VHS TAPE REWINDER

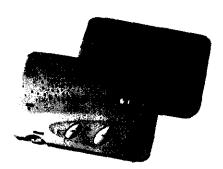

Most repair work on VCRs and Camcorders is due to excessive rewinding. Prolong the life of your video equipment with our rewinder!

PLUS \$6.95 Shipping & Handling ZEN 901 ONLY \$14.99

WIRELESS INTERCOM SET

Kids watching movies in another room? Baby in another room as you watch TV? Keep tabs on them with our inexpensive intercom set.

- FM wireless two stations, 3 channels, plug into standard AC outlets
- Relatively noiseless transmission for excellent sound ٠ Upgrades to four stations with additional set
- Units wall mount or set on table
- PLUS \$6.95 SHEPPING & HANDLING ALG 1188 **ONLY \$49.99**

ZENITH 5 FUNCTION REMOTE

Broken or lost remote? Need a second remote or more functions?

Master Card

- Order direct from Zenith!! Operates TV, VCR, CD, DVD, DIVX, DSS & Cable Box Operates PIP and Most Screen Menus
- Extended Range & MORE!!!

Orders 1 year or more after product purchase may receive upgraded models. Other Remotes with 3, 4, 5 & 7 Functions Available Upon Request

ORDER TODAY! CALL OR FAX TOLL-FREE 1.800.255.6790 Fax 1.888.693.6484 email: parts.sales@zenith.com

Use Your Visa or MasterCard to Order

PLEASE ALLOW 3 - 4 WEEKS FOR DELIVERY

RECORD YOUR MODEL NUMBER (Now, while you can see it)

The model and serial number of your new VCR are located on the back of the VCR cabinet. For your future convenience, we suggest that you record these numbers here:

MODEL NO._

SERIAL NO.

WARNING:

TO REDUCE THE RISK OF ELECTRIC SHOCK DO NOT REMOVE COVER (OR BACK). NO USER SERVICEABLE PARTS INSIDE. REFER SERVICING TO QUALIFIED SERVICE PERSONNEL.

The lightning flash with arrowhead symbol, within an equilateral triangle, is intended to alert the user to the presence of uninsulated "dangerous voltage" within the product's enclosure that may be of sufficient magnitude to constitute a risk of electric shock to persons.

The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.

WARNING:

TO REDUCE THE RISK OF FIRE OR ELECTRIC SHOCK, DO NOT EXPOSE THIS APPLIANCE TO RAIN OR MOISTURE.

POWER CORD POLARIZATION:

CAUTION: To Prevent Electric Shock, match wide blade of plug to wide slot, fully insert.

ATTENTION: Pour éviter les chocs électriques, introduire la lame la plus large de la fiche dans la borne correspondante de la prise et pousser jusqu'au fond.

NOTE TO CABLE/TV INSTALLER:

This reminder is provided to call the cable TV system installer's attention to Article 820-40 of the National Electric Code (U.S.A.). The code provides guidelines for proper grounding and, in particular, specifies that the cable ground shall be connected to the grounding system of the building, as close to the point of the cable entry as practical.

REGULATORY INFORMATION:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: • Reorient or relocate the receiving antenna.

- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

CAUTION:

Do not attempt to modify this product in any way without written authorization from Zenith Electronics Corporation. Unauthorized modification could void the user's authority to operate this product.

This class B digital apparatus meets all requirements of the Canadian Interference-Causing Equipment Regulations.

"Ce appareil numérique de la class b respecte toutes les exigences du Règulement sur le matériel brouillier du Canada."

SAFETY TIPS | PAGE 3

IMPORTANT SAFETY INSTRUCTIONS

These simple precautions will help ensure that you get many years of safe enjoyment from your new product.

- 1. Read Instructions Read all of the safety and operating instructions before operating the product.
- 2. Retain Instructions Keep all safety and operating instructions for future reference.
- Heed Warnings
 Follow warnings on the product and in the operating guide.
- 4. Follow Instructions Follow all operating and use instructions.
- 5. Cleaning

Unplug this product from the wall outlet before cleaning. Do not use liquid cleaners or aerosol cleaners. Use a damp cloth for cleaning.

6. Attachments

Do not use attachments not recommended by product manufacturer as they may cause hazards.

7. Water and Moisture

Do not use this product near water—for example, near a bathtub, wash bowl, sink, or laundry tub, in a wet basement, or near a swimming pool.

8. Accessories

Do not place product on an unstable cart, stand, tripod, bracket, or table. Product may fall, causing serious injury to a child or adult, and serious damage to the product. Use only with a cart, stand, tripod, bracket, or table recommended by the manufacturer or sold with the product. Any mounting of product should follow manufacturer's instructions and should use a mounting accessory recommended by manufacturer.

9. Transporting Product

Move product and cart combinations with care. Quick stops, excessive force, and uneven surfaces may cause product and cart combination to overturn.

10. Ventilation

Slots and openings in cabinet must not be blocked or covered. They are provided for ventilation, to ensure reliable operation, and to protect from overheating. Never block openings by placing product on a bed, sofa, rug, or other similar surface. Do not place product in built-in installation such as a bookcase or rack unless proper ventilation is provided or manufacturer's instructions have been adhered to.

11. Power Sources

Operate product only from type of power source indicated on marking label. If you are not sure of the type of power supply to your home, consult your product dealer or local power company. For products intended to operate from battery power or other sources, refer to manual.

12. Line-Cord Polarization

Product is equipped with a polarized alternatingcurrent line plug (a plug having one blade wider than the other). As a safety feature, this plug will fit into power outlet only one way. If you're unable to insert plug fully into outlet, try reversing the plug. If plug still fails to fit, contact an electrician to replace your obsolete outlet. Do not defeat safety purpose of polarized plug.

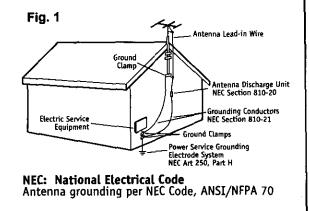

13. Power-Cord Protection

Route power-supply cords so they are not likely to be walked on or pinched by items placed upon or against them, paying particular attention to cords at plugs, convenience receptacles, and the point where they exit from product.

14. Outdoor Antenna Grounding

If an outside antenna or cable system is connected to this product, be sure antenna or cable system is grounded so as to provide some protection against voltage surges and built-up static charges. Article 810 of the National Electrical Code (USA), ANSI/NFPA 70 provides information on grounding of mast and supporting structure, grounding of lead-in wire to an antenna discharge unit connection to grounding electrodes, and requirements for grounding electrode. (See Fig. 1 below.)

