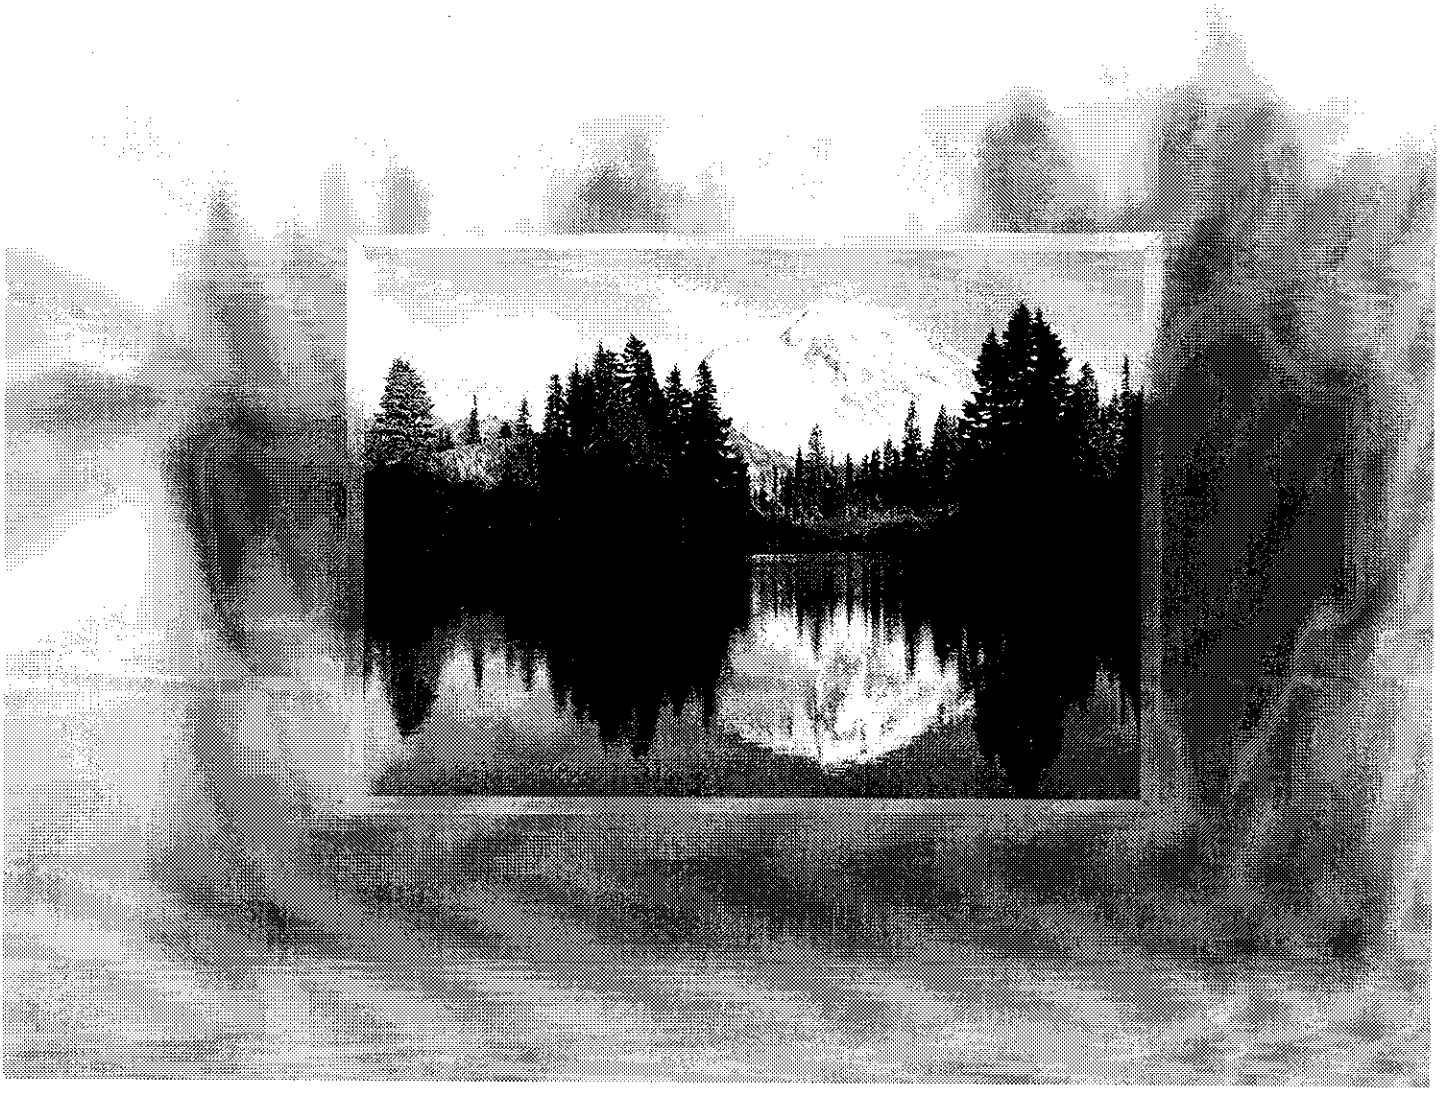
PLASMA DISPLAY

Owner's Instructions

SPP4231



Important Warranty Information Regarding Television Format Viewing

Wide screen format PDP Displays (16:9,the aspect ratio of the screen width to height) are primarily designed to view wide screen format full-motion video. The images displayed on them should primarily be in the wide screen 16:9 ratio format,or expanded to fill the screen if your model offers this feature and the images are constantly moving. Displaying stationary graphics and images on screen, such as the dark side-bars on nonexpanded standard format television video and programming, should be limited to no more than 5% of the total television viewing per week.

Additionally,viewing other stationary images and text such as stock market reports, video game displays,station logos,web sites or computer graphics and patterns,should be limited as described above for all televisions. ***Displaying stationary images that exceed the above guidelines can cause uneven aging of PDP Displays that leave subtle,but permanent burned-in ghost images in the PDP picture. To avoid this,vary the programming and images, and primarily display full screen moving images,not stationary patterns or dark bars.*** On PDP models that offer picture sizing features,use these controls to view different formats as a full screen picture.

Be careful in the selection and duration of television formats used for viewing. Uneven PDP aging as a result of format selection and use,as well as burned-in images, are not covered by your Samsung limited warranty.

User Instructions

Screen Image retention

Do not display a still image (such as on a video game or when hooking up a PC to this PDP) on the plasma display panel for more than several minutes as it can cause screen image retention. This image retention is also known as "screen burn". To avoid such image retention, refer to page 40 of this manual to reduce the degree of brightness and contrast of this screen when displaying a still image.

Cell Defect

The plasma display panel consists of fine cells. Although the panels are produced with more than 99.9 percent active cells, there may be some cells that do not produce light or remain lit.

Altitude

The PDP will not operate normally at altitudes above 6500 ft.

Warranty

Warranty does not cover any damage caused by image retention.
Burn-in is not covered by the warranty.

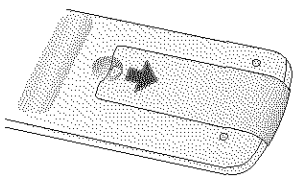
㉑ CAPTION button
Controls the caption decoder.

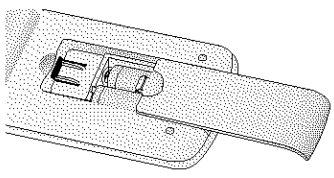
㉒ MTS button
Press to choose stereo, mono or Separate Audio Program (SAP broadcast).

Installing the Batteries in Your Remote Control

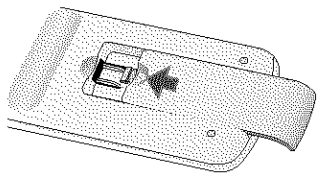
1 Slide the back cover to open the battery compartment of the remote control.



2 Install two AAA size batteries. Make sure to match the "+" and "-" ends of the batteries with the diagram inside the compartment.



3 Slide the cover back into place.



Remote Control Operation Range.
You can use your remote control within a distance of 23 feet and an angle of 30 degrees from the left and right sides of the PDP's remote control receiver.

Wall Installation Instructions

Installation Notes

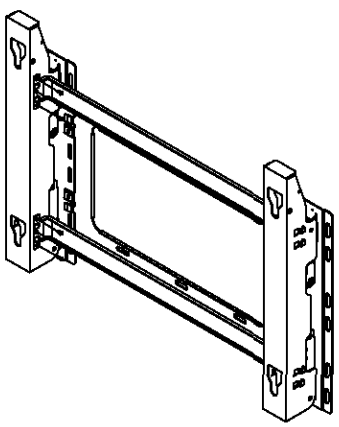
1. Do not install the PDP on any location other than a vertical wall.

2. To protect the performance of the PDP and prevent problems, avoid the following locations:
   - Do not install next to smoke and fire detectors.
   - Do not install in an area subjected to vibration or high voltage.
   - Do not install near or around any heating apparatus.

3. Use only recommended parts and components.

Parts (Wall attachment panel is sold separately. Check with your dealer)

Wall Mount Bracket

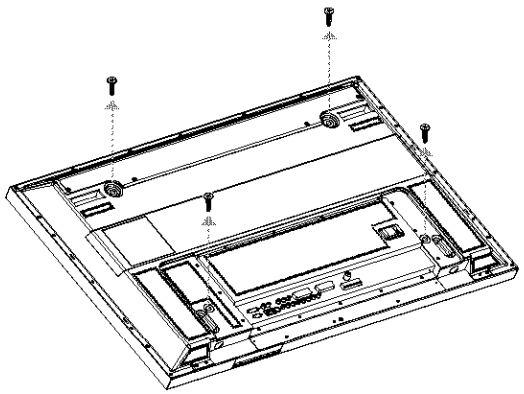


Insulation Holder ; 4 EA

Screws ; 4 EA

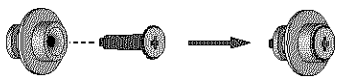
Fixing the PDP panel to the wall attachment panel bracket

1 Remove the screws from the back of the PDP.

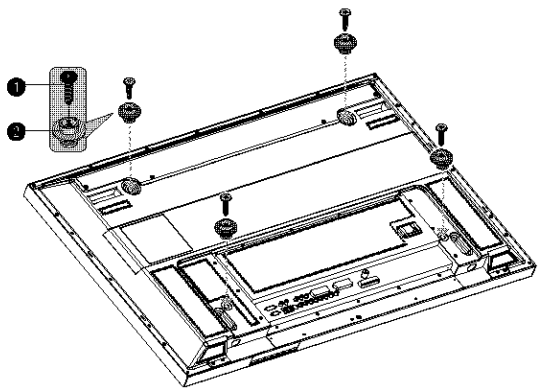


2 Connect insulation holders to screws (see the illustration below).

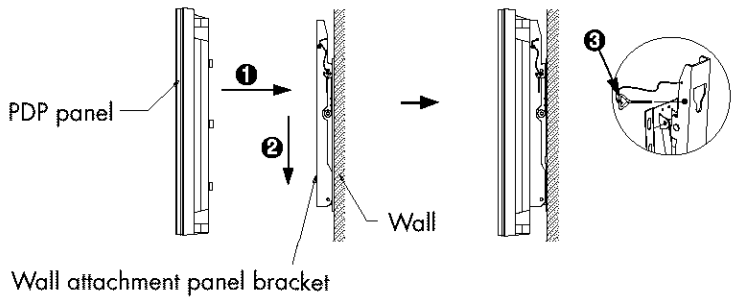
- If you are uncertain about installation, hire a specialist to install the wall mount bracket.
- Be sure to check that the insulation holders are completely secured on both the left and right side after hanging the PDP on the wall mount bracket.
- Be careful to avoid getting your fingers caught during installation.
- Make sure the wall attahcment panels are tightened. Otherwise the PDP may fall



3 Tighten the screws of the insulation holders to the back of the PDP .



4 Put the 4 insulation holders on the PDP in the grooves of the wall mount bracket and *pull down on the PDP (❶) to secure it to the wall mount bracket (❷).*
Tighten the screws as shown (❸) so that the PDP cannot be separated from wall mount bracket.



Connecting External Devices to the PDP

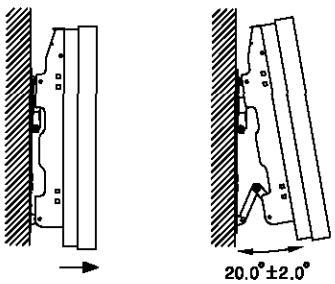
To connect external devices such as a DVD or a Home Theater System to the PDP, please refer to following instructions:

1 Be sure to remove the safety pins underneath the PDP.

- If the safety pins are not removed, the angle cannot be adjusted. Any attempt to do so may cause damage to the PDP.

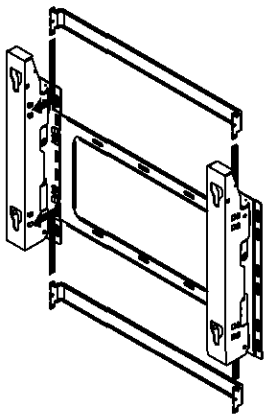
2 Pull out the bottom of the PDP (which has been attached to the Wall Mount Bracket) in the direction indicated by the arrows (refer to the illustration) until it clicks.

- Using the PDP After Connecting External Devices.
  Be sure to secure the PDP by inserting the 2 locking pins after readjusting the angle of the PDP to 0°.
- For safety, be sure to secure the PDP using the locking pins.
  If the safety pins are not used, the PDP may fall, causing serious injury.



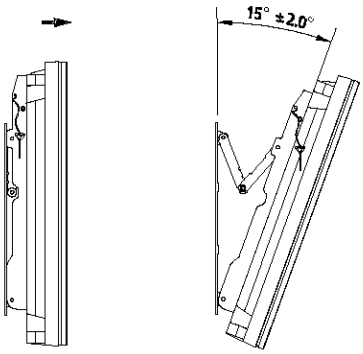
How to Adjust Mounting Angle

Factory default



The wall mount bracket is delivered separately. Please tighten the captive screw in the direction of the arrow after assembling the bracket.

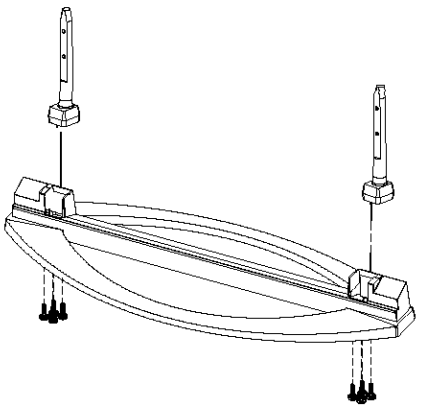
Changing the angle



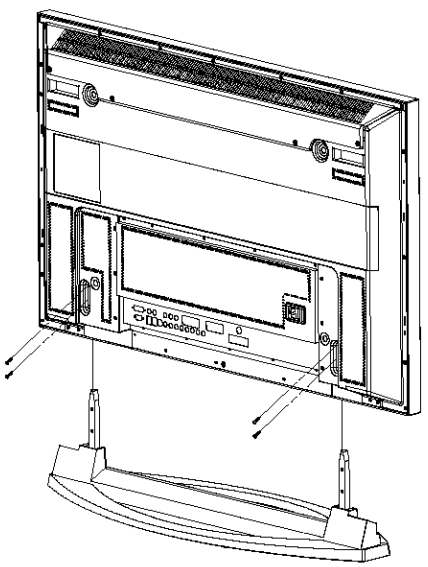
1. Secure the PDP to the wall mount bracket. (Please refer to the following instructions.)
2. Set the angle by pulling the upper end of the PDP attached to bracket in the direction of the arrow.
3. The angle can be adjusted from 0° to 15° by ±2°.

How to assemble the Stand-Base

1 Assemble two support pins with the stand base and firmly secure both sides of the support pins using 8 screws provided.



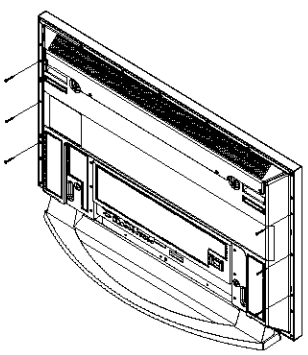
2 Assemble the PDP with the stand and firmly secure the PDP using 4 screws provided.



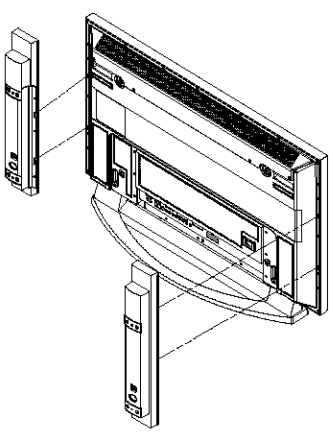
➢ Two or more people should carry the PDP. Never lay the PDP on the floor because of possible damage to the screen. Always store the PDP upright.

Connecting Speakers

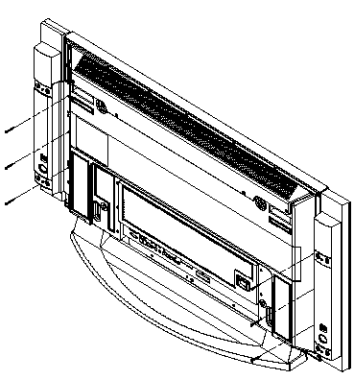
1 Remove the screws on the rear of the PDP.



2 Hang the two "T" shaped hangers on the square holes on the rear of the PDP.

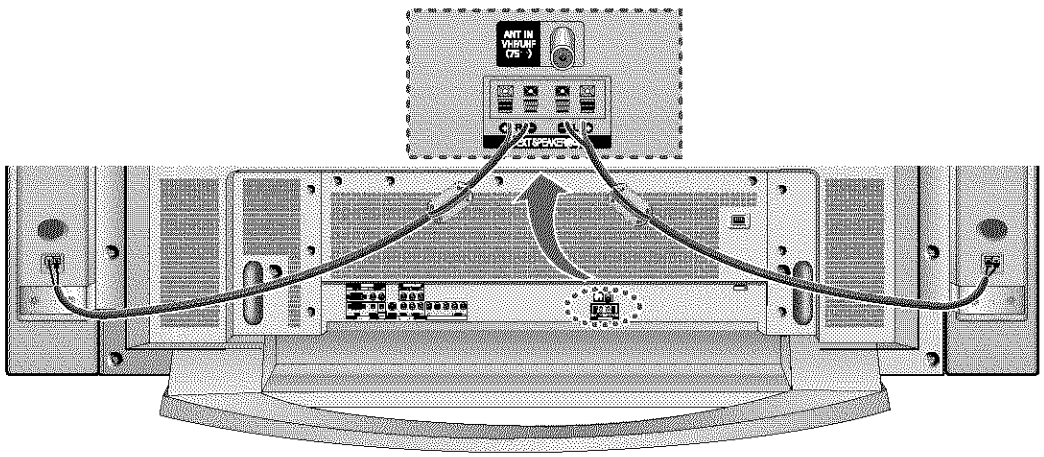


3 Tighten the PDP and the speaker bracket using the screws removed from the PDP.



➢ When moving your PDP, do NOT hold the speaker connected to your PDP. It may damage the bracket clamping the speaker and your PDP togetherand result in a drop of your PDP and a risk of personal damage and injury.

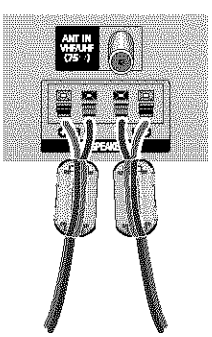
Connect the speaker audio cable to the external speaker output jack on the rear of the PDP matching the "+" and "-" ends of the cable with the diagram on the PDP.



➤ The speakers MUST have to a power handling capability of 10 watts minimum (impedance 8Ω).
When you connect the speaker wire to the external speaker out connector, first bind the speaker wire round the ferrite core to secure it.

Ferrite Cores

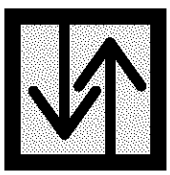
The ferrite cores are used to attenuate undesired signals.
When connecting cables, attach one of these ferrite cores to the cable near the connector.



SAMSUNG

PLASMA DISPLAY PANEL

Connections



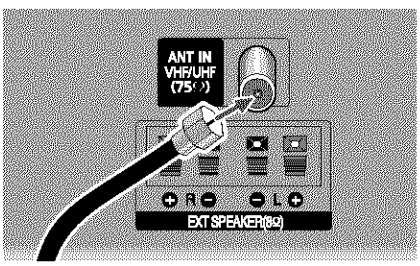
Connecting VHF and UHF Antennas 18
Connecting Cable TV 19
Connecting a VCR 21
Connecting a Camcorder 22
Connecting a DVD Player 23
Connecting a DTV Receiver 24

Connecting VHF and UHF Antennas

Antennas with 75-ohm Round Leads

If your antenna looks like this: it has 75-ohm round leads.

