# Precautions

Ensure that the AC power supply in your house complies with the identification sticker located on the back of your player. Install your player horizontally, on a suitable base (furniture), with enough space around it for ventilation (3~4inches). Make sure the ventilation slots are not covered. Do not stack anything on top of the player. Do not place the player on modules or other equipment which may become hot. Before moving the player, ensure the disc tray is empty. This player is designed for continuous use. Switching off the Home Theater to the stand-by mode does not disconnect the electrical supply. In order to disconnect the player completely from the power supply, remove the main plug from the wall outlet, especially when left unused for a long period of time.

During thunderstorms, disconnect AC main plug from the wall outlet.  
Voltage peaks due to lightning could damage the unit.

Do not expose the unit to direct sunlight or other heat sources.  
This could lead to overheating and malfunction of the unit.

Protect the player from moisture (i.e. vases), and excess heat (e.g. fireplace) or equipment creating strong magnetic or electric fields (i.e. speakers...). Disconnect the power cable from the AC supply if the player malfunctions. Your player is not intended for industrial use. Use of this product is for personal use only.

The batteries used with this product contain chemicals that are harmful to the environment.  
Do not dispose of batteries in the general household trash.

Condensation may occur if your player or disc has been stored in cold temperatures.

If transporting the player during the winter, wait approximately 2 hours until the unit has reached room temperature before using.

If you are not sure of the type of supply to your home, consult your appliance dealer or local power company. For video products intended to be operated from battery power, or other sources, refer to the operating instructions.

**POWER LINES**

An outside antenna system should not be located in the vicinity of overhead power lines or other electric light or power circuits, or where it can fall into such power lines or circuits. **SAFETY CHECK**

Upon completion of any service or repairs to this video product, ask the service technician to perform safety checks to determine that the video product is in proper operating condition.

**DAMAGE REQUIRING SERVICE**

Unplug this video product from the wall outlet and refer servicing to qualified service personnel under the following conditions.

# Notes on Discs

**DVD (Digital Versatile Disc)** offers fantastic audio and video, thanks to Dolby Digital surround sound and MPEG-2 video compression technology. Now you can enjoy these realistic effects in the home, as if you were in a movie theater or concert hall.

DVD players and the discs are coded by region. These regional codes must match in order for the disc to play. If the codes do not match, the disc will not play.

The Region Number for this player is given on the rear panel of the player.

(Your DVD player will only play DVDs that are labeled with identical region codes.)

|  |  |   |
|--|--|---|
| <p><b>1</b> Remove the battery cover on the back of the remote by pressing down and sliding the cover in the direction of the arrow.</p>  | <p><b>2</b> Insert two 1.5V AAA batteries, paying attention to the correct polarities (+ and -).</p>  | <p><b>3</b> Replace the battery cover.</p>  |
|--|--|---|

**Caution**

- Follow these precautions to avoid leaking or cracking cells:**
- Place batteries in the remote control so they match the polarity:(+) to (+)and (-)to (-).
  - Use the correct type of batteries.Batteries that look similar may differ in voltage.
  - Always replace both batteries at the same time.
  - Do not expose batteries to heat or flame.

### Range of Operation of the Remote Control

The remote control can be used up to approximately 23 feet/7 meters in a straight line. It can also be operated at a horizontal angle of up to 30° from the remote control sensor.

# Connecting the Speakers

Before moving or installing the product, be sure to turn off the power and disconnect the power cord.

## Position of the Home Theater

- Place it on a stand, cabinet shelf, or under the TV stand.

## Front Speakers **L R**

- Place these speakers in front of your listening position, facing inwards (about 45°) toward you.
- Place the speakers so that their tweeters will be at the same height as your ear.
- Align the front face of the front speakers with the front face of the center speaker or place them slightly in front of the center speakers.

## Center Speaker **C**

- It is best to install it at the same height as the front speakers.
- You can also install it directly over or under the TV.