SAFETY TIPS PAGE 4

IMPORTANT SAFETY INSTRUCTIONS

These simple precautions will help ensure that you get many years of safe enjoyment from your new product.

15. Lightning

For added protection for this product during a lightning storm, or when product is left unattended and unused for long periods of time, unplug it from the wall outlet and disconnect antenna or cable system. This will prevent damage to product due to lightning and power line surges.

16. Power Lines

An outside antenna system should not be located in the vicinity of overhead power lines or other electric light or power circuits, or where it can fall into such power lines or circuits. When installing an outside antenna system, take extreme care to keep from touching such power lines or circuits, as contact with them might be fatal.

17. Overloading

Do not overload wall outlets, extension cords or integral convenience receptacles, as this can result in risk of fire or electric shock.

18. Object and Liquid Entry

Never push objects of any kind into this product through openings, as they may touch dangerous voltage points or short-out parts that could result in fire or electric shock. Never spill liquid of any kind on product.

19. Servicing

Do not attempt to service this product yourself, as opening or removing covers may expose you to dangerous voltage or other hazards. Refer all servicing to qualified service personnel.

20. Wall or Ceiling Mounting

Mount product to wall or ceiling only as recommended by manufacturer.

21. Replacement Parts

When replacement part(s) are required, be sure service technician has used replacement part(s) specified by manufacturer or have same characteristics as original part(s). Unauthorized substitutions may result in fire, electric shock, or other hazards.

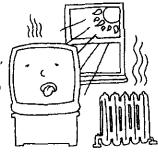

22. Damage Requiring Service

Unplug this product from the wall outlet and refer servicing to qualified service personnel under these conditions:

- a. If power-supply cord or plug is damaged.
- b. If liquid has been spilled or objects have fallen into product.
- c. If product has been exposed to rain or water.
- d. If product doesn't operate normally by following handbook instructions. Adjust only those controls covered by handbook instructions; improper adjustment of other controls may result in damage and often requires extensive work by a qualified technician to restore product to normal operation.
- e. If product has been dropped or cabinet has been damaged.
- f. If product exhibits a distinct change in performance.

23. Heat

Keep product away from heat sources such as radiators, heat registers, stoves, or other products (including amplifiers) that produce heat.

24. Safety Check

Upon completion of any service or repairs to this product, ask service technician to perform safety checks to determine that product is in proper operating condition.

PAGE 8 INSTALLATION

PAGE 10 INSTALLATION

Before you operate your VCR

Things you must do before you can operate your VCR.

Connect the Power

1

2

3

4

(Required) Plug your VCR into an unswitched 120 Vac, 60 Hz household power outlet. Turn on the VCR by pressing the POWER on the remote or on the VCR's front panel. While plugged into an AC outlet, the VCR consumes 3W of electrical power in OFF condition.

Do not plug the VCR into a switched power outlet. Otherwise, when the power is switched off, the VCR turns off. You may then have to reset the time and date, and reprogram operational features.

Set your VCR's Clock and Tuner automatically After you connect an antenna (or cable company), and you plug your VCR into a 120 Vac, 60 Hz power outlet, the VCR will set the clock and place channels into memory automatically. The "SEARCH" message will blink for 2~5 minutes in the VCR's front panel display during auto setting.

The auto clock set works only in areas where Data Service (DS) signals are provided along with normal TV signals. If there is not channel that is memorized, "No DATA" will appear.

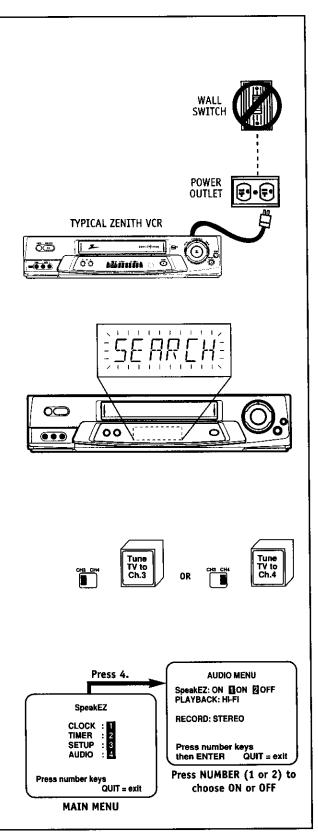

Set Position of the CH3/CH4 Switch

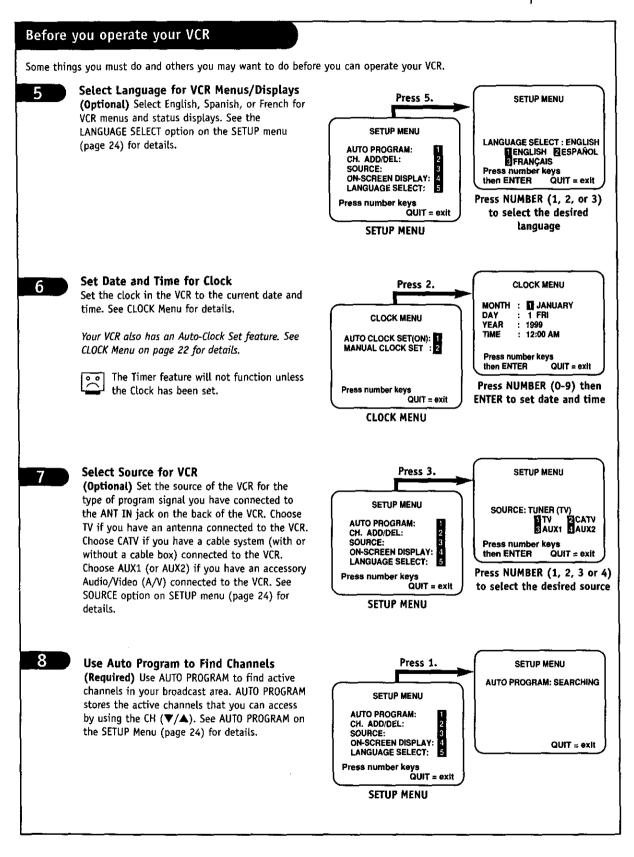

(Required) The CH3/CH4 switch on the VCR's back panel determines which channel the VCR uses to send video signals to your TV. The TV must be tuned to the same channel you set with the CH3/CH4 switch to see tape playback and status displays from the VCR. To determine which video channel provides the best picture for your system, try the switch in CH3 position and tune your TV to channel 3; then try the CH4 position and tune your TV to channel 4.