1 Plug the antenna lead into the VHF/UHF terminal on the PDP.
Use the Antenna Cable, an accessory included in the product package.

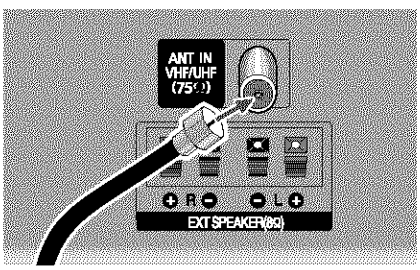


Connecting Cable TV

You can connect different cable systems to your PDP, including cable without a cable box, and cable with a cable box that descrambles some or all channels.

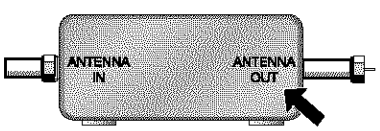
Cable without a Cable Box

1 Plug the incoming cable into the VHF/UHF terminal on the PDP.
Use the Antenna Cable, an accessory included in the product package.

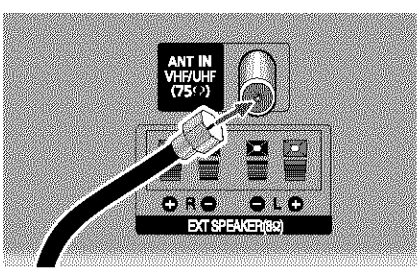


Cable with a Cable Box that Descrambles All Channels.

1 Find the cable connected to the ANTENNA OUT terminal on your cable box. This terminal might be labeled "ANT OUT", "VHF OUT" or simply "OUT".



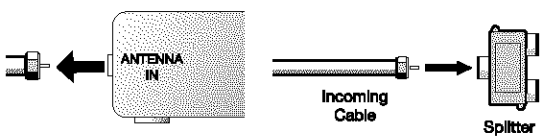
2 Connect the cable to the VHF/UHF terminal on the PDP.
Use the Antenna Cable, an accessory included in the product package.



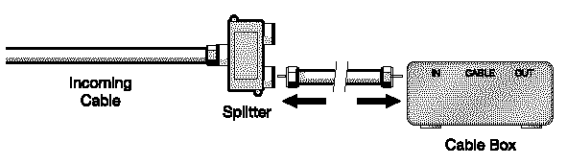
Cable with a Cable Box that Descrambles Some (But Not All) Channels

To complete this connection you will need a two-way splitter, an RF (A/B) switch, and four coaxial cables (which you can buy from your Samsung dealer or any electronics store).

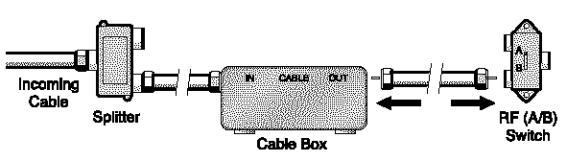
1 Find and disconnect the cable that is connected to the ANTENNA IN terminal of your cable box.
This terminal might be labeled "ANT IN", "VHF IN" or simply, "IN". Connect this cable to a two-way splitter.



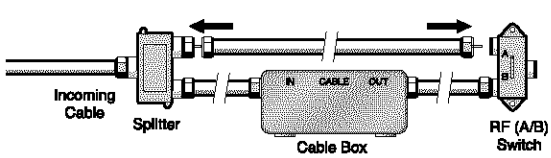
2 Connect a coaxial cable between an OUTPUT terminal of the splitter and the IN terminal of the cable box.



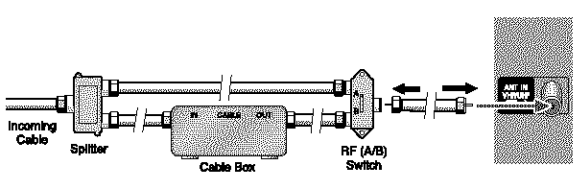
3 Connect a coaxial cable between the ANTENNA OUT terminal of the cable box and the B-IN terminal of the A/B switch.



4 Connect a coaxial cable between the ANTENNA OUT terminal of the cable box and the B-IN terminal of the A/B switch.



5 Connect the last coaxial cable between the OUT terminal of the RF (A/B) switch and the VHF/UHF terminal on the PDP.

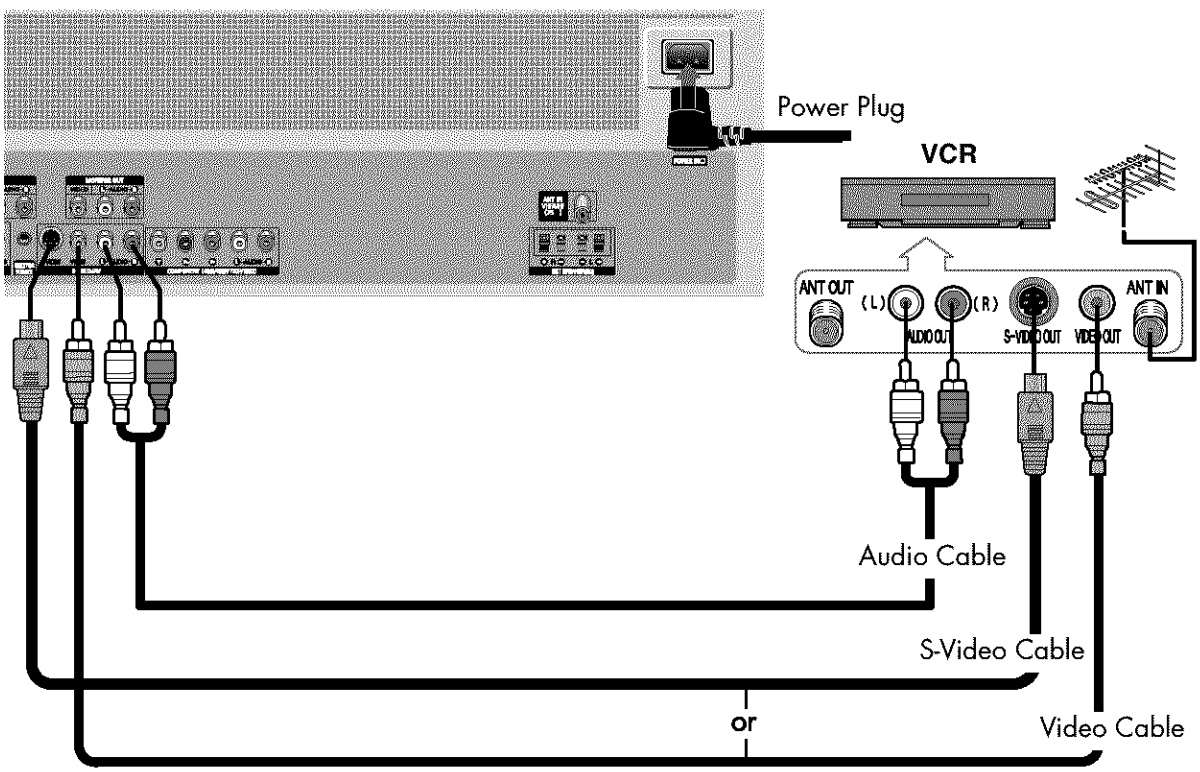


After you've made this connection, set the A/B switch to the "A" position for normal viewing. Set the A/B switch to the "B" position to view scrambled channels. (When you set the A/B switch to "B", you will need to tune your Set-Top Box to the cable box's output channel, which is usually channel 3 or 4.)

Connecting a VCR

Connecting a VCR to the Video or S-Video/Audio jack

PDP



How to Connect

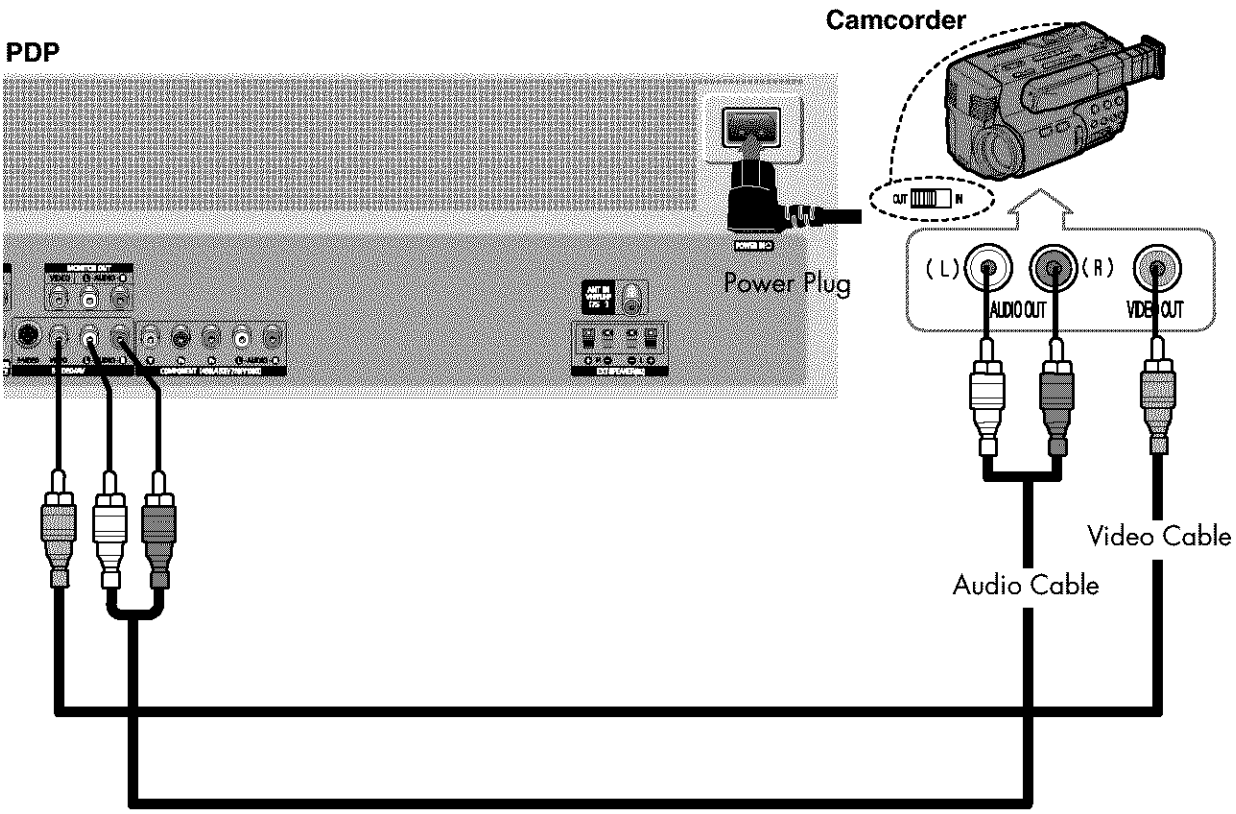
Connect the Video/Audio cables between the AUDIO(L/R)/VIDEO jacks on the PDP and AUDIO/VIDEO OUT jacks on the VCR. (Note: For better video, you can use an S-Video cable.)

Videotape Playback:

1. Turn on your PDP.
2. Press the TV/VIDEO button to select "Video" or "S-Video".
3. Turn on your VCR, insert a videotape and press the play button.

Connecting a Camcorder

Viewing camcorder tapes



How to Connect

Connect a Video/Audio cable between the AUDIO(L/R)/VIDEO jacks on the PDP and the VIDEO/AUDIO OUTPUT jacks on the camcorder.

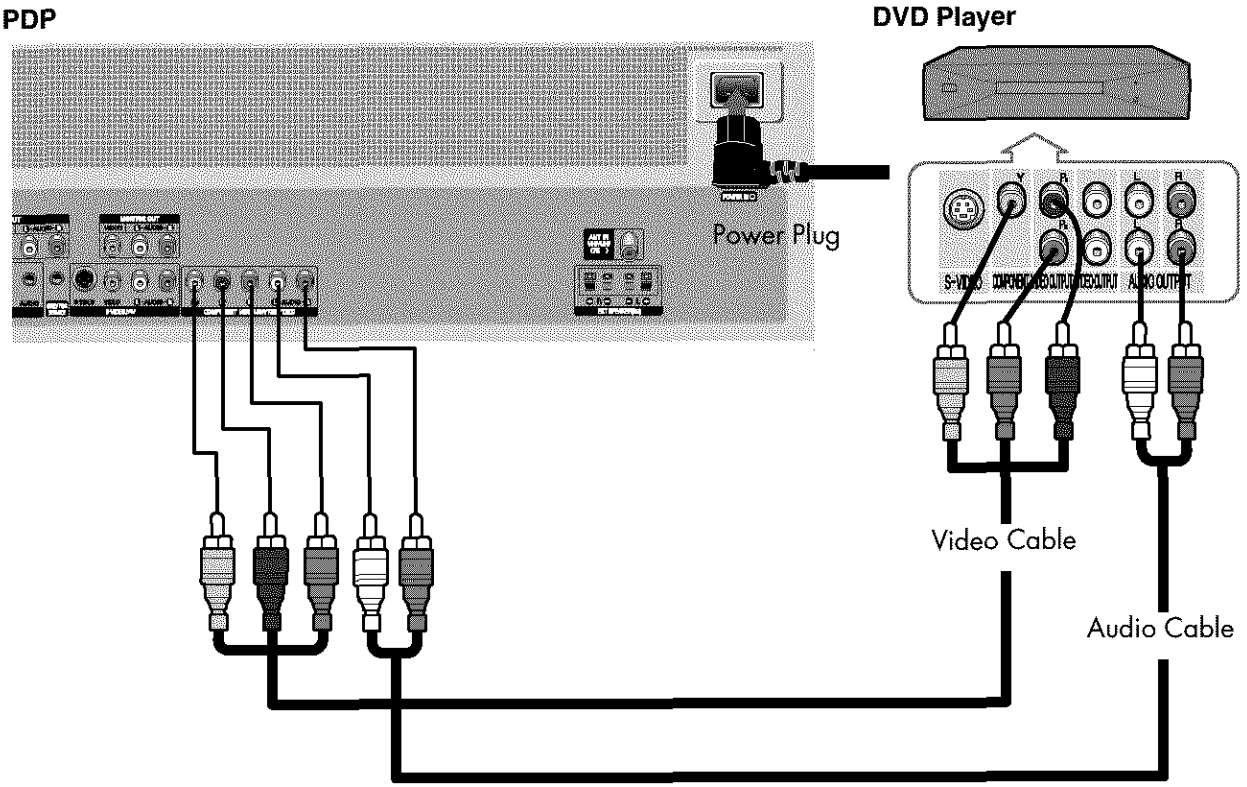
Viewing Tapes

1. Turn on your PDP.
2. Press the TV/VIDEO button to select "Video".
3. Turn on your camcorder and set it to Video Mode. (For details, refer to your camcorder Owner's instructions.)
4. Set the IN/OUT switch on your camcorder to OUT.
5. Insert the tape into the camcorder and press the Play button.

Connecting a DVD Player (480i, 480p)

This PDP displays the optimum picture in 720p mode.

Playing DVD



How to Connect

1. Connect a Video Cable between the Y, P_b, P_r (COMPONENT) input jacks on the PDP and $Y/P_B/P_R$ output jacks on the DVD player.

2. Connect a Audio Cable between the AUDIO L/R(COMPONENT) input jacks on the PDP and the AUDIO OUT jacks on the DVD player.

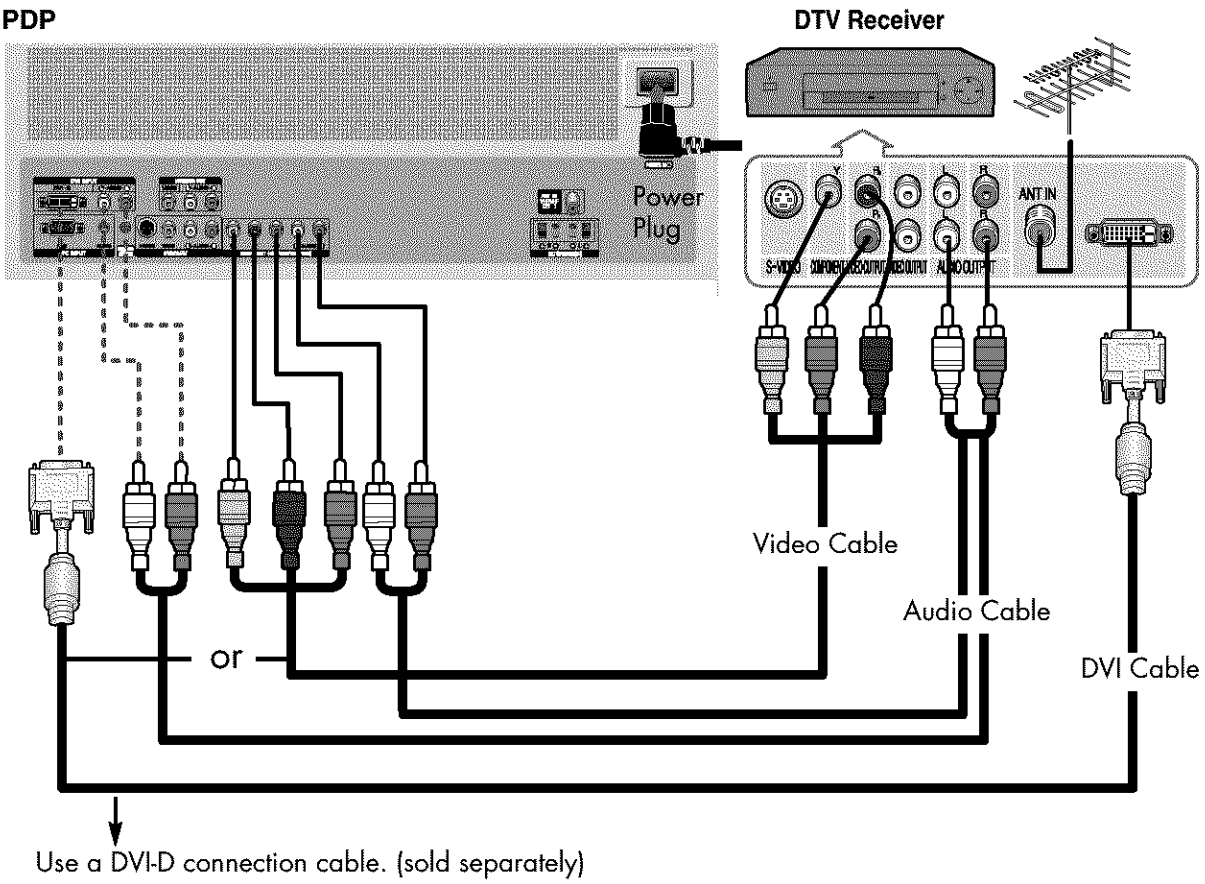
To Play DVD:

1. Turn on your PDP.
2. Press the TV/VIDEO button to select "COMPONENT".
3. Turn on your DVD player, insert a DVD disc and press the Play button.
   • For an explanation of Component video, see your DVD owner's instructions.

Connecting a DTV Receiver (480p, 720p, 1080i)

This PDP displays the optimum picture in 720p mode.

Watching DTV



How to Connect

1. Connect the cable or antenna to the antenna input jack on the DTV.
2. Connect a Video cable between the Y, P_b, P_r (COMPONENT) or DVI jack on the PDP and the Y, P_B, P_R (VIDEO OUTPUT JACKS) on the DTV receiver.
3. Connect an Audio cable between the COMPONENT (L/R AUDIO) or DVI jacks on the PDP and the AUDIO OUTPUT jacks on the DTV receiver.

To Watch DTV:

1. Turn on your PDP.
2. Press the TV/VIDEO button to select "COMPONENT" or "DVI".
3. Turn on your DTV receiver.
   - For an explanation of Component video, see your DTV receiver owner's instructions.

SAMSUNG

PLASMA DISPLAY PANEL

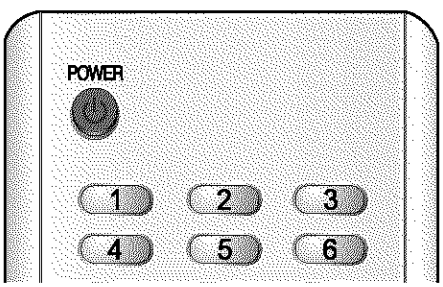
Operation

Turning the PDP On and Off 26
Plug & Play Feature 28
Memorizing the Channels.....31
Viewing an External Signal Source 36

Turning the PDP On and Off

Turning the PDP On and Off

Press the POWER button on the remote control.
The PDP will be turned on and you will be ready to use its features.
You can also use the POWER (I/⏻)button on the front of the PDP.

