1
Clean the floor where you intend to install the pedestal, then move the pedestal near where you intend to install it. Make sure to leave yourself space at all four corners so you can access the legs underneath.
Limpie bien el suelo donde vaya a instalar el pedestal y a continuación deposite éste cerca de su lugar de instalación. Deje suficiente espacio en cada una de las cuatro esquinas para que pueda acceder fácilmente a las patas de la parte inferior.
Nettoyez le sol là où vous prévoyez d'installer le socle, puis déplacez le socle à proximité de cet emplacement. Assurez-vous de laisser un espace suffisant aux quatre coins pour pouvoir accéder aux pieds.

2
Level the pedestal with a wrench, adjusting all four legs as necessary. Use a level to make sure that the pedestal is level side to side and back to front. Do not tighten the locknuts above the feet at this time.
Nivele el pedestal con una llave inglesa ajustando las cuatro patas según sea necesario. Use un nivel para que el pedestal esté nivelado de lado a lado y de adelante atrás. No apriete aún la contratuerca que está encima de las patas.
Mettez le socle de niveau avec une clé anglaise en ajustant les quatre pieds. Utilisez un niveau pour vous assurer que le socle est de niveau aussi bien entre les côtés droit et gauche qu'entre l'avant et l'arrière. À ce stade, ne serrez pas les contre-écrous situés au-dessus des pieds.

3
Turn the feet of the washer or dryer so that the feet are as close to the body of the washer or dryer as possible, then lock them in place. Place the washer or dryer onto the pedestal so that the feet rest properly in the clamps. See 3-a for the correct placement of the dryer and 3-b for the washer.
Gire las patas de la lavadora o la secadora de modo que queden lo más cerca posible de la lavadora o la secadora y, a continuación, asegúrelas en su lugar. Coloque la lavadora o la secadora sobre el pedestal de modo que las patas descansen adecuadamente en las abrazaderas. Vea 3-a para la correcta instalación de la secadora y 3-b para la lavadora.
Tournez les pieds du lave-linge ou du sèche-linge afin que ceux-ci soient aussi près que possible du corps du lave-linge ou du sèche-linge, puis verrouillez-les. Placez le lave-linge ou le sèche-linge sur le socle de manière que les pieds reposent correctement dans les colliers. Reportez-vous à 3-a pour le placement correct du sèche-linge et 3-b pour le lave-linge.

⚠ Caution / Atención / Attention

To prevent a fall, use caution when mounting the washer or dryer on top of the pedestal.

Para evitar una caída, tenga cuidado al instalar la lavadora o la secadora en el pedestal.

Pour éviter toute chute, soyez attentifs lors du montage du lave-linge ou du sèche-linge sur le dessus du socle.

3-a
Place the feet of the dryer in the inner circle of the safe landing grooves on the pedestal. The location of the safe landing groove for the dryer is highlighted above.

Coloque las patas de la secadora en el círculo interior de las ranuras de posición segura del pedestal. La ubicación de las ranuras de posición segura de la secadora se destaca en la ilustración superior.

Placez les pieds du sèche-linge dans le cercle intérieur des rainures du socle. L'emplacement de la rainure pour le sèche-linge est signalé ci-dessus.

3-b
Place the feet of the washer in the outer circle of the safe landing grooves on the pedestal. The location of the safe landing groove for the washer is highlighted above.

Coloque las patas de la lavadora en el círculo exterior de las ranuras de posición segura del pedestal. La ubicación de las ranuras de posición segura de la lavadora se destaca en la ilustración superior.

Placez les pieds du lave-linge dans le cercle extérieur des rainures du socle. L'emplacement de la rainure pour le lave-linge est signalé ci-dessus.

4
Attach a bracket leg to each foot of the washer or dryer on the pedestal, and then secure it with 4x12 screws (A). **Important:** All feet must be fixed.

Inserte un soporte para patas en cada pie de la lavadora o secadora sobre el pedestal, y luego ajústelo usando tornillos 4x12 (A). **Importante:** Todos los pies deben estar fijos.

Installez un support de pied sur chaque pied du lave-linge ou sèche-linge placé sur le socle, puis fixez-le en place à l'aide de 4 x 12 vis (A). **Important :** tous les pieds doivent être fixés.

Remove the Shipping bolts from the washing machine.
Retire los tornillos de transporte de la lavadora.
Retirez les vis de transport du lave-linge.

Move the assembled units to their final installation site.
Transporte las unidades ensambladas a su lugar de instalación definitivo.
Déplacez les appareils assemblés à leur emplacement d'installation finale.

Using a level, make sure the units are level side to side and front to back. Do additional leveling as needed. Proper leveling keeps vibration at a minimum.
Con un nivel, compruebe si las unidades están niveladas de lado a lado y de adelante atrás. Realice la nivelación adicional necesaria. Una nivelación correcta reduce la vibración al mínimo.
Assurez-vous que les appareils sont de niveau de droite à gauche et de l'avant à l'arrière à l'aide d'un niveau. Réglez à nouveau le niveau si nécessaire. Une bonne mise de niveau permet de maintenir les vibrations au minimum.

After the washer is fully installed, run a spin test. To run a spin test, put a small load into the washer, wet the clothes, and then select Spin Only mode. If there is too much vibration, repeat Step 10.

Cuando la lavadora esté totalmente instalada, realice una prueba de centrifugado. Para realizar una prueba de centrifugado, ponga una pequeña carga de ropa en la lavadora, mójela y seleccione el modo Spin Only (Sólo centrifugado). Si hay demasiadas vibraciones, repita el paso 10.

Une fois l'installation du lave-linge terminée, lancez un test d'essorage. Pour effectuer un test d'essorage, déposez une faible charge dans le lave-linge, mouillez les vêtements et sélectionnez le mode Essorage seulement. Si les vibrations sont trop importantes, répétez l'étape 10.

Once the washer is stabilized and does not vibrate, tighten the lock nuts on each leg of the pedestal using a flat head screwdriver.

Cuando la lavadora esté estabilizada y no vibre, apriete las tuercas de seguridad de cada pata del pedestal mediante un destornillador plano.

Une fois que le lave-linge est stabilisé et ne vibre pas, serrez les contre-écrous sur chaque pied du socle à l'aide d'un tournevis plat.

When you install the pedestal on smooth floors such as tiles:

- Peel out the double-face tape. Attach it under the all legs.

Lorsque vous posez le socle sur des sols mous tels que des moquettes :

- Décollez la bande autocollante double face. Collez-la sous tous les pieds.

Al instalar el pedestal en superficies lisas revestidas:

- Pele una cinta de doble cara. Péguela bajo todas las patas.

Put the legs on the same floor panels and keep them away from the floor lines.
Ponga las patas sobre los mismos paneles del suelo y apártelas de las líneas del suelo.
Placez les pieds sur les mêmes lames et éloignez-les des joints du plancher.