For a test display, press the TV/VCR button on remote repeatedly until the VCR indicator light appears in the VCR's front panel display. Press MENU on the remote to see the main menu.

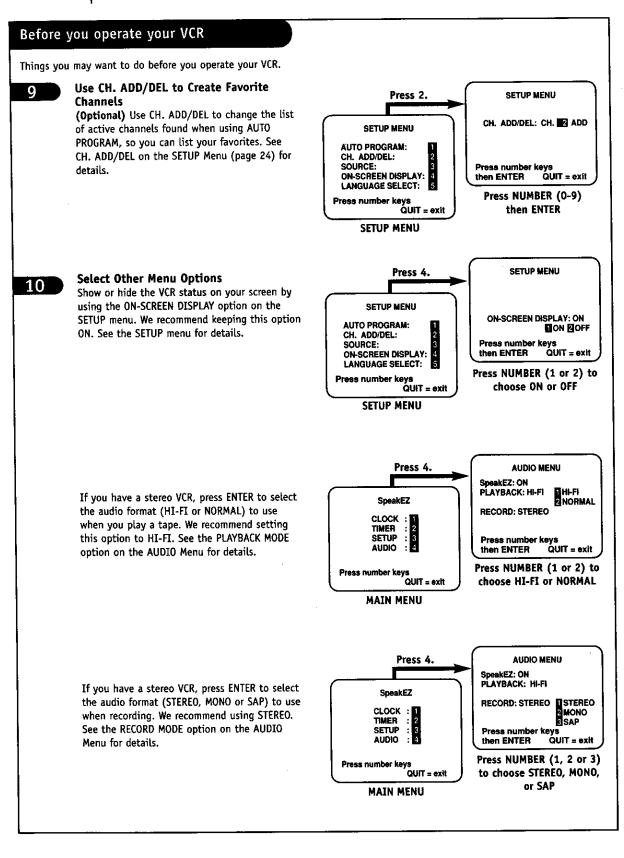

Select SpeakEZ Function (On/Off) A voice tells you how to use the features in the menus if SpeakEZ is ON. (ON is recommended.) See the AUDIO Menu for details.

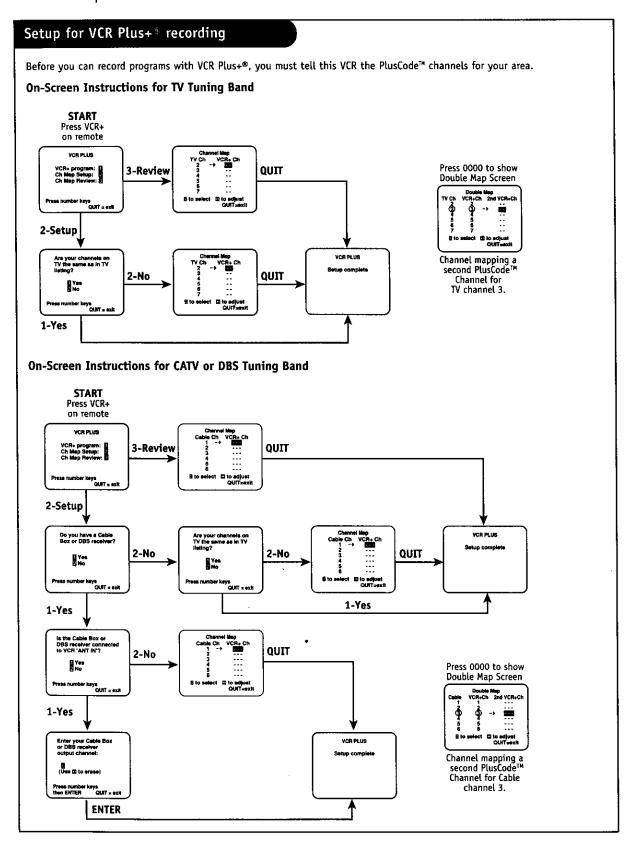

PAGE 12 INSTALLATION

Front Panel Display shows which VCR function you are using. For example, when you press SP/EP, SP or EP appears to indicate the tape speed. As you change channels, the channel numbers appear. The current time shows even while the VCR is off.

Auto Setup Message

SEARCH --- This message will blink during auto setting. No DATA — After auto setting, if there is not channel that is memoried, "No DATA" will appear.

Playback Messages

A.TRK — Tape tracking is being adjusted from VCR.

ALARM — Turn VCR On and OFF to erase "ALARM" message. If it is not erased, take VCR to an authorized repair center. FF (Fast Forward) — Tape is advancing rapidly.

CUE — Tape is advancing rapidly in playback mode for visual search.

PLAY — Tape is playing at normal playback speed.

PLAYX2 — Tape is advancing at twice (X2) normal playback speed.

REV - Tape is reversing rapidly in playback mode for visual search.

REW (Rewind) — Tape is rewinding rapidly.

SLOW — Tape is playing at slow-motion forward speed. STILL — Playback is halted on one frame.

STOP — Tape rewind or playback is stopped.

R. PLAY — Tape is reversing at normal playback speed. REV. X3 — Tape is reversing at three (X3) times normal playback speed.

R. SLOW — Tape is playing at slow-motion reverse speed.

Record Message

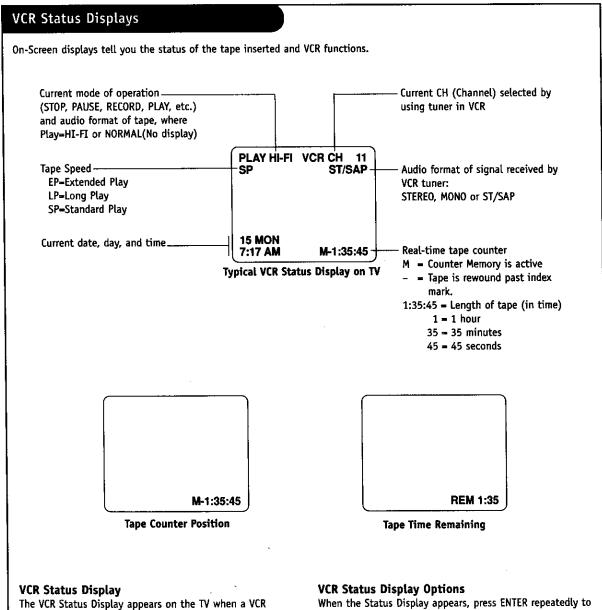

ALARM — Turn VCR On and OFF to erase "ALARM" message. If it is not erased, take VCR to an authorized repair center. PAUSE — Record mode is halted. STOP — Recording is stopped.