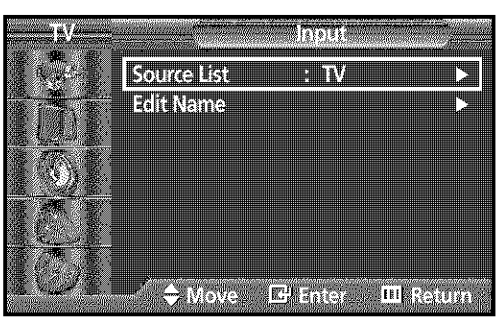


Viewing the Menus and Displays

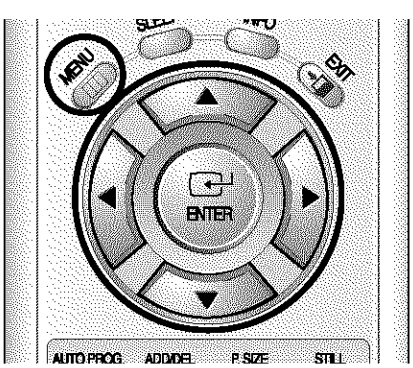
Your PDP has a simple, easy-to-use menu system that appears on the PDP screen. This system makes it convenient and fast to use features on the PDP. Your PDP also lets you display the status of many of your PDP's features.

Viewing the Menus

1 With the power on, press the MENU button on the remote control. The main menu appears on the screen. The Input menu is selected.

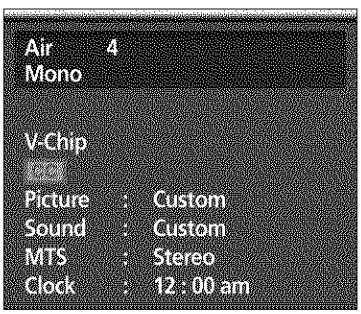


2 Press the ▲ or ▼ buttons to move items in the menu. Press the ◄/►/ENTER buttons to display, change, or use the selected items. Press the ENTER (↵) button to enter items in the menu. On screen menus disappear from the screen automatically after about thirty seconds, or you can press the MENU or EXIT button on your remote control to exit the menu.



Displaying Status Information

Press the INFO button on the remote control.
The PDP will display the Picture mode, Sound mode, MTS, Caption, and Clock.

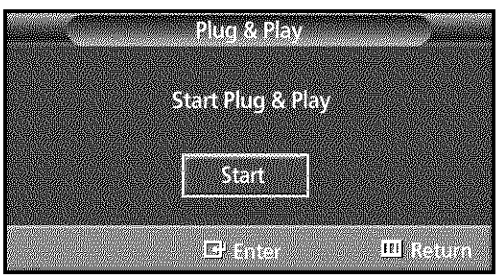


Plug & Play Feature

When the television is initially powered ON, several basic customer settings proceed automatically and subsequently. The following settings are available.

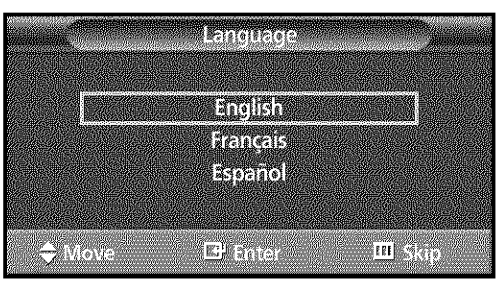
1 If the television is in Standby mode, press the POWER button on the remote control.

➢ The message Plug & Play is displayed. It flickers for a little while, and then the Language menu is automatically displayed.

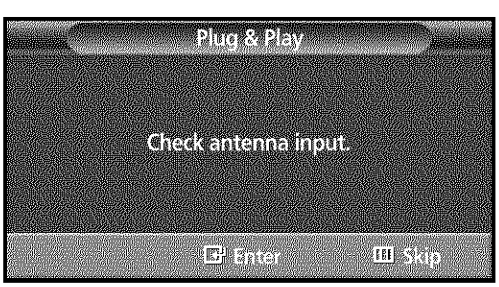


2 Select the appropriate language by pressing the ▲ or ▼ button.

➢ The message Antenna input check is displayed.

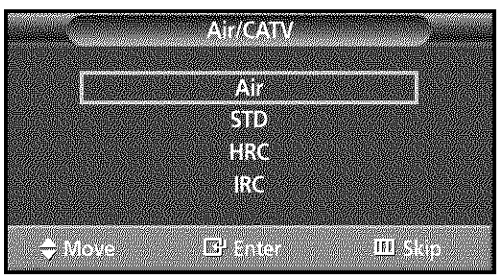


3 Press the ENTER button to confirm your choice.



4 Press the ENTER button.

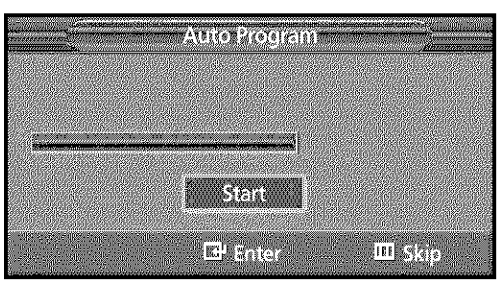
5 Select the correct signal source (Air, STD, HRC and IRC), then press the ENTER button.

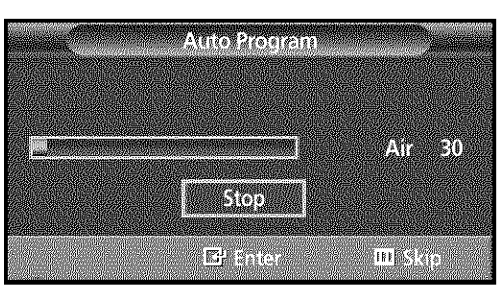


6 To start the search, press the ENTER button.

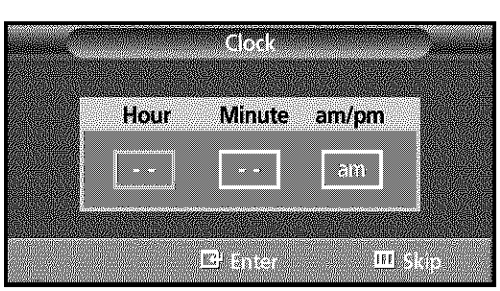
➢ The search will end automatically. Channels are sorted and stored in an order which reflects their position in the frequency range (with lowest first and highest last).
When it has finished, the Clock Set menu is displayed.

➢ To stop the search before it has finished or return to normal viewing, press the MENU button.





7 Press the ENTER button.
Press the ◄ or ► button to move to the Hour, Minute, or am/pm.
Set the Hour, Minute, or am/pm by pressing the ▲ or ▼ button.

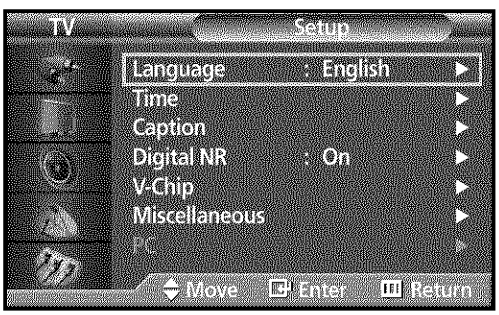


8 When it has finished, the message Enjoy Your Watching is displayed, and then the channels which have been stored can be viewed.

Plug & Play Feature (continued)

If you want to reset this feature...

1 Press the MENU button. Press the ▲ or ▼ button to select "Setup", then press the ENTER button.



2 Press the ▲ or ▼ button to select "Miscellaneous", then press the ENTER button.

3 Press the ▲ or ▼ button to select "Plug & Play". Press the ENTER button.

4 For further details on how to set, refer to the previous page.

Memorizing the Channels

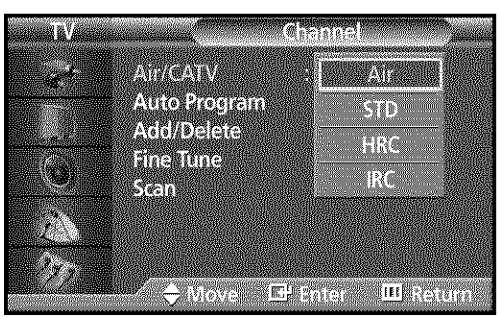
Your PDP can memorize and store all of the available channels for both "off-air" (antenna) and cable channels. After the available channels are memorized, use the CH ∧ and CH ∨ buttons to scan through the channels. This eliminates the need to change channels by entering the channel digits. There are three steps for memorizing channels: selecting a broadcast source, memorizing the channels (automatic) and adding and deleting channels (manual).

Selecting the Video Signal-source

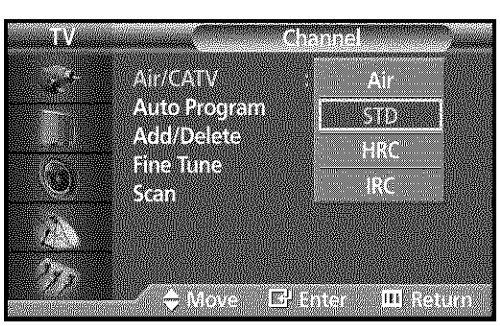
Before your television can begin memorizing the available channels, you must specify the type of signal source that is connected to the PDP (i.e., an antenna or a cable system).

1 Press the MENU button. Press the ▲ or ▼ button to select "Channel", then press the ENTER button.

2 Press the ENTER button to select "Air/CATV".



3 Press the ▲ or ▼ button to select "Air", "STD", "HRC" or "IRC".
- If you are connected to an antenna, leave "Air" displayed. If you connected cable, press the ▲ or ▼ button to the display the type of cable system: "STD", "HRC" or "IRC". (If you are not sure which type of cable system you have, contact your cable company).



4 Press the MENU button to exit.

Note

- STD, HRC and IRC identify various types of cable TV systems. Contact your local cable company to identify the type of cable system that exists in your particular area. At this point the signal source has been selected. Proceed to "Storing Channels in Memory" (Next page).

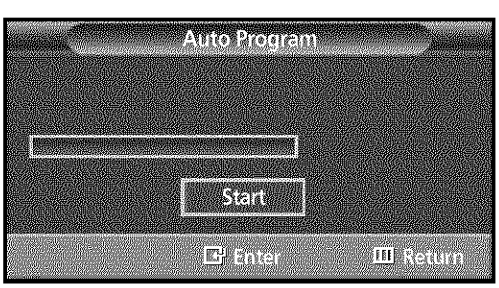
Storing Channels in Memory (Automatic Method)

1 First, select the correct signal source (Air, STD, HRC and IRC). See steps on previous page.
Press the MENU button. Press the ▲ or ▼ button to select "Channel", then press the ENTER button.

2 Press the ▲ or ▼ button to select "Auto Program", then press the ENTER button.

➢ Quick way to access the Automatic Channel Setting: Just press the "AUTO PROG." button on the remote control.

3 Press the ENTER button.
The PDP will begin memorizing all of the available channels.
After all the available channels are stored, the Auto program menu reappears. Press the ENTER button to stop.



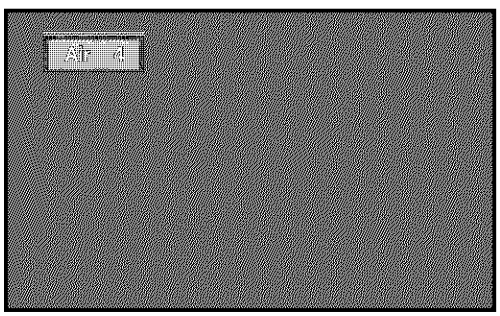
Note

- The PDP automatically cycles through all of the available channels and stores them in memory. This takes about one to two minutes.

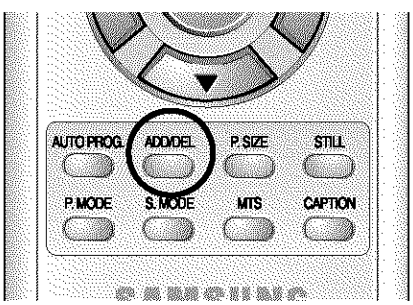
Adding and Erasing Channels (Manual Method)

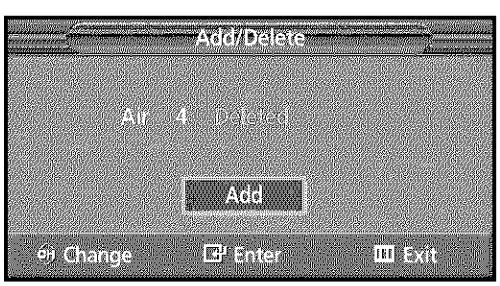
1 Use the number buttons to directly select the channel that will be added or erased.

Ex) Channel "4"



2 Press the ADD/DEL button, then press the ENTER button. Repeatedly pressing this button will alternate between "Add" and "Erase".





3 Press the MENU button to exit.

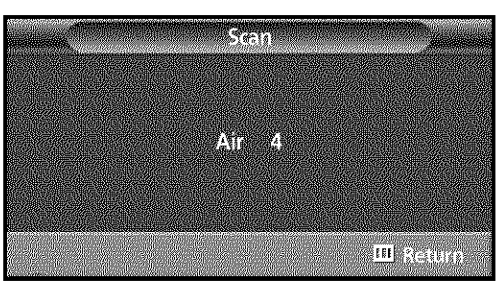
Note

- You can view any channel (including an erased channel) by using the number buttons on the remote control.

To View Memorized Channel (PIP Mode)

1 Press the MENU button. Press the ▲ or ▼ button to select "Channel", then press the ENTER button.

2 Press the ▲ or ▼ button to select "Scan", then press the ENTER button.
Only the memorized channels are chosen.



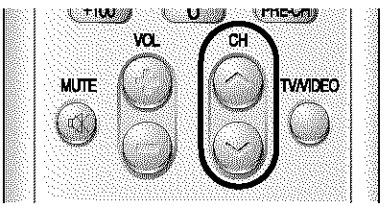
3 Press the MENU button to stop.

Changing Channels

Using the Channel Buttons

Press the CH∧ or CH∨ button to change channels.

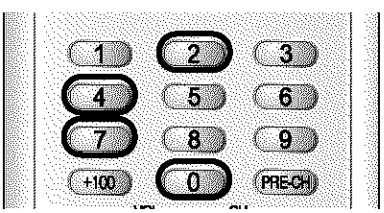
When you press the CH∧ or CH∨ button, the PDP changes channels in sequence. You will see all the channels that the PDP has memorized. (The PDP must have memorized at least three channels.) You will not see channels that were either erased or not memorized.



Directly Accessing Channels

Press the number buttons to go directly to a channel. For example, to select channel 27, press "2" then "7". The TV will change channels when you press the second number.

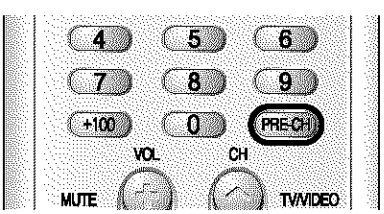
When you use the number buttons, you can directly select channels that were either erased or not memorized. To change to single-digit channels (0~9) faster, press "0" before the single digit. (For channel "4" press "0", then "4".



Using the PRE-CH button to select the previous channel

Press the PRE-CH button. The TV will switch to the last channel viewed.

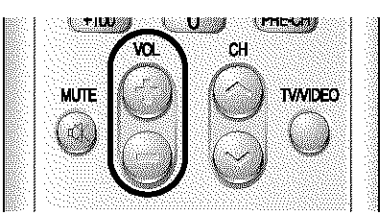
To quickly switch between two channels that are far apart, tune to one channel, then use the number button to select the second channel. Then, use the PRE-CH button to quickly alternate between them.



Adjusting the Volume

Using the Volume Buttons

Press the VOL + or VOL – button to increase or decrease the volume.



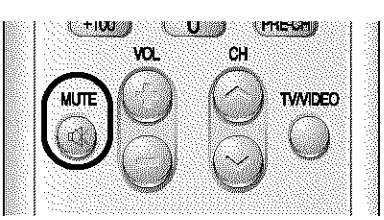
Using Mute

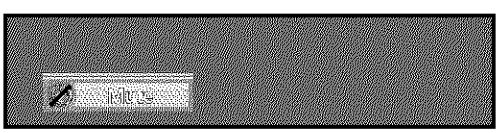
Using the MUTE Buttons

At any time, you can temporarily cut off the sound using the MUTE button.

1 Press the MUTE button and the sound cuts off. The word "Mute" will appear in the lower-left corner of the screen.

2 To turn mute off, press the MUTE button again, or simply press the VOL + or VOL – button.



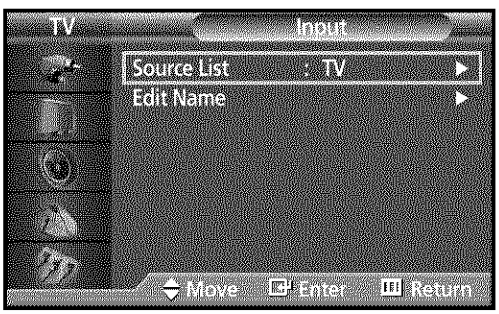


Viewing an External Signal Source

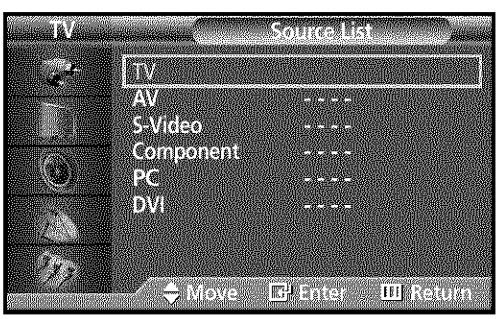
Use the remote control to switch between viewing signals from connected equipment, such as VCRs, DVD, Set-Top box and the TV source (broadcast or cable).

Setting the Signal Source

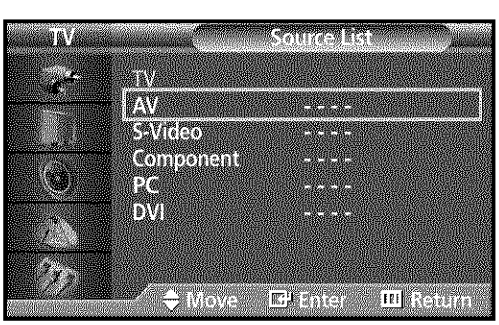
1 Press the MENU button. Press the ENTER button to select "Input".



2 Press the ENTER button to select "Source List".



3 Press the ▲ or ▼ button to select signal source, then press the ENTER button.

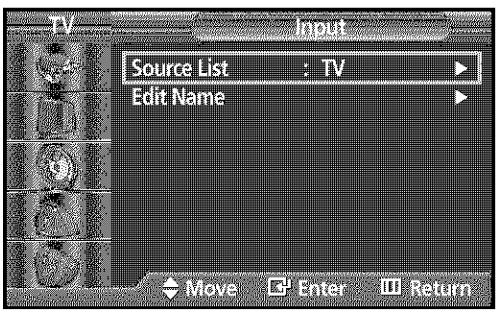


Notes

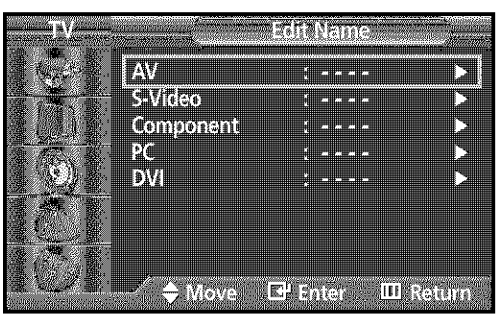
- When you connect equipment to the PDP, you can choose between the following sets of jacks: AV, S-Video, Component , Monitor OUT, PC or DVI on the PDP's rear panel.

Assigning Names to External input mode

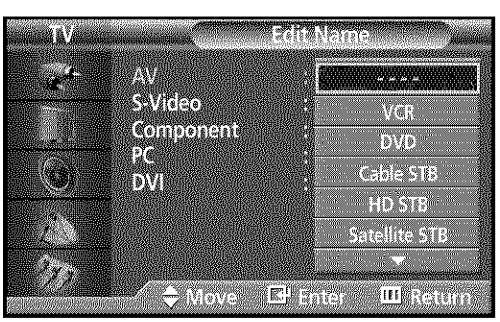
1 Press the MENU button. Press the ENTER button to select "Input".



2 Press the ▲ or ▼ button to select "Edit Name", then press the ENTER button.



3 Press the ENTER button.
- Press the ▲ or ▼ button to select external device: VCR, DVD, Cable STB, HD STB, Satellite STB, AV Receiver, DVD Receiver, Game, Camcorder, DVD Combo, DHR or PC.
  Set other signal sources (AV, S-Video, Component, PC or DVI) using the same method as listed above.



