JVC

COMPACT COMPONENT SYSTEM

HX-D77_Consists of CA-HXD77 and SP-HXD77

Warnings, Cautions and Others Mises en garde, précautions et indications diverses

The lightning flash with arrowhead symbol, within an equilateral triangle is intended to alert the user to the presence of uninsulated "dangerous voltage" within the product's enclosure that may be of sufficient magnitude to constitute a risk of electric shock to persons.

The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.

WARNING: TO REDUCE THE RISK OF FIRE OR ELECTRIC SHOCK, DO NOT EXPOSE THIS APPLIANCE TO RAIN OR MOISTURE.

CAUTION

To reduce the risk of electrical shocks, fire, etc.:

- 1 Do not remove screws, covers or cabinet.
- 2 Do not expose this appliance to rain or moisture.

ATTENTION

Afin d'éviter tout risque d'électrocution, d'incendie, etc.:

- 1 Ne pas enlever les vis ni les panneaux et ne pas ouvrir le coffret de l'appareil.
- 2 Ne pas exposer l'appareil à la pluie ni à l'humidité.

Caution—STANDBY/ON 仍/I button!

Disconnect the mains plug to shut the power off completely (the STANDBY lamp goes off). When installing the apparatus, ensure that the plug is easily accessible.

The STANDBY/ON 心/I button in any position does not disconnect the mains line.

- · When the unit is on standby, the STANDBY lamp lights red.
- When the unit is turned on, the STANDBY lamp goes off.

The power can be remote controlled.

Attention—Touch STANDBY/ON 0/1!

Déconnectez la fiche d'alimentation secteur pour mettre l'appareil complètement hors tension (le témoin STANDBY est éteint). Lors de l'installation de l'appareil, assurez-vous que la fiche soit facilement accessible.

La touche STANDBY/ON 心/I, dans n'importe quelle position, ne déconnecte pas l'appareil du secteur.

- · Quand l'appareil est en mode d'attente, le témoin STANDBY est allumé en rouge.
- Quand l'appareil est sous tension, le témoin STANDBY est éteint.

L'alimentation peut être télécommandée.

For U.S.A.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures: Reorient or relocate the receiving antenna.

Increase the separation between the equipment and receiver.

Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. Consult the dealer or an experienced radio/TV technician for help.

CAUTION

Address:

Changes or modifications not approved by JVC could void the user's authority to operate the equipment.

For U.S.A. For the main unit:

Declaration of Conformity HX-D77 Model Number: Trade Name:

JVC Responsible Party: JVC Americas Corp. 1700 Valley Road, Wayne New Jersey 07470

Telephone Number: 973-317-5000

This device complies with Part 15 of FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

For Canada/pour le Canada

This class B digital apparatus complies with Canadian ICES-003.

Cet appareil numérique de la classe B est conforme à la norme NMB-003 du Canada.

Note to CATV system installer:

This reminder is provided to call the CATV system installer's attention to Section 820-40 of the NEC which provides guidelines for proper grounding and, in particular, specifies that the cable ground shall be connected to the grounding system of the building, as close to the point of cable entry as practical.

CAUTION!

To avoid personal injury or accidentally dropping the unit, have two persons unpack, carry, and install the unit.

ATTENTION!

Pour éviter toute blessure personnelle ou chute accidentelle del'appareil, faites déballer, transporter et installer l'appareil par deux personnes.

IMPORTANT FOR LASER PRODUCTS

- 1 CLASS 1 LASER PRODUCT
- 2 **CAUTION**: Do not open the top cover. There are no user serviceable parts inside the Unit; leave all servicing to qualified service personnel.
- 3 **CAUTION**: Visible and/or invisible class 1M laser radiation when open. Do not view directly with optical instruments.

IMPORTANT POUR PRODUITS LASER

- **1 PRODUIT LASER CLASSE 1**
- 2 **ATTENTION**: N'ouvrez pas le couvercle supérieur. Il n'y a aucune pièce réparable par l'utilisateur à l'intérieur de l'appareil; confiez toute réparation à un personnel qualifié.
- 3 ATTENTION: Rayonnement laser visible et/ou invisible de classe 1M une fois ouvert. Ne pas regarder directement avec des instruments optiques.

X

[European Union only] [Union européenne uniquement]

CAUTION: Proper Ventilation

To avoid risk of electric shock and fire, and to prevent damage, locate the apparatus as follows:

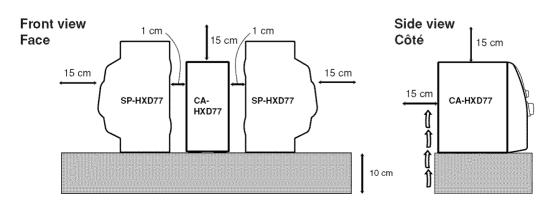

- 1. Front: No obstructions and open spacing.
- 2. Sides/Top/Back: No obstructions should be placed in the areas shown by the dimensions below.
- 3. Bottom: Place on a level surface. Maintain an adequate air path for ventilation by placing on a stand with a height of 10 cm or more.

Attention: Aération correcte

Pour prévenir tout risque de décharge électrique ou d'incendie et éviter toute détérioration, installez l'appareil de la manière suivante:

1. Avant: Bien dégagé de tout objet.

- 2. Côtés/dessus/dessous: Assurez-vous que rien ne bloque les espaces indiqués sur le schéma ci-dessous.
- 3. Dessous: Posez l'appareil sur une surface plane et horizontale. Veillez à ce que sa ventilation correcte puisse se faire en le plaçant sur un support d'au moins dix centimètres de hauteur.

Introduction

Precautions

Installation

- Install in a place which is level, dry and neither too hot nor too cold—between 5°C (41°F) and 35°C (95°F).
- Install the System in a location with adequate ventilation to prevent internal heat buildup in the System.

DO NOT install the System in a location near heat sources, or in a place subject to direct sunlight, excessive dust or vibration.

- · Leave sufficient distance between the System and the TV.
- Keep the speakers away from the TV to avoid interference with TV.

Power sources

• When unplugging the System from the wall outlet, always pull on the plug, not the AC power cord.

DO NOT handle the AC power cord with wet hands.

Moisture condensation

Moisture may condense on the lenses inside the System in the following cases:

- After starting to heat the room
- In a damp room
- If the System is brought directly from a cold to a warm place Should this occur, the System may malfunction. In this case, leave the System turned on for a few hours until the moisture evaporates, unplug the AC power cord, then plug it in again.

Internal heat

• A cooling fan is mounted on the rear panel to prevent heat buildup inside the unit.

- For safety, observe the following carefully: • Make sure there is good ventilation around the using Decomposition and the using the same set of the same set
- the unit. Poor ventilation could overheat and damage the unit.DO NOT block the cooling fan and the ventilation openings or holes. If they are
- blocked by a newspaper or cloth, etc., the heat may not be able to get out.

Others

• Should any metallic object or liquid fall into the System, unplug the AC power cord and consult your dealer before operating any further.

DO NOT disassemble the System since there are no user serviceable parts inside.

• If you are not going to operate the System for an extended period of time, unplug the AC power cord from the wall outlet.

If anything goes wrong, unplug the AC power cord and consult your dealer.

How to Read This Manual

To make the explanations in this manual as simple and easy-to-understand as possible, we have adapted the following methods:

- Button and control operations are explained in the table below. In this manual, the operations using the remote control are mainly explained; however, you can use the buttons and controls on the main unit if they have the same (or similar) name and marks.
- Some related tips and notes are explained later in the sections "Learning More about This System" and "Troubleshooting," but not in the same section explaining the operations (**INFO** indicates that the content has some informations). If you want to know more about the functions, or if you have a doubt about the function, go to these sections and you will find your answer there.

·		
R	Indicates that you press the button briefly .	
	Indicates that you press the button briefly and repeatedly until an option you want is selected.	
	Indicates that you press one of the buttons.	
2 sec.	 Indicates that you press and hold the button for a specified period. The number inside the arrow indicates the period of press (in this example, 2 seconds). If no number is inside the arrow, press and hold until the entire procedure is complete or until you get a result you want. 	
\sim	Indicates that you turn the control toward the specified direction(s).	
Remote ONLY SS)	Indicates that this operation is only possible using the remote control.	
	Indicates that this operation is only possible using the buttons and controls on the main unit.

Before Operating the System

Playable Disc Types 🌑 🌑 🌑 🖤 💷 🏵

This unit has been designed to play back the following discs:

Disc Type	Mark (Logo)
DVD Video	
Video CD (VCD)	CIEC Video CD
Super Video CD (SVCD)	
Audio CD	
CD-R	The System can play back CD-R or CD-RW
CD-RW	recorded in the Audio CD, Video CD, SVCD, MP3, WMA and JPEG formats.
DVD-R	The System can play back DVD-R or
DVD-RW DVD-RW recorded in the DVD-Video ar Video Recording (DVD-VR) format.	DVD-RW recorded in the DVD-Video and Video Recording (DVD-VR) format.

In addition to the above discs, this system can play back audio data recorded on CD Text, CD-G (CD Graphics), and CD-Extra.

• The following discs cannot be played back:

DVD-RAM, CD-I (CD-I Ready), CD-ROM, Photo CD, SACD, etc.

Playing back these discs will generate noise and damage the speakers.