Tuner Messages

AUX_ (Auxiliary_) — Auxiliary channel is selected for viewing equipment connected to Audio/Video jacks on front or rear of the VCR.

CH _ — VCR tuned to Channel _. HELLO — VCR is turned on.

CONTROLS AND DISPLAYS PAGE 18

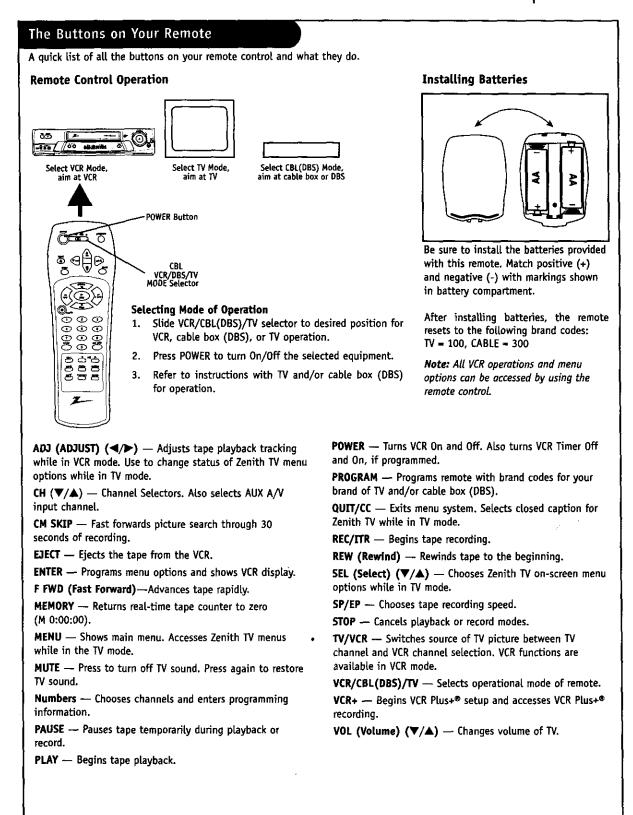

function starts, like when you change a channel or select a, different VCR mode. For example, pressing STOP while the VCR is in PLAY mode shows STOP in the display. Press ENTER on the remote at any time (except Special Effects Playback mode; SLOW, STILL etc.) to see the Status Display.

Note:

If the VCR Status Display does not appear on the TV screen, check the ON-SCREEN DISPLAY option on the SETUP menu. Select ON to see the display. See "Setup Menu" section for details.

When the Status Display appears, press ENTER repeatedly to see abbreviated displays, as follows:

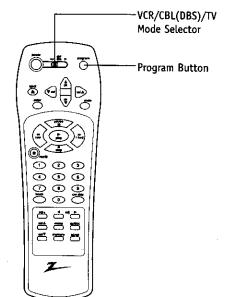

- 1. Press ENTER to see Status Display.
- 2. Press ENTER a second time to show only the tape counter position.
- 3. Press ENTER a third time to show only the tape time remaining.
- 4. Press ENTER repeatedly until all displays are removed.

PAGE 20 **OPERATION**

Programming Your Remote

Your remote control operates the common features of most, but not all, models and brands of IR (infrared) controlled TVs and cable converters (DBS).

Some functions of your particular equipment may not be controlled by this remote. In such cases, use the original remote control for your equipment.

If you are using Zenith products, the remote comes programmed for the most commonly used codes. For other brands - or if your remote fails to control your Zenith product --- you will have to program the remote.

Follow these steps for each product:

- 1. Locate the three-digit code for your brand and type of equipment in the code tables below.
- 2. Slide VCR/CBL(DBS)/TV to choose TV or cable box (DBS) mode of operation.
- 3. Press and hold PROGRAM while entering the brand code for your equipment.
- 4. Enter the three-digit brand code and then release PROGRAM. If your equipment does not work, repeat steps 3 and 4, or try a different brand code.

5.	Write down	the code that ope	erates your equipment.
	TV	, CATV	, DBS

Playback Shuttle operation

Playback Shuttle Operation (For Special Video Effects)

Shuttle Ring Operation

- 1. Press PAUSE for playback STILL mode.
- Rotate shuttle ring toward FORWARD to advance the tape, or toward REVERSE to reverse the tape. How far you rotate and hold the shuttle ring determines the speed at which the tape moves.
- 3. Release the shuttle ring to return to STILL mode.
- 4. Press PLAY to return to normal playback speed.
- Notes:
- The Shuttle ring on the VCR front panel performs the same function as the Shuttle ring on the remote control.
- During STOP mode, rotate and release the Shuttle ring to rewind or fast forward the tape.
- The Shuttle ring may be used while in both PLAY and STILL modes. When the Ring is released, PLAY will resume at normal playback speed.
- Some of the speeds given in the pictorial above are not indicated in the VCR Status Display shown on the TV.
- Some video "noise" may be present in REV (Reverse) mode.
- Tapes recorded at SP (Standard Play) speed have better quality special effects than tapes recorded at EP (Extended play) speed.

PAGE 22 OPERATION

Clock Menu

The Clock Menu sets the clock in the VCR to the current time. There are two options AUTO and MANUAL.

Auto Clock Set

AUTO automatically sets the clock in the VCR to the current time and date. AUTO works only in areas where Data Service (DS) signals are provided along with normal TV signals.

- 1. Press MENU to see Main Menu.
- 2. Press 1 to see Clock Menu.
- 3. Press 1 to set the current time automatically on the Clock Menu.

Notes:

We recommend that you set the clock using the MANUAL method the first time you use your VCR. See MANUAL option for details.

The clock must be set before you can record by using the TIMER.

Manual Clock Set

The CLOCK Menu allows you to set the clock in the VCR to the current date and time.

Notes:

The clock must be set before you can record, using the TIMER menu.

You may have to reset the clock and other features if a power outage lasts for more than 3 seconds.