4 Press the MENU button to exit.

Notes
- DHR : DVD HDD Recorder

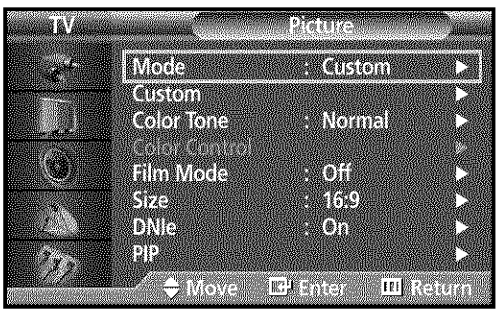
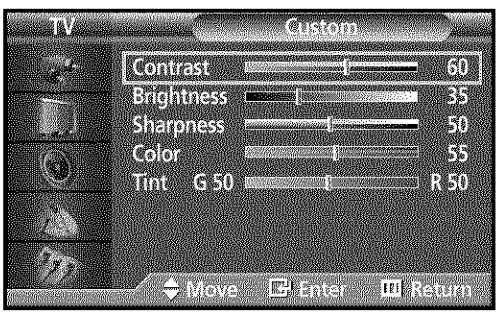
Customizing the Picture

You can use the on-screen menus to change the Contrast, Brightness, Sharpness, Color, and Tint settings of your PDP.

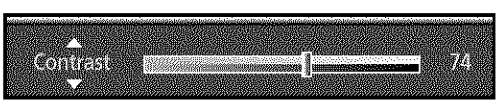
1 Press the MENU button. Press the ▲ or ▼ button to select "Picture", then press the ENTER button.



2 Press the ▲ or ▼ button to select "Custom", then press the ENTER button.
You will also see the items "Contrast", "Brightness", "Sharpness", "Color" and "Tint".



3 Press the ▲ or ▼ button to select the item you wish to change, then press the ENTER button.
Press the ◄ or ► button to change the value of the item.



4 Press the MENU button to exit.

Note

- In the PC/DVI mode, you can't adjust the Color and Tint.

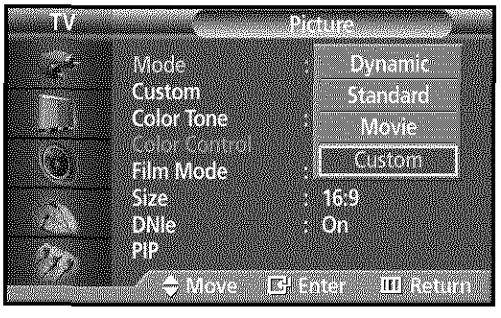
Using Automatic Picture Settings

Your PDP has automatic picture settings that allow you to adjust the video display easily.

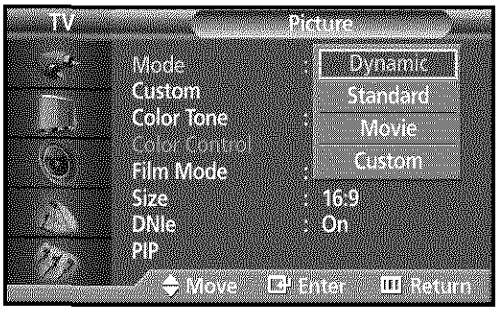
1 Press the MENU button. Press the ▲ or ▼ button to select "Picture", then press the ENTER button.

➢ Quick way to access the picture setting: Just press the "P.MODE" button on the remote control.

2 Press the ENTER button to select "Mode".



3 Press the ▲ or ▼ button to select "Dynamic", "Standard", "Movie", or "Custom" picture setting.
- You can select "Entertain", "Internet", "Text", or "Custom" in PC/DVI mode.

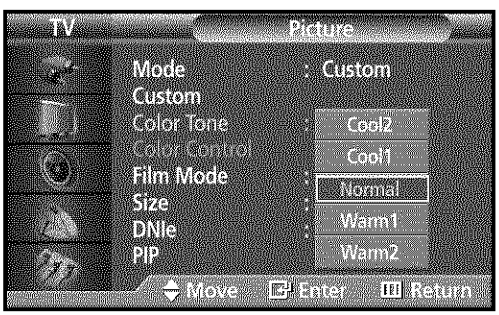


4 Press the MENU button to exit.

Selecting the Color Tone

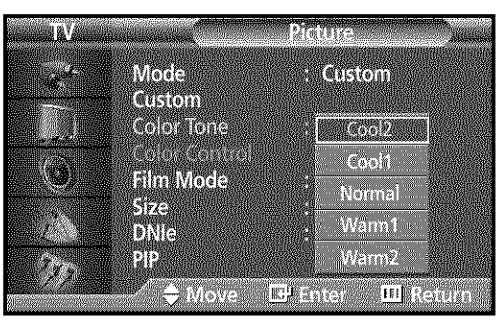
1 Press the MENU button. Press the ▲ or ▼ button to select "Picture", then press the ENTER button.

2 Press the ▲ or ▼ button to select "Color Tone", then press the ENTER button.



3 Press the ▲ or ▼ button to select "Cool2", "Cool1", "Normal", "Warm1" or "Warm2".

- You can select "Custom", "Cool", Normal" or "Warm" in PC mode.
- You can select "Cool", "Normal" or "Warm" in DVI mode.

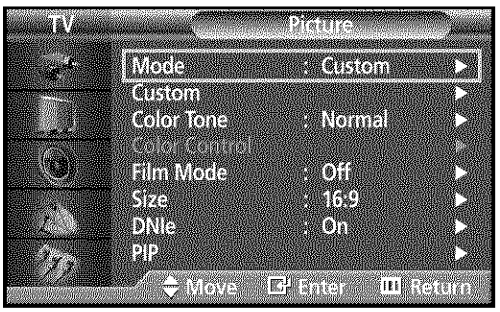


4 Press the MENU button to exit.

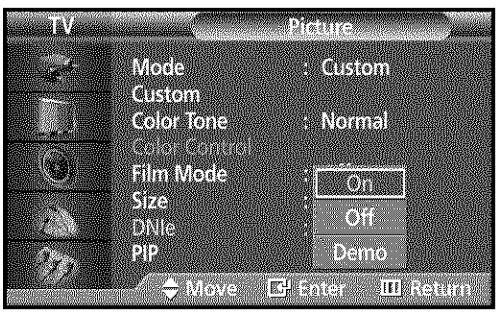
DNIe (Digital Natural Image engine)

Samsung's New Technology brings you more detailed images with contrast, white enhancement and 3D noise reduction.

1 Press the MENU button. Press the ▲ or ▼ button to select "Picture", then press the ENTER button.

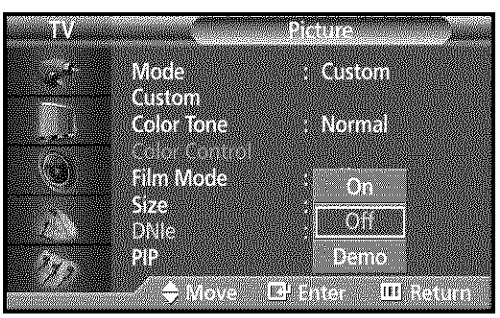


2 Press the ▲ or ▼ button to select "DNIe", then press the ENTER button.



3 Press the ▲ or ▼ button to select "On", "Off" or "Demo".

- On : Switches on the DNIe mode.
- Off : Switches off the DNIe mode.
- Demo : The screen before applying DNIe appears on the right and the screen after applying DNIe appears on the left.



4 Press the MENU button to exit.

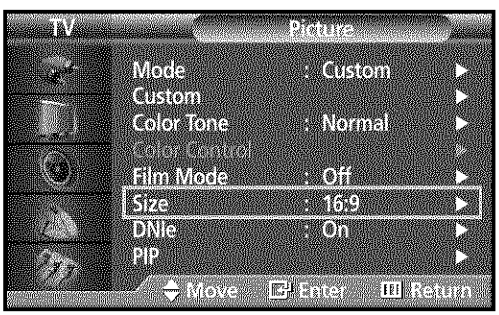
Changing the Screen Size

Screen size selection depends on the type of video input (DVD, PC etc.).

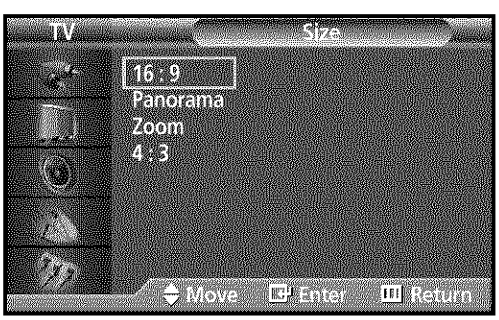
➤ Quick way to access the Screen Size menu : Just press the "P. SIZE" button on the remote control.

1 Press the MENU button. Press the ▲ or ▼ button to select "Picture", then press the ENTER button.

2 Press the ▲ or ▼ button to select "Size", then press the ENTER button.



3 Press the ▲ or ▼ button to select the screen size you want, then press the ENTER button.



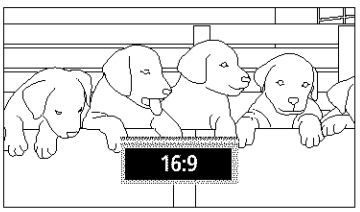
4 Press the MENU button to exit.

Note

- If you watch a still image or the 4:3 (Normal) mode for a long time (over 2 hours), an image may be burned onto the screen.
  View the monitor in 16:9(Wide) or Panorama mode as much as possible.

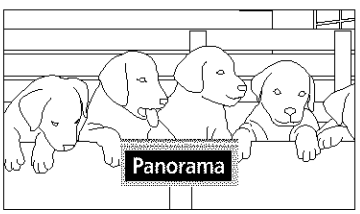
16:9(Wide)

16:9 Aspect Ratio that fits DVD and Wide Screen applications.



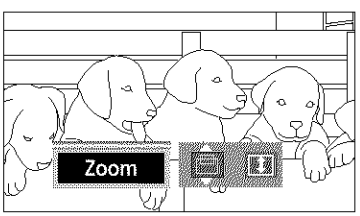
Panorama

Fits a 16:9 picture onto a 4:3 screen and displays it without clipping the image.



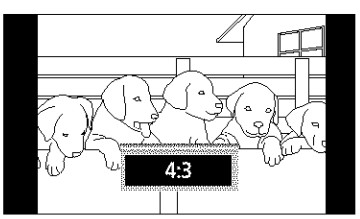
Zoom

Magnifies the 16:9 wide picture (in a vertical direction) to fit the screen size.
Select by pressing the ◄ or ► button.
Use the ▲ or ▼ button to move the picture up and down. After selecting , use the ▲ or ▼ button to magnify or reduce the picture size in a vertical direction.



4 : 3(Normal)

Standard TV and VCR screen size having a 4:3 Aspect Ratio.



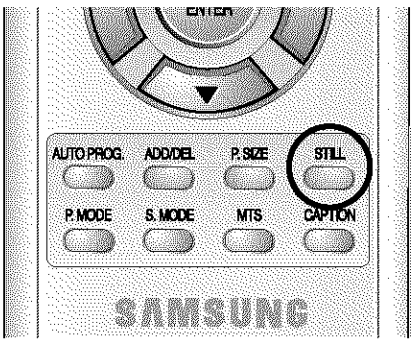
Notes

- In TV, VIDEO, S-VIDEO and Component (480i) modes, all screen modes can be selected. (Wide → Panorama → Zoom → Normal).
- In PC/DVI mode, only 16:9 & 4:3 modes can be selected.
- In Component (480p, 720p. 1080i) modes, Panorama mode can't be selected.
- In Component (480p, 720p. 1080i) modes, you can move the picture on screen by pressing the ▲ or ▼ button. (All screen modes)
- Changing the screen size to Normal, or Zoom during PIP mode will cause the PIP window to disappear.

Freezing the Picture

Still

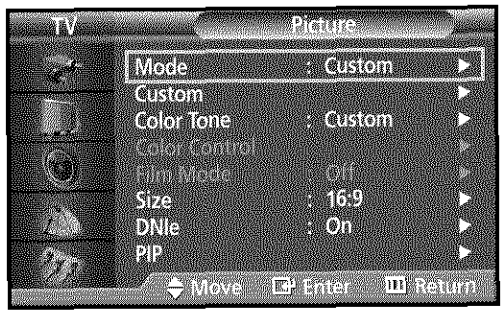
Press the STILL button on the remote control to freeze a moving picture. Press again to cancel.



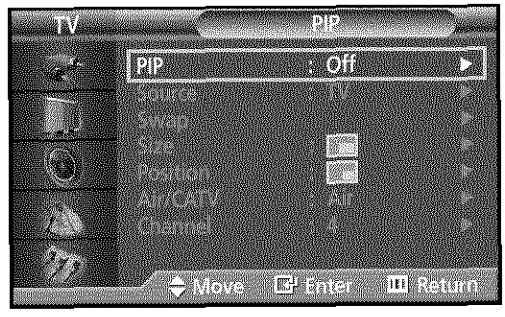
Viewing the Picture-in-Picture

Selecting the PIP Screen

1 Press the MENU button. Press the ▲ or ▼ button to select "Picture", then press the ENTER button.

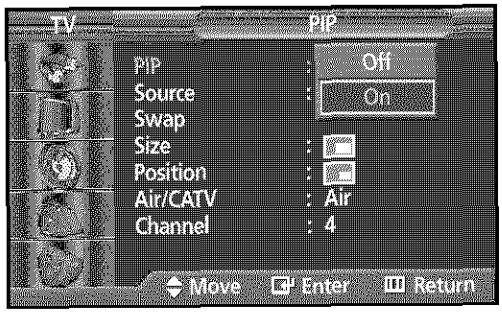


2 Press the ▲ or ▼ button to select "PIP", then press the ENTER button.



3 Press the ENTER button, then press the ▲ or ▼ button to select "On". The PIP image will appear in the corner of the screen.

- Pressing the ▲ or ▼ button will alternate between "On" and "Off".



Note

- Check if the V-Chip Lock (refer to page 90) is ON if the PIP On/Off will not function. PIP does not function when the V-Chip Lock is set to On. Change the setting to Off and try it again.

4 Press the MENU button to exit.

PIP Settings

O : PIP and Swap Operate
X : PIP doesn't Operate

PIP screen \ Main screen	TV	AV	S-VHS	Comp480i	Comp480p~	DVI	PC
TV	X	X	X	X	O	O	O

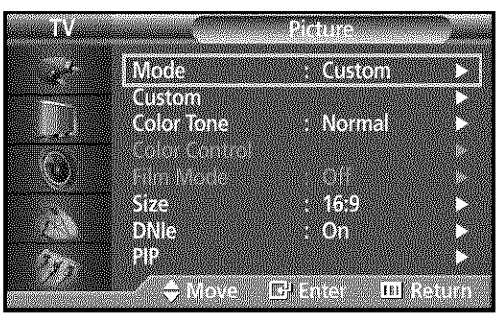
DVI	O	O	O	X	X	X	X
PC	O	O	O	X	X	X	X

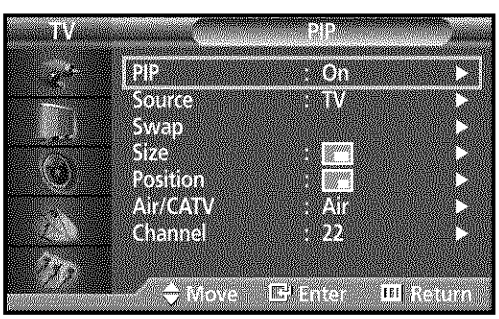
Selecting an External Signal

You can use PIP to view a signal from an external source, such as a VCR.

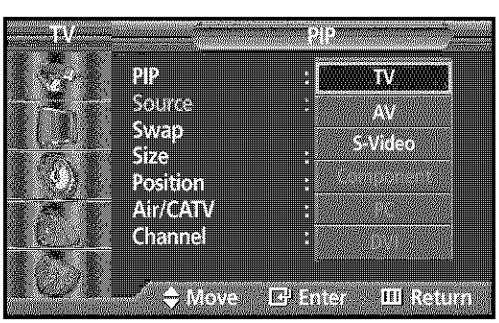
1 Press the MENU button. Press the ▲ or ▼ button to select "Picture", then press the ENTER button.



2 Press the ▲ or ▼ button to select "PIP", then press the ENTER button.

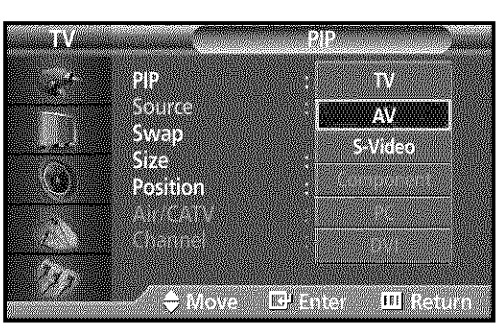


3 Press the ▲ or ▼ button to select "Source", then press the ENTER button.



4 Press the ▲ or ▼ button to cycle through all of the available signal sources:
"TV", "AV", "S-Video", "Component", "PC" and "DVI".

The signal from these inputs will not appear if you have not connected any equipment to the PDP's respective input jacks.



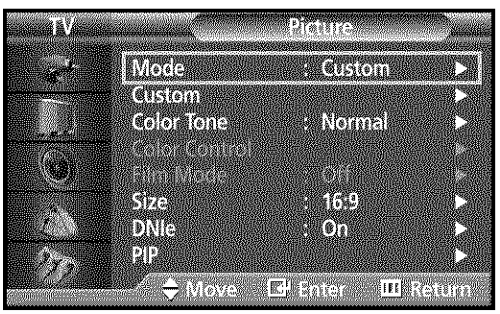
5 Press the MENU button to exit.

Note

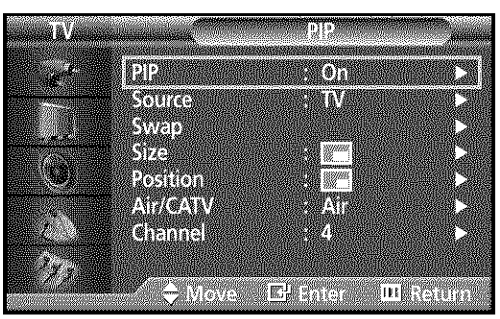
- The PIP function operates in Wide screen.
- Using Multi-Screen in the Normal or Zoom screen will change the size of the main screen to Wide screen.

Swapping the Contents of the PIP Image and Main Image

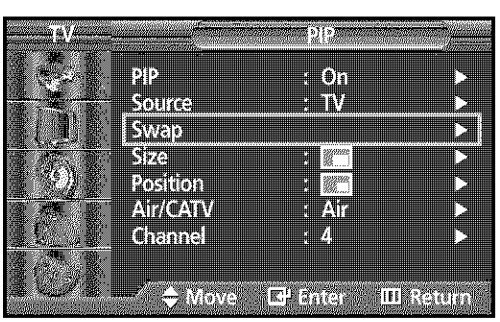
1 Press the MENU button. Press the ▲ or ▼ button to select "Picture", then press the ENTER button.



2 Press the ▲ or ▼ button to select "PIP", then press the ENTER button.



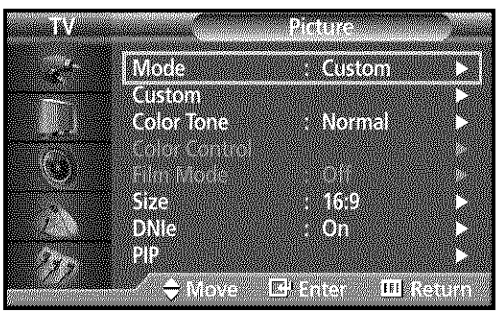
3 Press the ▲ or ▼ button to select "Swap", then press the ENTER button.
- The image in the PIP window will appear on the main screen, and vice versa.



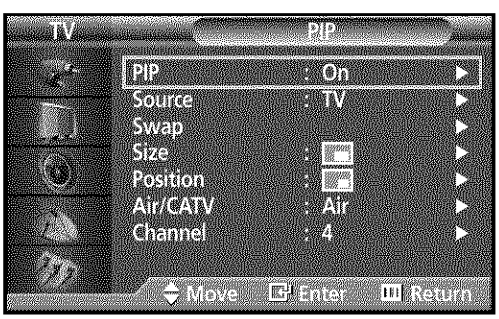
4 Press the MENU button to exit.

Changing the Size of the PIP Window

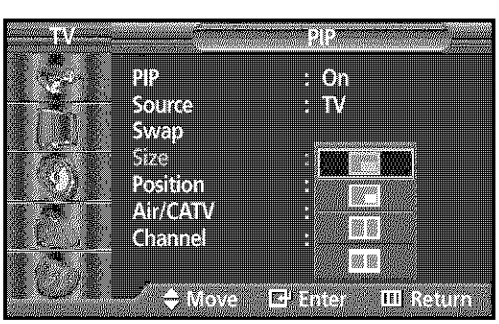
1 Press the MENU button. Press the ▲ or ▼ button to select "Picture", then press the ENTER button.



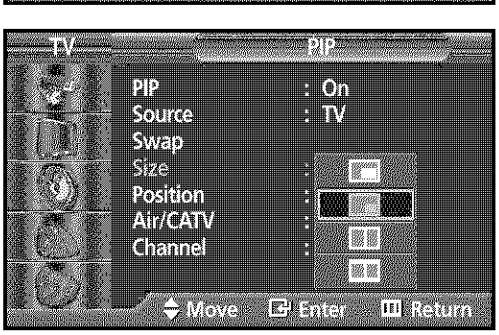
2 Press the ▲ or ▼ button to select "PIP", then press the ENTER button.



