options

- When the TV is connected to a PC, you can only make changes to the **Color Tone**, **Size** and **HDMI Black Level**.
- Color Tone (Cool / Standard / Warm / Warm2):** Cool makes the picture bluer (cooler). Warm 1 and Warm 2 make the picture redder (warmer).
- Warm1** and **Warm2** are deactivated when the picture mode is set to **Dynamic**.
- Size:** Set the size and aspect ratio of the picture on the screen. Your cable box or satellite receiver may have its own set of screen sizes as well. However, we highly recommend you use the TV's 16:9 mode most of the time.
- 16:9:** Sets the picture to the 16:9 wide screen format.
- Zoom1:** Provides moderate magnification of the picture. Sides, top, and bottom are cut off.
- Zoom2:** Provides larger magnification of the picture. Sides, top, and bottom are cut off.
- Wide Fit:** Enlarges the aspect ratio of the picture so the picture fits the entire screen.
- 4:3:** Sets the picture to the old, 4:3 format and puts black or gray borders on the right and left of the picture.
- Do not watch your TV in the 4:3 format for a long time. Traces of borders displayed on the left, right and center of the screen may cause image retention (screen burn) which is not covered by the warranty.
- Screen Fit:** Displays the full image without any cut-off when your TV is inputting **HDMI (720p / 1080i / 1080p)** or Component (1080i / 1080p) HD signals.
- HD (High Definition)** has a 16:9 aspect ratio and 1080i/1080p (1920x1080 or 720 (1280x720) resolution

- You can adjust store settings for each external device you have connected to an input on the TV. Picture Sizes available by Input Source are listed below:
 - Available in **Standard** mode only.
 - Standard:** Selects the normal sound mode.
 - Music:** Emphasizes music over voices.
 - Movie:** Provides the best sound for movies.
 - Clear Voice:** Emphasizes voices over other sounds.
 - Amplify:** Increase the intensity of high-frequency sounds to allow a better listening experience for the hearing impaired.
- Equalizer**
 - Available in **Standard** sound mode only.
 - Balance L/R:** Adjusts the balance between the right and left speaker.
 - 100Hz / 300Hz / 1KHz / 3KHz / 10KHz (Bandwidth Adjustment):** Adjusts the loudness of specific bandwidth frequencies.
 - Reset:** Resets the equalizer to its default settings.

SRS TruSurround HD (On/Off)

Available in **Standard** sound mode only. SRS TruSurround HD is a patented SRS technology that solves the problem of playing 5.1 multichannel content through two speakers. TruSurround delivers a compelling, virtual surround sound experience through any two-speaker playback system, including internal television speakers. It is fully compatible with all multichannel formats.

Preferred Language

Digital-TV broadcasts can transmit many audio tracks simultaneously (for example, simultaneous translations of a program into foreign languages).

- You can only select a language from among the ones being broadcast.

- 7 -

Input Source

ATV, AV, Component (480i, 480p)

DTV (1080i, 1080p), Component (1080i, 1080p), HDMI (720p, 1080i, 1080p)

16:9, Zoom1, Zoom2, 4:3

16:9, Wide Fit, 4:3, Screen Fit

Digital Noise Filter (Off / Low / Medium / High / Auto): If the broadcast signal received by your TV is weak, you can activate the **Digital Noise Filter** feature to reduce any static and ghosting that may appear on the screen.

When the signal is weak, try all the **Digital Noise Filter** options until the TV displays the best picture.

HDMI Black Level (Normal / Low): For **HDMI** signals, select the black level to adjust the screen depth. Low make blacks look darker.

Available only in **HDMI** mode (RGB signals).

Film Mode (Off / Auto): Sets the TV to automatically sense and process film signals from all sources and adjusts the picture for optimum quality.

Available in **ATV**, **DTV** (interface), **AV**, **COMPONENT** (480i / 1080i) and **HDMI** (480i / 1080i).

LED Motion Plus (Off / On): Removes drag from fast scenes with a lot of movement to provide a clear picture.

Picture Reset

Picture Reset (Reset Picture Mode/Cancel): Resets the picture settings to their factory defaults.