If you use the Manual option. The AUTO CLOCK SET mode will be turned to $\ensuremath{\mathsf{OFF}}$

How to Set Clock

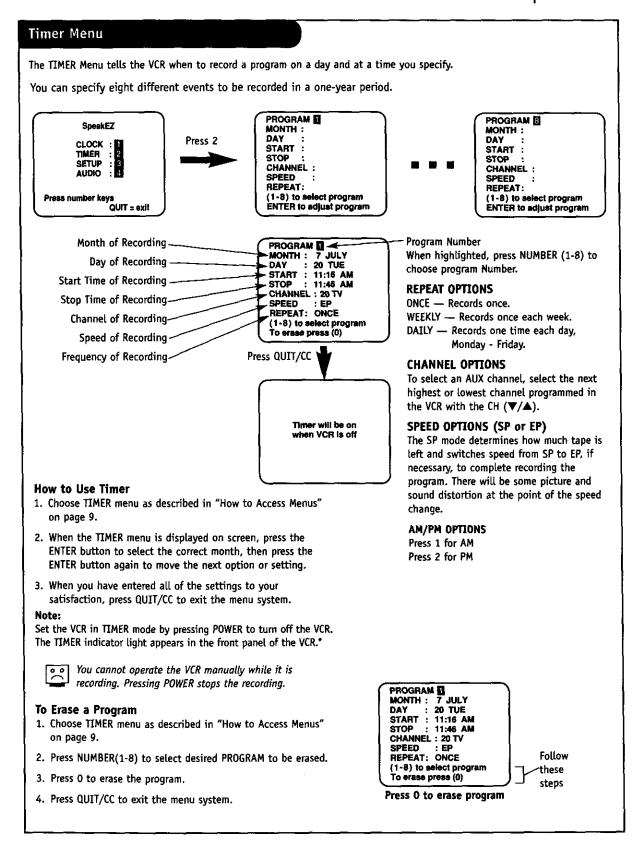

1. Press MENU to see Main Menu.

- 2. Press 1 to see clock options.
- 3. Press 2 to adjust your options.
- 4. First insert the month number (5=MAY, 6=JUNE etc).
- 5. Press ENTER to move to next option.
- 6. Press QUIT/CC to exit the menu system.

PAGE 26 OPERATION

Watching TV Through the VCR This page shows a typical video system and explains how to select channels.

Selecting Channels when the VCR is OFF

2. Select channel you'd like to watch at the TV. If you have a cable box, select channel 3 or 4 at the TV. Select cable box channels at the cable box.

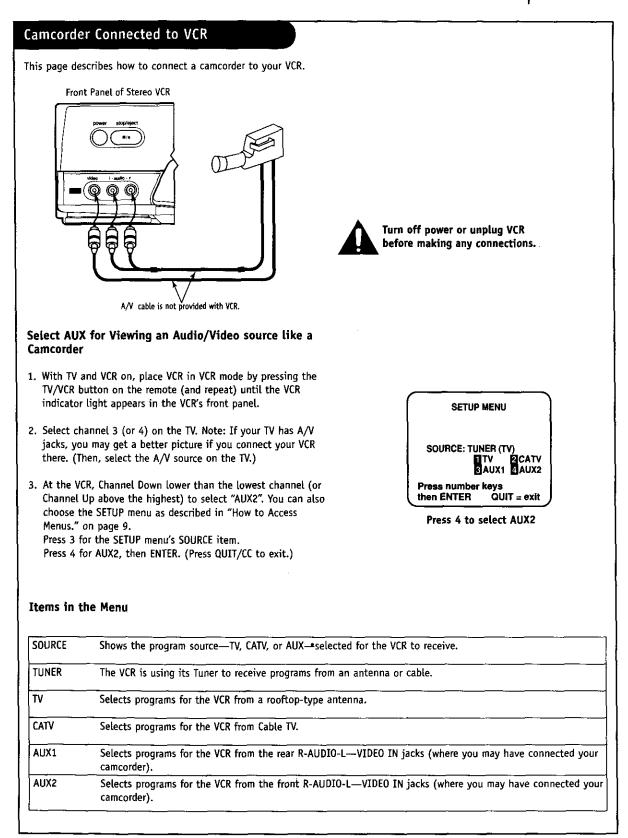

Selecting Channels at the TV when VCR is ON 1. Turn TV and VCR on.

- 2. Place VCR in TV mode by pressing the TV/VCR button on the remote control repeatedly until the VCR indicator disappears from the front panel of the VCR.
- 3. Select channel you'd like to watch at the TV. If you have a cable box, select channel 3 or 4 at the TV. Select cable box channels at the cable box.

Selecting Channels at the VCR when VCR is ON 1. Turn TV and VCR on.

- 2. Place VCR in VCR mode by pressing the TV/VCR button on the remote control repeatedly until the VCR indicator appears in the front panel of the VCR.
- 3. Select channels 3 or 4 at the TV. If your TV is equipped with A/V input jacks, check your TV operating manual to select A/V source for a better picture.
- Select the channel you'd like to watch at the VCR. If you have a cable box, select channel 3 or 4 at the VCR. Select cable box channels at the cable box.

^{1.} Turn TV on.

PAGE 28 OPERATION

Playing Tapes		<u> </u>		
This page explains the basics of playing tapes in your VCR.				
 Automatic Playback (No Safety Tab) Tape playback begins automatically, if the safety tab has been removed from the cassette case. For example, most rental movies have no safety tab. Simply insert the prerecorded VHS cassette into the VCR. Power will turn on automatically and playback will begin. 			<u> </u>	
 Select the channel 3 or 4 at the TV or select the TV's AUX (Auxiliary) source to see the picture, if you are using the A/V jacks. Refer to page 7 and 8. 				
 Manual Playback (Has Safety Tab) Press POWER to turn VCR on. Insert a prerecorded VHS cassette into the VCR. 		Cassette Safety Tab — Shown in Place		
3. Press PLAY to begin playback.				
4. Select the channel 3 or 4 at the TV or select the TV's AUX (Auxiliary) source to see the picture, if you are using the A/V jacks. Refer to your TV operating manual.	P(
Unloading the Cassette from the VCR 1. Press STOP if the tape is playing.	PI	AY		
2. Press STOP/EJECT at the VCR until the cassette is ejected.				
Note: This VCR records only in SP and EP speeds. Your VCR sets the playback speed automatically to the speed used to record the tape.				``
(Continued on next page)				
		VHS Cassette Pla	vback/Record	d Times
	Cassette	SP	LP	EP
	Length T-30	(Standard Play) 30 Minutes	(Long Play) 1 Hour	(Extended Play) 1 Hour.
		So kundfez	THOM	1 Hour, 30 Minutes
	T-60	1 Hour	2 Hours	3 Hours
	T-120	2 Hours	4 Hours	6 Hours
	T-160	2 Hours, 40 Minutes	5 Hours, 20 Minutes	8 Hours

Playing Tapes

This page explains how to use the remote to play tapes on your VCR.

