BURR GRINDER SAFETY

Your safety and the safety of others are very important.

We have provided many important safety messages in this manual and on your appliance. Always read and obey all safety messages.

This is the safety alert symbol.

This symbol alerts you to potential hazards that can kill or hurt you and others.

All safety messages will follow the safety alert symbol and either the word "DANGER" or "WARNING." These words mean:

A DANGER

You can be killed or seriously injured if you don't <u>immediately</u> follow instructions.

You can be killed or seriously injured if you don't follow instructions.

All safety messages will tell you what the potential hazard is, tell you how to reduce the chance of injury, and tell you what can happen if the instructions are not followed.

State of California Proposition 65 Warnings:

WARNING: This product contains one or more chemicals known to the State of California to cause cancer.

WARNING: This product contains one or more chemicals known to the State of California to cause birth defects or other reproductive harm.

IMPORTANT SAFEGUARDS

When using electrical appliances, basic safety precautions should always be followed, including the following:

- 1. Read all instructions.
- 2. To protect against risk of electric shock, do not put the Burr Grinder in water or other liquid.
- 3. Close supervision is necessary when any appliance is used by or near children.
- 4. Unplug the Burr Grinder from the outlet when not in use, before putting on or taking off parts, and before cleaning.
- 5. Avoid contacting moving parts.
- 6. Do not operate any appliance with a damaged cord or plug, or after the appliance malfunctions or is dropped or damaged in any manner. Return the appliance to the nearest authorized service facility for examination, repair, or electrical or mechanical adjustment.
- 7. The use of attachments not recommended or sold by KitchenAid may cause fire, electric shock, or injury.

BURR GRINDER SAFETY

- 8. Do not use outdoors.
- 9. Do not let cord hang over edge of table or counter, or touch hot surfaces.
- 10. Check the bean hopper for the presence of foreign objects before using.

SAVE THESE INSTRUCTIONS

This product is designed for household use only.

ELECTRICAL REQUIREMENTS

Electrical Shock Hazard

Plug into a grounded 3 prong outlet.

Do not remove ground prong.

Do not use an adapter.

Failure to follow these instructions can result in death, fire, or electrical shock.

Volts: 120 V.A.C.

Hertz: 60 HZ

NOTE: This Burr Grinder has a 3 prong grounded plug. To reduce the risk of electrical shock, the plug will fit in an outlet only one way. If the plug does not fit in the outlet, contact a qualified electrician. Do not modify the plug in any way.

A short power-supply cord is provided to reduce the risk resulting from becoming entangled in or tripping over a longer cord. Extension cords are available and may be used if care is exercised in their use.

If a longer extension cord is used:

The marked electrical rating of the extension cord should be at least as great as the electrical rating of the appliance.

- The extension cord should be a grounding-type 3 wire cord.
- The cord should be arranged so it will not drape over the countertop or tabletop where it can be pulled on by children or tripped over.

GRIND SETTING CHART

NOTE: The bean hopper holds a maximum of 7 oz (200 g) of beans.

HELPFUL TIP: Because partially ground coffee beans may remain between the burrs after the Burr Grinder is turned off, it is recommended to select a finer grind setting while the Burr Grinder is running.

This Burr Grinder offers 15 different grind levels, available in half-step increments from 1 to 8. Select the grind by turning the grind control dial to the desired setting on the grind settings ring, as shown in this chart. With continued use, you will be able to refine the setting to match your own tastes.

GRIND	COFFEE TYPE	SETTING
COARSE	FRENCH PRESS	1-3
MEDIUM-COARSE	SIPHON	3-5
MEDIUM	AUTOMATIC DRIP	5-6
MEDIUM-FINE	POUR OVER	6-7
FINE	ESPRESSO	8

ASSEMBLING AND RUNNING THE BURR GRINDER

NOTE: Before using the Burr Grinder, wipe the motor housing and cord with a clean damp cloth. Wash the bean hopper, lid, and ground jar in hot soapy water, then rinse and dry; or, wash in the top rack of a dishwasher.

AWARNING

Electrical Shock Hazard

Plug into a grounded 3 prong outlet.

Do not remove ground prong.

Do not use an adapter.

Failure to follow these instructions can result in death, fire, or electrical shock.

ADJUSTING THE BURRS FOR A FINER OR COARSER GRIND

If you're an espresso or French Press aficionado, you may wish to adjust the factory setting of the cutting burrs to provide optimum performance for your style of brewing.

NOTE: If you cannot get the exact maximum coarseness of grind you prefer by adjusting the Burr Grinder while it is off, try adjusting with the Burr Grinder turned on.

FOR DETAILED INFORMATION ON USING THE BURR GRINDER:

Visit kitchenaid.com/quickstart for additional Instructions with videos, inspiring recipes, and tips on how to use your Burr Grinder.

IMPORTANT: If the Burr Grinder produces a grating or "rubbing" sound during use, the burrs have been improperly adjusted. Damage to the burrs will result. Readjust the burrs immediately.

CARE AND CLEANING

CLEANING THE BURR GRINDER AND BURRS

IMPORTANT: To avoid damage, never wash or immerse the Burr Grinder main body, cutting burrs, burr-shaft assembly, or faceplate in water, or place in the dishwasher. The bean hopper and lid, and grind jar are dishwasher safe, top rack only.

IMPORTANT: If the Burr Grinder is used frequently, the burrs should be cleaned regularly for best performance. Cleaning enables the burrs to achieve the finest, most consistent grinds possible.

FOR DETAILED INFORMATION ON CLEANING THE BURR GRINDER:

Visit kitchenaid.com/quickstart for additional Instructions with videos, inspiring recipes, and tips on how to use your Burr Grinder.

TROUBLESHOOTING

If your Burr Grinder should malfunction or fail to operate during use, please check the following:

- Is the Burr Grinder plugged in? Check to see if the Burr Grinder is plugged into a grounded 3 prong outlet. If it is, unplug the Burr Grinder, then plug it into the same outlet again. If it still does not work, check the fuse or circuit breaker on the electrical circuit the Burr Grinder is connected to and make sure the circuit is closed. If it does not run after taking these steps, a foreign object may be jamming the cutting burrs. Refer to "Care and cleaning" section for detailed information on cleaning the cutting burrs.

- If the Burr Grinder runs when switched on, but coffee does not grind: The burrs require cleaning or are worn. Refer to "Care and cleaning" section for detailed information on cleaning the cutting burrs.
- If the Burr Grinder is operating normally, but stops abruptly: Immediately turn off the Burr Grinder. A coffee bean may have jammed the cutting burrs. Refer to "Care and cleaning" section for detailed information on cleaning the cutting burrs.
- If the grind is too coarse, or the Burr Grinder isn't producing an acceptable range of grinds: Refer to the "Adjusting the burrs for a finer or coarser grind" section for more information.

If the problem is not due to one of the above items, see the "Arranging for Service" chapter in the "Warranty and service" section.

Do not return the Burr Grinder to the retailer, as they do not provide service.
