## ■ OPERATION MANUAL ■
# CONTENTS

This operation manual includes basic operating
instructions in Spanish and French.
SPANISH is on page 37–41.
FRENCH is on page 42–46.

## B343 WJ

04.2.5, 5:00 PM

Dimension: 140mm x 215mm

Welcome to the SuperScan Family. We are pleased that you are now the owner of a SuperScan Color Television – built for outstanding quality, reliability and performance.

Every SuperScan Color Television set is tuned and adjusted for proper color and sound, and has passed through the most stringent quality control tests at the factory. We have prepared this OPERATION MANUAL so that you may adjust the picture and color to your personal viewing preference.

We sincerely hope that you receive the greatest satisfaction and enjoyment from your new SuperScan CobrTelevision set for years to come.

Please read these instructions carefully, and keep them handy for your future reference.

## IMPORTANT

To aid reporting in case of loss or theft, please record the TV's model and serial numbers in the space provided. The numbers are located at the rear of the TV.

| Model No.: |
| :--- |
| Serial No.: |

# IMPORTANT INFORMATION

There are two important reasons for prompt warranty registration of your new SuperScan television set. Use the REGISTRATION CARD packed in with the set.

## FIRST – WARRANTY

This is to assure that you will immediately receive the full consumer benefit of the parts, service and labor warranty applicable to your purchase.

## SECOND – CONSUMER PRODUCT SAFETY ACT

To assure that you will promptly receive any safety notification on inspection, modification or recall that SuperScan may be required to give under the 1972 Consumer Product Safety Act. PLEASE READ CAREFULLY THE IMPORTANT "LIMITED WARRANTY" CLAUSE ON THE LAST PAGE.

**WARNING:** TO REDUCE THE RISK OF FIRE OR ELECTRIC SHOCK, DO NOT EXPOSE THIS APPLIANCE TO WET LOCATIONS.

## CAUTION
### RISK OF ELECTRIC SHOCK
### DO NOT OPEN

**CAUTION:** TO REDUCE THE RISK OF ELECTRIC SHOCK, DO NOT REMOVE COVER (OR BACK). NO USER-SERVICEABLE PARTS INSIDE. REFER SERVICING TO QUALIFIED SERVICE PERSONNEL.

The lightning flash with arrowhead within a triangle is intended to tell the user that parts inside the product are a risk of electric shock to persons.

The exclamation point within a triangle is intended to tell the user that important operating and servicing instructions are in the papers with the appliance.

"Note to CATV system installer: This reminder is provided to call the CATV system installer's attention to Article 820-40 of the National Electrical Code that provides guidelines for proper grounding and, in particular, specifies that the cable ground shall be connected to the grounding system of the building, as close to the point of cable entry as practical."

2

Dimension: 140mm x 215mm

# IMPORTANT INFORMATION (Continued)

WARNING – FCC Regulations state that any unauthorized changes or modifications to this equipment not expressly approved by the manufacturer could void the user's authority to operate this equipment.

**PRODUCT DISPOSAL**
This product utilizes a Cathode Ray Tube (CRT) containing lead and tin-lead solder.
Disposal of these materials may be regulated due to environment considerations. For disposal or recycling information, please contact your local authorities or the Electronics Industries Alliance: www.eiae.org

**CAUTION:** Do not place the AC power cord under the TV set or other heavy items.

# IMPORTANT SAFEGUARDS

## CAUTION: Please read all of these instructions before you operate your television and save these instructions for later use.

Electrical energy can perform many useful functions. This unit has been engineered and manufactured to assure your personal safety. BUT IMPROPER USE CAN RESULT IN POTENTIAL ELECTRICAL SHOCK OR FIRE HAZARDS. In order not to defeat the safeguards incorporated in this equipment, observe the following basic rules for its installation, use and servicing.