- This unit cannot play back DVD-VR disc with CPRM (Content Protection for Recordable Media).
- In this manual, "file" and "track" are interchangeably used for MP3/WMA/JPEG operations.
- It is possible to play back finalized +R/+RW (DVD format only) discs. "DVD" lights on the front display panel when a +R/+RW disc is loaded.
- The Non-DVD side of a "DualDisc" does not comply with the "Compact Disc Digital Audio" standard. Therefore, the use of Non-DVD side of a DualDisc on this product may not be recommended.

About color system

This System accommodates the NTSC and PAL system and can play back discs recorded in either the NTSC or the PAL system.

• To change the color system, see page 7.

Note on Region Code

DVD players and DVDs have their own Region Code numbers. This unit can play back only DVDs whose Region Code numbers include "1." EX.:

If a DVD with the improper Region Code numbers is loaded, "REGION ERR" appears on the display and playback will not start.

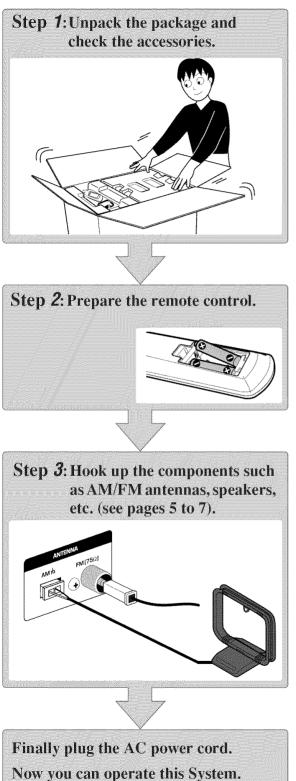

IMPORTANT: Before playing a disc, make sure of the following...

- Turn on the TV and select an appropriate input mode on the TV to view the pictures or on-screen displays on the TV screen.
- For disc playback, you can change the initial setting to your preference. See "Set up Menu Operations" on page 35.

If " \bigotimes " appears on the TV screen when you press a button, the disc cannot accept the operation you have tried to do, or data required for that operation is not recorded on the disc.

- Manufactured under license from Dolby Laboratories. "Dolby", "Pro Logic", "MLP Lossless", and the double-D symbol are trademarks of Dolby Laboratories.
- "DTS" and "DTS 2.0+DIGITAL OUT" are trademarks of Digital Theater Systems, Inc.
- "DVD Logo" is a trademark of DVD Format/Logo Licensing Corporation registerd in the US, Japan and other countries.

Getting Started

Step 1: Unpack 🕘 🌒 🌒 🌑 🌑 🌑

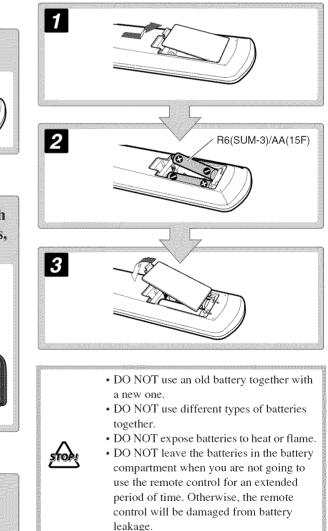

After unpacking, check to be sure that you have all the following items. The number in parentheses indicates the quantity of each piece supplied.

- FM antenna (1)
- AM loop antenna (1)
- Composite video cord (1)
- Remote control (1)
- Batteries (2)

If any item is missing, consult your dealer immediately.

Step 2: Prepare the Remote Control 🔊 🌑

Insert the batteries into the remote control by matching the polarity (+ and –) correctly.

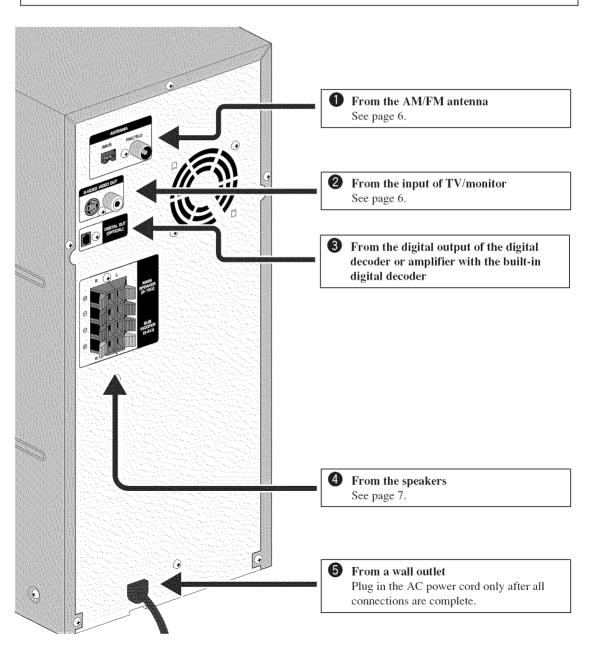

Step 3: Hook Up

If you need more detailed information, see page 6 and 7.

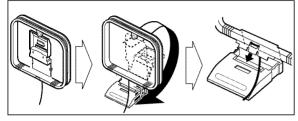

Do not connect the AC power cord until all other connections have been made.

Illustrations of the input/output terminals below are typical examples. When you connect other components, refer also to their manuals since the terminal names actually printed on the rear may vary.

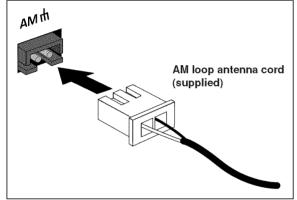

To assemble and connect the AM loop antenna

To assemble the AM loop antenna

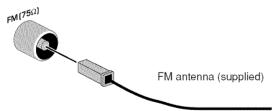

To connect the AM loop antenna cords

 Make sure the antenna conductors do not touch any other terminals, connecting cords and power cord. Also, keep the antennas away from metallic parts of the System, connecting cords, and the AC power cord. This could cause poor condition.

To connect the FM antenna

Extend the supplied FM antenna horizontally.

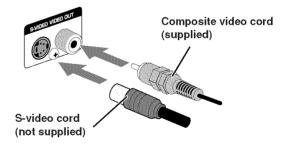

For better FM/AM reception

Keep it connected.

② TV/monitor

Connect the S-VIDEO or VIDEO jacks which you want to use.

• The video signals from the external equipment connected to GAME/AUX jack are output as composite video signal. The system does not output S-video signals for these external equipment.

To select the color system

You can select the video output to match it to the color system of your TV.

• The color system can be changed only while DVD/CD is selected as the source and playback is stopped.

1 Press NTSC/PAL.

2 Select NTSC or PAL.

NTSC: For an NTSC TV.

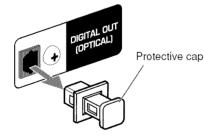

PAL: For a PAL TV.

• When using a multi-color system TV, either position will work.

3 Press ENTER.

To connect digital audio

 Set "DIGITAL AUDIO OUTPUT" in the "AUDIO" menu correctly according to the connected digital audio equipment (see page 37). If the setting is incorrect, loud noise may be generated causing damage to the speakers.
 Digital audio signals are output from this System only when DVD/CD is selected as the source.

O Speakers

- When connecting the speaker cords, match their polarity with that of the speaker terminals: red/blue to (+) and black to (-).
- Use only speakers with the same speaker impedance as indicated by the speaker terminals on the rear of the unit.
- The speakers are magnetically shielded to avoid color distortions on TVs. However, if not installed properly, it may cause color distortions. So, pay attention to the following when installing the speakers.
- -When placing the speakers near a TV set, turn off the TV's main power switch or unplug it before installing the speakers.

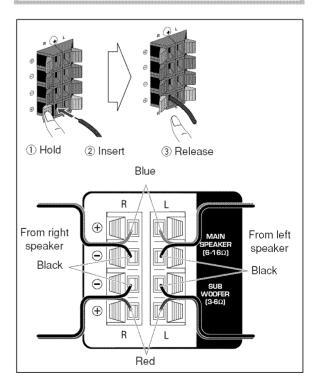

Then wait at least 30 minutes before turning on the TV's main power switch again.

Some TVs may still be affected even though you have followed the above instruction. If this happens, move the speakers away from the TV.

झील्

• DO NOT connect more than one speaker to each terminal.

• DO NOT push or pull the speakers as this will damage the foot spacers at the bottom of the speakers.

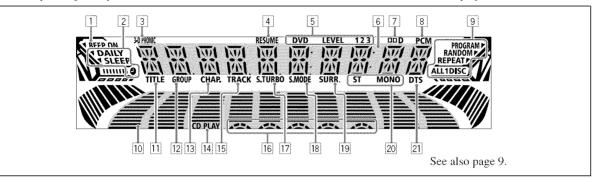

DO NOT plug in any equipment until all connections are complete.