Sound Menu

Mode ()

- Standard:** Selects the normal sound mode.
- Music:** Emphasizes music over voices.
- Movie:** Provides the best sound for movies.
- Clear Voice:** Emphasizes voices over other sounds.
- Amplify:** Increase the intensity of high-frequency sounds to allow a better listening experience for the hearing impaired.
- Equalizer**
 - Available in **Standard** sound mode only.
 - Balance L/R:** Adjusts the balance between the right and left speaker.
 - 100Hz / 300Hz / 1KHz / 3KHz / 10KHz (Bandwidth Adjustment):** Adjusts the loudness of specific bandwidth frequencies.
 - Reset:** Resets the equalizer to its default settings.

SRS TruSurround HD (On/Off)

Available in **Standard** sound mode only. SRS TruSurround HD is a patented SRS technology that solves the problem of playing 5.1 multichannel content through two speakers. TruSurround delivers a compelling, virtual surround sound experience through any two-speaker playback system, including internal television speakers. It is fully compatible with all multichannel formats.

Preferred Language

Digital-TV broadcasts can transmit many audio tracks simultaneously (for example, simultaneous translations of a program into foreign languages).

- You can only select a language from among the ones being broadcast.

- 8 -

Multi-Track Sound (MTS)

Analog channels only.

■ **Mono:** Select for channels that are broadcasting in mono or if you are having difficulty receiving a stereo signal.

■ **Stereo:** Select for channels that are broadcasting in stereo.

■ **SAP:** Select to listen to the Separate Audio Program, which is usually a foreign-language translation.

Depending on the program being broadcast, you can listen to **Mono**, **Stereo** or **SAP**.

Auto Volume

Because each station has its own broadcasting conditions, the volume may fluctuate each time you change the channel. This feature automatically adjusts the volume of a channel by lowering the sound output when the modulation signal is high or by raising the sound output when the modulation signal is low.

SPDIF Output

The SPDIF (Sony Philips Digital InterFace) outputs an uncompressed digital audio signal when you connect the digital audio jack on the back of the TV to a digital audio in jack on a receiver or home theater.

Audio Format (PCM/Dolby Digital): You can select the Digital Audio output (SPDIF) format. The available Digital Audio output format may differ depending on the input source.

By connecting the TV to a receiver or home theater with **Dolby Digital** and 5.1ch speakers and selecting **Dolby Digital**, you can maximize your interactive 3D sound experience.

Audio Delay: Lets you correct timing mismatches between the audio track and the video when you are watching the TV and listening to digital audio output from the TV through an external device such as an AV receiver. When you select **Audio Delay**, a slider appears. Use the left and right arrow buttons to adjust the slider. Press **ENTER** when done (0ms ~ 250ms).

Speaker Settings

■ **Speaker Select (External Speaker / TV Speaker)**

If you are listening to the sound track of a broadcast or movie through an external receiver, you may hear a sound echo caused by the difference in decoding speed between the TV's speakers and the speakers attached to your audio receiver. If this occurs, set the TV to **External Speaker**.

When you set **Speaker Select to External Speaker**, the TV's speakers are turned off. You will hear sound through the external speakers only. When you set **Speaker Select to TV Speaker** both the TV's speakers and the external speakers are on. You will hear sound through both.

When **Speaker Select** is set to **External Speaker**, the **VOLUME** and **MUTE** buttons will not operate and the sound settings will be limited.

If there is no video signal, both the TV's speakers and the external speakers will be mute.

Sound Reset

■ **Reset All:** Resets all sound settings to the factory defaults.

- 9 -

Channel Menu

- 10 -

Memorizing Channels

When you first set up your TV using **Plug & Play**, the TV memorized the channels that were available over the air or through your cable system and added them to the **Channel List**. The **Antenna** and **Auto program** functions described below let you re-run the channel memorization function without having to re-run the **Plug & Play** procedure.

Antenna (Air / Cable)

Before your television can memorize the available channels, you must select your TV's signal source, **Air** (using an antenna) or **Cable**. Select **Menu > Channel > Antenna > Air** or **Cable**. After you have selected the signal source, go on to the **Auto Program** function.

