BEFORE USING YOUR NEW VACUUM

Please read this guide. It will help you assemble and operate your new Kenmore vacuum in the safest and most effective way.

For more information about the care and operation, call your nearest Sears store.

You will need the complete model and serial numbers when requesting information.

Your vacuum's model and serial numbers are located on the Model and Serial Number Plate.

Use the space below to record the model number and serial number of your new Kenmore vacuum.

Model No. _____

Serial No. _____

Date of Purchase _____

Keep this book and your sales check (receipt) in a safe place for future reference.

KENMORE VACUUM CLEANER WARRANTY

LIMITED ONE YEAR WARRANTY ON KENMORE VACUUM CLEANER

This warranty is for one year from the date of purchase, and includes only private household vacuum cleaner use. During the warranty year, when this vacuum cleaner is operated and maintained according to the owner's manual instructions, Sears will repair any defects in material or workmanship free of charge.

This warranty excludes vacuum bags, belts, light bulbs, and filters, which are expendable parts and become worn during normal use.

For warranty service, return this vacuum cleaner to the nearest Sears Service Center in the United States.

This warranty applies only while this product is in use in the United States.

This warranty gives you specific legal rights, and you may also have other rights which vary from state to state.

Sears, Roebuck and Co., D/817WA, Hoffman Estates, IL 60179

IMPORTANT SAFETY INSTRUCTIONS

WARNING - To reduce the risk of fire, electric shock, or injury:

Your safety is important to us. To reduce the risk of fire, electrical shock, injury to persons or damage when using your vacuum cleaner, follow basic safety precautions including the following:

Read this manual before assembling or using your vacuum cleaner.

Use your cleaner only as described in this manual. Use only with supplied attachments.

To reduce the risk of electrical shock - **Do not** use outdoors or on wet surfaces.

Disconnect electrical supply before servicing or cleaning out brush area. Failure to do so could result in electrical shock or brush suddenly starting.

Always turn cleaner off before connecting or disconnecting the hose.

Always turn cleaner off before unplugging.

Do not unplug by pulling on cord. To unplug, grasp the plug, not the cord.

Hold plug when rewinding onto cord reel.

Do not allow plug to whip when rewinding.

Do not use with damaged cord or plug. If cleaner is **not** working as it should, has been dropped, damaged, left outdoors, or dropped into water, return it to a service center.

Do not pull or carry by cord, use cord as a handle, close door on cord, or pull cord around sharp edges or corners. **Do not** run cleaner over cord. Keep cord away from heated surfaces.

Do not leave cleaner when plugged in. Unplug from outlet when not in use and before servicing.

Do not allow to be used as a toy. Close attention is necessary when used by or near children.

Do not handle plug or cleaner with wet hands.

Do not operate the cleaner with a punctured hose. Replace if cut or worn. Avoid vacuuming sharp objects.

Do not use with any opening blocked; keep free of dust, lint, hair and anything that may reduce air flow.

Keep hair, loose clothing, fingers, and all parts of body away from openings and moving parts. **Do not** use cleaner without dust bag and/or filters in place.

Always change the dust bag after vacuuming carpet cleaners or freshener, powders and fine dust. These products clog the bag, reduce airflow and can cause the bag to burst. Failure to change bag could cause permanent damage to the cleaner.

Do not use the cleaner to pick up sharp hard objects, small toys, pins, paper, etc. They may damage the cleaner or dust bag.

Do not pick up anything that is burning or smoking, such as cigarettes, matches, or hot ashes.

Do not use vacuum cleaner to pick up flammable or combustible liquids (gasoline, cleaning fluids, perfumes, etc.), or use in areas where they may be present. The fumes from these substances can create a fire hazard or explosion.

Use extra care when cleaning on stairs. **Do not** put on chairs, tables, etc. Keep on floor.

You are responsible for making sure that your vacuum cleaner is not used by anyone unable to operate it properly.

ENGLISH

SAVE THESE INSTRUCTIONS

Proper assembly and safe use of your vacuum cleaner are your responsibilities. Your cleaner is intended only for household use. Read this Owner's Manual carefully for important use and safety information. This guide contains safety statements under warning and caution symbols. Please pay special attention to these boxes and follow any instructions given. **WARNING** statements alert you to such hazards as fire, electrical shock, burns and serious personal injury. **CAUTION** statements alert you to such hazards as moderate personal injury and/or property damage.

PARTS AND FEATURES

It is important to know your vacuum cleaner's parts and features to assure its proper and safe use. Review these before using your cleaner.