3 Press the ▲ or ▼ button to select "Size", then press the ENTER button.



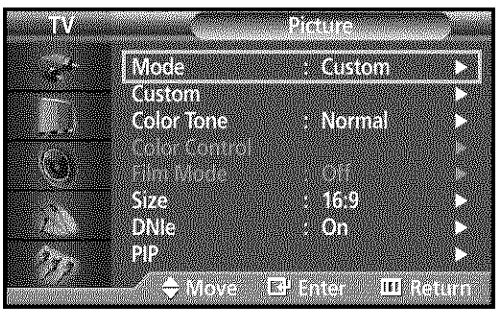
4 Press the ▲ or ▼ button to select option you want, then press the ENTER button.



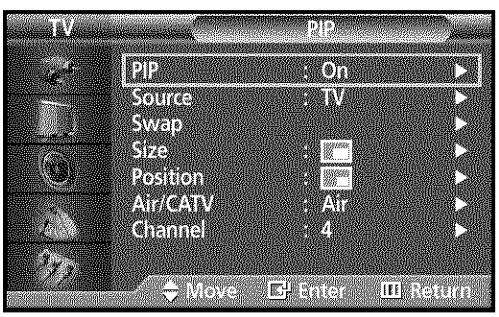
5 Press the MENU button to exit.

Changing the Location of the PIP Image

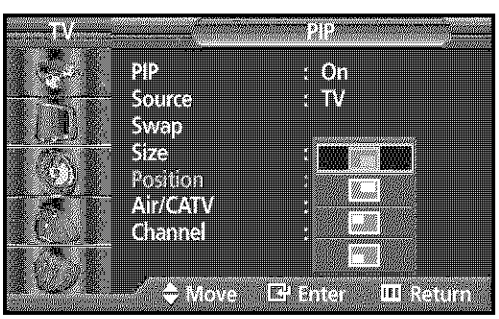
1 Press the MENU button. Press the ▲ or ▼ button to select "Picture", then press the ENTER button.



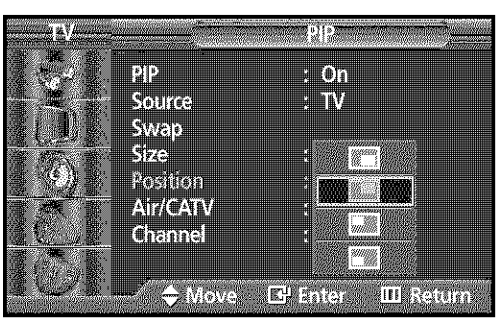
2 Press the ▲ or ▼ button to select "PIP", then press the ENTER button.



3 Press the ▲ or ▼ button to select "Position", then press the ENTER button.



4 Press the ▲ or ▼ button to select PIP position you want, then press the ENTER button.



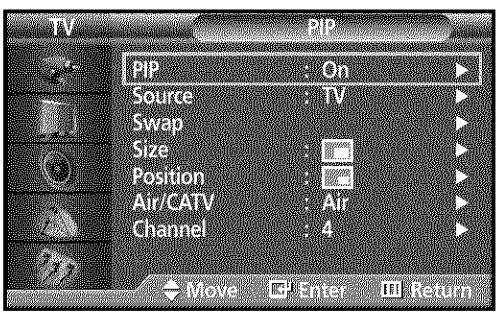
5 Press the MENU button to exit.

Selecting a Signal Source (Antenna or Cable) for PIP

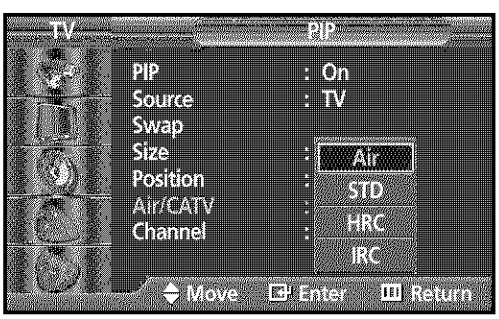
If the PIP source is TV while PIP is ON, you can select the broadcasting source of PIP picture separately from the main picture.

1 Press the MENU button. Press the ▲ or ▼ button to select "Picture", then press the ENTER button.

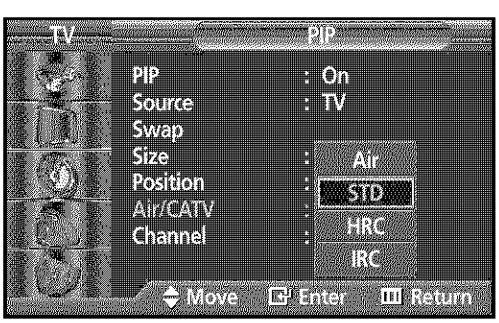
2 Press the ▲ or ▼ button to select "PIP", then press the ENTER button.



3 Press the ▲ or ▼ button to select "Air/CATV", then press the ENTER button.



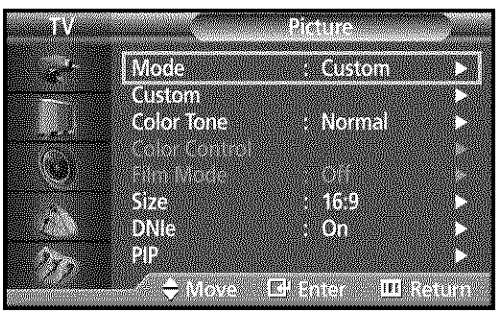
4 If an antenna is connected, the setting is "Air". If a Cable TV system is providing the signal, press the ▲ or ▼ button until the appropriate type of cable system is selected ("STD", "HRC" or "IRC").



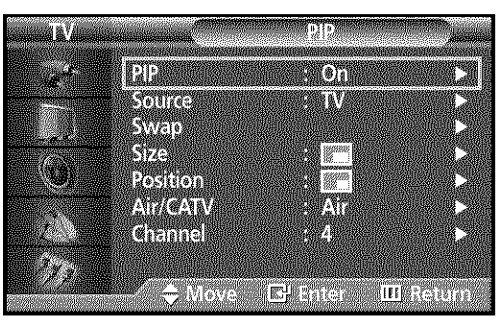
5 Press the MENU button to exit the menu.

Changing the PIP Channel

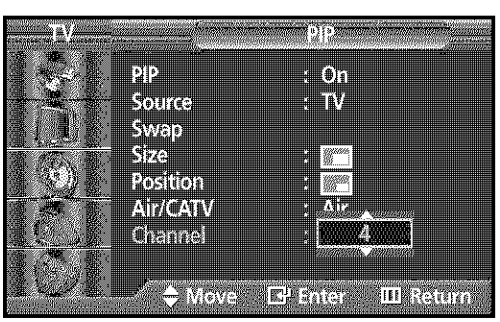
1 Press the MENU button. Press the ▲ or ▼ button to select "Picture", then press the ENTER button.



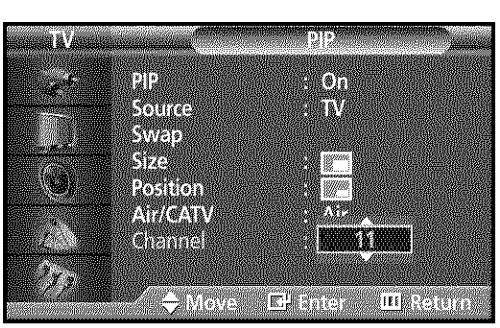
2 Press the ▲ or ▼ button to select "PIP", then press the ENTER button.



3 Press the ▲ or ▼ button to select "Channel", then press the ENTER button.



4 Press the ▲ or ▼ button to change the channel that appears in the PIP window.



5 Press the MENU button to exit.

SETTING

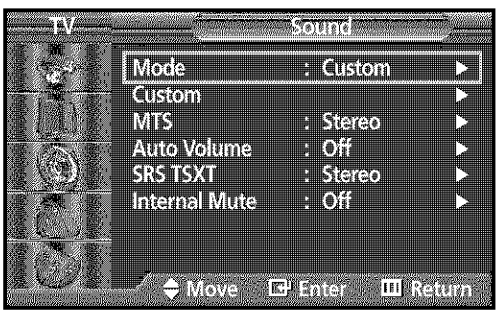
PLASMA DISPLAY PANEL

Sound Control

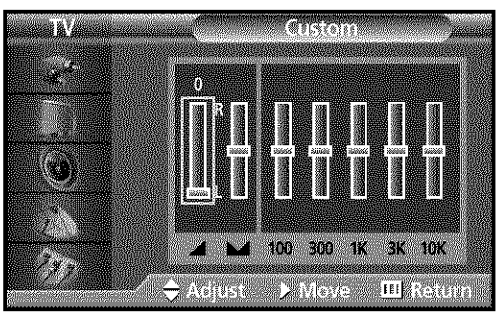
Customizing the Sound 56
Using Automatic Sound Settings 57
Choosing a Multi-Channel Sound (MTS)Soundtrack 58
Using the Auto Volume 59
Setting the TruSurround XT 60
Selecting the Internal Mute 61

Customizing the Sound

1 Press the MENU button. Press the ▲ or ▼ button to select "Sound", then press the ENTER button.



2 Press the ▲ or ▼ button to select "Custom", then press the ENTER button.



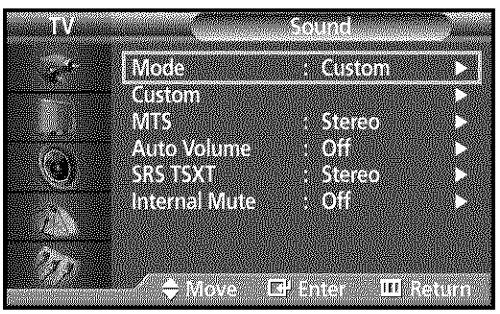
3 Select the option (volume, balance, equalizer) to be adjusted by pressing the ◄ or ► button. Press the ▲ or ▼ button to reach the required setting.

4 Press the MENU button to exit.

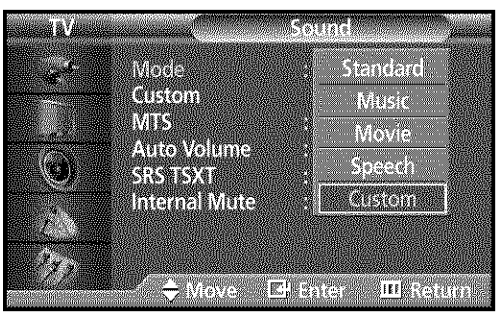
➢ If you make any changes to the equalizer settings, the sound Mode is automatically switched to the custom mode.

Using Automatic Sound Settings

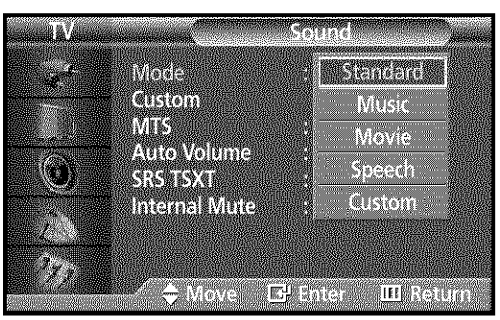
1 Press the MENU button. Press the ▲ or ▼ button to select "Sound", then press the ENTER button.



2 Press the ENTER button to select "Mode".



3 Press the ▲ or ▼ button to select "Standard", "Music", "Movie", "Speech" or "Custom" sound setting, then press the ENTER button.



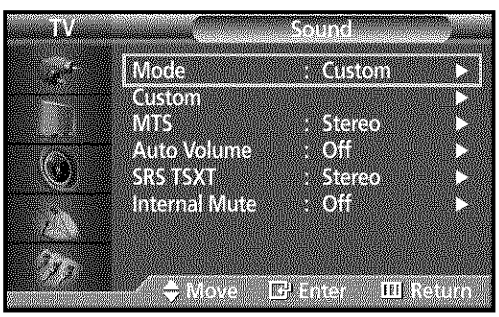
4 Press the MENU button to exit.

Choosing a Multi-Channel Sound (MTS) Soundtrack

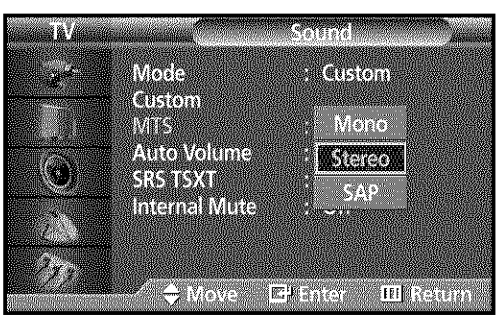
Depending on the particular program being broadcast, you can listen to stereo, mono, or a Separate Audio Program. (SAP audio is usually a foreign-language translation. Sometimes SAP has unrelated information like news or weather.)

1 Press the MENU button. Press the ▲ or ▼ button to select "Sound", then press the ENTER button.

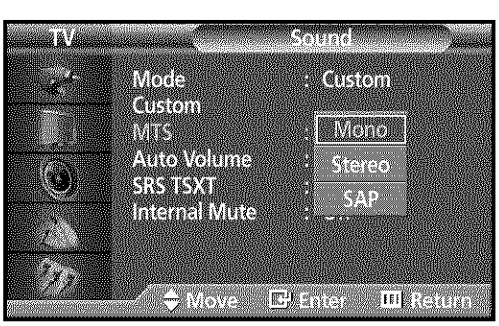
➤ Quick way to access the MTS menu: Just press the "MTS" button on the remote control.



2 Press the ▲ or ▼ button to select "MTS", then press the ENTER button.



3 Press the ▲ or ▼ button to select "Mono", "Stereo" or "SAP", then press the ENTER button.



4 Press the MENU button to exit.

- Choose *Stereo* for channels that are broadcasting in stereo.
- Choose *Mono* for channels that are broadcasting in mono, or if you are having difficulty receiving a stereo signal.
- Choose *SAP* to listen to the Separate Audio Program, which is usually a foreign-language translation.

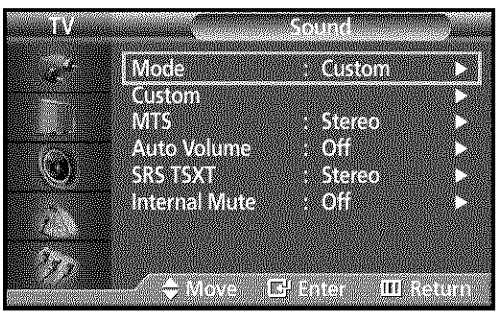
Note

• The MTS function operates in TV mode only.

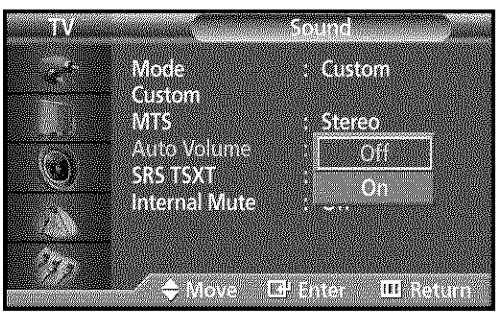
Using the Auto Volume

Each broadcasting station has its own signal conditions, which can make it necessary to adjust the volume every time the channel is changed. "Auto volume" lets you automatically adjust the volume of the desired channel by lowering the sound output when the modulation signal is high or by raising the sound output when the modulation signal is low.

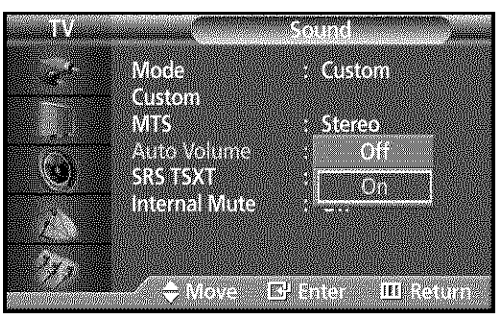
1 Press the MENU button. Press the ▲ or ▼ button to select "Sound", then press the ENTER button.



2 Press the ▲ or ▼ button to select "Auto Volume", then press the ENTER button.



3 Press the ▲ or ▼ button to select "On", then press the ENTER button.
- Pressing the ▲ or ▼ button will alternate between "On" and "Off".

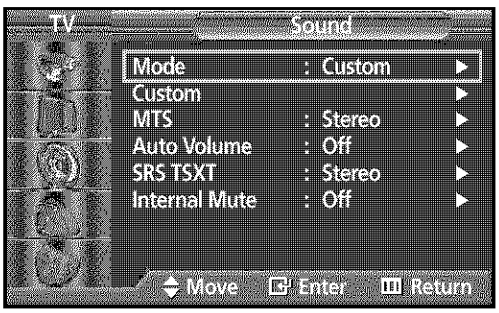


4 Press the MENU button to exit.

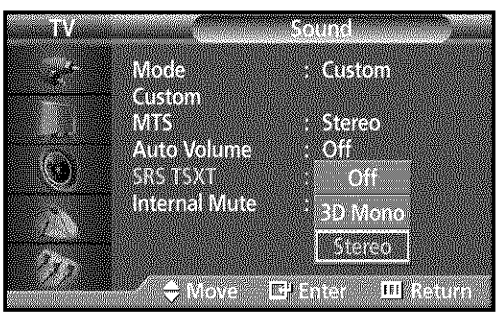
Setting the TruSurround XT

TruSurround XT is a patented SRS technology that solves the problem of playing 5.1 multichannel content over two speakers. Trusurround delivers a compelling, virtual surround sound experience through any two-speaker playback system, including internal television speakers. It is fully compatible with all multichannel formats.

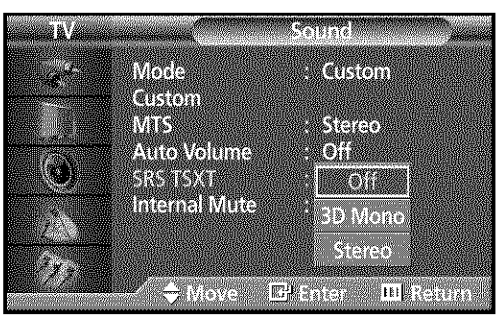
1 Press the MENU button. Press the ▲ or ▼ button to select "Sound", then press the ENTER button.



2 Press the ▲ or ▼ button to select "SRS TSXT", then press the ENTER button.



3 Press the ▲ or ▼ button to change the setting (Off, 3D Mono or Stereo), then press the ENTER button.



4 Press the MENU button to exit.

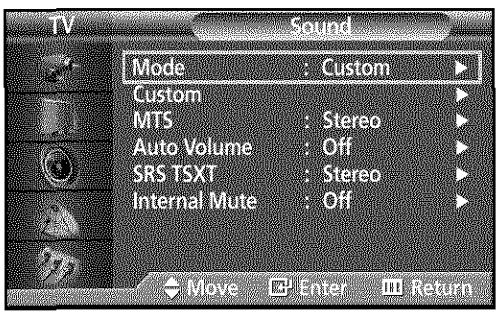
➤ TruSurround XT, SRS and (◉) Symbol are trademarks of SRS Labs, Inc. TruSurround XT technology is incorporated under license from SRS Labs, Inc.

SRS(◉) TruSurround XT

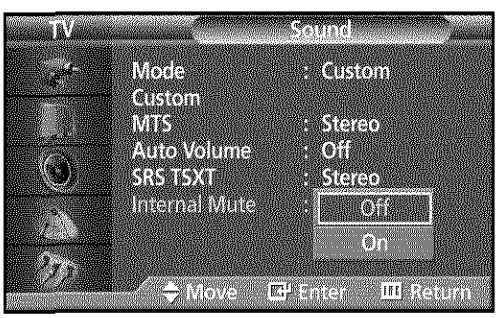
Selecting the Internal Mute

The internal speakers can be muted in order to hear sound from external speakers you've connected.

1 Press the MENU button. Press the ▲ or ▼ button to select "Sound", then press the ENTER button.

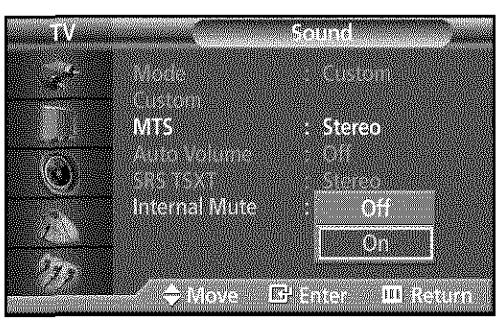


2 Press the ▲ or ▼ button to select "Internal Mute", then press the ENTER button.



3 Press the ▲ or ▼ button to select "On", then press the ENTER button.

• Pressing the ▲ or ▼ button will alternate between "On" and "Off".