## Selecting the Listening Position

The listening position should be located about 2.5 to 3 times the distance of the TV's screen size away from the TV. Example: For 32" TVs 2~2.4m (6~8 feet)  
For 55" TVs 3.5~4m (11~13 feet)

## Rear Speakers **SL SR**

- Place these speakers behind your listening position.
- If there isn't enough room, place these speakers so they face each other.
- Place them about 60 to 90cm (2 to 3feet) above your ear, facing slightly downward.
- ★ Unlike the front and center speakers, the rear speakers are used to handle mainly sound effects and sound will not come from them all the time.

- Do not let children play with or near the speakers. They could get hurt if a speaker falls.
- When connecting the speaker wires to the speakers, make sure that the polarity (+/-) is correct.

**Note**

- If you place a speaker near your TV set, screen color may be distorted because of the magnetic field generated by the speaker. If this occurs, place the speaker away from your TV set.

# Connecting the optional Wireless Receiving Amplifier

To connect the rear speakers wirelessly, you have to additionally purchase the wireless receiving module and TX card from your Samsung retailer.

When you have purchased the wireless receiving module (SWA-3000)

- The TX card enables communication between the main unit and the wireless receiver.

**3** Connect the left and right rear speakers to the wireless receiving module.

**4** Plug the power cord of the wireless receiving module in the wall outlet and switch the power switch 'ON'.

## Caution

- Do not insert a card other than the TX card dedicated for the product. The product might be damaged or it may not be removed easily.
- Do not insert the TX card upside down or in reverse direction.
- Insert the TX card when the main unit is turned off. Inserting the card when it is turned on may cause a problem.
- If the TX Card is inserted in the main unit, the rear speakers don't output sounds.

## Resetting Wireless Communication

Reset the system if a communication failure occurs, or if the Link indicator (blue LED) on the wireless receiver does not light up and the "REAR CHK" message blinks on the main unit's display.

Reset the system while the main unit and the wireless receiver module (SWA-3000) are in Power Standby mode.

- 1 With the main unit turned off, press and hold the remote control's **REMAIN** button for 5 seconds.

- Press the button until the POWER(⏻) indicator lights up blue. (The indicator will turn off in 1 second.)

- The Standby/On LED on the front panel of the wireless receiver module blinks 2 times.

- 3 Turn on the main unit.

- The Link LED of the wireless receiver module is lit and the setup is finished.
- If Power Standby mode continues, repeat Steps 1 to 3 above.

WIRELESS RECEIVER MODULE

### Caution

- When the wireless receiving module setting is complete, no audio signal is output from the Rear Speaker OUT ports on the back of the main unit.
- The wireless receiving antenna is built into the wireless receiver module. Keep the unit away from water and moisture.
- For optimal listening performance, make sure that the area around the wireless receiver module location is clear of any obstructions.
- Sound will be heard from the wireless rear speakers in DVD 5.1-CH or Dolby Pro Logic II mode only.
- In 2-CH mode, no sound will be heard from the wireless rear speakers.

# Cautions on Handling and Storing Discs

Small scratches on the disc may reduce sound and picture quality or cause skipping. Be especially careful not to scratch discs when handling them.

## Handling discs

Do not touch the playback side of the disc. Hold the disc by the edges so that fingerprints will not get on the surface.

Do not stick paper or tape on the disc.

## Disc Storage

Do not keep in direct sunlight

Keep in a cool ventilated area

Keep in a clean Protection jacket. Store vertically.

### Caution

- Do not allow the discs to become contaminated with dirt.
- Do not load cracked or scratched discs.

## Handling and Storing Discs

When you get fingerprints or dirt on the disc, clean it with a mild detergent diluted in water and wipe with a soft cloth.

- When cleaning, wipe gently from the inside to the outside of the disc.

### Note

- Condensation may form if warm air comes into contact with cold parts inside the player. When condensation forms inside the player, the player may not operate correctly. If this occurs, remove the disc and let the player stand for 1 or 2 hours with the power on.