Display Indication

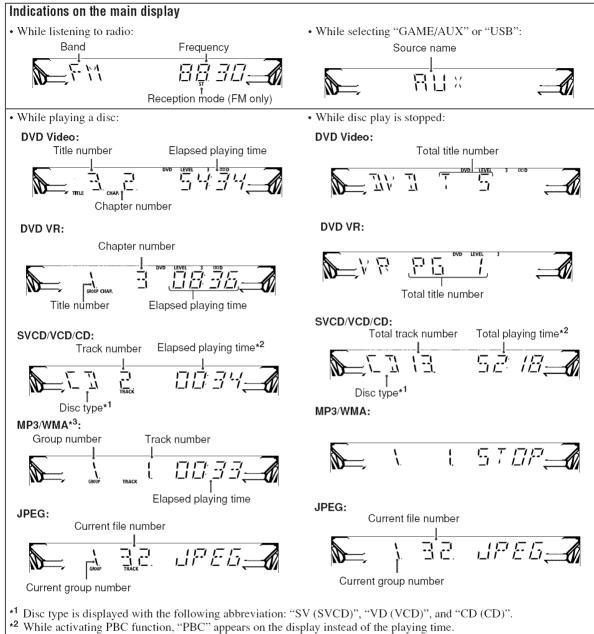

The indications on the display tell you a lot of things while you are operating the System. Before operating the System, be familiar with when and how the indicator illuminates on the display.

- 1 BEEP ON indicator
- Lights when key-touch tone is activated.
- 2 Timer indicators
 - DAILY: lights when the Daily Timer stands by or is working; flashes while Daily Timer is being set.
 - SLEEP: lights when the Sleep Timer is activated.
 - **(**): lights when Daily Timer stands by or is being set; flashes while Daily Timer is working.
- 3 3-D PHONIC indicator
- Lights when 3D Phonic is activated (see page 17).
- **4** RESUME indicator
 - Lights when the Resume function is activated (see page 12).
- 5 DVD LEVEL 1, 2, 3 indicators
- Lights when the DVD Video is detected (see page 17). 6 Main display
- 7 D D: lights when a source signal is Dolby Digital.
- PCM: lights when a source signal is linear PCM (only for DVD Video).
- 9 Disc operation indicators
 - PROGRAM: lights when Program Play mode is activated.
 - RANDOM: lights when Random Play is activated.
 - REPEAT: lights when Repeat Play mode is activated.
 - ALL, 1, DISC:
 - -ALL: lights when All Disc Repeat is activated.
 - -1: lights when One Track/Chapter/Step Repeat is activated.
 - -1 DISC: lights when One Disc Repeat is activated.

- 10 Audio level indicator
- **11**TITLE indicator
 - Lights to indicate the title number when the source is DVD Video.
- 12 GROUP indicator
 - Lights to indicate the group number when the source is MP3, WMA or JPEG disc.
- 13 CHAP. (chapter) indicator
 - Lights to indicate the chapter number when the source is DVD Video.
- 14 CD PLAY indicator
 - Lights when the disc player is selected as the source.
- 15 TRACK indicator
 - Lights to indicate the track number when the source is a disc (except for DVD Video).
- 16 Disc indicators
 - Each indicator shows the status of a disc placed on each corresponding disc tray (DISC1 DISC5).
 - -Lights up when a disc is detected.
 - -Flashes when the tray is currently selected.
 - -Goes off when the unit detects there is no disc loaded on the disc tray.
- 17 S.TURBO (Sound Turbo) indicator
- 18 S.MODE (sound mode) indicator
- Lights when the Sound mode is activated.
- 19 SURR. (surround) indicator
 - Lights when 3D Phonic is activated (see page 17).
- 20 FM reception indicators
 - ST (stereo): lights while an FM stereo station with sufficient signal strength is tuned in.
 - MONO: lights while receiving an FM stereo station in monaural.
- 21 DTS: lights when a source signal is DTS Surround.

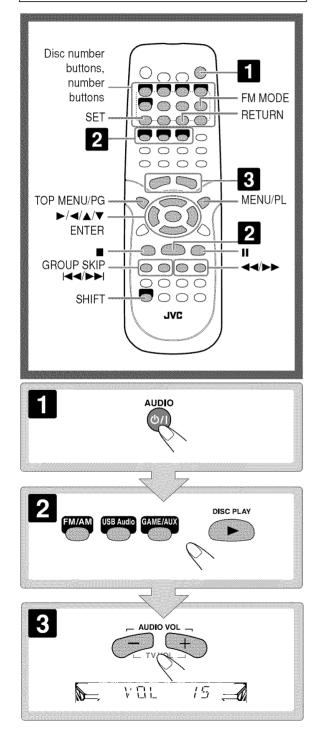

*³ At the playback beginning, the file name and ID3 Tag (if any) are shown.

Daily Operations—Playback

In this manual, the operation using the remote control is mainly explained; however, you can use the buttons and controls on the main unit if they have the same (or similar) name and marks.

1 Turn on the power.

The standby lamp on the main unit turns off.

• Without pressing Φ/l , the System also turns on by pressing one of the source select buttons in the next step.

2 Select the source.

Playback automatically starts if the selected source is ready to start playback.

• If you press GAME/AUX or USB Audio, start playback source on the external audio component, game or the PC.

3 Adjust the volume.

4 Operate the target source as explained later.

To turn off (stand by) the system

- The standby lamp on the main unit lights in red.
- When you turn off (stand by) the system with volume level over VOL 15, the system automatically decreases the volume level to VOL 15 next time you turn on the system.
- A small amount of power is always consumed even while on standby.

For private listening

Connect a pair of headphones to the PHONES jack on the main unit. The sound will no longer come out of the speakers. Be sure to turn down the volume before connecting or putting the headphones.

• Disconnecting the headphones will activate the speakers again.

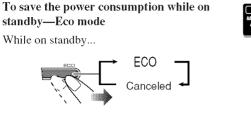

DO NOT turn off (stand by) the System with the volume set to an extremely high level; otherwise, the sudden blast of sound can damage your hearing, speakers and/or headphones when you turn on the System or start playback.

To cancel the demonstration 2 sec. → DEMO OFF →

Press and hold until "DEMO OFF" appears on the display.

DEMO STA

The display illumination (including the display demonstration) disappears.

To select the band (FM/AM)

To tune in to a station

While FM or AM is selected ...

Increases the frequency.

Decreases the frequency.

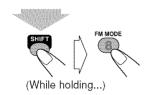

When a station (frequency) with sufficient signal strength is tuned in, the frequency search stops.

• When you repeatedly press the button, the frequency changes step by step.

To stop searching manually, press either button.

If the received FM station is hard to listen

The MONO indicator lights on the display. Reception will improve though stereo effect is lost-monaural reception mode.

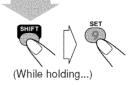

To restore the stereo effect, press the button again (the MONO indicator disappears).

To preset stations

You can preset 30 FM and 15 AM stations.

1 Tune in to a station you want to preset, then enter into the presetting mode.

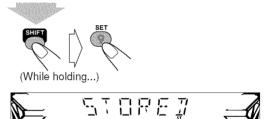

2 Select a preset number for the station you store.

3 Store the station.

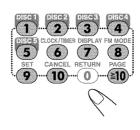

To tune in to a preset station

1 Select the band (FM or AM).

2 Select a preset number for the station you store.

Examples: To select preset number 5, press 5. To select preset number 10, press10. To select preset number 15, press ≥ 10 , 1, then 5. To select preset number 30, press ≥ 10 , 3, then 0.

• You can also use >>//<> PRESET +/- control on the main unit.

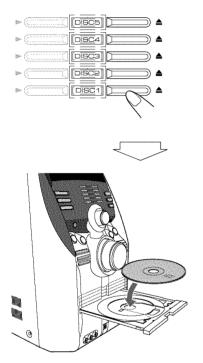

Playing Back a Disc 🌑 🌑 🖤 🌑 💷

Before operating a disc, be familiar how a disc is recorded. • DVD Video/DVD-VR comprises of "**Titles**" which

includes "Chapters," MP3/WMA comprise of "Groups" which includes "Tracks," and CD/SVCD/VCD comprise of only "Tracks."

For MP3/WMA/JPEG playback, see also page 30.

To insert discs

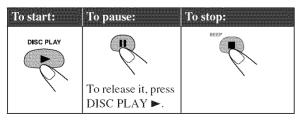

• When using an 8 cm disc, place it on the inner circle of the disc tray.

To close the disc tray, press the same button again.

- If you press the ► button, disc tray closes automatically and playback starts.
- When you press the ▲ button for the next tray you want to place another disc onto, the first disc tray automatically closes and then next tray comes out.

While playing DVD/SVCD/VCD: This System can store the stop point, and when you start playback again by pressing DISC PLAY ►, it starts from the position where you have stopped—Resume Play. (RESUME indicator lights up when you stop playback.)

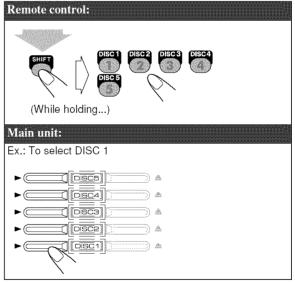

To stop completely while Resume is activated, press ■ twice. (To cancel Resume, see "RESUME" on page 38.)

On-screen guide icons

- During disc playback, the following icons may appear for a while on the TV screen:
 - Appears at the beginning of a scene containing multi-angle views.
 - Appears at the beginning of a scene containing multi-audio languages.
 - Appears at the beginning of a scene containing multi-subtitle languages.
- The following icons will be also shown on the TV screen to indicate your current operation.

• To deactivate the on-screen guide icons, see "ON SCREEN GUIDE" on page 38.