Auto/Manual Tracking Adjustment

Your VCR adjusts tracking automatically when you play a tape. If the tape was recorded on a different VCR, streaks (video noise) may appear. While the tape is playing, press ADJ (\blacktriangleleft) to adjust the tracking manually.

Real-Time Tape Counter

Press ENTER twice to keep the tape counter on the TV screen. Press ENTER repeatedly to remove all displays. The counter resets to 0:00:00 when you insert a cassette or when a tape is rewound to its beginning.

Pause/Forward/Reverse Slow-Motion Video

(While in play mode) Press PAUSE for still video. Press PAUSE again, and follow on-screen instructions for Forward or Reverse slow motion. Press F FWD or REW to control slow speed during slow motion. Press PLAY to resume normal tape playing.

Note: When the reverse slow mode continues for more than 30 seconds, the VCR will automatically change to play mode.

Tape Rewind and Fast Forward

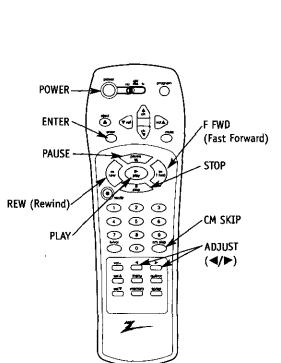

(While in Stop mode) Press and release REW or F FWD (Fast Forward), as desired. Press STOP when tape reaches desired location.

Reverse/Forward Search

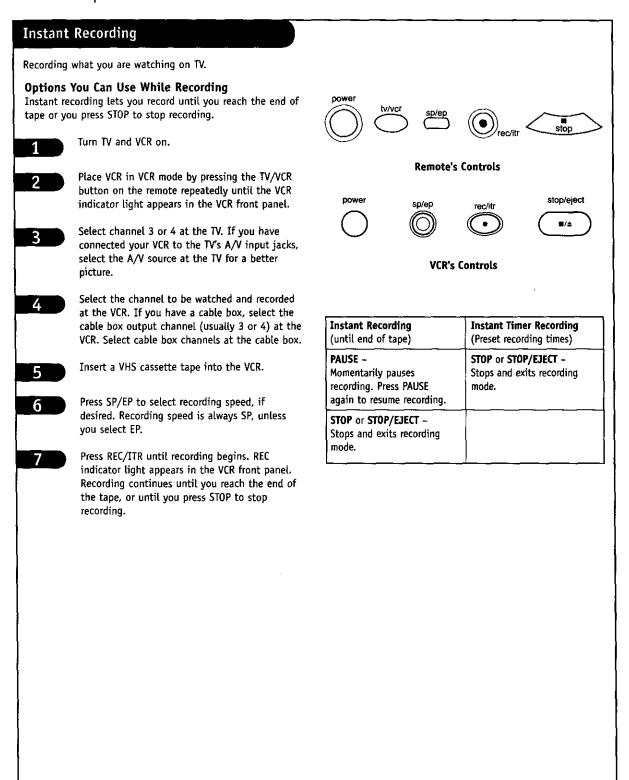

(While in Play mode) Press and release REW or F FWD, as desired. Press PLAY to resume normal tape playing.

CM Skip (Commercial Skip)

(While in play mode) Pressing CM SKIP on the remote skips commercials or other program material. Pressing 1, 2, 3, or 4 times skips 30, 60, 90, or 120 seconds, respectively. CM SKIP skips a full 120 seconds of commercials in a few seconds, then resumes normal playback.

PAGE 30 OPERATION

Instant Recording Recording using preset time periods. Preset Time Periods for ITR Recording. Note: Preset recording time counts down until the recording time sp/ep stop is over. Instant (attended) Timer Recording (ITR) lets you record for **Remote's Controls** a specific preset time period, instead of recording until the end of tape is reached. For example, you can record a 30-minute show using the preset time period. power stop/eject rec/it Turn TV and VCR on. . ∎/≜ 1 Place VCR in VCR mode by pressing the TV/VCR 2 VCR's Controls button on the remote repeatedly until the VCR indicator light appears in the VCR front panel. Select channel 3 or 4 at the TV. If you have 3 connected your VCR to the TV's A/V input jacks, select the A/V source at the TV for a better picture. **Presses of Preset Time For** Display **REC/ITR** Recording Select the channel to be watched and recorded 1 (Press) **Current Time** Until end of tape 4 at the VCR. If you have a cable box, select the 2 0:30 30 minutes cable box output channel (usually 3 or 4) at the 3 1:00 1 hours VCR. Select cable box channels at the cable box. 4 1:30 1 hour and 30 minutes Insert a VHS cassette tape into the VCR. 5 2:00 2 hours 5 . Press SP/EP to select recording speed, if desired. 6 Recording speed is always SP, unless you select 9 4:00 4 hours ËP. 10 No display normal recording Note: The SP mode determines how much tape is left and switches speed from SP to EP, if necessary, to complete recording the program. There will be some picture and sound distortion at the point of the speed change. Press REC/ITR until recording begins. The REC indicator light appears in the VCR front panel. Recording continues until you reach the end of the tape, or until you press STOP to stop recording. Press REC/ITR repeatedly to select a preset 8 recording time period. Each subsequent press of REC/ITR increases the recording time by 30 minutes until you reach a maximum of 4 hours.

PAGE 32 OPERATION

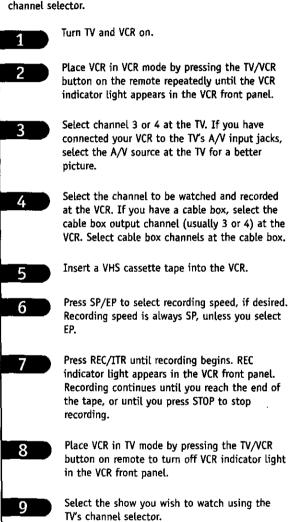

Instant Recording

Recording one show while watching another.

Note:

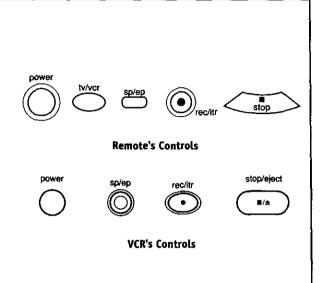

If you have a cable box connected to your VCR, you cannot record one show and watch another.

Choose the show you wish to record using the VCR's channel selector. Choose the show you wish to watch using the TV's channel selector.

Note:

To return to the show you're recording, select channel 3 or 4 at the TV. Place the VCR in the VCR mode by pressing the TV/VCR button on the remote to show the VCR indicator light in the VCR's front panel.