1. Unplug this television equipment from the wall outlet before cleaning.
2. Do not use liquid cleaners or aerosol cleaners. Use a damp cloth for cleaning.
3. Do not use attachments not recommended by the television equipment manufacturer as they may cause hazards.
4. Do not use this television equipment near water — for example, near a bath tub, washbowl, kitchen sink or laundry tub, in a wet basement, or near a swimming pool, etc.
5. Do not place this equipment on an unstable cart, stand, or table. The television equipment may fall, causing serious injury to a child or an adult, and serious damage to the equipment. Use only with a cart or stand recommended by the manufacturer or sold with the television equipment.
6. Television equipment and cart combination should be moved with care. Quick stops, excessive force, and uneven surfaces may cause the equipment and cart combination to overturn.
7. Wall or shelf mounting should follow the manufacturer's instructions, and should use a mounting kit approved by the manufacturer.
8. Slots and openings in the cabinet and the back or bottom are provided for ventilation. To insure reliable operation of the television equipment and to protect it from overheating, these openings must not be blocked or covered. This television equipment should not be placed in a built-in insulation such as a bookcase unless proper ventilation is provided.
9. The openings should never be covered with a cloth or other material, and the bottom openings should not be blocked by placing the television equipment on a bed, sofa, rug, or other similar surface. This television equipment should never be placed near or over a radiator or heat register.
10. This television equipment should be operated only from the type of power source indicated on the marking label. If you are not sure of the type of power supplied to your home, consult your television dealer or local power company.

    For television equipment designed to operate from battery power, refer to the operating instructions.
11. As a safety feature, television equipment is equipped with a 2-wire polarized plug (one plug blade bigger than the other). The 2-wire polarized plug will fit only one way into the power outlet.

    If the plug does not fit, ask your electrician to replace your obsolete outlet. Do not modify the plug and defeat this safety feature.
12. Do not allow anything to rest on the power cord. Do not locate this television equipment where the cord will be abused by persons walking on it.
3

                                                            Dimension: 140mm x 215mm

# IMPORTANT SAFEGUARDS (Continued)

13. Follow all warnings and instructions marked on the television equipment.

14. If an outside antenna is connected to the television equipment, be sure the antenna system is grounded so as to provide some protection against voltage surges and built-up static charges. Section 810 of the National Electrical Code provides information with respect to proper grounding of the mast and supporting structure, grounding of the lead-in wire to an antenna discharge unit, size of grounding conductors, location of antenna-discharge unit, connection to grounding electrodes, and requirements for the grounding electrode.

ELECTRODE SYSTEM
(NEC ART 250, PART H)

NEC—NATIONAL ELECTRICAL CODE

15. For added protection for this television equipment during a lightning storm, or when it is left unattended and unused for long periods of time, unplug it from the wall outlet and disconnect the antenna. This will prevent damage to the equipment due to lightning and power-line surges.

16. An outside antenna system should not be located in the vicinity of overhead power lines or other electric light or power circuits, or where it can fall into such power lines or circuits. When installing an outside antenna system, extreme care should be taken to keep from touching such power lines or circuits as contact with them might be fatal.

17. Do not overload wall outlets and extension cords as this can result in fire or electric shock.

18. Never push objects of any kind into this television equipment through cabinet slots as they may touch dangerous voltage points or short out parts that could result in a fire or electric shock. Never spill liquid of any kind on the television equipment.

19. Do not attempt to service this television equipment yourself as opening or removing covers may expose you to dangerous voltage or other hazards. Refer all servicing to qualified service personnel.

20. Unplug this television equipment from the wall outlet and refer servicing to qualified service personnel under the following conditions:
    A. When the power cord or plug is damaged or frayed.
    B. If liquid has been spilled into the television equipment.
    C. If the television equipment has been exposed to rain or water.
    D. If the television equipment does not operate normally by following the operating instructions. Adjust only those controls that are covered by the operating instructions as improper adjustment of other controls may result in damage and will often require extensive work by a qualified technician to restore the television equipment to normal operation.
    E. If the television equipment has been dropped or the cabinet has been damaged.
    F. When the television equipment exhibits a distinct change in performance — this indicates a need for service.

21. Upon completion of any service or repairs to this television equipment, ask the service technician to perform routine safety checks to determine that the television is in safe operating condition.