Selecting the signal source using the **Antenna** function also determines the signal source the TV is tuned to. For example, if you receive your TV signal over the air, and you select **Cable**, you will see only snow. You must select **Air** to see a picture.

Auto Program

The **Auto Program** function memorizes all channels that are available over the air or through your cable system and adds them to the **Channel List**.

To start **Auto Program**, follow these steps:

1. Push **MENU** → **Channel** → **Auto Program** → **ENTER** on your remote. The Antenna Source screen appears.
2. On the Antenna Source screen, select the source of your TV signal.

Air

If your TV is connected to an antenna choose **Air**, and then press **ENTER**. The TV will automatically start memorizing channels.

Cable

If your TV is connected to a cable outlet, choose **Cable**, and then press **ENTER**. Go to Step 3.

Auto

If you choose **Auto**, and then press **ENTER**, the TV will automatically select the correct Antenna source. Go to Step 3.

3. On the Cable Type screen, use the **◀/▶/▲/▼** buttons to select the type of digital and analog cable systems you have: **STD**, **HRC**, or **IRC**. Most systems are **STD** (Standard). When done, select **Start**, and then press **ENTER**. The TV will start memorizing channels.

Channel memorization can take up to 45 minutes, depending on your cable system.

Memorized channels are added to the **Added Channels** list. These are the channels you will see when you use the Channel buttons on your remote.

Clear Scrambled Channel

This function filters out scrambled channels after **Auto Program** is completed. This process may take up to 20-30 minutes.

Press the **ENTER** button to stop the **Clear Scrambled Channel**.

This function is only available in **Cable** mode.

- 11 -

Managing Channels

Channel List

See your list of **Added** channels, **Favorite** channels, or channels you've scheduled for viewing. Add or delete **Favorite** channels, add or delete channels from the **Added Channels** list, schedule channels or programs for viewing. Watch a channel by selecting the channel in the **All Channels**, **Added Channels**, or **Favorite** screen, pressing the **▲/▼** buttons, and then pressing the **ENTER** button.

Channel List Screens icons are listed on the left side. Select an icon using the ▲/▼ buttons to view each list.

- **All Channels:** Shows all currently available channels including those you deleted from the **Added Channels** list.
- **Added Channels:** Shows all **Added Channels**. These are the channels that appear when you press the **CH** button.
- **Favorite:** Shows all favorite channels.
- **Programmed:** Shows all channels and programs currently scheduled using **Timer Viewing**.

Remote control buttons active on the **Channel List** screen.

- **Green (Zoom):** Enlarges or shrinks a channel number.
- **Yellow (Select):** Move the cursor to a channel. Press the Yellow button to select the channel. A ✓ mark appears. Repeat to select additional channels. Then, open the Tools menu and apply a function to the channels you selected.
- **Tools (Tools):** Displays the **Channel List Tools** menu. (The Tools menu may differ depending on the situation.)

Display Icons Used in the Channel List Screens

Icons	Meaning
	A selected channel.
	A Favorite channel.
	A reserved program.
	A program currently being broadcast.

- 12 -

The Channel List Tools Menu ()

The Channel List Tools menu contains most of the functions you can use on the **All Channel**, **Added Channels**, and **Favorite List** screens. To view, select a list screen, select a channel, and then press the **TOOLS** button.

■ **Add / Delete:** Delete a channel from or add a channel to the **Added Channels** list.

To delete channels from the **Added Channels** list, follow these steps:

1. Select one or more channels in the **Added Channels** list using the **▲/▼** buttons and the Yellow Select button on your remote.
2. Press the **TOOLS** button on your remote. The Tools menu appears.
3. Select **Delete** in the Tools menu, and then press the **ENTER** button.

- 13 -

■ **Information:** Display the information for a show or channel you have scheduled. You can also change the schedule information.

1. Select the **Programmed List** icon on the left side of the **Channel List** screen, and then press the **ENTER** button.
2. On the **Programmed List** screen, select the show or channel entry you want information for, and then press the **TOOLS** button. The Tools Menu appears.
3. Select **Information**, and then press the **ENTER** button. The **Time Viewing** information screen appears.
4. Select **Change Info** and press the **ENTER** button to change information, or select **Close** and press the **ENTER** button to close the Information screen.