To select a playback disc

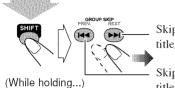

Playback of the selected disc starts.

To select a title/group

While playing a disc...

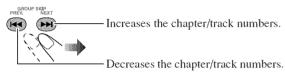

Skips to the next title/group.

Skips to the previous title/group.

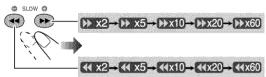

To select a chapter/track

While playing ...

To locate a particular portion

While playing a disc except MP3/WMA...

· No sound comes out while searching on DVD/SVCD/VCD.

To return to normal playback, press DISC PLAY ►.

To select an item directly

You can select a title/chapter/track directly and start playback.

- For DVD Video: You can select a title before starting playback, while you can select a chapter after starting playback.
- For MP3/WMA: Select a track number in the current folder.

Examples:

Remote ONLY (S))

To select number 5, press 5. To select number 10, press10. To select number 15, press $\geq 10, 1, \text{ then } 5.$ To select number 30, press ≥ 10.3 , then 0. To select number 114, press $\geq 10, \geq 10, 1, 1$ then 4.

Remote ONLY SIL To play back by using the disc menu

You can operate the disc play-DVD and SVCD/VCD with Playback Control (PBC)-using the disc menu shown on the TV screen.

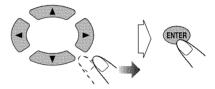

• When an SVCD or VCD with PBC is detected. "PBC" appears on the display instead of the playing time.

For DVD Video:

1 Show the disc menu.

2 Select an item on the disc menu.

• With some discs, you can also select items by entering the number using the 10 keys.

■ For SVCD/VCD with PBC:

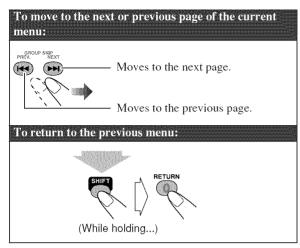

While playing a disc with PBC, "PBC" appears on the display.

When disc menu appears on the TV screen, select an item on the menu. Playback of the selected item starts.

Examples:

To select number 5, press 5. To select number 10. press10. To select number 15, press $\geq 10, 1$, then 5. To select number 30, press $\geq 10, 3$, then 0.

You can also cancel PBC function by pressing the number button to select a track.

To reactivate PBC, press ■, then press I◄◄.

This System is equipped with a USB terminal on the front panel. You can connect your PC to this terminal and enjoy sound reproduced through your PC.

When you connect your PC for the first time, follow the procedure below.

• Remember you cannot send any signal or data to your PC from this System.

IMPORTANT

 Always set volume to VOL MIN when connecting or disconnecting the other equipment.

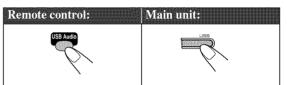

DO NOT turn off the System and disconnect the USB cable while installing drivers and playing back, and for several seconds after your PC recognizes the System.

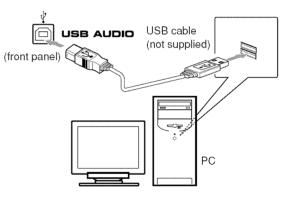

How to install the USB drivers

The following procedure is described using the English version of Windows[®] XP. If your PC is running on a different version of Windows, the screens shown on your PC's monitor will differ from the ones used in the following procedure.

- 1 Turn on your PC and start running Windows® 98SE, Windows® Me, Windows® 2000 or Windows® XP.
 - If the PC has been turned on, quit all the applications now running.
- **2** Turn on the System.
- **3** Select USB for the source.

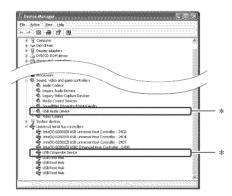

4 Connect the unit to the PC using a USB cable (not supplied).

- Use "USB series A plug to B plug" cable when connecting.
- **5** The USB drivers are installed automatically.
 - If the USB drivers are not installed automatically, install the USB drivers following the instructions on the PC's monitor.

b Check if the drivers are correctly installed.

- 1 Open the Control Panel on your PC: Select [Start] → [Settings] → [Control Panel]
- 2 Click [System] → [Hardware] → [Device Manager]
 → [Sound, video and game controllers] and [Universal Serial Bus controllers]
- The following window appears, and you can check whether the drivers are installed.

* The installed drivers can be shown only when the System is connected to the PC.

To play back sounds on the PC

Refer to the manuals supplied with the sound reproduction application installed in the PC.

Microsoft[®], Windows[®] 98SE, Windows[®] Me, Windows[®] 2000 and Windows[®] XP are registered trademarks of Microsoft corporation.

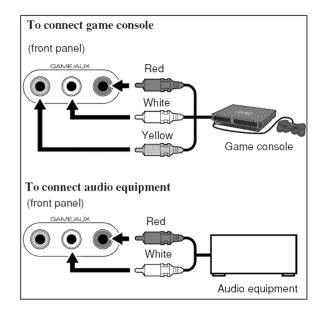

Playing Back from Other External Equipment

IMPORTANT

- Turn the power off to all components before connections.
- Always set volume to VOL MIN when connecting or disconnecting the other equipment.

By connecting an external audio equipment or game console, you can enjoy the dynamic sound with this system.

• When enjoying a video game with your game console connected to this System, connect this System and your TV/monitor with the composite video cable (see page 6).

To select other external equipment for the source

To select external audio equipment as the source, select "AUX".

To select game console as the source, select "G-1 RPG", "G-2 SPORT", "G-3 ACTION" or "G-4 NIGHT".

• While selecting GAME/AUX for the source, the sound mode and 3D Phonic do not take effect.

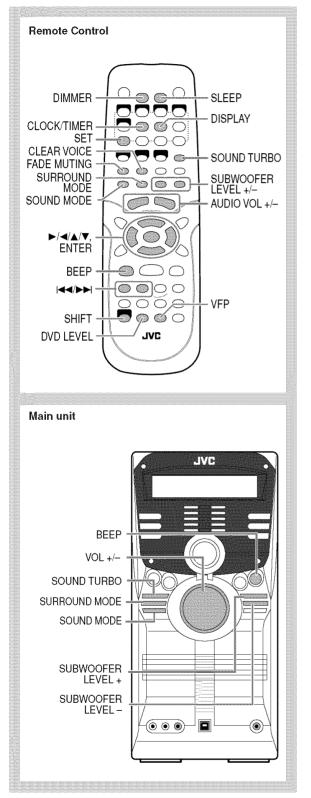

To enjoy powerful game sound

When you select "G-1 RPG", "G-2 SPORT", "G-3 ACTION" or "G-4 NIGHT", you can enjoy the sound effect suitable for the genre or scene of the game.

G-1 RPG	For RPG.
G-2 SPORT	For sport game.
G-3 ACTION	For action game.
G-4 NIGHT	For enjoying powerful game sound with low sound level.

 The video signals from the external equipment connected to GAME/AUX jack are output as composite video signal. The system does not output S-video signals for these external equipment.

Daily Operations—Sound and Other Adjustments

Adjusting the Volume 🖉 🌑 🌑 🖤 💷

The volume level can be adjusted in 32 steps (VOL MIN, VOL 1 – VOL 30, VOL MAX).

To drop the volume in a moment

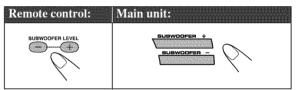

MUTING

To restore the volume, press the button again, or adjust the volume level.

Reinforcing the Bass Sound

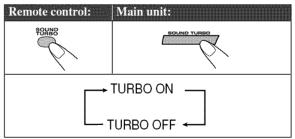

To adjust the subwoofer level gradually

You can select the subwoofer level from level 0 (minimum) to level 2 (maximum).

To enjoy powerful sound

You can enjoy powerful sound by using Sound Turbo. This function boosts the low and high frequency sound.

- When the Sound Turbo is set to TURBO ON, the S.TURBO indicator lights up and the subwoofer level automatically increases to the maximum level (level 2).
- You can adjust the subwoofer level even if the Sound Turbo is set to TURBO ON.

Making the Center Channel Sound Clear -Clear Voice Courses and the course of the c

When a multi-channel disc with center-channel signal is loaded on the current tray, you can increase the output level for the center channel sound.

· This function allows you to easily understand the dialogue of DVD Video even with the low volume level.

• This function may not take much effect on some discs.

To cancel Clear Voice, select "VOICE OFF."

Selecting the Sound Modes 🔵 🌑 🌑

You can select one of the preset Sound Modes.

· Sound Modes do not take effect while GAME is selected as the source.

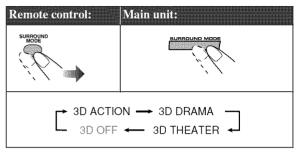

Remote control:	Main unit:
SOUND MODE	
	HALL → STADIUM → ASSIC ← POP ← ROCK →

DANCE	Increases resonance and bass.
HALL	Adds depth and brilliance to the sound.
STADIUM	Adds clarity and spreads the sound, as in
	an outdoor stadium.
ROCK	Boosts low and high frequency. Good
	for acoustic music.
POP	Good for vocal music.
CLASSIC	Good for classical music.

Selecting 3D Phonic Mode 💮 💮 🌘 INFO

While playing a disc (except JPEG) ...