22. When replacement parts are required, be sure the service technician has used replacement parts specified by the manufacturer that have the same characteristics as the original part. Unauthorized substitutions may result in fire, electric shock, or other hazards.

## Before Operating Your Television

### Location

- For normal operation, your TV should be located in an area of the room where cool adequate ventilation is provided. Do not place the back of the television set in a place where free airflow will be restricted.
- Any magnetic force may disturb the color picture. Make sure that magnets, electric clocks, toys using magnets or any other magnetic substance, such as iron are kept well away from the TV set.

### Power

Your TV operates on 120 Volts, 60 Hz (normal household current) and has a polarized plug. If you are unable to insert the plug fully into the outlet, try reversing the plug. Should it fail to fit, contact an electrician. Do not defeat the safety feature of the polarized plug.

Note: ►

- If the set is not going to be used for a long period, such as during a vacation, unplug the set from the wall outlet to economize power. (If the TV set is plugged in, a slight current still flows, even with the POWER BUTTON in the OFF position.)
- Lines and other noise may appear in TV broadcast images when an FM tuner or radio is located near the TV and both radio and TV broadcasts are being received. Should such noise appear, turn off the radio.
- If you are listening to an AM broadcast, turn the TV off. AM broadcast signals may not be received due to interference from the TV.

● **Before using the television, prepare the Remote Control**
To use the remote control, insert batteries first.

**Inserting the batteries**
Pull up

Battery Cover

- With your thumbnail, pull up the slit as indicated by the arrow to remove the battery cover. Insert two batteries (size "AA"). Be sure to match the battery $\oplus/\ominus$ terminals with the $\oplus/\ominus$ marks inside the compartment.

## Antenna Connections

### Antennas

- The antenna requirements for good color television reception are more important than those for black & white television reception. For this reason, a good quality outdoor antenna is strongly recommended.

The following is a brief explanation of the type of connections that are provided with the various antenna systems:

| | |
|---|---|
| 1. A 75-ohm system is generally a round cable with F-type connector that can easily be attached to a terminal without tools (not supplied). | F-type connector<br>↓<br>75-ohm coaxial cable (round) |
| 2. A 300-ohm system is a flat "twin-lead" cable that can be attached to a 75-ohm terminal through a 300/75-ohm ADAPTOR (not supplied). | 300-ohm twin-lead cable (flat) |

5
# Antenna Connections (Continued)

## OUTDOOR ANTENNA CONNECTION

- Refer to one of the following two diagrams when connecting to an outdoor antenna.
  A: Using a VHF/UHF combination outdoor antenna.
  B: Using separate VHF and/or UHF outdoor antenna.
- Connect an outdoor antenna cable lead-in to the ANT/CABLE terminal on the rear of the TV set.

### A. Combination VHF/UHF Antennas

## NOTICE

### F-type connector should be finger-tightened only.

F-type connector

75-ohm coaxial cable

When connecting the RF cable to the TV set, do not tighten F-type connector with tools.
If tools are used, it may cause damage to your TV set.
(The breaking of internal circuit, etc.)

---

## CABLE TV (CATV) CONNECTION

- A 75 ohm coaxial cable connector is built into the set for easy hookup. When connecting the 75 ohm coaxial cable to the set, screw the 75 ohm cable to the COAXIAL CABLE CONNECTOR.
- Some cable TV companies offer "premium pay channels". Since the signals of these premium pay channels are scrambled, a cable TV converter/descrambler is generally provided to the subscriber by the cable TV company. This converter/descrambler is necessary for normal viewing of the scrambled channels. (Set your TV on channel 3 or 4. Typically one of these channels is used. If this is unknown, consult your cable TV company.) For more specific instructions on installing cable TV, consult your cable TV company. One possible method of utilizing the converter/descrambler provided by your cable TV company is explained below.
  Please note: RF switch equipped with position A/B (not provided) is required.

  "A" position on the RF switch (not supplied) : You can view all unscrambled channels using the TV's channel keys.