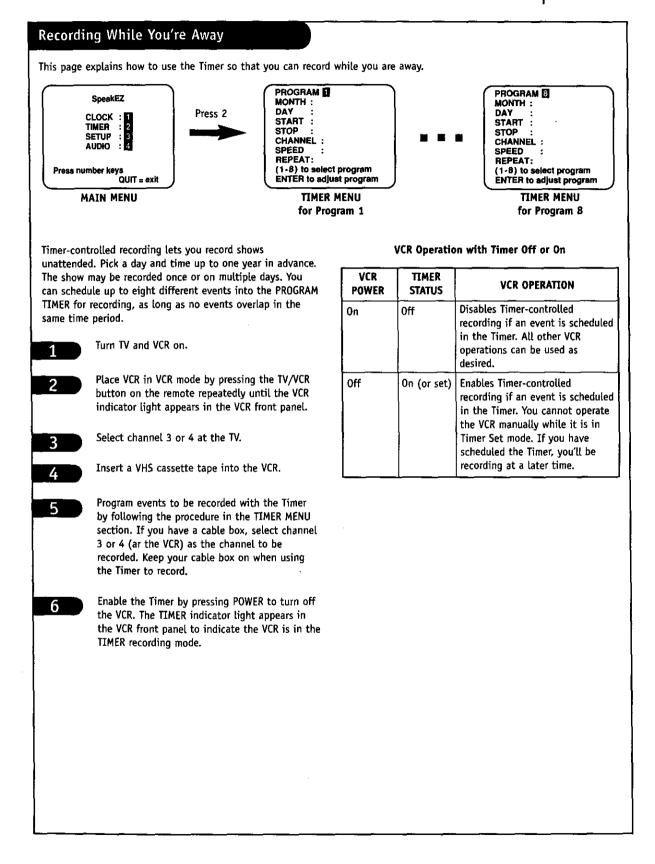

Options You Can Use While Recording

Instant Recording (until end of tape)

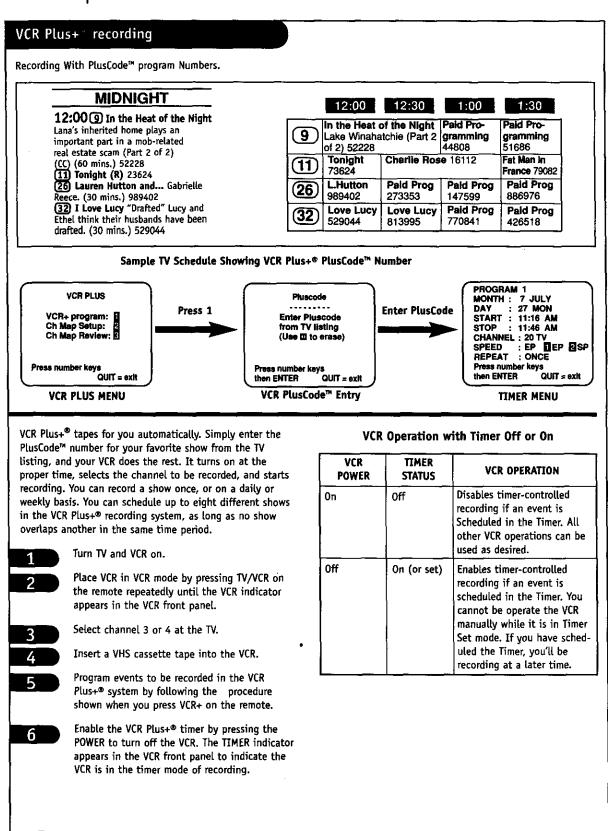

(uncit end or tape

PAUSE -Momentarily pauses recording. Press PAUSE again to resume recording.

STOP or **STOP/EJECT** – Stops and exits recording mode.

OPERATION PAGE 34

Troubleshooting

Some quick and easy tips to fixing problems yourself.

Before Calling for Service

Please refer to this chart before calling for service. First, turn on the TV and VCR. Select appropriate input for the TV to receive the video signal from the VCR. You will probably use the Antenna In connection to the TV. Select channel 3 or 4 at the TV. Place the VCR in the VCR mode by pressing the TV/VCR button on the remote repeatedly until VCR indicator light appears in the VCR front panel. If you have a cable box, turn it on and select channel 3 or 4 at the VCR.

Operating Problems		
Observed Condition	Possible Cause	Probable Solution
No power to the VCR.	Power cord is not connected.	Connect power cord.
Remote does not function.	Batteries are weak.	Replace with new batteries.
	You are too far away from the VCR.	Move closer to the VCR.
	Remote may be at an awkward angle.	Avoid holding the remote at sharp angle.
No picture appears on TV screen from any VCR function.	Source for TV is not selected properly.	Set INPUT source on TV to Audio/Video In, or tune TV to Channel 3 or 4, as appropriate.
	TV/VCR mode for VCR is set to TV.	Press the TV/VCR button on remote repeatedly to choose VCR mode. VCR indicator light appears in VCR front panel.
VCR features do not function. VCR does not respond to remote functions or VCR keys.		Disconnect VCR power cord for three (3) minutes. Reset clock and other features as necessary.

Observed Condition	Possible Cause	Probable Solution	
Tape will not rewind or fast forward.	Tape is fully rewound or is at its end.	No action necessary.	
Mechanical sound is audible during playback.	Note: This is normal operating sound from internal mechanisms.	No action necessary.	
Tape playback does not appear on TV screen.	Source for TV is not selected properly.	Set Input source on TV to Audio/Video In, or tune TV to Channel 3 or 4, as appropriate.	
	TV/VCR mode for VCR is set to TV.	Press the TV/VCR button repeatedly to choose VCR mode. VCR indicator light appears in VCR front panel.	
Video "noise" (horizontal streaks) appear during normal tape playing.	Tape is a rental or was recorded on another VCR.	Use ADJ () for manual tracking adjustment while tape is playing.	
	Tape heads are dirty.	Clean video heads.	
VCR Status Display flickers when using STILL video during tape playback.	Tape tracking needs to be adjusted while in slow-motion playback.	From STILL video mode, enable slow-motion playback. Use ADJ (◀/►) to adjust tracking for best picture. Return to PLAY mode, then press PAUSE for STILL video.	

PAGE 36 TROUBLESHOOTING

Troubleshooting

Some quick and easy tips to fixing problems yourself.