• 3D Phonic does not take effect while GAME/AUX is selected as the source.

3D ACTION	Suitable for action movies and sports programs.
3D DRAMA	Creates natural and warm sound. Enjoy movies in a relaxed mood.
	Enjoy sound effects like in a major theater.

To cancel 3D Phonic, select "3D OFF."

Presetting Automatic DVD VIDEO Sound Increase Level 🖉 🔊 🧆 🌰

The DVD Video sound is sometimes recorded at a lower level than for other discs and sources. You can set the increase level for DVD Video, so you do not have to adjust the volume every time you change the source.

When DVD Video is loaded on the current tray ...

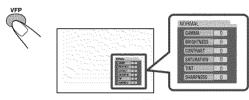

• As the number increases, sound level also increases.

Changing the Picture Tone (2007) (INFO

While showing a playback picture on the TV, you can select the preset picture tone, or adjust it and store your own preference.

To select a preset picture tone

1 Activate VFP.

On the TV screen

2 Select a preset picture tone.

NORMAL	Normally select this.
CINEMA	Suitable for a movie source.
USER1/USER2	You can adjust parameters and can store the settings (see the next column).

3 Finish setting.

To adjust the picture tone

- 1 Select "USER1" or "USER2."
- Follow steps **1** and **2** explained above.
- **2** Select a parameter you want to adjust.

GAMMA	Adjust if the neutral color is bright or dark. The brightness of dark and bright portions is maintained (-3 to +3).
BRIGHTNESS	Adjust if the picture is bright or dark as a whole (-8 to +8).
CONTRAST	Adjust if the far and near position is unnatural $(-7 \text{ to } +7)$.
SATURATION	Adjust if the picture is whitish or blackish $(-7 \text{ to } +7)$.
TINT	Adjust if the human skin color is unnatural $(-7 \text{ to } +7)$.
SHARPNESS	Adjust if the picture is indistinct $(-8 \text{ to } +8)$.

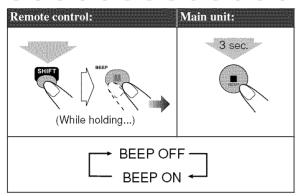

3 Adjust the parameter.

- **4** Repeat steps **2** to **3** to adjust other parameters.
- **5** Finish setting.

Turning On or Off the Key-Touch Tone

• When the key-touch tone is activated, the BEEP ON indicator lights up.

Changing the Display Brightness

You can dim the display window.

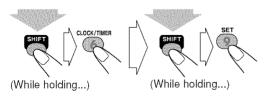

Setting the Clock 💷 🔊 🔵 🖉 💷

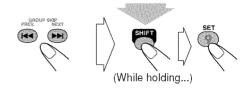

Without setting the build-in clock, you cannot use Daily Timer (see page 33).

- To exit from the clock setting, press CLOCK/TIMER (while holding SHIFT) as required.
- To go back to the previous step, press CANCEL (while holding SHIFT).
- If you have already adjusted the clock before, press the CLOCK/TIMER (while holding SHIFT) repeatedly in step **1**, until the clock setting mode is selected.

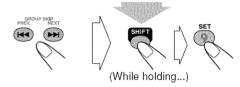

1 Activate clock setting mode.

2 Adjust the hour.

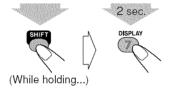

3 Adjust the minute.

Now the built-in clock starts working.

To check the current time during play

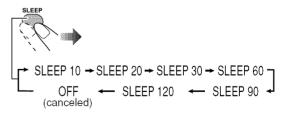

To display the source information, press any button.

With Sleep Timer, you can fall asleep listening to music.

• You can set Sleep Timer only while the System is turned on.

1 Specify the time (in minutes).

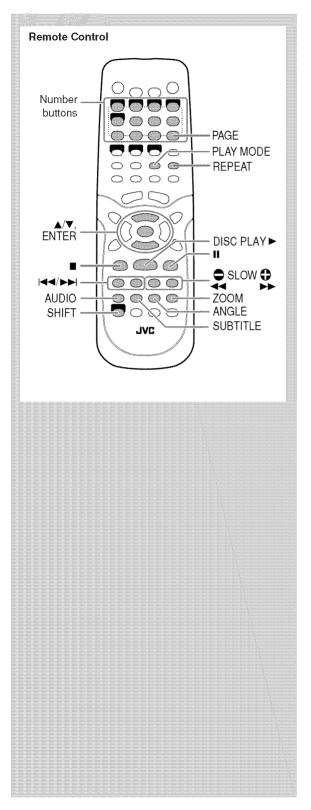

2 Wait until the set time disappears.

To check the time remaining until the shut-off time

• When you press SLEEP once, you can check the remaining time until the shut-off time.

Unique DVD/VCD Operations

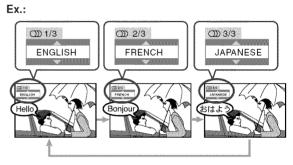

Selecting the Sound Track () (NFO

For DVD Video: While playing back a chapter containing multiple audio tracks, you can select the one to listen to. For DVD-VR/SVCD/VCD: When playing back a track, you can select the audio channel to play.

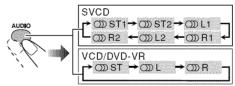

• You can also select the audio track using the on-screen bar (see pages 26 and 27).

While playing a DVD Video...

While playing a DVD-VR, SVCD or VCD...

ST1/ST2/ST	To listen to normal stereo (2 channel) playback.
L1/L2/L	To listen to the left audio channel.
R1/R2/R	To listen to the right audio channel.

• SVCD can have 4 audio channels. SVCD usually uses these 4 channels to record two 2-channel recordings (ST1/ST2).

Selecting the Subtitle Language

For DVD Video: While playing back a chapter (of DVD Video) containing subtitles in different languages, you can select the subtitle language to display on the TV screen. For DVD-VR: While playing, you can turn the subtitle on or off.

For SVCD: While playing, you can select the subtitles even if no subtitles are recorded on the disc.

• You can also select the subtitle language using the on-screen bar (see page 27).

While playing a DVD Video...

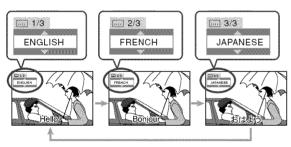

1 Display the subtitle selection window.

2 Select the subtitle language.

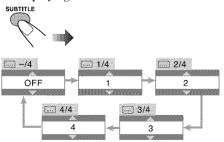

Ex.:

While playing DVD-VR...

While playing an SVCD...

Selecting a View Angle 🔎 🖤 🌑 🖤

While playing back a chapter (of DVD Video) containing multi-view angles, you can view the same scene from different angles.

• You can also select the view angle using the on-screen bar (see page 27).

While playing back or paused...

1 Display the view angle selection window.

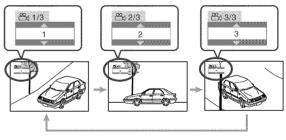

2 Select the view angle.

Special Picture Playback

Still picture playback

To start still picture playback:	To resume normal playback:
While playing	DISC PLAY

Frame-by-frame playback

1 While playing...

- Still picture playback starts.
- **2** Advance the still picture frame by frame.

To resume normal playback, press DISC PLAY ►.

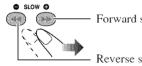

Slow-motion playback

1 While playing...

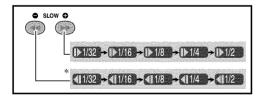

Still picture playback starts.

2 Select slow motion speed.

- Forward slow motion starts.

Reverse slow motion* starts.

* Only for DVD Video.

To resume normal playback, press DISC PLAY ►.

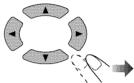

1 While playing...

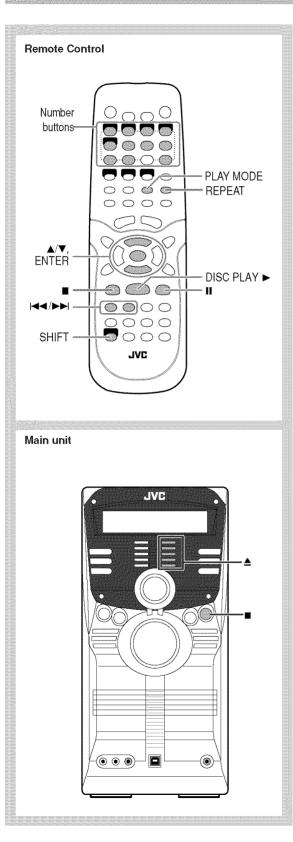

• As the number increases, magnification also increases.

2 Move the zoomed-in position.

To resume normal playback, press ZOOM repeatedly until "ZOOM OFF" appears on the TV screen.

Advanced Disc Operations

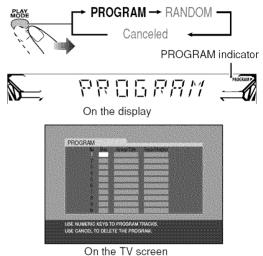

Programming the Playing Order —Program Play

You can arrange the playing order of the tracks (up to 99) before you start playback.

Program play cannot be used for DVD-VR disc.

1 Before starting playback, activate Program Play.

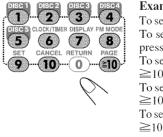

- 2 Select chapters or tracks you want for Program Play.For DVD/MP3/WMA:
 - ① Select a disc number
 - ② Select a title or group number.
 - ③ Select a chapter or track number.