  "B" position on the RF switch (not supplied) : You can view the scrambled channels via the converter/descrambler using the converter's channel keys.
RF switch (not supplied)
OUT  IN  A  B
signal splitter (not supplied)

## Closed Caption

● **How to set CLOSED CAPTION**

- Your TV is equipped with an internal Closed Caption decoder. "Closed Caption" is a system which allows conversations, narration, and sound effects in TV programs and home videos to appear as captions on the TV screen (see the illustration).
- Not all the programs and videos will offer closed captioning. Please look for the " CC " symbol to ensure that captions will be shown.
- Closed Caption broadcast can be viewed in two modes: CAPTION and TEXT. For each mode, two channels are available, CH1 and CH2.

  The CAPTION mode shows subscripts of dialogs and commentaries of TV dramas and news programs while allowing clear view of the picture.
  The TEXT mode displays over the picture other various information (such as TV program schedule, weather forecast, etc.) that is independent of the TV programs.

Good morning. How are you?

MENU

**Note:** ➤

- If a broadcast contains CLOSED CAPTION and the **MUTE** button is pressed, the set enters CAPTION mode automatically. Pressing **MUTE** again will return the set to its previous condition.
- Closed Caption may malfunction (white blocks, strange characters, etc.) if signal conditions are poor or if there are problems at the broadcast source. This does not necessarily indicate a problem with your TV.
- If any button is pressed to call up the ON SCREEN DISPLAY while viewing a CLOSED CAPTION broadcast, the closed captions will disappear momentarily.
- If no TEXT broadcast is being received while viewing in the TEXT mode, the screen may become dark and blank for some programs. Should this occur, switch the Closed Caption mode to "OFF".

**14**

# Parent Control (V-CHIP Operation)

## ■ V-CHIP

- This function allows you to restrict TV programs and also allows you to control TV usage based on FCC data. This function is to prevent your children from watching violence or sexual scenes that may be harmful.
- Restriction of TV programs includes two characters that contain information about the program's MPAA rating and the TV Parental Guidelines. MPAA is restricted by age. TV Parental Guidelines are restricted by age and contents.
- Since a TV program may use either the MPAA rating or the TV Guidelines you should adjust both for complete control.

### [1] MPAA RATING

| RATING | | |
|---|---|---|
| age based | G | GENERAL AUDIENCES. All ages admitted. |
| | PG | PARENTAL GUIDANCE SUGGESTED. Some material may not be suitable for children. |
| | PG-13 | PARENTS STRONGLY CAUTIONED. Some material may be inappropriate for children under 13. |
| | R | RESTRICTED. Under 17 requires accompanying parent or adult guardian. |
| | NC-17 | NO ONE 17 AND UNDER ADMITTED. |
| | X | X Rating is an older rating that is unified with NC-17 but may be encoded on older movie's data. |

- **MPAA RATING**

**Example 1:**
"PG-13" in the age-based rating is blocked, this will automatically block the higher ratings "R", "NC-17", "X" also.

| | PG | not to block |
| | PG-13 | not to block |
| | R | Select block |
| | NC-17 | auto- block |
| | X | auto- block |

**Note:**
- MPAA RATING is only age-based.

### [2] TV PARENTAL GUIDELINES

| RATING | | AGE | D (Sexually Suggestive Dialog) | L (Adult Language) | S (Sexual Situation) | V (Violence) | FV (Fantasy Violence) |
|---|---|---|---|---|---|---|---|
| | | | ⟸ content based ⟹ | | | | |
| age based ↑↓ | TV-Y (All children) | ☑ | – | – | – | – | – |
| | TV-Y7 (Direct to Older Children) | ☑ | – | – | – | – | ☑ |
| | TV-G (General Audience) | ☑ | – | – | – | – | – |
| | TV-PG (Parental Guidance Suggested) | ☑ | ☑ | ☑ | ☑ | ☑ | – |
| | TV-14 (Parents Strongly Cautioned) | ☑ | ☑ | ☑ | ☑ | ☑ | – |
| | TV-MA (Mature Audience Only) | ☑ | – | ☑ | ☑ | ☑ | – |

☑ : Content Rating can be set.
– : Content Rating cannot be set (not normally broadcast by TV station).