ATTACHMENTS

Dusting Brush

Upholstery Nozzle

Accessory Holder

Crevice Tool

ASSEMBLY

Before assembling your vacuum cleaner, be sure you have all the parts shown in PARTS AND FEATURES.

TWO PIECE WAND

Fit together the two wands by twisting slightly.

RUG/FLOOR NOZZLE

1. Insert wand into rug/floor nozzle.

2. Push floor selector switch back for bare floor and forward for carpet. Brushes should be down for bare floor and up for carpet.

Bare Floor

Carpet

ATTACHMENTS

Clamp Accessory Holder around upper Wand as shown.

CANISTER

1. Open the canister hood.
2. Check to see that the dust bin is properly installed. See CLEANING THE DUST BIN AND WASHABLE FILTER for instructions.
3. Check to see that the motor safety filter is properly installed. See CLEANING MOTOR SAFETY FILTER for instructions.

HOSE

1. Insert hose into canister until it snaps into place.
To remove hose : Press hose fitting hook and pull upwards.
2. Insert wand into handle by twisting slightly.

To remove handle : Pull up on handle by twisting slightly.

ENGLISH

USE AND CARE

HOW YOUR VACUUM WORKS

The vacuum cleaner creates suction that picks up dirt. Rapidly moving air carries the dirt to the dust bin through the air flow passages. The dust bin lets the air pass through, while it traps the dirt. For best cleaning results, keep the airflow passage open. Check the starred areas occasionally for clogs. Unplug from outlet before checking.

HOW TO START YOUR VACUUM

WARNING

Personal Injury and Product Damage Hazard!

- DO NOT plug in if switch is in ON position. Personal injury or product damage could result.
- The cord moves rapidly when rewinding. Keep children away and provide a clear path when rewinding the cord to prevent personal injury.
- DO NOT use outlets above counters. Damage to items in surrounding area could occur.

1. Pull out the power cord to the desired length. When you unwind the cord, you will see a yellow and a red mark. The red mark is at the very end of the cord, the yellow mark is 28 inches from the cord end.

NOTE: To reduce the risk of electric shock, this vacuum cleaner has a polarized plug: one blade is wider than the other. This plug will fit in a polarized outlet only one way. If the plug does not fit fully in the outlet, reverse the plug. If it still does not fit, contact a qualified electrician to install the proper outlet. Do not change the plug in any way.

2. Plug the polarized power cord into a 120 Volt outlet located near the floor.
To rewind: Unplug the cleaner. Hold the plug while rewinding to prevent damage or injury from the moving cord. Press on the cord reel button to rewind the cord.

3. To start, press power switch. To stop, press power switch again.

ATTACHMENTS

ATTACHMENTS ON HANDLE

1. Remove wand from handle by twisting slightly.

2. Push new attachment tool onto handle.

ATTACHMENTS ON WANDS

- Put on attachments as needed.
See chart below.

	Furniture*	Between Cushions*	Drapes*	Stairs	Bare Floors	Carpeted Floors/Rugs	Walls
DUSTING BRUSH 	X	X	X				
UPHOLSTERY NOZZLE 	X		X				
CREVICE TOOL 	X	X					
RUG/FLOOR NOZZLE 				X	X	X	X

* Always clean attachments before using on fabrics.

VACUUMING TIPS

Suggested sweeping pattern

For best cleaning action, the rug/floor nozzle should be pushed straight away from you and pulled straight back.

This pattern should be continued across the rug with slow, gliding motions.

NOTE: Fast, jerky strokes do not provide complete cleaning.

Carpeted stairs need to be vacuumed regularly.

For best cleaning results, keep the airflow passage open. Check occasionally for clogs. See HOW YOUR VACUUM WORKS section.

Unplug from outlet before checking.

PERFORMANCE FEATURES

SUCTION CONTROL

The handle air flow regulator allows you to change the vacuum suction for different fabric and carpet weights.

Adjust the suction power with Air Flow Regulator in the handle.

HOSE SWIVEL

The hose swivel prevents the hose from twisting. This is helpful for cleaning in small areas.

PERFORMANCE INDICATOR

When the unit is running, the indicator will be green if there are no clogs.

When the indicator turns completely red, check if the dust bin is full or if other areas are clogged. See HOW YOUR VACUUM WORKS.

NOTE: Indicator may turn red when using attachments or when cleaning new carpet. This is due to reduced airflow caused by the vacuum seal between attachment and surface, or new carpet fuzz filling the dust bin quickly. Restore airflow by raising attachment slightly from surface you are cleaning, or empty dust bin if it is full.

