INTRODUCTION

Your router accessory has many features for making routing operations more pleasant and enjoyable. Safety, performance and dependability have been given top priority in the design of this product, making it easy to maintain and operate.

 **WARNING:** Do not attempt to use this product until you thoroughly read and completely understand the operator's manual. Pay close attention to the safety rules, including Dangers, Warnings, and Cautions. If you use this product properly and only as intended, you will enjoy years of safe, reliable service.

 Look for this symbol to point out important safety precautions. It means attention!!! Your safety is involved.

 **WARNING:**

The operation of any tool can result in foreign objects being thrown into your eyes, which can result in severe eye damage. Before beginning operation, always wear safety goggles or safety glasses with side shields and a full face shield when needed. We recommend Wide Vision Safety Mask for use over eyeglasses or standard safety glasses with side shields. Always wear eye protection which is marked to comply with ANSI Z87.1.

SAFETY RULES

READ ALL INSTRUCTIONS

- **Read these instructions and the instructions for the router motor thoroughly** before using this accessory.
- **Know your power tool.** Read the operator's manual for the router motor carefully. Learn the router's applications and limitations as well as the specific potential hazards related to this tool.
- **Keep the work area clean and well lit.** Cluttered benches and dark areas invite accidents.
- **Always wear safety glasses with side shields.** Everyday eyeglasses have only impact-resistant lenses; they are NOT safety glasses.
- **Disconnect the plug from power source before making any adjustments, changing accessories, or storing the tool.** Such preventive safety measures reduce the risk of starting the tool accidentally.
- **Do not use this product with other equipment** or for other purposes.
- **Save these instructions.** Refer to them frequently and use them to instruct other users. If you loan someone this product, also loan these instructions.

The purpose of safety symbols is to attract your attention to possible dangers. The safety symbols, and the explanations with them, deserve your careful attention and understanding. The safety warnings do not by themselves eliminate any danger. The instructions or warnings they give are not substitutes for proper accident prevention measures.

SYMBOL MEANING

DANGER: Indicates an imminently hazardous situation, which, if not avoided, will result in death or serious injury.

WARNING: Indicates a potentially hazardous situation, which, if not avoided, could result in serious injury.

CAUTION: Indicates a potentially hazardous situation, which, if not avoided, may result in minor or moderate injury. It may also be used to alert against unsafe practices that may cause property damage.

Important: Advises you of important information or instructions vital to the operation or maintenance of the equipment.

Note: Advises you of additional information concerning the operation or maintenance of the equipment.

UNPACKING

INSTRUCTIONS

- Carefully remove the accessory from the box.
- Make sure that all items listed in the packing list are included.
- Inspect the accessory carefully to be sure no breakage or damage occurred during shipping.
- Do not discard the packing material until you have carefully inspected and satisfactorily operated the tool with the accessory.
- If any parts are damaged or missing, please call 1-800-932-3188 for assistance.

PACKING LIST

Plunge Base
Vacuum Attachment
Screws (2)
Operator's Manual

WARNING: If any parts are missing, do not operate your tool until the missing parts are replaced. Failure to do so could result in serious personal injury.

FEATURES

Before using the router, familiarize yourself with all operating features and safety requirements. However, do not let familiarity with the tool make you careless.

⚠ WARNING: Exercise caution when using the router. Careless actions, for even a fraction of a second, can result in serious personal injury.

Your new router accessory is equipped with the following features. See *Figure 1*.

STOP BAR AND DEPTH INDICATOR

The stop bar and depth indicator allow you to adjust the depth of cut.

LOCKING KNOB

The locking knob secures the motor housing for the plunge base.

VACUUM ATTACHMENT

The vacuum attachment allows you to connect to a 1-1/4 in. diameter dust collection hose to help keep the work area clean.

ERGONOMIC DESIGN

The design of the router base provides for easy handling. It is designed for comfort and ease of grasp when operating in different positions and at different angles.

Fig. 1

ASSEMBLY

- ▲ **WARNING:** The router should never be connected to a power supply when you are assembling parts, making adjustments, cleaning, performing maintenance, or when the tool is not in use. Disconnecting the tool prevents accidental starting that could cause serious injury.

INSTALLING THE VACUUM ATTACHMENT

See Figure 2.

Follow these steps to install the vacuum attachment.

1. Unplug the router.

- ▲ **WARNING:** Failure to unplug the tool could result in serious injury due to accidental starting.

2. Place the vacuum attachment on the base as shown.
3. Secure the attachment with the screws provided.

Fig. 2

INSTALLING THE ROUTER MOTOR IN THE BASE

See Figure 3.

Follow these steps to install the router motor in the base.

1. Unplug the router.

- ▲ **WARNING:** Failure to unplug the tool could result in serious injury due to accidental starting.

2. Place the base on a flat surface.
3. Loosen the locking knob.

- ▲ **CAUTION:** Do not tighten the locking knob without the motor installed in the base. Failure to heed this caution may result in permanent damage to the locking mechanism.

4. Align the slot on the motor housing with the groove on the base.
5. Depress and hold the spindle lock button.
6. Slide the motor housing into the base.
7. Tighten the locking knob.