**15**

Dimension: 140 X 215 mm

## Parent Control (V-CHIP Operation) (Continued)

• **TV PARENTAL GUIDELINES (Example)**

**Example 1.1 : Age Based setting**
Clear ☑s (block) from each "AGE" box for all ratings.
This will automatically unblock everything.

```
        AGE D L S V FV
TV-Y    □ - - - - -    □:VIEW
TV-Y7   □ - - - - □    ☑:BLOCK
TV-G    □ - - - - -
TV-PG   □ □□□□ -
TV-14   □ □□□□ -
●TV-MA  □ - □□□ -
        MENU:RETURN
```

**Example 1.2 : Age Based setting**
For "TV-G" put a ☑ in the "AGE" box. This will automatically block the higher age ratings "TV-PG", "TV-14" and "TV-MA" as well as "TV-G".
Please note the content ratings "D", "L", "S", "V" are automatically blocked as well.

```
        AGE D L S V FV
TV-Y    □ - - - - -    □:VIEW
TV-Y7   □ - - - - □    ☑:BLOCK
●TV-G   ☑ - - - - -
TV-PG   ☑ ☑☑☑☑ -
TV-14   ☑ ☑☑☑☑ -
TV-MA   ☑ - ☑☑☑ -
        MENU:RETURN
```

**Example 2.1 : Content Based setting**
If you choose to unblock every content-based items ("D", "L", "S", "V"), clear the ☑ (block) from each "AGE" box of "TV-PG", "TV-14" and "TV-MA".

```
        AGE D L S V FV
TV-Y    □ - - - - -    □:VIEW
TV-Y7   □ - - - - □    ☑:BLOCK
TV-G    □ - - - - -
TV-PG   □ □□□□ -
TV-14   □ □□□□ -
●TV-MA  □ - □□□ -
        MENU:RETURN
```

**Example 2.2 : Content Based setting**
Put a ☑ in the box corresponding to "TV-PG" (row) and "V (Violence)" (column). This will automatically block the "V" boxes for "TV-14" and "TV-MA". Setting only "TV-PG-V", "TV-14-V" or "TV-MA-V" will not block all programs rated "TV-PG", "TV-14" or "TV-MA".

```
        AGE D L S V FV
TV-Y    □ - - - - -    □:VIEW
TV-Y7   □ - - - - □    ☑:BLOCK
TV-G    □ - - - - -
●TV-PG  □ □□□☑ -
TV-14   □ □□□☑ -
TV-MA   □ - □□☑ -
        MENU:RETURN
```

**Example 3 : Resetting an Age Based setting**
For "TV-14", put a ☑ (block) in the "AGE" box.
This will again automatically block the content ratings "D", "L", "S", "V" for "TV-MA" as well as "TV-14" ("D" is not available for "TV-MA").
Please note that the lower age rating "TV-PG" does not change from its previous settings after this.

```
        AGE D L S V FV
TV-Y    □ - - - - -    □:VIEW
TV-Y7   □ - - - - □    ☑:BLOCK
TV-G    □ - - - - -
TV-PG   □ □□□□ -
●TV-14  ☑ ☑☑☑☑ -
TV-MA   ☑ - ☑☑☑ -
        MENU:RETURN
```

**Note:** ➤

• Content ratings can be modified but only in the combinations indicated by ☑ in the table on page 15.
• Changing a lower age rating's content setting to "BLOCK" automatically changes the same higher age rating's content setting to "BLOCK" regardless of their previous settings.
• Changing a lower rating's "AGE" setting to "BLOCK" automatically changes all higher ratings to "BLOCK" regardless of their previous settings.
• For "TV-Y7", "TV-PG", "TV-14" and "TV-MA", if you clear the ☑ in the "AGE" box (unblock) you can still change settings based on content.
• Clearing a higher rating's age or content setting will not clear lower settings. Make sure that all undesired boxes are blocked.