• For SVCD/VCD/CD:

- ① Select a disc number
- ② Select a track number.
 - If the disc is not in the current tray, press ENTER to skip the group number entry before selecting a track.

To enter the numbers:

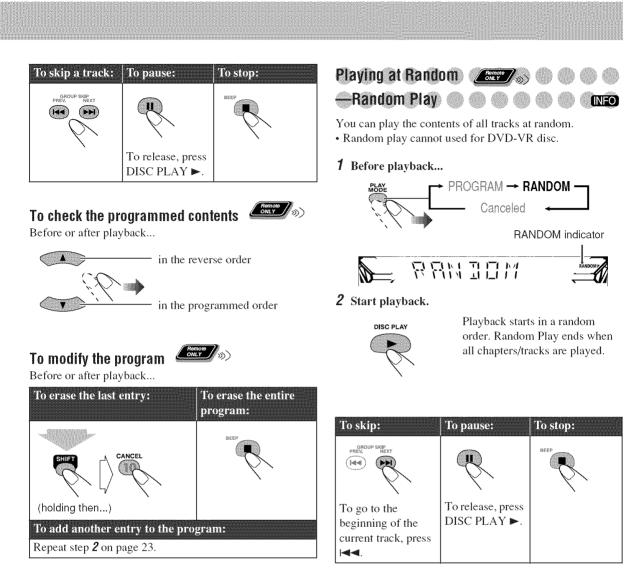

Examples: To select number 5, press 5. To select number 10, press10. To select number 15, press \geq 10, 1, then 5. To select number 30, press \geq 10, 3, then 0. To select number 114, press \geq 10, \geq 10, 1, 1 then 4.

3 Repeat the steps **2** until you finish what you want to program.

4 Start playback.

Playback starts in the order you have programmed.

To exit from Program Play

Before or after playback ...

To exit from Random Play

Before or after playback ...

Playing Repeatedly—Repeat Play

You can repeat playback.

- You can also select the repeat mode using the on-screen bar (see page 27).
- For JPEG and DVD-VR discs, see page 32.

• For DVD Video:

While playing...

Before starting playback ...

• For MP3/WMA:

While playing or before playback

• For CD/SVCD/VCD:

While playing (without PBC for SVCD/VCD) or before playback...

• For Program Play mode:

While playing or before playback ...

For Random Play mode:

While playing or before playback...

Time Search

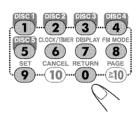

You can move to a particular point by specifying the elapsed playing time from the beginning.

- 1 While playing (without PBC for SVCD/VCD), display the on-screen bar with the pull-down menu.
 - Except for DVD Video/DVD-VR: Time Search can be used before starting playback.
- 2 Select ⊙→.
- 3 Display the pop-up window.

4 Enter the time.

You can specify the time in hours/minutes/seconds.

Examples:

To move to a point of 1 (hours): 02 (minutes): 00 (seconds), press 1, 0, 2, 0, then 0.

To move to a point of 54 (minutes): 00 (seconds), press 0, 5, 4, 0, then 0.

- It is always required to enter the hour digit (even "0" hour), but it is not required to enter trailing zeros (the last two digits in the examples above).
- To correct a misentry, press cursor *d* to erase the last entry.
- 5 Finish the setting.

The System starts playing from the specified time.

To remove the on-screen bar

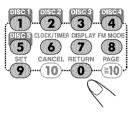

Chapter/Track Search

You can search for the chapter (DVD Video/DVD-VR) number to play.

- 1 While playing, display the on-screen bar with the pull-down menu.
- 2 Select $CHAP \rightarrow or TRACK \rightarrow$.
- 3 Display the pop-up window.

4 Enter the desired chapter/track number.

Examples:

To select chapter/track 5, press 5. To select chapter/track 15, press 1, then 5. To select chapter/track 30, press 3, then 0.

- To correct a misentry, press the number buttons until the desired number shown in the pop-up window.
- 5 Finish the setting.

The System starts playing the searched chapter or track.

To erase the on-screen bar

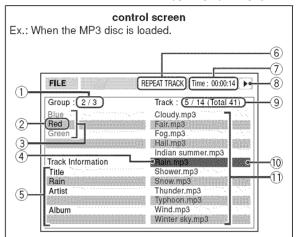

You can search for and play the desired items through the control screen.

Control screen for MP3/WMA and JPEG disc

The control screen automatically appears on the TV screen when you load an MP3/WMA or a JPEG disc.

• If both types of files (MP3/WMA and JPEG files) are recorded on a disc, select the file type to play (see page 37).

- ① Current group number/total group number
- Current group
- ③ Group list

To zoom in the still picture

1 During playback is paused...

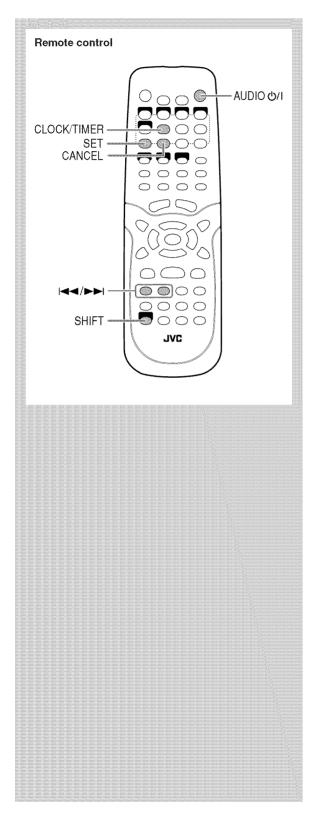

• As the number increases, magnification also increases.

2 Move the zoomed-in position.

To resume normal playback, press ZOOM repeatedly until "ZOOM OFF" appears on the TV screen.

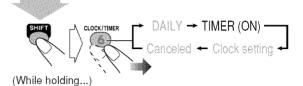

Timer Operations

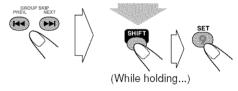

Setting the Timer 🚛 🔊 🔍 🔍 💷

Using Daily Timer, you can wake up with your favorite song.

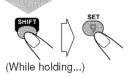

- To correct a misentry during the process, press CANCEL (while holding SHIFT). You can return to the previous step.
- **1** Select the timer setting mode for Daily Timer—"TIMER ON."

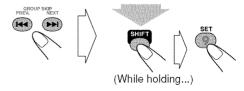

2 Set the hour then minute for on-time.

3 Enter the off-time setting mode.

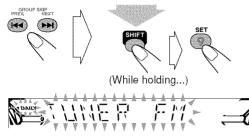

4 Set the hour then minute for off-time.

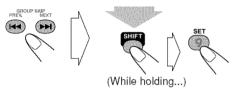

5 Select the playback source—"TUNER FM," "TUNER AM," "CD," "AUX," or "USB."

Ex.: When "TUNER FM" is selected.

- When you select "TUNER FM" or "TUNER AM," repeat the procedure to select a preset station.
- *b* Select the volume level.

7 Turn off the System (on standby) if you have set the timer with the System turned on.

How Daily Timer works

Once the Daily Timer has been set, the timer (\bigcirc) indicator and DAILY indicator are lit on the display. Daily Timer is activated at the same time everyday until the timer is turned off manually (see the next column).

When the on-time comes

The System turns on, tunes in to the specified station or starts playing the specified source, and sets the volume level to the preset level.

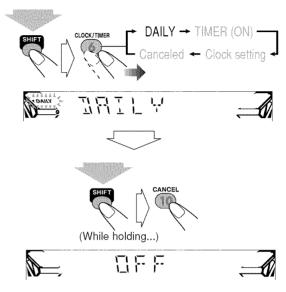

When the off-time comes

The System stops playback, and turns off (standby).

• The timer setting remains in memory until you change it.

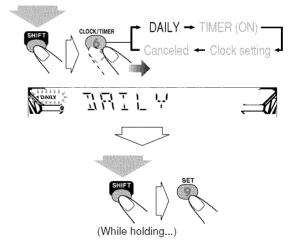

To turn off Daily Timer

Since Daily Timer is activated at the same time everyday, you may need to cancel it on some particular days.

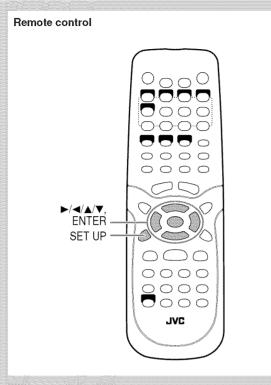

• The timer (**4**) indicator goes off.

To turn on the timer again...

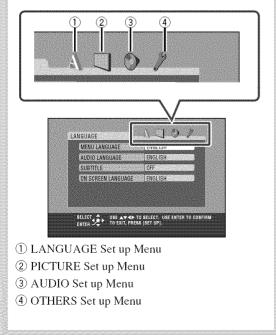

Set up Menu Operations

Set up Menu Icons

The icon for the selected Set up Menu will be highlighted.

Ex.: LANGUAGE Set up Menu is selected.