■ **Select All / Deselect All:** You can select or deselect all channels in the channel list.

Other Channel Menu Functions

Channel Mode (Added Channels/Favorite Channels)

L

- Before connecting your device to the TV, please back up your files to prevent them from damage or loss of data. SAMSUNG is not responsible for any data file damage or data loss.
- A USB device that requires high power (more than 0.5A) may not be supported.
- Do not disconnect the USB device while it is loading.
- The higher the resolution of the image, the longer it takes to display on the screen.
- The maximum supported JPEG resolution is 15360 x 8640 pixels.
- If a file is corrupted or the TV does not support the file type, the "Not Supported File Format" message appears.
- The TV cannot play MP3 files with DRM that have been downloaded from a for-pay site. Digital Rights Management (DRM) is a technology that supports the creation, distribution, and management of digital content in an integrated and comprehensive way, including protecting the rights and interests of content providers, preventing illegal copying of contents, and managing billing and settlements.
- PTP devices are not supported.
- If an over-power warning message is displayed while you are connecting or using a USB device, the device may not be recognized or may malfunction.
- If the TV has no input during the time period set in **Auto Protection Time**, the Screensaver will run.

Videos

- In the **Media Play** menu, press the ◀ or ▶ button to select **Videos**, and then press the ENTER button.
- Press the ◀▶/▲▼ buttons to select a video in the file list.
- Press the ENTER button or ▶ (Play) button.
 - The file name is displayed on the top of the screen with the playing time.
 - If video time information is unknown, playing time and the progress bar are not displayed.
 - During video playback, you can search using the ◀ and ▶ buttons.

In this mode, you can play movie clips contained in a game, but you cannot play the game itself.

Other Restrictions

- Video content will not play, or not play correctly, if there is an error in the content or the container.
- Sound or video may not work if the contents have a standard bit rate/frame rate above the compatible Frame/sec listed in the Supported Video Formats table.
- If the Index Table erroneous, the Seek (Jump) function is not supported.
- The menu may take longer to appear if the video's bit rate exceeds 10Mbps.
- Video content can not be played if there are many contents in one file.

Video Decoder

Supports up to H.264, Level 4.1
H.264 PMP / ASC / RS, VC1 SP / MP / AP L4 and AVCHD are not supported.

MPEG4 SP, ASP :

- Below 1280 x 720: 60 frame max
 - Above 1280 x 720: 30 frame max
- H.263 is not supported.
GMC is not supported.

Audio Decoder

Supports up to WMA7, 8, 9 STD, 9 PRO, 10 PRO

WMA 9 PRO and WMA 10 PRO support 5.1 channel. (LBR mode of WMA Pro is not supported)

WMA Lossless is not supported.

Music

- In the **Media Play** menu, press the ◀ or ▶ button to select **Music**, and then press the ENTER button.
 - Press the ◀▶/▲▼ buttons to select the desired Music in the file list.
 - Press the ENTER button or ▶ (Play) button.
 - During music playback, you can search using the ◀ and ▶ button.
 - ⏮ (REW) and ⏭ (FF) buttons do not function during play.
- Media Play only displays files with MP3 and PCM file extension. Other file extensions are not displayed, even if they are saved on the same USB device.
- If the sound is abnormal when playing MP3 files, adjust the **Equalizer** in the **Sound menu**. (An over-modulated MP3 file may cause a sound problem.)

Photos

- In the **Media Play** menu, press the ◀ or ▶ button to select **Photos**, then press the ENTER button.
- Press the ◀▶/▲▼ buttons to select a photo in the file list.
- Press the ENTER button or ▶ (Play) button.

NOTE

- While a photo list is displayed, press the ▶ (Play) / ENTER button on the remote control to start a slide show.
- All files in the file list section will be displayed in the slide show.
- During the slide show, files are displayed in order.
- During the slide show, you can adjust the slide show speed using ⏮ (REW) or ⏭ (FF) button.
- You can move to other files using ◀ or ▶ button.

Media Play can play Music files automatically during a Slide Show if **Background Music** is set to **On**.