Channel Tuning Problems		
Observed Condition	Possible Cause	Probable Solution
Some channels are skipped over when using CH (\mathbf{V}/\mathbf{A}) .	Those channels were deleted with the CH. ADD/DEL option.	Use CH. ADD/DEL to restore channels. See SETUP Menu on page 24 for details.
Picture and sound are weak or missing.	Antenna or cables are loose.	Tighten connections or replace cable.
	Wrong SOURCE option is being used.	Try all SOURCE options. See SETUP menu on page 24 for details.

Recording Problems		
Observed Condition	Possible Cause	Probable Solution
Camcorder image is not shown.	Camcorder is off.	Turn camcorder on and operate properly.
Camcorder image via A/V input to VCR is not shown on TV screen.	VCR SOURCE is not set to AUX.	Use CH (∇/\triangle) to select AUX A/V input channel.
Timer recording is not possible.	Clock in VCR is not set to correct time.	Set clock to correct time. See CLOCK menu on page 22.
	VCR is on which disables timer.	Turn VCR off to enable timer. TIMER indicator light appears in the VCR front panel.
	Timer has been programmed incorrectly.	Reprogram Timer. See TIMER menu on page 23.
	TIMER indicator light does not appear after programming timer.	Reprogram Timer and turn VCR off to enable timer.
TIMER indicator light appears after VCR is turned off.	VCR is in Timer Recording mode.	This is the normal indication that the VCR is in TIMER mode.

VCR Plus+® Recording Problems		
Observed Condition	Possible Cause	Probable Solution
VCR records program on different channel than channel specified.	Channel Mapping was not performed or is incorrect.	Channel map the VCR for your area. See "Setup for VCR Plus+® Recording" section.
Recorded wrong channel or no channel with cable box.	Cable box is not tuned to channel you wanted to record.	Tune cable box to channel you want to record. Keep cable box turned on.
	Cable box is not turned on.	Turn on cable box and keep it on.
	VCR is not tuned to cable box output channel 3 or 4.	Tune VCR to cable box output channel.

Troubleshooting

Some quick and easy tips to fixing problems yourself.

	Stereo Audio Record and/or Playback Prol	blems
Observed Condition	Possible Cause	Probable Solution
Stereo is not present.	TV is not Stereo-compatible.	No action is possible.
	Program is not in stereo format.	No action is possible.
	VCR A/V Out jacks are not connected to TV A/V In jacks.	Make A/V connections. Stereo is available only via A/V output from VCR.
	VCR Audio/Video Out is not selected for viewing at the TV.	Select AUX or A/V source as TV input.
	VCR AUDIO RECORD mode is set to SAP or MONAURAL.	Set VCR AUDIO RECORD mode to Stereo. See AUDIO Menu on page 25.

Moisture Condensation		
Moisture condensation can occur:	In locations where moisture condensation may occur:	
• When the video recorder is moved from a cold place to a warm place.	• Keep the power cord plugged into an AC outlet and POWER On. This will help prevent condensation.	
• Under extremely humid conditions.	• When condensation has occurred, wait a few hours for the VCR to dry before using it.	

Magnetic Field from Other Equipment

Keep the VCR and videotapes away from strong magnetic fields, such as those produced by a vacuum cleaner, refrigerator, or air conditioner.

Video Head Cleaning

Your VCR automatically cleans the heads as it is used. However, after long periods of use, your video heads may become clogged with accumulated dirt, causing distortion. When this occurs, use a do-it-yourself wet-type head cleaning cassette available from your Zenith dealer.

Caution:

Do not use a dry-type head-cleaning system. It may seriously damage the VCR and cassettes used in the VCR. Snow, streaking in picture, and horizontal pulling indicate the need for professional video head cleaning. See your Zenith approved service center for cleaning.

Cabinet Cleaning

Clean the outside surfaces of the VCR with a soft lint-free cloth as required. Use care not to scratch the VCR during cleaning.

Your Zenith Limited Warranty

VIDEO CASSETTE RECORDER OR PLAYER

Welcome into the Zenith family! We believe that you will be pleased with your new Zenith Entertainment Machine. Please read this warranty carefully, it is a "LIMITED WARRANTY" as defined under Federal Law. This warranty gives you specific legal rights, and you may also have other rights that vary from state to state within the U.S.A.

ZENITH'S RESPONSIBILITY

Service Labor During a period of 90 days from effective warranty date, Zenith will provide service labor by a Zenith authorized service center when needed as determined by Zenith, as a result of manufacturing defects.

Parts New or remanufactured replacements for factory-defective parts will be supplied by a Zenith authorized service center for one year from effective warranty date . Such replacement parts are warranted for the remaining portion of the original warranty period.

Not Covered This warranty covers manufacturing defects and does not cover installation, adjustment of customer controls in the home, installation or repair of home antenna systems, cable converters or cable company-supplied equipment; it also does not cover damage due to misuse, abuse, negligence, acts of God or other causes beyond the control of Zenith. Any alteration of the product after manufacture voids this warranty in its entirety.

OWNER'S RESPONSIBILITY

Effective Warranty Date	Warranty begins on the date of original consumer purchase. For your convenience, keep the dealer's dated bill of sale or a delivery ticket as evidence of the purchase date.
Operating Guide	Read your Operating Guide carefully so that you will understand the operation of your set and how to adjust the customer controls.
Carry-In Service	The video product must be taken to a U.S. or Canadian Zenith authorized service center for warranty service and must be picked up by the owner.
TV Set Performance	It is the owner's responsibility to maintain the TV receiver with which the video product is used, and the associated antenna system, in proper operating condition
Important	Product Registration—Please fill out and mail your Product Registration Card. It is imperative that Zenith know how to reach you promptly if we should discover a safety problem that could affect you.
Warranty Service	For warranty service information, contact any Zenith authorized service center. Parts and service labor that are Zenith's responsibility (see above) will be provided without charge. Other service is at the owner's expense. If you have any problem in obtaining satisfactory warranty service, call or write the Zenith Response Center. You must provide the model number, serial number and date of purchase or date of original installation. Before you ask for warranty service, read "Maintenance And Troubleshooting" in your operating guide. You might avoid a service call.

THIS WARRANTY IS IN LIEU OF ANY OTHER WARRANTY, EXPRESS OR IMPLIED, INCLUDING WITHOUT LIMITATION, ANY WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, AND ZENITH SHALL NOT BE LIABLE FOR ANY CONSEQUENTIAL, INDIRECT, OR INCIDENTAL DAMAGES OF ANY KIND, INCLUDING LOST REVENUES OR PROFITS IN CONNECTION WITH THE PRODUCT.