4 Press the MENU button to exit.

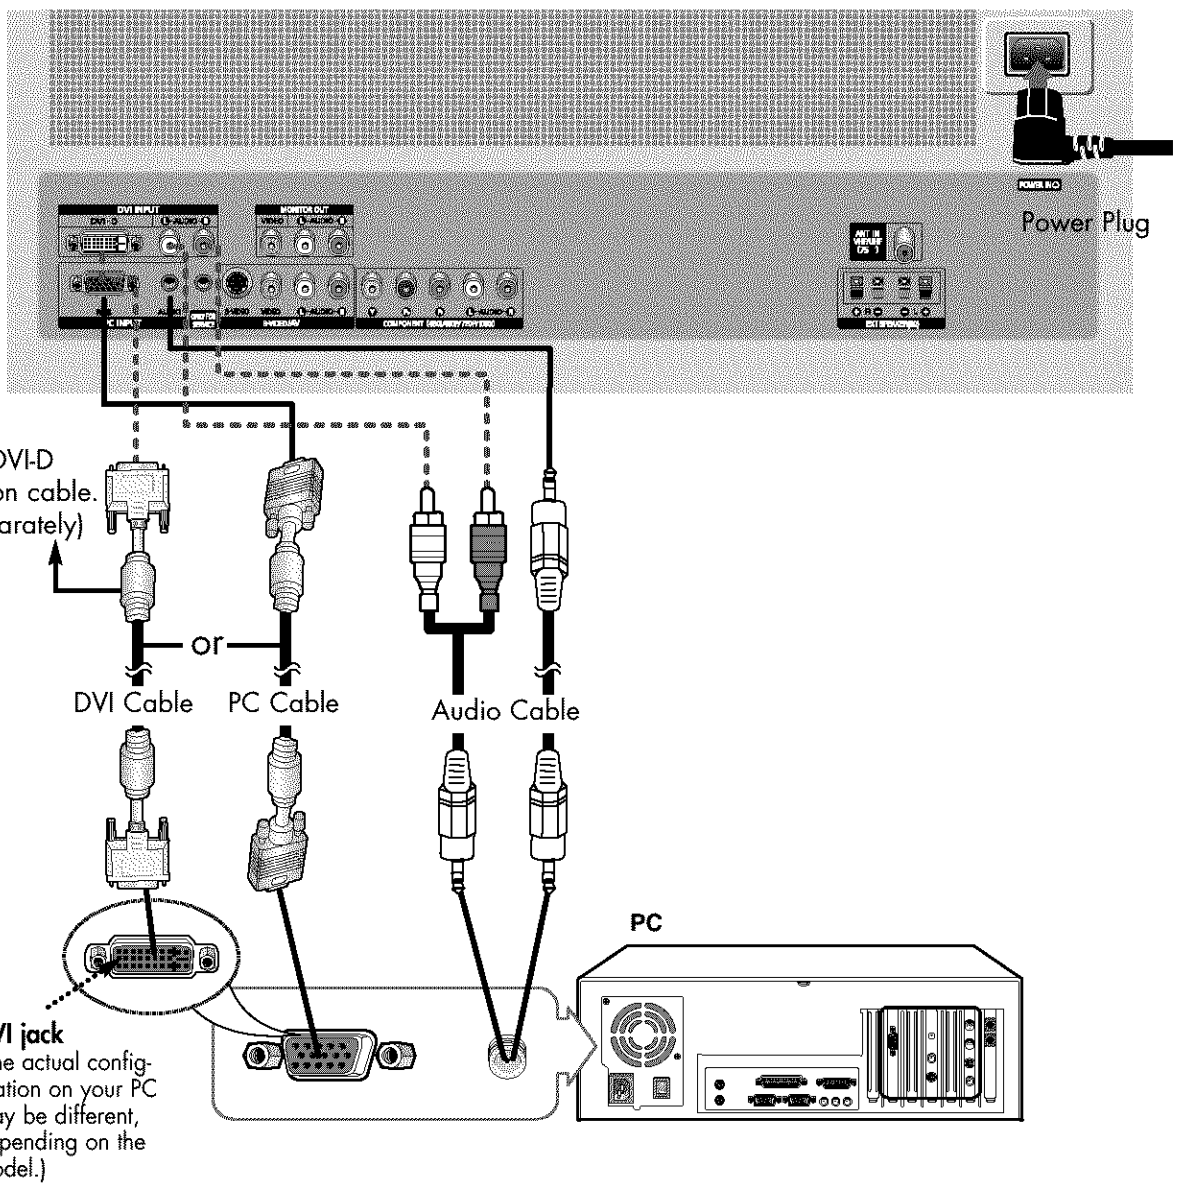
Connecting a PC

Connection to a Macintosh computer may require an adapter.

PDP



Connecting a PC to the PDP

1. Connect a PC (15pin) cable between the PC Output jack (or DVI jack) on the PC and the RGB IN(or DVI IN) Input jack (15p D-SUB) on the PDP.
2. Connect a Audio cable between the Audio (RGB or DVI) on the PC and the Audio L/R (RGB or DVI) input jacks on the PDP.

To watch the PC screen:

1. Turn on your PDP
2. Press the TV/VIDEO button on the remote control or SOURCE button on the front panel to select "PC".
3. Turn on PC and check for PC system requirements. (Refer to pages 68 and 69 for PC system requirements.)
4. Adjust the PC screen. (Refer to pages 70 and 75.)

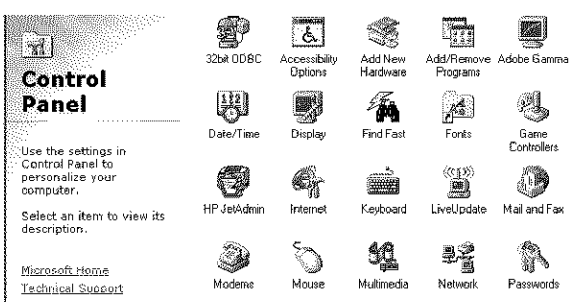
Setting up Your PDP (Plug and Play)

Our adoption of the new VESA® Plug and Play solution eliminates complicated and time consuming setup. It allows you to install your monitor in a Plug and Play compatible system, without the usual setup hassles and confusion. Your PC system can easily identify and configure itself for use with your display. This monitor automatically tells the PC system its Extended Display Identification data (EDID) using Display Data Channel (DDC) protocols.

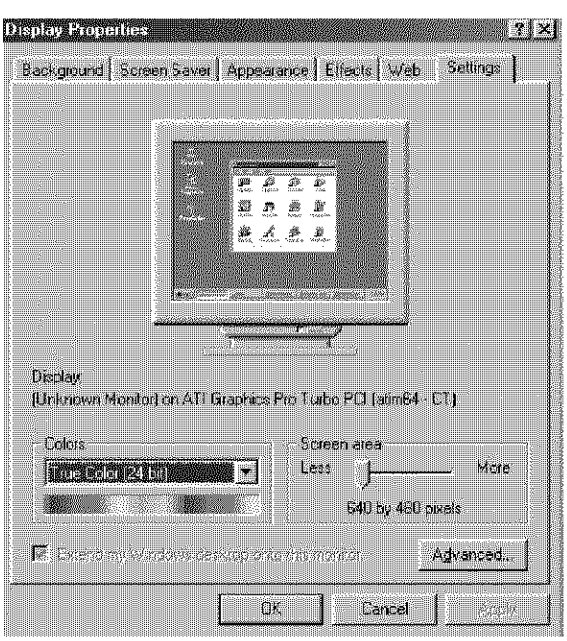
How to Set up Your PC Software (Windows only)

The Windows display-settings for a typical computer are shown below. However, the actual screens on your PC will probably be different, depending upon your particular version of Windows and your particular video card. But even if your actual screens look different, the same, basic set-up information will apply in almost all cases. (If not, contact your computer manufacturer or Samsung Dealer.)

On the windows screen, select in the following sequence : Start → Settings → Control Panel.



When the control panel screen appears, click on "Display" and a display dialog-box will appear.



Select the "Settings" tab in the display dialog-box.

The two key variables that apply to the PDP-PC interface are "resolution" and "colors".
The correct settings for these two variables are:

- Size (sometimes called "resolution") :640 x 480 pixels.
- Color: "32-bit" color Shown at left is a typical screen for "Display" dialog box.

If a vertical-frequency option exists on your display settings dialog box, the correct value is "60" or "60 Hz". Otherwise, just click "OK" and exit the dialog box.

Continued...

Notes:
Both screen position and size will vary, depending on the type of PC monitor and its resolution.
The table below shows all of the display modes that are supported:

Video Signal	Resolution (Dot X Line)	Vertical Frequency(Hz)	Horizontal Frequency(KHz)	Vertical Polarity	Horizontal Polarity
IBM PC / AT Compatible	640 X 350	70.086	31.469	N	P
		85.080	37.861	N	P
	640 X 400	85.080	37.861	P	N
	720 X 400	70.087	31.469	P	N
		85.039	37.927	P	N
	640 X 480	59.940	31.469	N	N
		72.809	37.861	N	N
		75.000	37.500	N	N
		85.061	43.269	N	N
	800 X 600	56.250	35.156	N/P	N/P
		60.317	37.897	P	P
		72.188	48.077	P	P
		75.000	46.875	P	P
		85.061	53.674	P	P
	848 X 480	60.000	29.838	nVidia chipset	
		72.000	36.072		
		75.000	37.650		
	1024 X 768	60.004	48.363	N	N
		70.069	56.476	N	N
		75.029	60.023	P	P
		84.997	63.677	P	P

- The interlace mode is not supported.
- The PDP operates abnormally if a non-standard video format is selected.
- This sheet conforms to IBM/VESA regulations and is prepared on the basis of Analog Input.
- The DVI Mode is supported same as above table.

Notes:
- When this PDP is used as a PC display, 32-bit color is supported.
- Depending on the manufacturer, your PC display screen might appear different. (and depending on your particular version of Windows.)
  Check your PC instruction book for information about connecting your PC to a PDP.
- If a vertical and horizontal frequency-select mode exists, select 60Hz (vertical) and 31.5kHZ (horizontal).
- In some cases, abnormal signals (such as stripes) might appear on the screen when the PC power is turned off (or if the PC is disconnected). If so, press the TV/VIDEO button on the remote control or SOURCE button on the front panel to enter the VIDEO mode. Also, make sure that the PC is connected.
- Connect only a PC monitor to the monitor output port while viewing the PC screen. (Otherwise, random signals might appear).

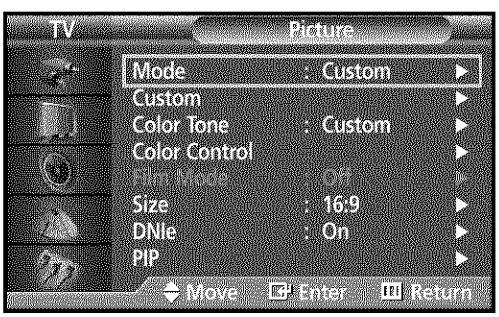
Adjusting the PC Screen

Adjusting the R.G.B

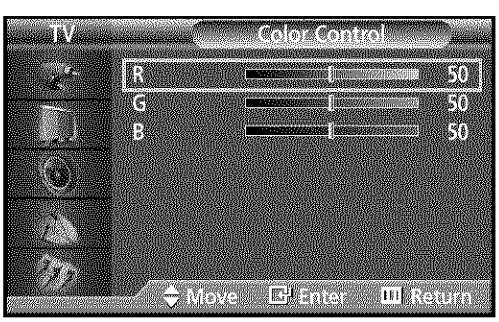
Preset:

- Press the TV/VIDEO button to select "PC".

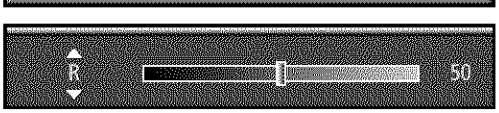
1 Press the MENU button. Press the ▲ or ▼ button to select "Picture", then press the ENTER button.



2 Press the ▲ or ▼ button to select "Color Control", then press the ENTER button.
The "Color Control" is available only when "Color Tone" is set in the custom mode.



3 Press the ▲ or ▼ button to select the item you want to change, then press the ENTER button.
Press the ◄ or ► button to change the value of the item, using the on-screen gauge as your guide.



4 Press the MENU button to exit.

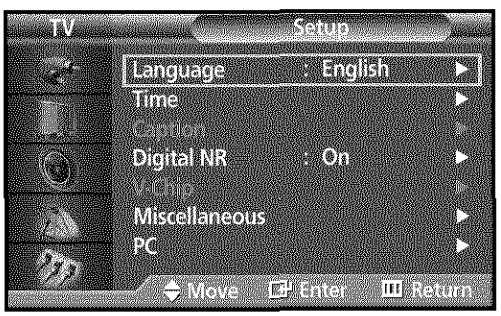
Changing the Position of the Image

After connecting the PDP to your PC, adjust the position of the screen if it is not well-aligned.

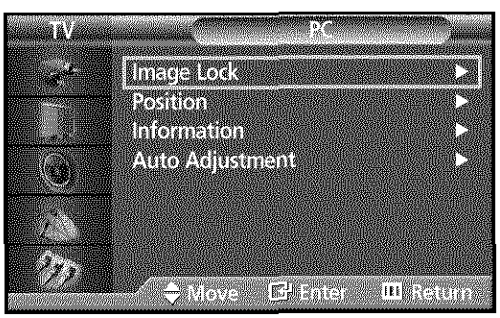
Preset:

- Press the TV/VIDEO button to select "PC."

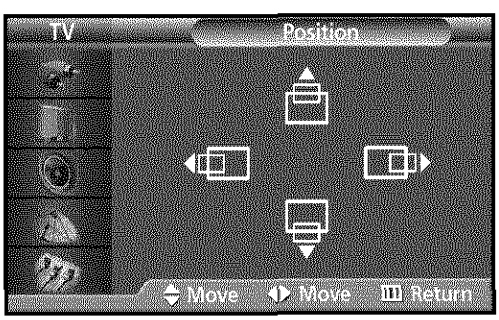
1 Press the MENU button. Press the ▲ or ▼ button to select "Setup", then press the ENTER button.



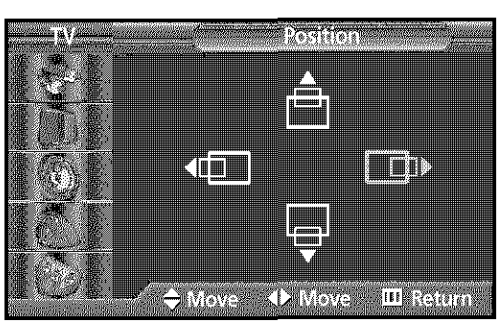
2 Press the ▲ or ▼ button to select "PC", then press the ENTER button.



3 Press the ▲ or ▼ button to select "Position", then press the ENTER button.



4 Adjust the position of screen by pressing the ▲ / ▼/ ◄ / ► button.



5 Press the MENU button to exit.

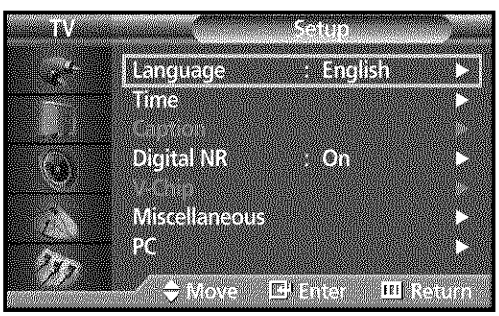
Picture Quality Adjustment

Picture Automatic Adjustment

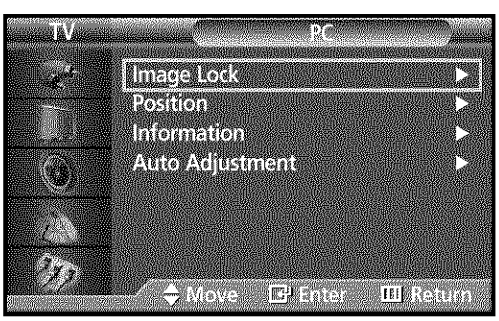
Preset:

- Press the TV/VIDEO button to select "PC".

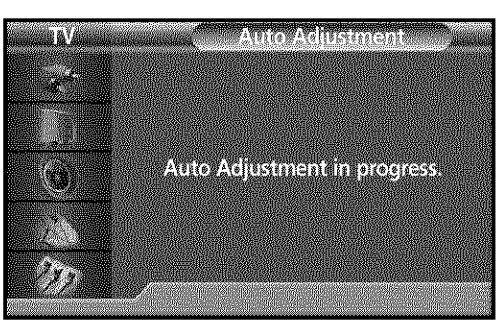
1 Press the MENU button. Press the ▲ or ▼ button to select "Setup", then press the ENTER button.



2 Press the ▲ or ▼ button to select "PC", then press the ENTER button.



3 Press the ▲ or ▼ button to select "Auto Adjustment", then press the ENTER button. The message "Auto Adjustment in progress" appears on the screen and the picture adjustments are automatically activated.



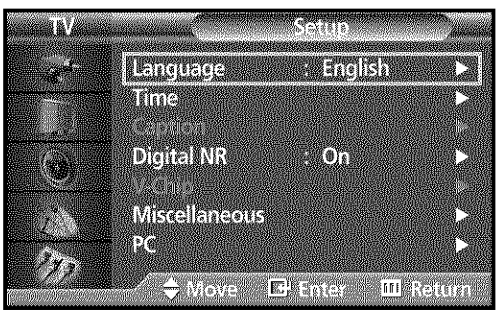
4 Press the MENU button to exit.

Coarse Adjustment

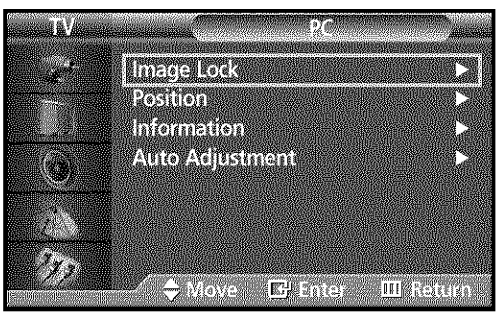
Preset:

- Press the TV/VIDEO button to select "PC".

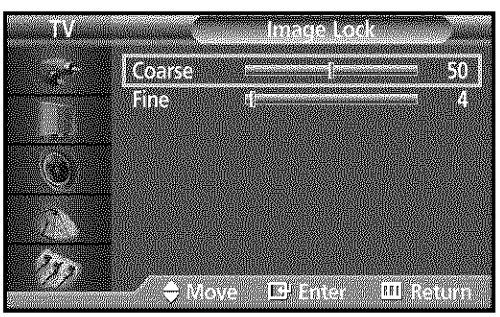
1 Press the MENU button. Press the ▲ or ▼ button to select "Setup", then press the ENTER button.



2 Press the ▲ or ▼ button to select "PC", then press the ENTER button.

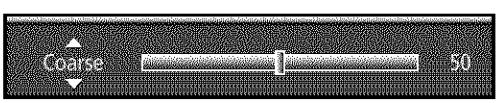


3 Press the ▲ or ▼ button to select "Image Lock", then press the ENTER button.



4 Press the ENTER button to select "Coarse".

Remove picture noise (vertical stripes) on the screen by pressing the ◄ or ► button. (If Coarse is not set properly, vertical stripes will appear on the screen.)



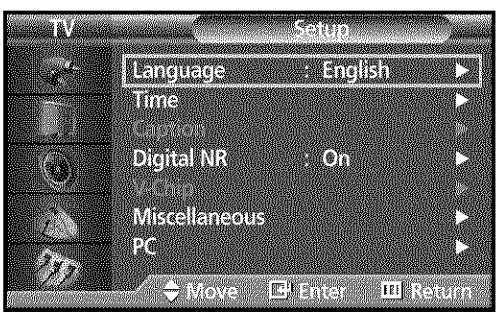
5 Press the MENU button to exit.

Fine Tuning (Fine)

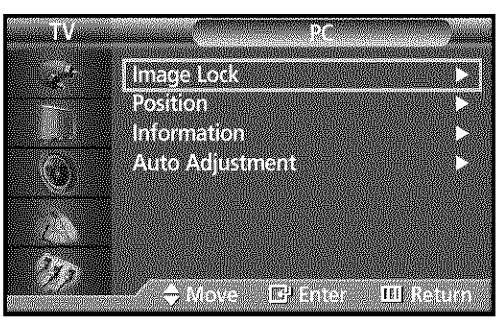
Preset:

- Press the TV/VIDEO button to select "PC".

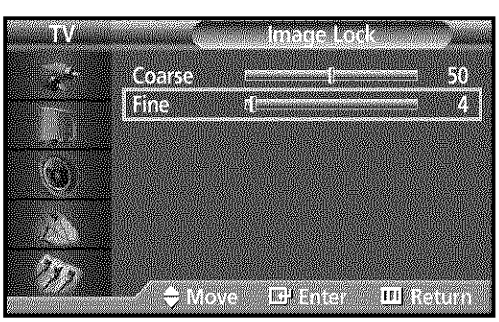
1 Press the MENU button. Press the ▲ or ▼ button to select "Setup", then press the ENTER button.



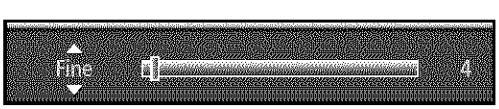
2 Press the ▲ or ▼ button to select "PC", then press the ENTER button.