You cannot change the **Mode** in **Background Music** until the Background Music file has finished loading.

Supported Photo Formats

Image	Photo	Resolution
JPEG	Base-line	15360 x 8704
	Progressive	1024 x 768

Other Restrictions

- CMYK, YOCK Color space JPEG are not supported.

Playing Multiple Files

■ Playing selected video/music/photo files

- On the File List screen, highlight a file, and then press the Yellow button on your remote.
- Repeat Step 1 to select multiple files.
 - NOTE**
 - A √ mark appears to the left of the selected files.
 - To cancel a selection, press the Yellow button again.
 - To deselect all selected files, press the TOOLS button, select **Deselect All**, and then the ENTER button.
- Press the TOOLS button, select **Play Selected Contents**, and then press the ENTER button.
 - Playing a video/music/photo folder**
 - With the folders on your USB device displayed, use the ◀▶/▲▼ buttons to highlight a folder.
 - Press the TOOLS button, select **Play Folder**, and then press the ENTER button.

Using the Setup Menu

- DivX® Video On Demand** : Shows the registration code authorized for the TV. If you connect to the DivX web site and register with the 10-digit registration code, you can download the VOD activation file. Once you play it using Media Play, the registration is completed.
- For more information on DivX® VOD, visit "http://vod.divx.com".

- Information**: Select to view information about the connected USB device.

Other Information

Installing the Wall Mount Kit

The wall mount kit (sold separately) allows you to mount the TV on the wall.

For detailed information about installing the wall mount, see the instructions provided with the wall mount items. Contact a technician for assistance when installing the wall mount bracket. Samsung Electronics is not responsible for any damage to the product or injury to yourself or others if you elect to install the wall mount on your own.

Wall Mount Kit Specifications (VESA)

The wall mount kit is not supplied, but sold separately.

Install your wall mount on a solid wall perpendicular to the floor. When attaching to other building materials, please contact your nearest dealer. If you install the TV on a ceiling or slanted wall, it may fall and result in severe personal injury.

Storage and Maintenance

- If a sticker was attached to the TV screen, some debris can remain after you remove the sticker. Please clean it before watching the TV.
- The exterior and screen of the product can get scratched during cleaning. Be sure to wipe the exterior and screen carefully using a soft cloth to prevent scratches.

Kensington Lock

The Kensington Lock is not supplied by Samsung. It is a device used to physically fix the system when using it in a public place. Refer to the manual provided with the Kensington Lock for additional information on proper use.

- Please find a icon on the rear of the TV. The Kensington slot is beside the icon.
- The position and color may differ depending on the model.

Assembling the Cable manager

Product Family	TV size in inches	VESA screw hole specs (A * B) in millimeters	Standard Screw	Quantity
LED-TV	19-22	75 X 75	M4	4
	26	100 X 100	M4	
	32-40	200 X 200	M6	
	46-60	400 X 400	M6	

Caution: Pulling, pushing, or climbing onto the TV may cause the TV to fall. In particular, ensure that your children do not hang over or destabilize the TV, doing so may cause the TV to tip over, resulting in serious injuries or death. Follow all safety precautions provided on the included Safety Flyer. For added stability, install the anti-fall device for safety purposes, as follows.

To prevent the TV from falling

- Before the necessary brackets, screws, and string or cable are not supplied, please purchase these separately.
- Insert the screws into the wall brackets and firmly fasten them to the wall. Make sure the screws are firmly fixed to the wall. We strongly recommend you drive the screws into a stud.
- Using screws, insert the screws through the TV brackets, and then fasten the screws to the top VESA screw holes on the back of the TV.
- Connect the brackets on the TV and the brackets on the wall with a strong string or cable, and then tie the string or cable tightly to the brackets.
- Verify all connections are properly secured. Periodically check the connections for any sign of fatigue or failure. If you have any doubt about the security of your connections, contact a professional installer.
- Install the TV close to the wall so that it does not fall.
- Connect the string or cable so that the brackets on the wall are at the same height or lower than the brackets on the TV. Untie the string or cable before moving the TV.
- To purchase a TV Holder kit, contact Samsung customer care.