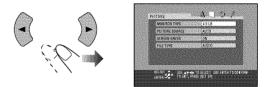

You can use the Set up Menus only when a disc is selected as the source and its playback is not yet started. Ex.: Selecting "STILL PICTURE" for "FILE TYPE":

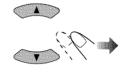

1 Show the set up menu.

2 Select one of the set up menus.

3 Select the item you want to adjust.

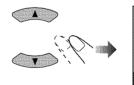

4 Display the pop-up window.

5 Select the desired option in the pop-up window.

b Finish the setting.

7 Repeat steps 3 to 4 to set other items on the same Set up Menu. Repeat steps 2 to 4 to set other items on another Set up

Repeat steps 2 to 4 to set other items on another Set up Menu.

To remove the Set up Menu

LANGUAGE Set up Menu

You can select the initial languages for disc playback. You can also select the language shown on the TV screen while operating this System.

LANGUAGE ENGLISH MENU LANGUAGE ENGLISH SUPETILE ON SCREEN LANGUAGE ENGLISH SUPETILE SUPETIL

MENU LANGUAGE

Some discs have multiple menu languages. Select from—ENGLISH, SPANISH, FRENCH, CHINESE, GERMAN, ITALIAN, JAPANESE, RUSSIAN, AA – ZU (see "Language Code List" on page 44).

AUDIO LANGUAGE

Some discs have multiple audio languages. Select from—ENGLISH, SPANISH, FRENCH, CHINESE, GERMAN, ITALIAN, JAPANESE, RUSSIAN, AA – ZU (see "Language Code List" on page 44).

SUBTITLE

Some discs have multiple subtitle languages. Select from—ENGLISH, SPANISH, FRENCH, CHINESE, GERMAN, ITALIAN, JAPANESE, RUSSIAN, AA – ZU (see "Language Code List" on page 44) or "OFF (no subtitle)."

ON SCREEN LANGUAGE

Select one of the languages shown on the TV from—ENGLISH, SPANISH, and FRENCH.

PICTURE Set up Menu

INFO

You can select the desired options concerning a picture or monitor screen.

MONITOR TYPE

INFO

You can select the monitor type of your TV when you play DVD Video recorded with aspect ratio of 16:9.

Select one of the following settings:

16:9 (Wide television conversion):

Select when the aspect ratio of your TV is 16:9 (wide TV) and when the TV has the screen size adjustment function.

4:3 LB (Letter Box):

Select when the aspect ratio of your TV is 4:3 (conventional TV). While viewing a wide screen picture, the black bars appear on the top and the bottom of the screen.

4:3 PS (Pan Scan):

Select when the aspect ratio of your TV is 4:3 (conventional TV). While viewing a wide screen picture, the black bars do not appear; however, the left and right edges of the pictures will not be shown on the screen.

Ex.: 4:3 LB

Ex.: 4:3 PS

Ex.: 16:9

PICTURE SOURCE

You can obtain optimal picture quality by selecting an appropriate option—picture source type (either video source or film source).

Select one of the following:

AUTO:	Normally select this.
	When playing back a disc containing both video
	and film sources, the System automatically
	changes the processing to match it to the picture
	type (film or video source) of the current chapter.
FILM:	To play a film source disc.

VIDEO: To play a video source disc.

SCREEN SAVER

You can activate or deactivate screen saver while operating the built-in disc player.

Select one of the following:

ON:	The picture on the TV becomes dark when no operation is done for about 5 minutes.
OFF:	To cancel the screen saver.

FILE TYPE

If both audio tracks (MP3/WMA files) and still picture (JPEG files) are recorded on a disc, you can select which to play.

Select one of the following:

AUDIO:	To play MP3/WMA files.
STILL PICTURE:	To play JPEG files.

AUDIO Set up Menu

You can adjust the sound settings of the System.

DIGITAL AUDIO OUTPUT

When using the digital output terminal on the rear, set this correctly according to the connected component.

Select one of the following:

PCM ONLY:	To connect to a linear PCM digital equipment such as an MD recorder.
DOLBY DIGITAL /PCM:	To connect to a Dolby Digital decoder or an amplifier with a built-in Dolby Digital decoder.
STREAM/PCM:	To connect to a DTS decoder or an amplifier with a built-in DTS decoder.

• See also "OPTICAL DIGITAL OUTPUT Signals" on page 43.

DOWN MIX

When playing a multi-channel DVD, the System converts the signals into 2 channels.

Down mix setting is effective for the speaker output (and digital audio output if "DIGITAL AUDIO OUTPUT" is set to "PCM ONLY") from this System.

Select one of the following:

STEREO:	To connect a conventional stereo amplifier, receiver, MD player, TV, etc.
DOLBY	To connect an amplifier with the Dolby
SURROUND:	Pro Logic decoder.

D. RANGE COMPRESSION

You can compress the dynamic range (the difference between the loudest sound and the softest sound) to enjoy a powerful sound even at a low volume level when listening to Dolby Digital software. This is useful at night.

• The effectiveness varies depends on a software.

Select one of the following:

AUTO:	To enjoy powerful sounds with full dynamic
	range.
ON:	Best for watching a movie at a low volume level.

■ OTHERS Set up Menu

INFO

You can change some other convenient functions.

RESUME

You can activate or deactivate Resume for disc playback (see page 12).

Select one of the following:

ON:	To activate Resume.
OFF:	To cancel Resume.

ON SCREEN GUIDE

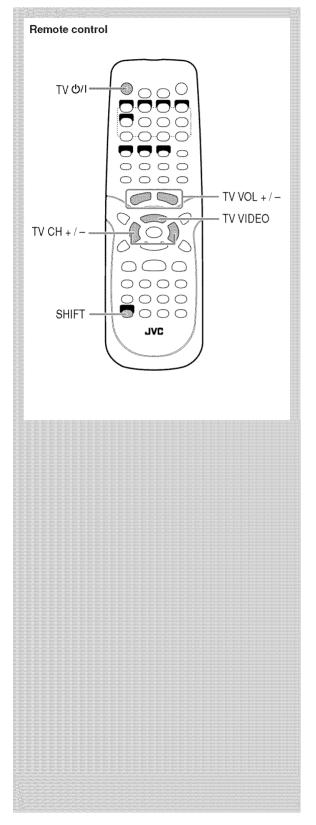

You can activate or deactivate the on-screen guide icons (see page 12).

• When recording the picture on a VCR, select "OFF" to avoid recording the guide icons on your video tape.

Select one of the following:

ON:	To activate the on-screen guide icons.
OFF:	To cancel the on-screen guide icons.

Operating the TV

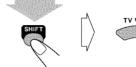

You can operate the JVC's TV using this remote control.

To turn on or off the TV:

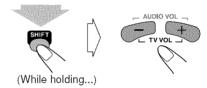

To select the input mode (either TV or VIDEO):

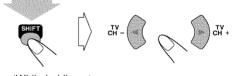

(While holding...)

To adjust TV volume:

To select the TV channel:

(While holding...)

Learning More about This System 🌑 🌑 🌑

Before Operating the System (see page 3)

Playable Disc Types:

About audio format

- Linear PCM: Uncompressed digital audio, the same format used for CDs and most studio masters.
- Dolby Digital: Compressed digital audio, developed by Dolby Laboratories, which enables multi-channel encode to create the realistic surround sound.
- DTS (Digital Theater Systems): Compressed digital audio, developed by Digital Theater Systems, Inc., which enables multi-channel like Dolby Digital. As the compression ratio is lower than for Dolby Digital, it provides wider dynamic range and better separation.

Daily Operations—Playback (see pages 10 to 15)

Listening to the Radio:

- If you store a new station into an occupied preset number, the previously stored station in that number will be erased.
- When you unplug the AC power cord or if a power failure occurs, the preset stations will be erased in a few days. If this happens, preset the stations again.

Playing Back a Disc:

- On some DVD, SVCD, or VCD discs, the actual operations may be different from what is explained in this manual, due to the programming and disc structure; such differences are not a malfunction of this System.
- For DVD-VR playback...
 - This unit cannot play back DVD-VR disc with CPRM (Content Protection for Recordable Media).
 - When making a disc, use UDF-Bridge format.
 - For details about DVD-VR format and playlist, refer to the manual of the recording equipment.
- You cannot use reverse slow motion, Program Play, and Random Play.
- For MP3/WMA/JPEG playback...
- MP3/WMA/JPEG discs are required a longer readout time than regular CDs. (It depends on the complexity of the group/file configuration.)
- Some MP3/WMA/JPEG files cannot be played back and will be skipped. This results from their recording processes and conditions.
- When making MP3/WMA/JPEG discs, use ISO 9660 Level 1 or Level 2 for the disc format.
- This system can play back MP3/WMA/JPEG files with the extension code <.mp3>, <.wma> or <.jpg> (regardless of the letter case—upper/lower).
- It is recommended that you make each MP3/WMA file at a sampling rate of 44.1 kHz and at bit rate of 128 kbps. This System cannot play back files made at bit rate of less than 64 kbps.

Playing Back from the PC:

- Check if your PC equipped with the CD-ROM drive is running on Windows[®] 98*, Windows[®] 98SE*, Windows[®] Me*, Windows[®] 2000*, or Windows[®] XP* and prepare its CD-ROM.
- DO NOT turn off the System or disconnect the USB cable while installing the drivers or until your PC has recognized the System.
- Use a full speed USB cable (version 1.1).
- If your PC does not recognize the System, disconnect the USB cable and connect it again. If this does not work, restart Windows.
- The drivers installed can be recognized only when the USB cable is connected between the System and your PC.
- The sound may not be played back correctly—interrupted or degraded—due to your PC settings or PC specifications.