3 Press the ▲ or ▼ button to select "Image Lock", then press the ENTER button.



4 Press the ▲ or ▼ button to select "Fine", then press the ENTER button.
Remove picture noise on the screen by pressing the ◄ or ► button. (If Fine is not set properly, noise will appear on the screen.)



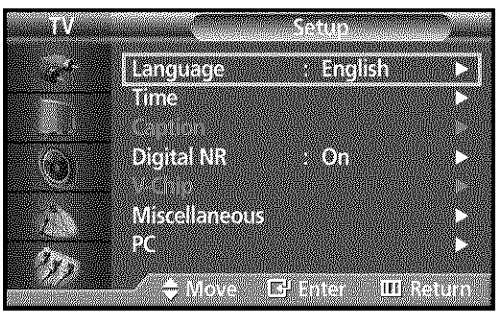
5 Press the MENU button to exit.

Information

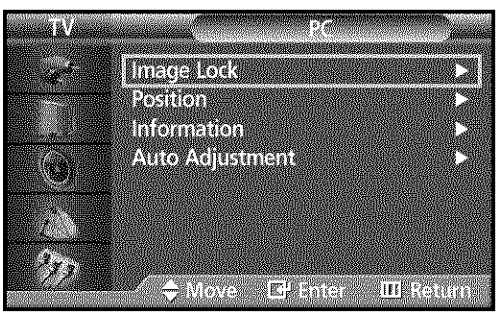
Preset:

- Press the TV/VIDEO button to select "PC".

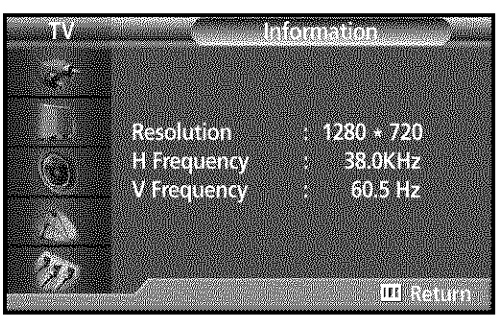
1 Press the MENU button. Press the ▲ or ▼ button to select "Setup", then press the ENTER button.



2 Press the ▲ or ▼ button to select "PC", then press the ENTER button.



3 Press the ▲ or ▼ button to select "Information", then press the ENTER button. The vertical, horizontal frequencies and resolution appear.



4 Press the MENU button to exit.

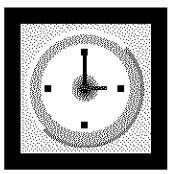
PLASMA DISPLAY PANEL

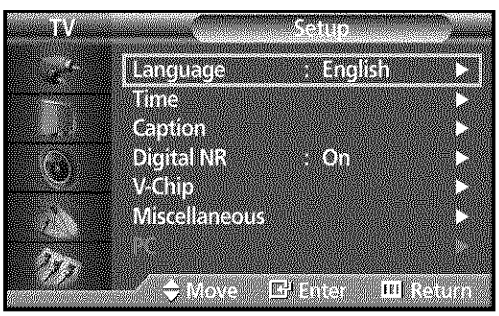
Time Setting



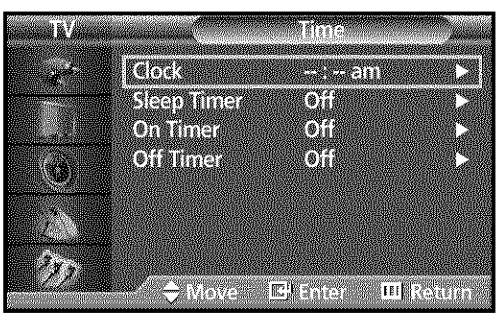
Setting the Clock 78
Setting the Sleep Timer 79
Setting the Timers 80

Setting the Clock

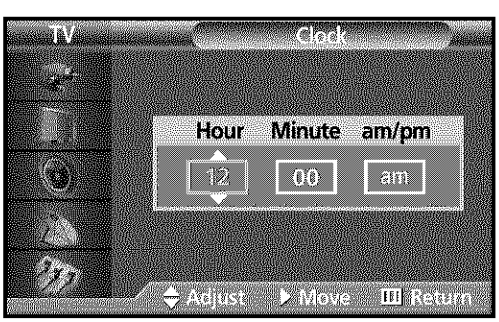
1 Press the MENU button. Press the ▲ or ▼ button to select "Setup", then press the ENTER button.



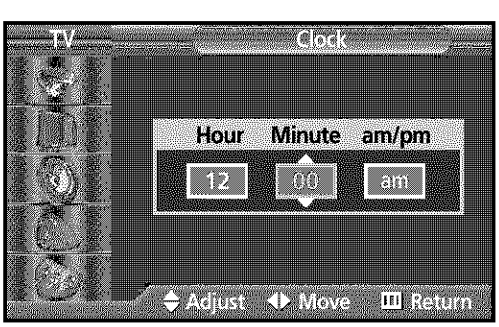
2 Press the ▲ or ▼ button to select "Time", then press the ENTER button.



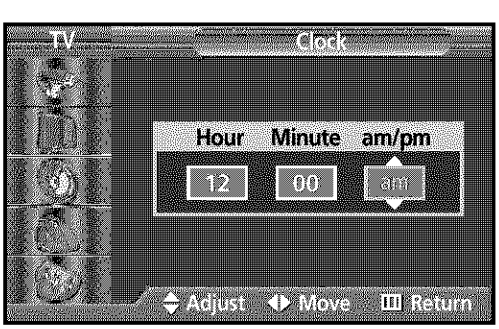
3 Press the ENTER button to select "Clock".
Press the ▲ or ▼ button to select correct hour.



4 Press the ► button to select "Minute.", then press the ▲ or ▼ button to select correct minute.



5 Press the ► button to select "am/pm.", then press the ▲ or ▼ button to select the proper time of day (am or pm).



6 Press the MENU button to exit.

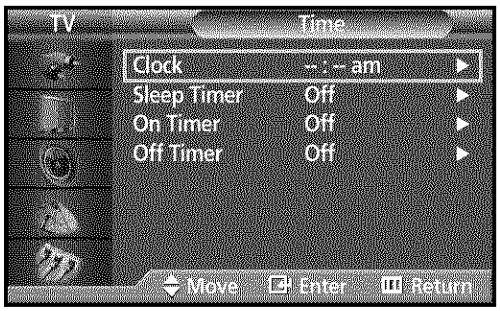
Setting the Sleep Timer

You can set your PDP to automatically turn off after a preset interval.

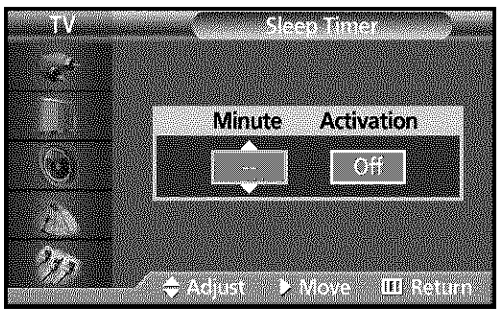
1 Press the MENU button. Press the ▲ or ▼ button to select "Setup", then press the ENTER button.

➢ Quick way to access the sleep timer setting: Just press the "SLEEP" button on the remote control.

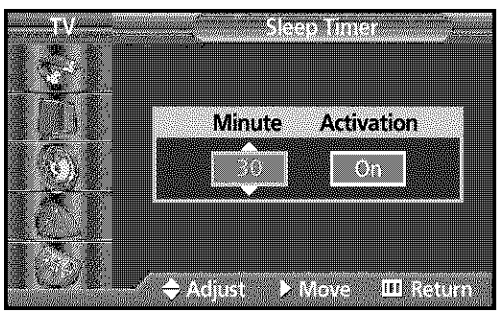
2 Press the ▲ or ▼ button to select "Time", then press the ENTER button.



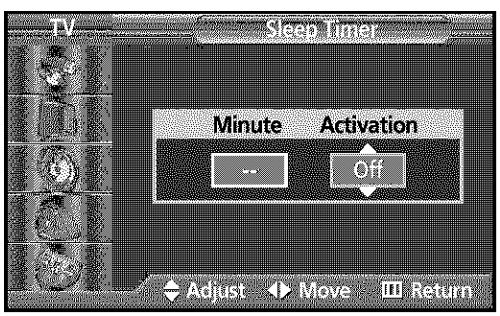
3 Press the ▲ or ▼ button to select "Sleep Timer", then press the ENTER button.



4 Press the ▲ or ▼ button to select the time interval for the PDP to stay on. The interval ranges from 30 to 180 minutes.



5 Press the ▶ button to select "Activation", then press the ▲ or ▼ button to select "On" or "Off".



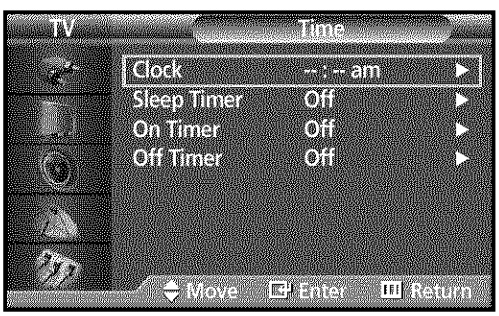
6 Press the MENU button to exit.

Setting the Timers

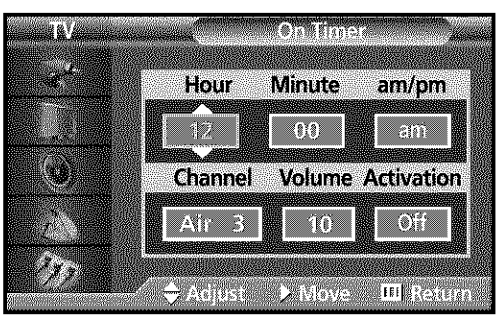
This PDP can be set to turn on or off automatically at specific times that you choose. Before using the timers, you must set the PDP's clock, as described previously.

1 Press the MENU button. Press the ▲ or ▼ button to select "Setup", then press the ENTER button.

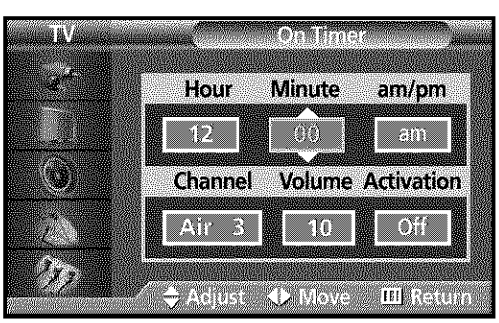
2 Press the ▲ or ▼ button to select "Time", then press the ENTER button.



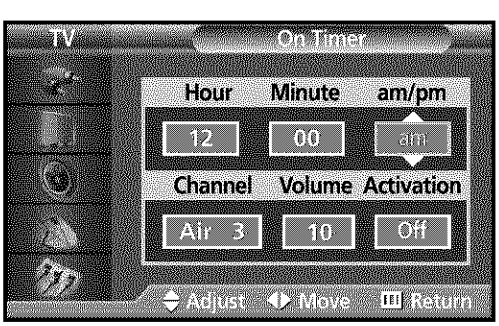
3 Press the ▲ or ▼ button to select "On Timer", then press the ENTER button.
Press the ▶ button to select "Hour", then press the ▲ or ▼ button to select correct hour.



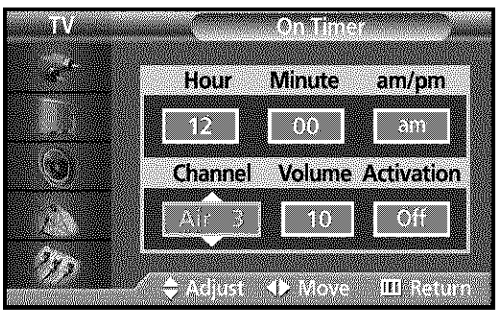
4 Press the ▶ button to select "Minute.", then press the ▲ or ▼ button to select correct minute.



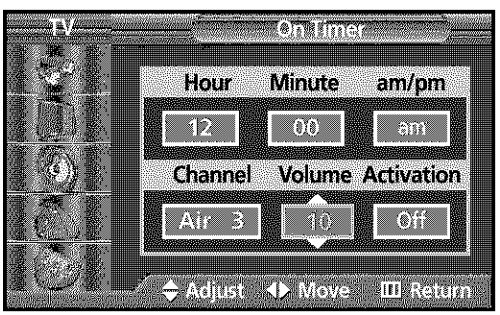
5 Press the ▶ button to select "am/pm", then press the ▲ or ▼ button to select the proper time of day (am or pm).



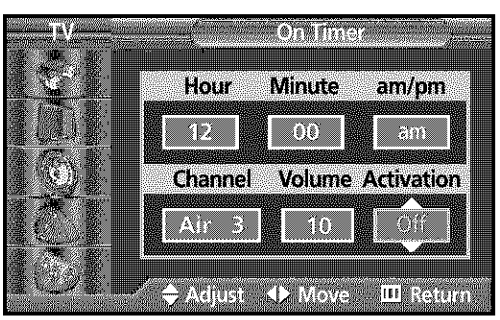
6 Press the ▶ button to select "Channel", then press the ▲ or ▼ button to select the channel you want when PDP turns on.



7 Press the ▶ button to select "Volume", then press the ▲ or ▼ button to select the volume level you want when PDP turns on.



8 Press the ▶ button to select "Activation", then press the ▲ or ▼ button to select "On" or "Off".



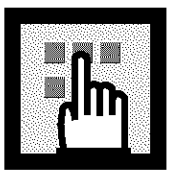
9 If you want to set Off Timer, press the ▲ or ▼ button to select "Off Timer". Set the "Off Timer" just as you set "On Timer".

10 Press the MENU button to exit.

SAMSUNG

PLASMA DISPLAY PANEL

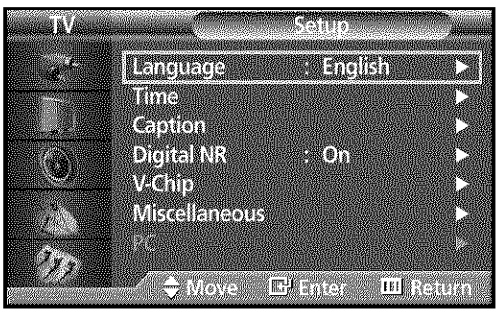
Function Description



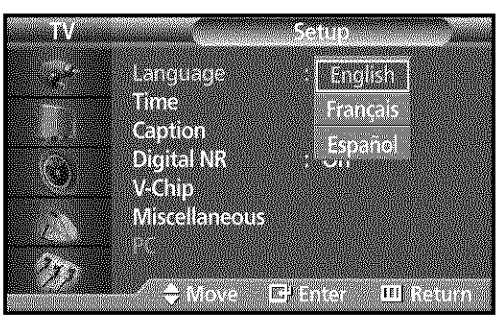
Selecting a Menu Language 84
Digital Noise Reduction 85
Selecting the Film Mode 86
Setting the Melody Sound 87
Setting the Blue Screen 88
Viewing Closed Captions 89
Using the V-Chip 90

Selecting a Menu Language

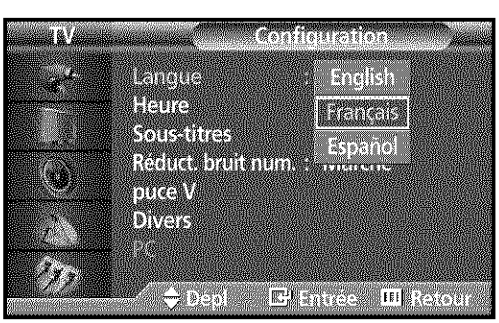
1 Press the MENU button. Press the ▲ or ▼ button to select "Setup", then press the ENTER button.



2 Press the ENTER button to select "Language".



3 Press the ▲ or ▼ button to select the appropriate language: "English", "Français" or "Español".

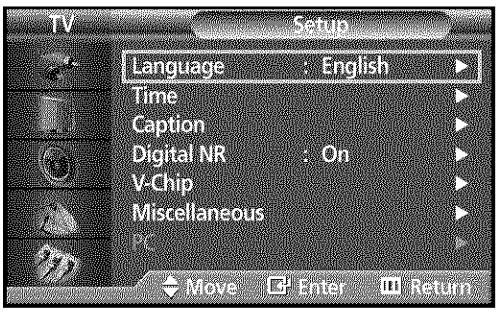


4 Press the MENU button to exit.

Digital Noise Reduction

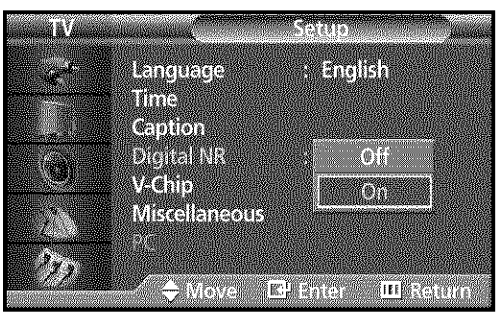
If the broadcast signal received by your TV is weak, you can activate the Digital Noise Reduction feature to help reduce any static and ghosting that may appear on the screen.

1 Press the MENU button. Press the ▲ or ▼ button to select "Setup", then press the ENTER button.



2 Press the ▲ or ▼ button to select "Digital NR", then press the ENTER button.

3 Press the ▲ or ▼ button to select "On" or "Off", then press the ENTER button.



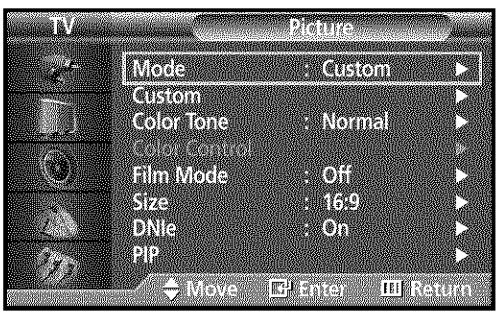
4 Press the MENU button to exit.

Selecting the Film Mode

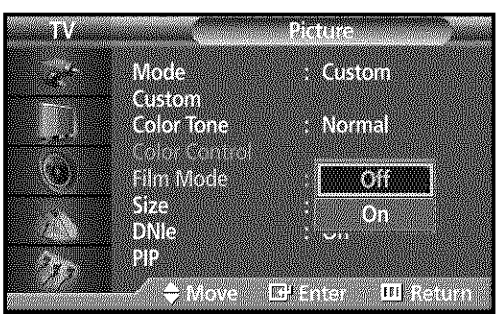
On: Automatically senses and processes film signals from all sources and adjusts the picture for optimum quality.

Off: Switches off the Film mode.

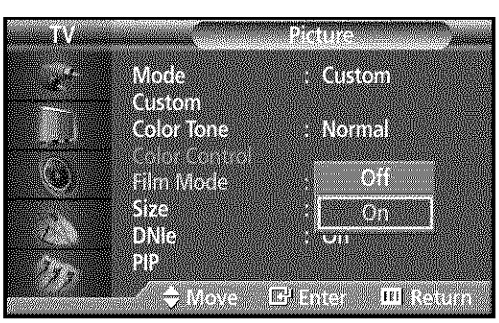
1 Press the MENU button. Press the ▲ or ▼ button to select "Picture", then press the ENTER button.



2 Press the ▲ or ▼ button to select "Film Mode", then press the ENTER button.



3 Press the ▲ or ▼ button to select "On" or "Off", then press the ENTER button.



4 Press the MENU button to exit.

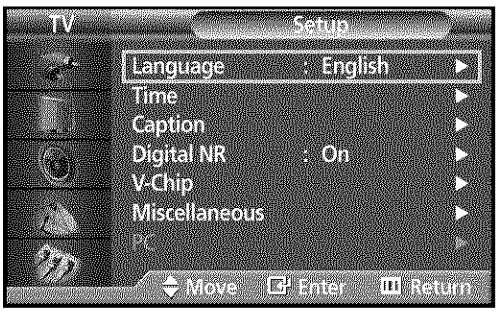
Note

- Film mode is supported in TV, Video, S-Video and Component 480i.

Setting the Melody Sound

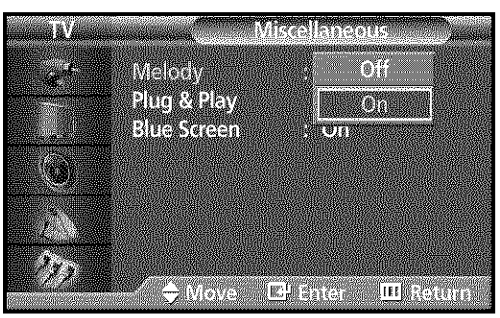
You can hear clear melody sound when the television is powered on or off.