**[3] ADDITIONAL MODE**
Besides "MPAA RATINGS" and "TV PARENTAL GUIDELINES", new ratings system's data can be downloaded when they become available. (See page 19.)

```
**23**

Dimension: 140 X 215 mm

## Parent Control (VIEW TIMER) (Continued)

**9** Enter the 4-digit secret No. using the **REMOTE KEYPAD**.

**10** Press **MENU**, and secret No. is registered.

```
INPUT SECRET No.
    1 2 3 4
```

**Example:**
- To restrict anybody from watching TV for more than 5 hours, after watching the TV for 2 hours, your settings would look like the one on the right.
- You can choose to watch the 2 hours of TV as you wish. For example, you could watch 1 hour of TV, turn the TV off for 30 minutes, then turn the TV on and watch the remaining 1 hour of the VIEWING TIME.

```
VIEW TIMER
VIEWING TIME
     2H 00M
OFF TIME
     5H 00M
●STATUS :ON
```

- **To change the VIEW TIMER setting after registering a secret No.**

**1** Repeat steps 1 to 4 of **How to set VIEW TIMER**. Press **VOL +/−**, and "INPUT SECRET No." will be displayed.

```
INPUT SECRET No.
    - - - -
```
**2** Enter the 4-digit secret No. using the **REMOTE KEYPAD**, and the VIEW TIMER access screen will be displayed. Repeat steps **5, 6**.

```
INPUT SECRET No.
    * * * *
```
**Note:** ►
- When you choose the correct secret No., the VIEW TIMER access screen is displayed. If the wrong secret No. is chosen, "SECRET No. IS INCORRECT" is displayed. Input the secret No. again in this case.

```
SECRET No. IS INCORRECT
```
- **To cancel the VIEW TIMER (While the TV set is OFF but the VIEW TIMER is set.)**

**1** Turn on the TV; a blue screen message "TIME OVER" will appear. If you do nothing, the TV will turn off in approximately 30 seconds.

```
TIME OVER

INPUT SECRET No.
    - - - -
```

**2** Enter the 4-digit secret No. using the **REMOTE KEYPAD**. When you choose the correct secret No., the VIEW TIMER is canceled. If the wrong secret No. is chosen, "SECRET No. IS INCORRECT" is displayed. Input the secret No. again in this case.
```
TIME OVER

INPUT SECRET No.

Dimension: 140 X 215 mm
## Using the Video and Audio Input Terminals (Continued)

**Notes:**
- The S-VIDEO INPUT terminal (IN 1) is used to obtain a higher quality image by importing image signals separated into color and brightness signals.
- The S-VIDEO INPUT terminal is for the video image only. To receive an audio signal, connect the audio cable to the IN 1 AUDIO terminals (left and right).

(Rear connection terminals of TV)

VIDEO EQUIPMENT

TO S-VIDEO OUTPUT
(When your video equipment has an S-VIDEO output terminal).

To AUDIO OUTPUT (L)
To AUDIO OUTPUT (R)

● **To watch video material playback**
- Press the Remote's **INPUT** button to select the VIDEO INPUT mode for the video equipment you wish to play.
- The external VIDEO INPUT mode will change as follows each time the **INPUT** button is pressed.

```
 ┌─► AIR ──► INPUT 1 ──► INPUT 2 ─┐
 │    or       (IN 1)     (IN 2)   │
 │  CABLE      Rear       Front    │
 └──────────────────────────────────┘
```
- INPUT mode can be selected by pressing either the **CH ▲** on the TV remote control when the TV is set to the highest channel stored in memory, or by pressing the **CH ▼** when it is set to the lowest channel.

Note: ▶
- When connecting video or audio equipment to the television, be sure that the power is turned off in order to prevent damage to either the television or the equipment being connected.
- The S-Video terminal has priority over the VIDEO terminal (IN 1). When you wish to use video equipment connected to the VIDEO terminal (IN 1), unplug equipment connected to the S-VIDEO terminal.
- It is the intent of SuperScan that this product be used in full compliance with the copyright law of the United States and that prior permission be obtained from copyright owners whenever necessary.
- For detailed information on the connection and use of auxiliary equipment, refer to the instruction manuals of the equipment being used.
- The connection cables/cords can be obtained from your local video store.