*Microsoft[®], Windows[®] 98, Windows[®] 98SE, Windows[®] Me, Windows[®] 2000 and Windows[®] XP are registered trademarks of Microsoft corporation.

Playing Back from Other External Equipment:

• When enjoying a video game with your game machine connected to this System, connect this System and your TV/monitor with the composite video cable.

Daily Operations—Sound and Other Adjustments (see pages 16 to 19) Adjusting the Volume:

- Be sure to turn down the volume before connecting or putting the headphones.
- When you turn off the System with the volume level set to "VOL 16" or higher, the volume level is reset to "VOL 15" next time you turn on the System.

Selecting the Sound Modes:

• Sound Modes do not take effect while game is selected as the source.

Selecting 3D Phonic Mode:

- 3D Phonic function also affects the sound through the headphones.
- 3D Phonic setting is also applied to the optical digital output signals through the DIGITAL OUTPUT (OPTICAL) terminal.

Changing the Picture Tone:

• If no operation is done for about 10 seconds, the VFP setting screen disappears.

Setting the Clock:

- "- ----" will flash on the display until you set the clock.
- The clock may gain or lose 1 to 2 minutes per month. If this happens, reset the clock.

Turning Off the Power Automatically:

• If you turn off the System, Sleep Timer is canceled.

Unique DVD/VCD Operations (see pages 20 to 22)

Selecting the Sound Track:

On some DVD videos, you cannot change audio languages while playing back.

Special Picture Playback:

- During slow-motion playback, no sound will be reproduced.
- While zoomed in, the picture may look coarse.
- You cannot use frame-by-frame playback for DVD-VR.

Advanced Disc Operations (see pages 23 to 25)

- Programming the Playing Order—Program Play:
- While programming steps...
- If you try to program a disc number on which the System has detected no disc is loaded, " O " appears on the TV screen.
- Your entry will be ignored if you have tried to program an item number that does not exist on the disc (for example, selecting track 14 on a disc that only has 12 tracks). Such entries are ignored.
- When you enter the group number for SVCD/VCD/CD which is not in the current tray, the System will ignore these entries during playback.
- You cannot use Program Play and Random Play for DVD-VR and JPEG discs.
- If you try to add a 100th track, "FULL" appears on the display.
- The program contents will be erased when...
- You unplug the AC power cord.
- You open the disc tray currently selected (regardless of the play mode).

Playing at Random—Random Play:

• Random Play cannot be used on some DVD discs.

On-Screen Disc Operations (see pages 26 to 32)

Operations Using the On-screen Bar:

- A-B Repeat:
- For DVD Video, A-B Repeat is possible only within the same title.
- For SVCD/VCD/CD, A-B Repeat is possible only within the same track.

Operations on the control Screen:

• For DVD-VR playback ...

- Original Program: The System can play back the original picture in the recorded order.
- Play List: The System can play back the play list edited by the recording equipment. The control screen for the play list appears only when the disc has the play list.
- Resume is not available.
- For details about DVD-VR format and play list, refer to the manual of the recording equipment.

- For JPEG files playback ...
 - It is recommended that you record a file at 640 x 480 resolution. (If a file has been recorded at a resolution of more than 640 x 480, it will take a long time to be shown.)
 - This System can play only baseline JPEG files*.
 Progressive JPEG files* or lossless JPEG files* cannot be played.
 - * Baseline JPEG format: Used for digital cameras, web, etc.

Progressive JPEG format: Used for web. Lossless JPEG format: An old type and rarely used now.

- This unit may not play back JPEG files properly which are recorded by the devices other than digital still camera.
- During Slide-show playback, zoom cannot be operated.

Timer Operations (see pages 33 and 34)

Setting the Timer:

- When you select "CD" for the playback source, playback starts from the beginning of the current disc when timer is activated.
- When you unplug the AC power cord or if a power failure occurs, the timer will be canceled. You need to set the clock first, then the timer again.
- If you set DVD Video as the source, Daily Timer may not work correctly.

Set up Menu Operations (see pages 35 to 38) LANGUAGE Set up Menu:

• When the language you have selected for MENU LANGUAGE, AUDIO LANGUAGE, or SUBTITLE is not recorded on a disc, the original language is used as the initial language.

PICTURE Set up Menu—MONITOR TYPE:

- Even if "4:3 PS" is selected, the screen size may become 4:3 letter box with some DVD Videos. This depends on how the discs are recorded.
- When you select "16:9" for a picture whose aspect ratio is 4:3, the picture slightly changes due to the process for converting the picture width.

AUDIO Set up Menu—DOWN MIX:

• This setting is not effective when DTS multi-channel software is played back.

OTHERS Set up Menu-ON SCREEN GUIDE:

• The set up menu and on-screen bar will be displayed (and recorded) even though this function is set to "OFF." Subtitles and the information for zooming in always appear on the display regardless of this setting.

Maintenance

To get the best performance of the System, keep your discs clean.

Handling discs

- Remove the disc from its case by holding it at the edge while pressing the center hole lightly.
- Do not touch the shiny surface of the disc, or bend the disc.
- Put the disc back in its case after use to prevent warping.
- Be careful not to scratch the surface of the disc when placing it back in its case.
- Avoid exposure to direct sunlight, extreme temperature, and moisture.

To clean the disc:

Wipe the disc with a soft cloth in a straight line from center to edge.

Cleaning the System

- Stains should be wiped off with a soft cloth. If the System is heavily stained, wipe it with a cloth soaked in water-diluted neutral detergent and wrung well, then wipe clean with a dry cloth.
- Since the System may deteriorate in quality, become damaged or get its paint peeled off, be careful about the following:
- DO NOT wipe it with a hard cloth.
- DO NOT wipe it forcefully.
- DO NOT wipe it with thinner or benzine.
- DO NOT apply any volatile substance such as insecticides to it.
- DO NOT allow any rubber or plastic to remain in contact for a long time.

Troubleshooting 🌒 🌒 🌒 🌒 🌒 🌒

If you are having a problem with your System, check this list for a possible solution before calling for service.

General:

Adjustments or settings are suddenly canceled before you finish.

 \Rightarrow There is a time limit. Repeat procedure again.

Operations are disabled.

⇒ The built-in microprocessor may malfunction due to external electrical interference. Unplug the AC power cord and then plug it back in.

Unable to operate the System from the remote control.

- ⇒ The path between the remote control and the remote sensor on the System is blocked.
- \Rightarrow The batteries are exhausted.

No sound is heard.

- \Rightarrow Speaker connections are incorrect or loose.
- \Rightarrow Headphones are connected.

No picture appears on the screen.

 \Rightarrow The video cord connections are incorrect or loose.

No picture is displayed on the TV screen, the picture is blurred, or the picture is divided into two parts.

⇒ The System is connected to a TV which does not support progressive video input.

The left and right edges of the picture are missing on the screen.

⇒ Select "4:3 LB" for "MONITOR TYPE" (see page 36)

Radio Operations:

Hard to listen to broadcasts because of noise.

- \Rightarrow Antennas connections are incorrect or loose.
- \Rightarrow The AM loop antenna is too close to the System.
- \rightleftharpoons The FM antenna is not properly extended and positioned.

Disc Operations:

The disc does not play.

⇒ The disc is placed upside down. Place the disc with the label side up.

MP3/WMA groups and tracks are not played back as you expect.

⇒ The playing order is determined when the disc was recorded. It depends on the writing application.

MP3/WMA or JPEG files are not played back.

- ⇒ The inserted disc may include both types of tracks (MP3/WMA files and JPEG files). In this case, you can only play back the files selected by the "FILE TYPE" setting (see page 37).
- ⇒ You have changed the "FILE TYPE" setting after you inserted a disc. In this case, reload the disc.

The disc sound is discontinuous.

\Rightarrow The disc is scratched or dirty.

No subtitle appears on the display though you have selected the initial subtitle language.

⇒ Some DVDs are programmed to always display no subtitle initially. If this happens, press SUBTITLE after starting play (see page 21).

Audio language is different from the one you have selected as the initial audio language.

⇒ Some DVDs are programmed to always use the original language initially. If this happens, press AUDIO after starting play (see page 20).

The disc tray does not open or close.

- \Rightarrow The AC power cord is not plugged in.
- \Rightarrow Child Lock is in use (see page 25).
- ⇒ Program Play is in use. Exit from Program Play (see page 24).

USB Operations:

Unable to play back through the USB connection.

 \Rightarrow USB connection and setting is incorrect (see page 14). The sound through the USB connection stops.

- \Rightarrow Noise and static electricity may stop the sound through the
 - USB connection. In this case, do the following operations: • Disconnect and connect the USB cable again
 - Disconnect and connect the USB cable a
 Restart the music software on your PC
 - Turn off and on the system

If you still have a problem, reset the System. While in standby...

Timer operations:

Daily Timer does not work.

⇒ The System has been turned on when the on-time comes. Timer starts working only when the System is turned off.

Press and hold until the display flashes. The factory default settings are restored and all the settings you have made are erased.

OPTICAL DIGITAL OUTPUT Signals