1 Press the MENU button. Press the ▲ or ▼ button to select "Setup", then press the ENTER button.



2 Press the ▲ or ▼ button to select "Miscellaneous", then press the ENTER button.

3 Press the ▲ or ▼ button to select "Melody", press the ENTER button.



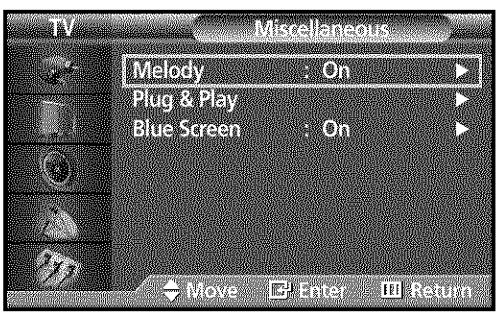
4 Press the ▲ or ▼ button to change the setting. (On or Off).

Setting the Blue Screen

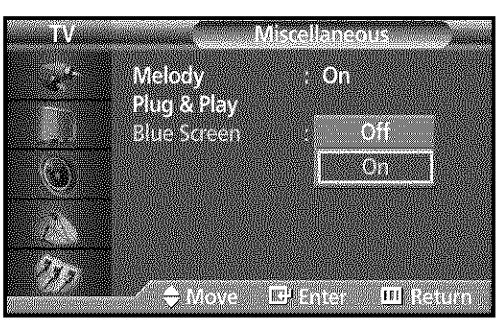
If no signal is being received or the signal is very weak, a blue screen automatically replaces the noisy picture background. If you wish to continue viewing the poor picture, you must set the "Blue Screen" mode to "Off".

1 Press the MENU button. Press the ▲ or ▼ button to select "Setup", then press the ENTER button.

2 Press the ▲ or ▼ button to select "Miscellaneous", then press the ENTER button.

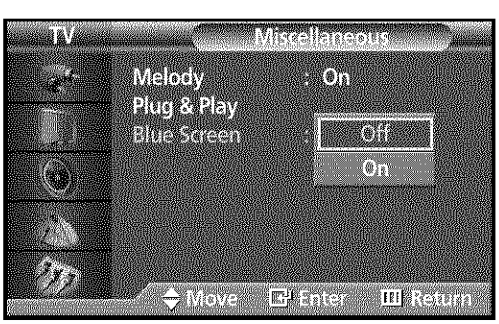


3 Press the ▲ or ▼ button to select "Blue Screen", Press the ENTER button.



4 Press the ▲ or ▼ button to change the setting. (On or Off).

➢ Blue Screen is displayed when there is no signal from an external device in the External Mode, regardless of the Blue Screen Setting.



Viewing Closed Captions

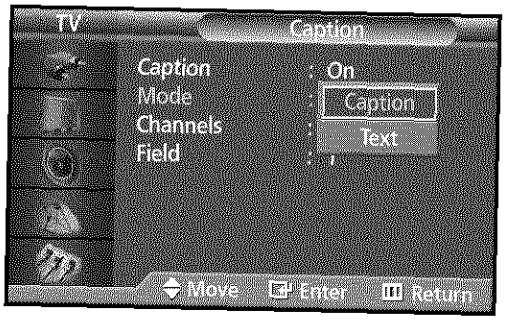
Your TV decodes and displays the closed captions that are broadcast with certain TV shows. These captions are usually subtitles for the hearing impaired or foreign language translations. All VCRs record the closed caption signal from television programs, so home-recorded video tapes also provide closed captions. Most prerecorded commercial video tapes provide closed captions as well. Check for the closed caption symbol in your television schedule and on the tape's packaging: CC .

Note: The Caption feature does not work with DVD or DTV signals.

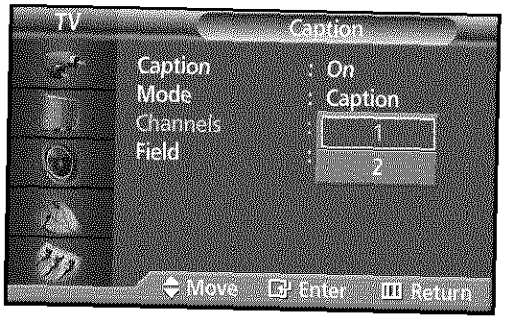
1 Press the MENU button. Press the ▲ or ▼ button to select "Setup", then press the ENTER button. Press the ▲ or ▼ button to select "Caption", then press the ENTER button.

2 Press the ENTER button to select "Caption". Press the ▲ or ▼ button to turn closed caption on/off, then press the ENTER button.

3 Press the ▲ or ▼ button to select "Mode", then press the ENTER button. Press the ▲ or ▼ button to select "Text" or "Caption", then press the ENTER button.



4 Depending on the particular broadcast, it might be necessary to make changes to "Channels" and "Field": Press the ▲ / ▼/ ◄ / ► button to make the changes. (Follow the same procedure as in steps 3 above.)



5 Press the MENU button to exit.

Note

- Different channels and fields display different information: Field 2 carries additional information that supplements the information in Field 1. (For example, Channel 1 may have subtitles in English, while Channel 2 has subtitles in Spanish.)

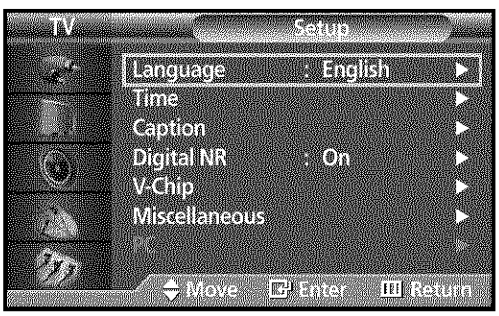
Using the V-Chip

The V-Chip feature automatically locks out programs that are deemed inappropriate for children. The user must enter a PIN (personal ID number) before any of the V-Chip restrictions are set up or changed.

Note: When the V-chip feature is activated, the PIP and auto channel program features do not function.

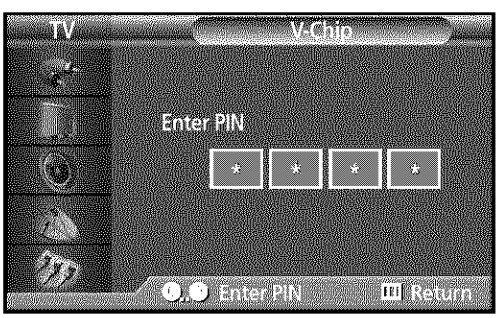
Setting Up Your Personal ID Number (PIN)

1 Press the MENU button. Press the ▲ or ▼ button to select "Setup", then press the ENTER button.

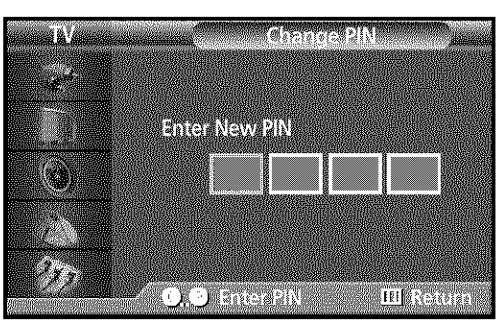


2 Press the ▲ or ▼ button to select "V-Chip", then press the ENTER button.
The message "Enter PIN" will appear. Enter your 4-digit PIN number.

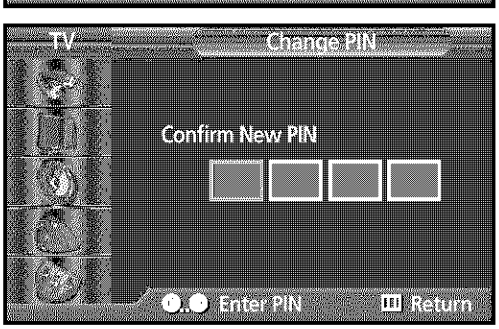
Note: The default PIN number of a new TV set is "0-0-0-0".



3 The "V-Chip" screen will appear. Press the ▲ or ▼ button to select "Change PIN", then press the ENTER button.



4 The Change pin screen will appear. Choose any 4-digits for your PIN and enter them.
As soon as the 4 digits are entered, the "Confirm New PIN" screen appears. Re-enter the same 4 digits. When the Confirm screen disappears, your PIN has been memorized.



5 Press the MENU button to exit.

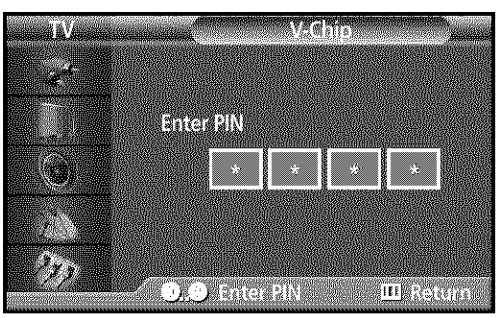
Note

- If you forget the PIN, press the remote-control buttons in the following sequence, which resets the pin to 0-0-0-0 : Power Off. → Mute → 8 → 2 → 4 → Power On.

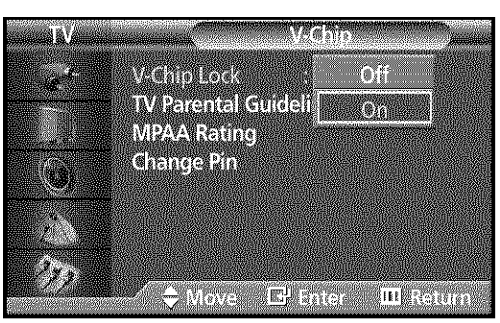
How to Enable/Disable the V-Chip

1 Press the MENU button. Press the ▲ or ▼ button to select "Setup", then press the ENTER button.

2 Press the ▲ or ▼ button to select "V-Chip", then press the ENTER button.
The message "Enter Pin" will appear. Enter your 4-digit PIN number.



3 The "V-Chip" screen will appear. To enable the V-Chip feature, press the ENTER button so that the "V-Chip Lock" field is "On". (Pressing the ▲ or ▼ button will alternate between "On" and "Off".)



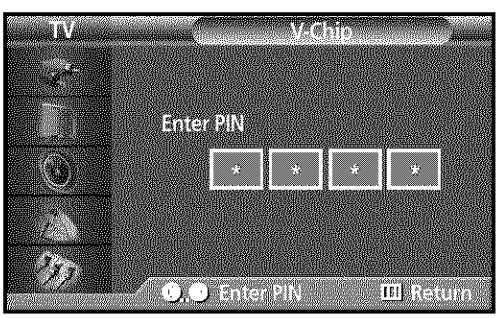
4 Press the MENU button to exit.

How to Set up Restrictions using the "TV guidelines"

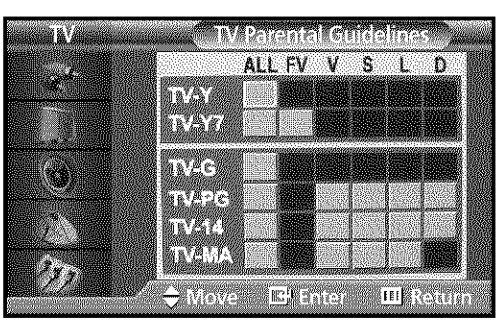
First, set up a personal identification number (PIN), and enable the V-Chip. (See previous section.)
Parental restrictions can be set up using either of two methods: The TV guidelines or the MPAA rating.

1 Press the MENU button. Press the ▲ or ▼ button to select "Setup", then press the ENTER button.

2 Press the ▲ or ▼ button to select "V-Chip", then press the ENTER button.
The message "Enter PIN" will appear. Enter your 4-digit PIN number.

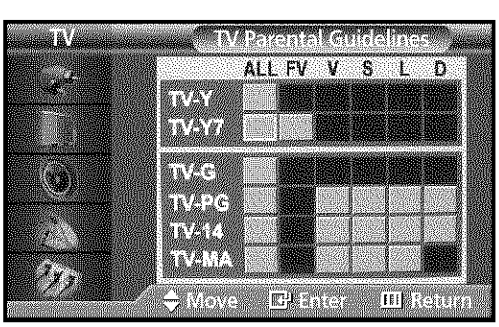


3 The "V-Chip" screen will appear. Press the ▲ or ▼ button to select "TV Parental Guidelines", then press the ENTER button.

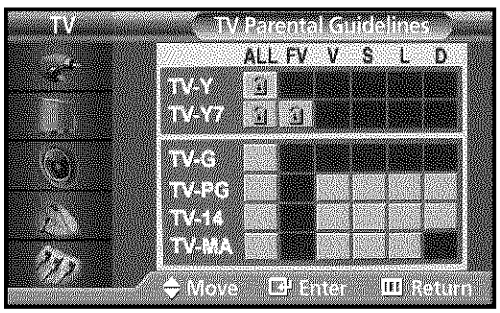


4 The "TV Parental Guidelines" screen will appear. Press the ▲ or ▼ button to select one of the six ages based categories:

TV-Y	Young children
TV-Y7	Children 7 and over
TV-G	General audience
TV-PG	Parental guidance
TV-14	Viewers 14 and over
TV-MA	Mature audience



5 At this point, one of the TV-Ratings is selected.
Press the ENTER button. Depending on your existing setup, a symbol 🔒 will be selected.
(Blank = Unblocked, 🔒 = Blocked)



While "🔒" is selected, press the ▲ or ▼ button to block the category.
To select a different TV-Rating, press the ▲ or ▼ button and then repeat the process.

Note 1: The TV-Y7, TV-PG, TV-14 and TV-MA have additional options. See the next step to change any of the following sub-ratings:

FV: Fantasy violence
D: Sexually Suggestive Dialog
L: Adult Language
S: Sexual situation
V: Violence

Note 2: The V-Chip will automatically block certain categories that are "more restrictive". For example, if you block "TV-Y" category, then TV-Y7 will automatically be blocked. Similarly, if you block the TV-G category, then all the categories in the "young adult" group will be blocked (TV-G, TV-PG, TV-14 and TV-MA). The sub-ratings (D, L, S, V) work together similarly. (See next section.)

6 How to set the FV, D, L, S and V sub-ratings.
First, select one of these TV-Ratings: TV-Y7, TV-PG, TV-14 or TV-MA (See Step 4, on previous page).
Next, while the TV-Rating is selected, repeatedly press the ENTER button.
This will cycle through the available sub-ratings (FV, L, S, D or V).
A symbol "🔒" will be displayed for each sub-rating.
While "🔒" is selected, press the ▲, ▼, ◄, or ► button to change the sub-rating.
To select a different TV-Rating, press the ▲ or ▼ button and then repeat the process.
Note: The V-chip will automatically block certain categories that are "More restrictive". For example, if you block "L" sub-rating in TV-PG, then the "L" sub-ratings in TV-14 and TV-MA will automatically be blocked.

7 Press the MENU button to clear all the screens. (Or proceed to the next section, and set up additional restrictions based on the MPAA codes).

Note

- These categories consist of two separate groups: TV-Y and TV-Y7 (young children through age 7), and TV-G through TV-MA (everybody else).

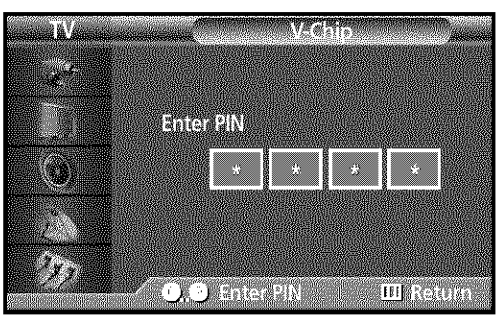
  The restrictions for these two groups work independently: If a household includes very young children as well as young adults, the TV guidelines must be set up separately for each age group. (See next step.)

How to Set up Restrictions using the MPAA Ratings: G, PG, PG-13, R, NC-17, X

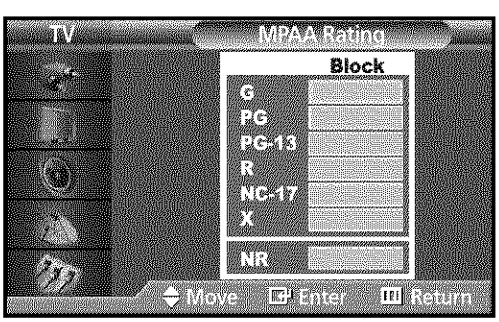
The MPAA rating system uses the Motion Picture Association of America (MPAA) system, and its main application is for movies. When the V-Chip lock is on, the TV will automatically block any programs that are coded with objectionable ratings (either MPAA or TV-Ratings).

1 Press the MENU button. Press the ▲ or ▼ button to select "Setup", then press the ENTER button.

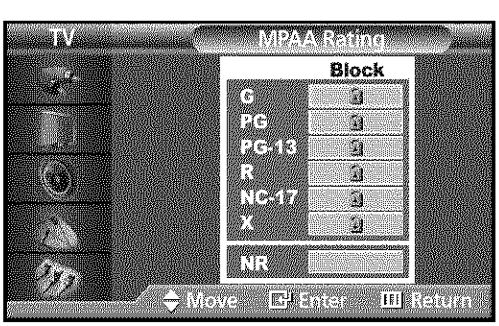
2 Press the ▲ or ▼ button to select "V-Chip", then press the ENTER button.
The message "Enter Pin" will appear. Enter your 4-digit PIN number.



3 The "V-Chip" screen will appear. Press the ▲ or ▼ button to select "MPAA Rating", then press the ENTER button.



4 The "MPAA Rating" screen will appear.
Repeatedly press the ▲ or ▼ button to select a particular MPAA category.
Pressing the ▲ or ▼ button will cycle through the MPAA categories:



G	General audience (no restrictions).
PG	Parental guidance suggested.
PG-13	PG-13 (Parents strongly cautioned).
R	R (Restricted. Children under 17 should be accompanied by an adult).
NC-17	No children under age 17.
X	X (Adults only).
NR	Not rated.

While a particular category is selected, press the ▲ or ▼ button to activate it.
A selected symbol "🔒" will be displayed. Press the ▲ or ▼ button to select "🔒".
Note: The V-Chip will automatically block any category that is "more restrictive". For example, if you block the "PG-13" category, then "R", "NC-17" and "X" will automatically be blocked also.

How to Reset the TV after the V-Chip Blocks a Channel ("Emergency Escape")

If the TV is tuned to a restricted channel, the V-Chip will block it. The screen will go blank and the following message will appear: "This channel is blocked by V-Chip".

To resume normal viewing, tune to a different channel using the number buttons.
Under certain conditions (depending on the rating of the local TV programs) the V-Chip might lock out all the channels. In this case, use the V-Chip function for an "emergency escape":

1 Press the MENU button. Press the ▲ or ▼ button to select "Setup", then press the ENTER button.

2 Press the ▲ or ▼ button to select "V-Chip", then press the ENTER button.

3 Enter your PIN number, and press the ► button to temporarily disable the V-Chip Lock.

Troubleshooting.....98
Care and Maintenance 99
Specifications 100

Troubleshooting

Before you call a service technician, please scan this list of problems and possible solutions. It may save you time and money.

Problem	Possible Solution
Poor picture.	Check all wire connections.
Your Remote control does not operate the PDP.	Press the "TV/VIDEO" button to put your remote control in the "TV" mode.
The PDP won't turn on.	Check if the power plug is connected.
There is no screen image.	Check to see that both the PDP and the source are plugged in and turned on.
The image is too light or too dark.	Adjust the Brightness or Contrast settings.
The image is too large or too small.	Adjust the Size settings.

Care and Maintenance

With proper care, your PDP will give you many years of service. Please follow these guidelines to get the maximum performance from your PDP.

Identifying Problems

- Do not put the PDP near extremely hot, cold, humid or dusty places.
- Do not put the PDP near appliances that create magnetic fields.
- Keep the ventilation openings clear.
- Do not place the PDP on a rough and slanted surface, such as cloth or paper.

Liquids

- Do not place liquids near or on the PDP.

Cabinet

- Never open the cabinet or touch the parts inside.
- Wipe your PDP with a clean, dry cloth. Never use water, cleaning fluids, wax, or chemicals.
- Do not put heavy objects on top of the cabinet.

Temperature

- If your PDP is suddenly moved from a cold to a warm place, unplug the power cord for at least two hours so that moisture that may have formed inside the unit can dry completely.

Specifications

Exterior design and product specifications are subject to change without prior notice to improve the performance of this product.

This PDP operates as a Class B digital device.
(Note: Class B system is for home use.)
This PDP has been registered for residential use in terms of EMI.

Type No		NS42D4
Model		SPP4231
Dimensions	Display	1028 (W) X 86.4 (D) X 632.5 (H) mm
	Remote Control	55 (W) X 21 (D) X 160 (H) mm
Weight	Display	30kg(without stand)
	Remote Control	110g(including batteries)
Voltage		120V~, 60Hz
Power Consumption		330 W
Number of Pixels		1024(H) x 768(V)
Screen Size		107 Cm/42 inches
ANTENNA input		VHF, UHF (75Ω unbalanced)
VIDEO input		AV S-VIDEO COMPONENT - 480i / 480p / 720p / 1080i RGB : PC DSUB 15P DVI
AUDIO input		AV/S-VIDEO COMPONENT PC DVI
AUDIO output		15W+15W (8 Ω) - Internal Speaker