CLEANING THE DUST BIN AND WASHABLE FILTER

For best cleaning results, the dust bin should be cleaned often.

1. Unplug cord from wall outlet.
2. Pull lid release out and up, then lift canister hood.
3. Pull the dust bin up.

4. Hold the handle of the washable filter and pull it out of the dust bin.

5. Wash the dust bin with sponge or soft cloth under cold running water.

6. Brush is for cleaning the washable filter. It is on the back of the washable filter.

7. Pull the mesh screen down from the washable filter.

8. Clean the washable filter and the mesh screen with the brush under cold running water.
Do not use detergent or wash filter in washing machine or dishwasher.

9. Allow the washable filter to dry in shaded location for a day.
Do not tumble or spin dry, nor microwave or place in oven or in path of direct heat. Ensure the filter is completely dry before placing it back into the vacuum.

ENGLISH

CLEANING MOTOR SAFETY FILTER

WARNING

Electrical Shock Hazard

Do not operate the cleaner without the motor safety filter. Be sure the filter is dry and properly installed to prevent motor failure and/or electrical shock.

Check motor safety filter occasionally and clean when dirty.

1. Unplug cord from wall outlet and remove bag.

2. Pull out motor safety filter as shown.

3. Wash filter in warm soapy water, rinse, then dry. Do not clean in dishwasher or install while damp.

4. Insert filter back into canister.

5. Place the dust bin.

CLEANING EXTERIOR AND ATTACHMENTS

1. Unplug cord from wall outlet. **DO NOT** drip water on cleaner.

2. Clean vacuum exterior using a clean, soft cloth that has been dipped in clean water, then wrung out. Wipe dry after cleaning.

NOTE: Regular cleaning helps to reduce static electricity and dust buildup on outer surfaces of cleaner and attachments.

CAUTION

DO NOT use attachments if they are wet. Damage to motor may occur.

Attachments used in dirty areas, such as under a refrigerator, should not be used on other surfaces until they are washed since they could leave marks.

STORING YOUR VACUUM

When not in use, store the cleaner in upright position by inserting nozzle clip into storage clip in canister body as shown.

TROUBLESHOOTING

Review this chart to find do-it-yourself solutions for minor performance problems. Any other service needed should be performed by a Sears or other qualified service representative.

WARNING

Electrical Shock Hazard

**Disconnect electrical supply before servicing or cleaning the unit.
Failure to do so could result in electrical shock or personal injury.**

PROBLEM	POSSIBLE CAUSE	POSSIBLE SOLUTION
Cleaner won't start.	<ol style="list-style-type: none"> 1. Unplugged at wall outlet. 2. Tripped circuit breaker/blown fuse at household service panel. 	<ol style="list-style-type: none"> 1. Plug in firmly, press the power switch. 2. Reset circuit breaker or replace fuse.
Poor job of dirt pick-up.	<ol style="list-style-type: none"> 1. Clogged airflow passages. 2. Dirty filter. 3. Hole in hose. 4. Canister hood open. 5. Full dust bin. 	<ol style="list-style-type: none"> 1. Clear airflow passages (page 6). 2. Clean filter (page 9). 3. Replace hose. 4. Close and latch hood. 5. Empty dust bin.
Cleaner starts but cuts off.	<ol style="list-style-type: none"> 1. Hood electrical connections. 2. Tripped overload protector in canister. 	<ol style="list-style-type: none"> 1. Check connections (page 6). 2. Clean dust bin, clear airflow blockage (page 6, 9). Unplug cord from Wall outlet and wait 20~25 minutes for motor to cool and automatically reset.
Performance indicator, some models, is red.	<ol style="list-style-type: none"> 1. Dirty filter. 2. Clogged airflow passage. 3. Full dust bin. 	<ol style="list-style-type: none"> 1. Clean filter (page 9). 2. Clear blockage from airflow passage (page 6). 3. Empty dust bin.
Cleaner picks up movable rugs, or nozzle pushes too hard.	<ol style="list-style-type: none"> 1. Suction too strong. 	<ol style="list-style-type: none"> 1. Adjust Air Flow Regulator (page 8).
Power cord won't rewind.	<ol style="list-style-type: none"> 1. Dirty power cord. 2. Power cord jammed. 	<ol style="list-style-type: none"> 1. Clean the power cord. 2. Pull out Power cord and rewind.
